

ZONING INTERPRETATION RECORD

Subject of Interpretation:

Taxiway easements counting as part of a parcels net lot area

Zoning Ordinance Section Number:

3.100

Title of Section:

Net Lot Area Definition

Cause for Interpretation:

There has been some inconsistency on whether or not an aircraft taxiway easement shall count as part of a parcels net lot area or be deducted from a parcels net lot area.

Interpretation:

The definition of net lot area in the zoning ordinance is the area included within lot lines after all right-of-way dedications have been made. The definition does not mention deducting any easements from net lot area. Therefore, on-lot taxiway easements may count towards provided net lot area.
