## **City of Scottsdale Fireworks Bulletin – 6/1/2014**

---

While State Legislation now requires communities in Maricopa and Pima Counties to allow for some specific consumer fireworks sales and use (SB 1158), the City of Scottsdale Ordinance (#4157) clearly defines the parameters for sales, use and specific locations.

Additionally any damage or loss as a result of the use of consumer fireworks is the responsibility of the individual who used these devices. As a result these types of incidents will be investigated and documented in an appropriate format.

Remember, per the National Fire Protection Association;

***“Safe and Sane”*** consumer fireworks are neither. Fountains, novelties and sparklers are designed to throw off showers of hot sparks with temperatures that may exceed 1200 degrees.

For more information contact:
