COMPREHENSIVE ANNUAL FINANCIAL REPORT

FISCAL YEAR 2001/2002

CITY OF SCOTTSDALE, ARIZONA

**Transmittal
Letter**

For the Fiscal Year
Ended June 30, 2002

City of Scottsdale
Scottsdale, Arizona

September 13, 2002

To the Honorable Mayor, City Council,
and Citizens of the City of Scottsdale, Arizona:

The Comprehensive Annual Financial Report of the City of Scottsdale (the City), Arizona, for the fiscal year ended June 30, 2002, is submitted in accordance with Article 6, Section 14, of the City Charter. This report was prepared by the City's Accounting and Budget Divisions, in conformity with U.S. generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the City of Scottsdale. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Scottsdale has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Scottsdale's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Scottsdale's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Scottsdale's financial statements have been audited by Cronstrom & Trbovich, PC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Scottsdale for the fiscal year ended June 30, 2002, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Scottsdale's financial statements for the fiscal year ended June 30, 2002, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of Scottsdale was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of Scottsdale's separately issued Single Audit Report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Scottsdale's MD&A can be found immediately following the report of the independent auditors.

CITY OF SCOTTSDALE PROFILE

Scottsdale is centrally located in Maricopa County, Arizona, with its boundaries encompassing an area approximately 184.6 square miles. Lying at an elevation of 1,260 feet above sea level, the City averages 314 days of sunshine and 7.74 inches of rainfall per year, with the average minimum and maximum temperatures ranging from 55.7 degrees to 84.6 degrees, respectively. The City is bordered to the west by Phoenix, the state capital, by Tempe to the south, and by the Salt River/Pima Maricopa Indian Community to the east. Scottsdale, together with its neighboring cities, forms the greater metropolitan Phoenix area, which is the economic, political, and population center of the state.

Scottsdale was founded in the 1800's when retired Army Chaplain Major Winfield Scott homesteaded what is now the center of the City. The City incorporated in 1951 and the City Charter, under which it is presently governed, was adopted in 1961. The City has experienced significant increases in population, with the 1950 census reporting 2,032 residents. The City's 1990 census was 130,069. The population grew to 168,176 in October 1995 and was estimated at approximately 215,320 in June 2002.

Scottsdale operates under a council-manager form of government as provided by its Charter. The Mayor and six City Council members are elected at large on a non-partisan ballot for a four-year term. The City Council appoints the City Manager, who has full responsibility for carrying out Council policies and administering City operations. The City Manager, in turn, appoints City employees and department General Managers under service procedures specified by Charter. City service departments provide a full range of services including police and fire protection, sanitation/solid waste service, water and sewer services, construction and maintenance of streets, recreational activities, and cultural events.

The annual budget serves as the foundation for Scottsdale's financial planning and control. The City Council formally adopts the budget and legally

allocates, or appropriates, available monies for the General Fund, Highway User Fuel Tax Special Revenue Fund, Preserve and Transportation Privilege Funds, Debt Service Funds (except for the Community Facilities Districts Debt Service Fund), and Enterprise Funds. Therefore, these funds have appropriated budgets, and budget to actual information is presented. On or before the second regular Council meeting in May, the City Manager submits to the City Council a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. Two public hearings are held prior to the budget's final adoption in order to obtain taxpayer comments. At the first regular Council meeting in June, the budget is legally enacted through passage of an ordinance. The ordinance sets the limit for expenditures during the fiscal year. Additional expenditures may be authorized for expenditures directly necessitated by a natural or man-made disaster as prescribed in the State Constitution, Article 9, Section 20. During 2001/02, there were no supplemental budgetary appropriations to the original budget.

The expenditure appropriations in the adopted budget are by department. The maximum legal expenditure permitted for the fiscal year is the total budget as adopted. Departmental appropriations may be amended during the year. Upon the recommendation of the City Manager, and with the approval of the City Council: (1) transfers may be made from the appropriations for contingencies to departments; and (2) unexpended appropriations may be transferred from one department to another. Management control of budgets is further maintained at a line item level within the department.

FACTORS AFFECTING THE CITY'S FINANCIAL CONDITION

The 2001/02 fiscal year posed several significant challenges for Scottsdale's economy. Similar to the United States and Arizona economies, Scottsdale began the fiscal year in a recession. As early as March 2001, Scottsdale's economy began exhibiting signs of slowing economic growth. Specifically, sales tax, hotel/motel occupancy tax, and development permit and fee receipts were all below prior year levels. The September 11, 2001 terrorist attacks compounded the already slowing economy, particularly the hotel/motel industry. The hotel/motel occupancy rate fell to 40.7% in September 2001 versus 60.5% in September 2000. In December 2001 and early 2002, Scottsdale's economy began to improve as the hospitality

industry began to rebound and consumer confidence improved. While the slowdown has affected the local economy, the overall economic and business environment continues to exhibit strength. Scottsdale's June 2002 unemployment rate stood at 4.0 percent versus 5.6 percent for the Phoenix-Mesa Metropolitan Statistical Area and 6.3 percent for Arizona. The following represent significant reasons for Scottsdale's slower economic growth in the fiscal year-end 2001/02, and slower outlook for economic growth relative to past years.

Retail Sales - Scottsdale's largest revenue source is sales tax generated from a well-balanced variety of business categories including automotive, construction, food stores, hotels/motels, department stores, retail stores, restaurants, utilities, and rentals. After thirty consecutive years of positive sales tax growth, City sales tax posted negative year-over-year growth in the 2001/02 fiscal year. Fiscal year 2001/02 sales tax receipts were down approximately 1% over the prior year. The national and local recessions, coupled with the fallout from the September 11 terrorist attacks fueled the decline. Of positive note, certain sales tax categories exhibited growth in fiscal year 2001/02. Sales tax generated from automotive sales increased approximately 3.0 percent as consumers took advantage of low interest rates and zero percent financing.

Residential Activity - The 2001/02 fiscal year resulted in \$435 million in residential development construction. Permits for all dwelling unit types (custom single family, production single family, condominium, apartment, guest homes, and residential additions) declined by 25 percent over fiscal year 2000/01. However, the custom home construction value declined 16 percent compared to the production home value 53 percent decline. A decreasing production home lot inventory spurred the decline. The average custom home permit value increased 10 percent over fiscal year 2000/01 (\$311,000 versus \$282,000) while the average production home permit value increased 18 percent over 2000/01 (\$200,500 versus \$170,000).

Residential renovations declined 10 percent in number and increased 10 percent in average value (averaging \$34,000). Residential renovation projects in 2002/2003 are anticipated to increase by 10 percent with a \$35,000 average value. The City is undertaking a strong focus to encourage reinvestment south of Indian Bend Road. This area offers 40,000 homes averaging \$150,000 to \$250,000. The Indian Bend Area of Scottsdale, along with Tempe and Paradise Valley, has become

the residential location of choice for access to professional athletic events, live theatre, dining and entertainment.

Multi-family development construction declined by 29 percent over fiscal year 2000/01 (746 units in 2001/02 versus 1,058 units in 2000/01). The decrease was due in large part to the slower economy as financial institutions increased performance standards for construction financing; additionally, apartment to condominium conversions increased. Multi-family activity in 2002/2003 is anticipated to reach 700 to 900 new units.

Commercial Activity - Commercial development construction reached \$255 million in 2001/2002 declining 14 percent from the \$295 million in 2000/01. The completion of the new Loop 101 freeway is expected to facilitate office construction in the next 12 months. Commercial construction is anticipated to reach \$350 million in fiscal year 2002/03.

Vacancy Rates - The Citywide vacancy rate for commercial buildings was 21 percent in fiscal year 2001/02, approximately on the Valleywide average. However, the weighted average asking rent was 13 percent higher than the Valley average, evidence that Scottsdale remains a relatively attractive city to conduct business. The fiscal year 2002/03 vacancy rate forecast is for flat to slight improvement, in line with the cautious economic outlook.

Job Growth - Scottsdale attracted 17 major new-targeted firms representing approximately 1,700 new jobs in 2001/02 with a \$68,000 average salary. The City benefits not only from strong population growth, but also higher income levels resulting from the gains in higher wage jobs. Major new employers to announce moves to Scottsdale last fiscal year included eFunds, DHL Worldwide Express, New York Life, Pegasus Solutions, and Pulte Homes. Collectively, these firms represent approximately 79 percent of new jobs in Scottsdale from new-targeted businesses.

Employment - Scottsdale remains a net importer of labor, as the number of jobs physically located in the City (approximately 145,000) far outweighs Scottsdale's labor force (approximately 111,000). Scottsdale's unemployment rate (4.0 percent as of June 2002) is the lowest of any major city in the Phoenix metropolitan area.

Tourism - While the outlook for tourism remains positive, the national and local recessions and September 11 terrorist attacks changed the City's economic growth outlook. Hotel occupancy tax

receipts declined approximately 11 percent in fiscal year 2001/02 versus 2000/01 receipts. The local tourism industry continues to exhibit signs of moderate recovery as leisure and business travelers return to Scottsdale; however, hotel room rates remain soft as hoteliers offer discounts to spur demand. Therefore, while the long-term outlook for local tourism remains cautiously optimistic, slower hotel occupancy tax growth is expected relative to historical levels.

Similar to other communities in Arizona and around the United States, Scottsdale's economy faced significant challenges in the 2001/02 fiscal year. The City's current and projected economic outlook changed because of the national and local recessions and September 11 terrorist attacks. While sales tax and hotel occupancy tax receipts declined over the prior year, Scottsdale's economy remained resilient. Unemployment is the lowest of any major city in the Phoenix metropolitan area and the City was successful in recruiting 17 new firms representing approximately 1,700 new jobs and approximately 467,000 square feet of office space. Scottsdale's five-year financial plan and budget are premised upon conservative economic forecasts in anticipation of slower economic growth. These factors, coupled with an emphasis on long-range strategic planning that balances desired results with available resources, will enable Scottsdale to continue to prosper with slower resource growth relative to past years.

Long-term Financial Planning - The Mayor and City Council have co-created a mission statement as well as seven broad goal categories, which represent key interests and priorities of the Mayor, City Council, and reflect their constituency's suggestions and expectations for the future. Council's approval of these Mission and Goal statements enable staff to create strategic plans and a programmatic budget that directly responds to the Council's and community's goals and expectations. Plans articulated in the 2002/2003 Budget and Five Year Balanced Financial Plan continue to support basic government services (roads, water, sewer, solid waste management, public transit, parks and recreation, police, fire, etc.), while also addressing the City Council's broad goals and citizen expectations for the community. The following are the mission and broad goals identified by Scottsdale's Mayor and City Council:

Mission - It is the mission of the City of Scottsdale to build citizen trust by fostering/practicing open, accountable, and responsive government; to provide quality services; to preserve

Scottsdale's unique southwestern character; to plan and manage growth in harmony with its desert surroundings; and to promote livability by enhancing and protecting its neighborhoods. Quality of life for residents and visitors shall be the paramount consideration.

Broad Goals

- Enhance and protect a diverse, family-oriented community where neighborhoods are safe, protected from adverse impacts, and well maintained.
- Preserve the character and environment of Scottsdale.
- Provide for the safe, efficient and affordable movement of people and goods.
- Position Scottsdale for long-term economic prosperity by diversifying our economic resources.
- Coordinate planning to balance infrastructure and resource needs within budget.
- Make government accessible, responsive, and accountable so that pragmatic decisions reflect community input and expectations.
- Ensure Scottsdale is fiscally responsible and fair in its management of taxpayer money and City assets.

Strategic Financial Plan - An appropriate financial plan for the City of Scottsdale requires many elements all working in concert with one another. The following identifies some of the financial plan elements, which Scottsdale uses to chart a course for the future. Scottsdale's Financial Services Department recognized the economy slowing in the Summer of 2001. The economy has continued to decline subsequent to the terrorist attacks last fall and we are now seeing only modest signs of a recovery. Expectations are now for very modest revenue growth, potential for State reductions of revenue sharing, and we continue to see additional demands for "essential" City services such as police, fire, transportation and social services. Financial Services management role will be to maintain and enhance financial plan elements and ensure the continued financial stability for the City of Scottsdale, i.e., "manage stability."

Financial Resource Planning - Strategic planning begins with determining the City's fiscal capacity based upon long-term financial forecasts of recurring available revenues. Financial forecasts coupled with financial trend analysis techniques and

Careful reserve analysis will preserve the fiscal well being of Scottsdale. Strategic planning is a critical element to not only meet long-term financial stability goals but also to determine what critical objectives of Council will require special financial planning to achieve success.

Multi-Year Financial (Budget) Planning - Multi-year financial planning (budgeting) encompasses long-range operating expenditure plans (including the operating impacts of planned capital projects), which are linked to community expectations and broad goals of the City Council. A multi-year approach provides a better opportunity for staff to change its financial paradigm. This paradigm shift can result from the following questions from, "What do we need?"/"What can we get this year?", to "How do we accomplish our service objectives over time given our financial capacity?" While the City is required to adopt an annual budget to meet State statutory requirements Scottsdale builds a financial plan for the next five years to help anticipate future impacts and ensure achievement of City objectives.

Strategic Capital Improvement Project Planning

- Scottsdale Capital Improvement Projects (CIP) are planned for five or more years and analyzed using City specific prioritization criteria. The operating cost impacts of projects are also planned and considered in developing future operating budget plans. Projects with significant operating impacts are carefully timed to avoid contingent liabilities, which future operating resources cannot meet. Pay-as-you-go funding sources are also conservatively estimated to avoid over-committing to capital construction using revenues that are not certain. To the extent debt financing is used and/or required capital project plans are sized to conform to existing debt management policies. The table below estimates the operating costs attributable to the new CIP projects:

Estimated Operating Impacts Attributable to Capital Projects For the five years ending June 30, 2007 (In Thousands of Dollars)	
Enhance & Protect Community & Neighborhoods	\$24,587.4
Preserve Character & Environment	4,932.5
Movement of People and Goods	8,097.3
Long Term Economic Prosperity	49.8
Balance Infrastructure & Resources	1,773.7
Accessible & Responsive Government	8.0
Ensure Fiscal Responsibility	1,542.8
Total Estimated Operating Impacts	\$40,991.5

Debt Management

Scottsdale has a financial policy prohibiting the issuance of debt for operating expenses. With that as a governing framework all debt issuances are for the purposes of financing capital infrastructure (or long-lived costly assets). Each debt issuance is evaluated against multiple additional policies addressing: debt service as a percent of operating expenditures, tax and revenue bases for the repayment of debt, the overall debt burden on the community, statutory limitations and market factors affecting tax-exempt interest costs. In all cases a long-term analysis is made considering the financial (debt) capacity that fits the wherewithal (and willingness) of our community to pay for the capital projects. Every additional \$1 million dollars in new debt costs just under \$100,000 in annual debt service operating expense, when amortized over 20 years. Sizing of the City's Capital Improvement Project Plan based on debt capacity in conjunction with conservatively estimated pay-as-you-go revenues will help stabilize per capita debt and lower annual debt service costs to the City over the long-term.

Cash Management policies and practices

- Cash temporarily idle during the year, excluding that of the Municipal Property Corporation (MPC), and the Community Facilities Districts, was invested primarily in the State Treasurer's Local Government Investment Pool and mutual funds whose portfolios consist solely of U.S. Government Treasury and Agency securities. In addition, amounts were directly invested in obligations of the U.S. Treasury and its agencies, demand deposits, and repurchase agreements. The City utilizes a pooled cash concept in order to invest greater amounts of cash at one time and therefore receives more favorable interest rates. The average yield on pooled investments for the 2001/2002 fiscal year was 4.04 percent, and the average daily investment balance was \$403,237,700.

Scottsdale's investment policy is to invest all of the City funds at the highest available interest rate, assuring that all monies are fully secured with emphasis on safety of principal, liquidity, and financial return on principal, in that order.

Risk Management - The City is exposed to various risks of loss related to public, property, and aviation liability, and workers compensation. Public liability includes public officials' errors and omissions, automobile and general

liability. During the fiscal year 2001/02 the City was self-insured for the first \$1,000,000 of public liability, the first \$50,000 of property liability, and the first \$250,000 of workers compensation. Coverage in excess of these respective amounts is provided through the purchase of commercial insurance. During the fiscal year ending June 30, 2002, there was no significant reduction in excess insurance coverage. Additionally, settlements for each of the past three fiscal years have not exceeded the City's excess insurance coverage amounts.

Scottsdale has an aggressive safety program that promotes employee safety on the job and focuses on risk control techniques designed to minimize accident-related losses. In addition to the safety program's preventative measure, the Risk Management division investigates every claim and arbitrates each loss in order to minimize the City's liability exposure.

Post-Employment Benefits - The City participates in the Arizona State Retirement System, the Public Safety Personnel Retirement System, and the Elected Officials' Retirement Plan. In addition, the City provides an option of post-retirement health care benefits, in accordance with Chapter 14 of the City Code. At retirement, employees with medical leave accumulated prior to September 6, 1976 are eligible for payment of medical leave at one hundred percent cash value at current rate of pay. Employees hired before July 1, 1982 can elect to receive cash equal to fifty percent of the first five hundred twenty hours of unused medical leave plus twenty-five percent of all hours in excess of five hundred twenty. The conversion rate is the employee's average hourly base pay rate for the five years immediately preceding retirement. Any retiring employee with 300 or more hours of accumulated medical leave, who chooses to remain on the city medical plan, may elect to apply the value of the sick leave to the employee's portion of the health care premiums, up until age 65. The value of the accumulated medical leave is calculated at the employee's hourly rate of pay at the time of retirement. The number of participants during fiscal year 2001/02 was 56 and is expected to grow as more employees reach retirement age. The projected liability for this benefit was actuarially determined on January 1, 2002 and was used to calculate the liability recorded in the financial statements. (See Section V of the Notes to the Financial Statements for additional information on this benefit)

MAJOR INITIATIVES AND SERVICE EFFORTS AND ACCOMPLISHMENTS

During 2001/02 Scottsdale continued to invest in basic government service programs and amenities that define the special character of the City. These programs and amenities will assist in maintaining Scottsdale as a "livable" community for future generations.

Service efforts to shape and maintain Scottsdale as a sustainable community that were made in the past year included enhancements to the quality citizen services; contributions to environmentally and fiscally sound infrastructure; and contributions toward building and maintaining a sustainable economic base. The following are some department service efforts and accomplishments for the 2001/02 fiscal year.

Police

Successfully negotiated a new photo enforcement contract for four speed enforcement vehicles and six red light camera systems, thereby continuing the Focus on Safety program to reduce vehicle accidents.

Negotiated a new three-year agreement for fire services with Rural/Metro. In addition, a new EMS contract for advanced life support services with Rural/Metro was also implemented.

Implemented the SmartZone digital radio system to enhance broadcast capabilities in all areas of the City, particularly in areas north and east of Pinnacle Peak and Pima Roads. The SmartZone system will effectively eliminate former communication dead zones.

Successfully completed the Department's strategic plan and a separate Technology strategic plan.

Fire

Completed designs of four new permanent City fire stations. The new facilities, located at 16701 North 100th Street (McDowell Mountain) and 27777 North Alma School Road (Troon Park), were approved by the Development Review Board with construction bids awarded by the City Council on July 1. These two facilities are expected to be operational in the beginning of the 2003 calendar year. The new permanent facility for the Scottsdale Airport received Development Review approval. The final fire station will be located on the Northwest corner of Pima and Ranch Roads. The preliminary design has been completed and received approval from the Planning Commission.

Twelve of the 16 first responding fire units are now equipped with portable thermal imaging cameras. These new devices are one of the most technologically advanced firefighting tools available. Thermal imaging cameras allow firefighters to "see" heat through smoke-filled rooms and walls making it much quicker and easier to find a trapped person or locate the source of a hidden fire. With the approval of the next year's budget, all of the first responding fire units assigned in the City will be equipped with this technology.

The City aggressively continued with the policy of acquiring ownership of all large fire apparatus. In fiscal year 2001/02 the City took delivery and put into service five new fire pumpers and a new 75 foot ladder truck. Additional purchases for fiscal year 2002/03 will include water tenders, a new large airport rescue vehicle, new brush vehicles, additional pumpers and a new 100-foot aerial device.

Maximus Consulting Group conducted an independent, third party evaluation of the City's fire protection service. Maximus identified areas where the City emergency protection levels met or exceeded national best practices, evaluated the costs for the services received, and identified areas for improvement. The City and Rural Metro incorporated elements of the Maximus recommendations in the new emergency fire and medical service contract. Before this evaluation, citizens gave the fire service a 99% approval rating and the emergency medical service a 98% approval rating.

Financial Services

The three major credit rating agencies, FitchRatings, Moody's Investors Service, and Standard and Poor's, affirmed the City's triple-A rating (the highest possible) on outstanding general obligation bonds.

Issued Municipal Property Corporation, General Obligation, and Scottsdale Preserve Authority refunding bonds to take advantage of low interest rates and the City's high credit rating resulting in \$4.7 million debt service savings. Sold \$35 million of Preservation General Obligation bonds and \$7.5 million of Bell Road II Improvement District bonds.

Coordinated the effort to buy Ford Motor Credits' interest in Scottswater Company, Inc. (see Section V of the Notes to the Financial Statements) and replaced variable rate Industrial Development Authority bonds with fixed rate Municipal Property Corporation bonds, saving the City approximately \$1 million in debt service costs.

Implemented a Utility Billing Interactive Voice Response system that allows customers to pay their utility bills by touch-tone telephone.

Transportation

Successfully launched the Cab Connection taxi voucher program for eligible seniors and disabled individuals.

Initiated a Major Investment Study to address the City's growing travel demands and to maintain the potential to connect to a regional transit system.

Completed the first phase of the Traffic Management Center laying the groundwork for the next stage of the Intelligent Transportation System.

Community Services

Pinnacle Peak Park was dedicated to the City and the land for the trailhead was acquired from the State Land Department. Opened La Mirada Desert Park, Phase I and began planning for Phase II in response to neighbors' requests. Completed Apache Park and initiated development at Ironwood and Stonegate Parks.

Vista Del Camino assisted 2,351 families in need of emergency services for utility assistance, food boxes, and financial assistance to prevent eviction and homelessness.

The Library System expanded to 101 public access personal computers in the Library that have Internet access, the library catalog, and electronic reference sources available.

Information Systems

Implemented Virtual Private Network Technology to allow City employees to securely connect to the City's Internet and desktop services utilizing their own Internet Service Provider via a public network.

Implemented an Outlook Web Access server that allows all City employees to securely access their email and schedule from anywhere in the world using a standard Web browser and any public Internet Service Provider.

Implemented Storage Area Network (SAN) to create a "Disk Storage Farm" for Citywide consolidated storage of electronic information. Benefits include improved disk storage utilization, stability, performance and less down time through the use of pooled disk resources.

Improved the security of the City's computing assets by implementing a software "Security Rollout" suite, requiring "Strong Passwords", adding a "Legal Notice" to the login process,

designing effective "content scanning" for email attachments, and requiring use of Personal Firewalls for access to the network.

Implemented an automated Pavement Management System. This solution automates the compilation of pavement treatment cost estimates, simplifies retrieval of pavement treatment histories, and ensures that the City meets the minimum requirements for pavement management as mandated by the Federal Government.

Planning Systems

In an ongoing effort to improve community awareness/involvement, Current Planning Services has modified the public hearing notice from a first class letter to a postcard. The "user-friendly" postcard is sent to all property owners within a 300 foot radius of the proposed development; is written in basic language, includes a site map and references to additional resources, and is one-third the cost of the previously used first-class letter.

The One Stop Shop added an enhancement to the Community Development System using Intellinc e-pads. Plans are logged out with the electronic signatures that become a permanent record in the Community Development System and eliminate the need to retain hard copy signatures. This process has reduced staff time and errors resulting in better customer service.

Preservation

Acquired 532 acres for inclusion in the McDowell Sonoran Preserve.

Achieved reclassification of over 13,000 acres of State Trust land in far north Scottsdale through the State Land Commissioner's August 2001 Arizona Preserve Initiative Order.

Water Resources

Scottsdale's Water Resources Department's substantial efforts to acquire renewable water supplies were rewarded this year when the State of Arizona's Department of Water Resources approved the extension of the City's designation of assured water supply to approximately 2008.

Design of the \$50 million Chaparral Treatment Plant was initiated in November 2001 with anticipated completion in Summer 2003. Significant milestones completed thus far during design include the award of an \$8.8 million micro filtration membrane purchase agreement and City Council approval of the facility's Master Site Plan.

Within the Capital Program, completed the Southeast Pump Station, the final facility in the \$19 million East Leg Pumpback System project. The entire system of six pump stations and twelve miles of pipeline is now complete to provide wastewater to the Water Campus for treatment and reuse.

Within the Treatment Division, completed the modification and retrofit of the Gainey Ranch Water Reclamation Plant. The improvements will allow the plant to improve water quality and reduce phosphorus levels to the Gainey Ranch Golf Course.

Municipal Services

Completed several major construction improvement projects including: Oak Street Storm Drain project - 97 homes and 2 commercial businesses removed from the floodplain maps; Scottsdale Drinkwater Road Realignment; Via Linda Senior Center; Stonegate and Ironwood Parks; Pinnacle Peak Trailhead (planned); Pima Road water line (planned).

Completed initial phase of alley 300-gallon replacement program. Solid Waste replaced 420 unsightly/unsanitary containers in the southern part of the City. The second phase is to be completed by January 2003.

Enhanced the Pavement Management System to provide information on street maintenance repairs and street cut moratoriums. The system reduces multiple street disruptions by providing outside contractors with information to coordinate their work with scheduled City street maintenance.

Fleet management upgraded its fifteen-year old fuel management system. The new system can calculate total cost per mile and miles per gallon for individual vehicles, provide exception reporting, initiate fuel reordering, and reconcile fuel usage with inventory levels. The final product is improved accountability and better environmental health reporting.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Scottsdale for its comprehensive annual financial report for the fiscal year ended June 30, 2001. This was the 29th consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized

comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The City's triple-a ratings from all three rating agencies on uninsured general obligation bonds were reaffirmed by the Rating Agencies in September 2002 in conjunction with the issuance of general obligation refunding bonds. (See the Management's Discussion and Analysis for additional information on the bond ratings by bond type.)

The preparation of this report could not have been accomplished without the dedicated service of the entire staff of the Accounting and Budget divisions, the assistance of administrative personnel in the various departments, and through the competent service of our independent auditors. I also wish to express my sincere appreciation to the City Council, the City Manager, and the Assistant and Deputy City Managers for their interest and support in planning and conducting the financial affairs of the City in a responsible and progressive manner.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Craig Clifford". The signature is written in a cursive, flowing style.

Craig Clifford, CPA, CGFM,
Chief Financial Officer

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Scottsdale,
Arizona

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2001

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

FISCAL YEAR 2001/2002
CITY OF SCOTTSDALE, ARIZONA

CRONSTROM & TRBOVICH

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITORS' REPORT

The Honorable Mayor and the City Council of the
City of Scottsdale, Arizona

We have audited the accompanying basic financial statements and combining and individual fund statements and schedules of the City of Scottsdale, Arizona (City), as of and for the year ended June 30, 2002, as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the City of Scottsdale, Arizona as of June 30, 2002, and the results of its operations and the cash flows of its proprietary fund types for the year then ended in conformity with U.S. generally accepted accounting principles. Also, in our opinion, based on our audit, the combining and individual fund statements and schedules of the City of Scottsdale, Arizona, present fairly, in all material respects, the financial position of each of the individual funds as of June 30, 2002, and the result of operations of such funds and the cash flows of individual proprietary funds for the year then ended in conformity with U.S. generally accepted accounting principles.

As discussed in Note IV.A to the financial statements, adjustments were made by the City to reflect a change in accounting policy and to correct errors in the previously issued financial statements.

Our audit was performed for the purpose of forming an opinion on the basic financial statements and on the combining and individual fund statements and schedules taken as a whole. The accompanying financial information listed as supplemental schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the City of Scottsdale, Arizona. The supplemental schedules are also the responsibility of the management of the City of Scottsdale, Arizona. Such additional information has been subjected to the auditing procedures applied in our audit of the basic and combining, and individual fund statements and schedules and, in our opinion, is fairly stated in all material respects when considered in relation to the financial statements of each of the respective individual funds taken as a whole.

The other information included in this report, designated as the "Statistical Section" in the table of contents, was not audited by us and, accordingly, we express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued a report dated September 13, 2002 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City of Scottsdale's (the City) Comprehensive Annual Financial Report presents a narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2002. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

FINANCIAL HIGHLIGHTS

The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$2.5 billion (net assets). Of this amount, \$328 million (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.

The government's total net assets increased by \$127 million during the fiscal year.

As of June 30, 2002, the City's governmental funds reported combined ending fund balances of \$283 million. Approximately 95% of this total amount, \$268.7 million, is unreserved fund balance available for spending at the government's discretion.

At the close of the current fiscal year, unreserved fund balance for the general fund was \$74 million or 45 percent of total general fund expenditures of \$164 million.

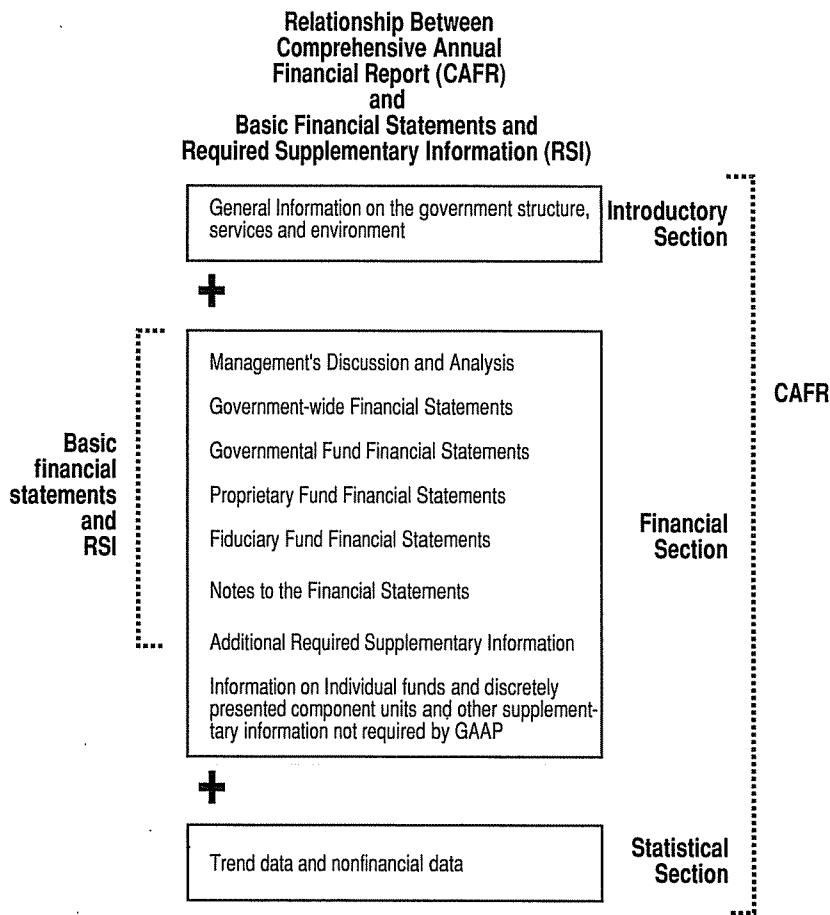

During fiscal year 2002, the City's total bonded debt increased by approximately \$52.5 million. The key factors were the issuances of \$68 million for various capital projects, \$10.5 million for the Scottswater Project, and \$7.5 million for the Bell Road II Special Assessment District.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components:

- (1) **Government-wide** financial statements
- (2) **Fund** financial statements, and
- (3) **Notes** to the financial statements.

This report also contains other **supplementary information** in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The **statement of net assets** presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether or not the financial position of the City is improving or deteriorating.

The **statement of activities** presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, such as revenues pertaining to uncollected taxes and expenses pertaining to earned but unused vacation and sick leave.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, police, financial services, transportation, community services, information systems, planning and development, fire, municipal services and citizen and neighborhood resources. The business-type activities of the City include water, sewer, solid waste, and airport operations.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate nonprofit corporation, Scottsdale Water Company, Inc., and Los Arcos Multi-Purpose Facilities District for which the City is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself. Included within the governmental activities of the government-wide financial statements are the operations of the City of Scottsdale Municipal Property Corporation, The Scottsdale Preserve Authority, Scottsdale Mountain, McDowell Mountain Ranch, DC Ranch, and Via Linda Road Community Facilities Districts. Although legally separate from the City, these component units are blended with the primary government because of their governance or financial relationships to the City.

Separate financial statements of the MPC, SPA and Scottsdale Mountain, McDowell Mountain Ranch, DC Ranch, and Via Linda Road Community Facilities Districts may be obtained at the City's Financial Services Department, Accounting Division, 7447 East Indian School Road, Suite 210, Scottsdale, Arizona 85251.

The government-wide financial statements can be found on pages 30-31 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into the following three categories: **governmental** funds, **proprietary** funds, and **fiduciary** funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in determining what financial resources are available in the near future to finance the City's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains several individual governmental funds organized according to their type (special revenue, debt service, and capital projects). Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, GO Bond debt service fund, General CIP Construction Capital Projects Fund and Preserve Privilege Tax Capital Projects Funds, which are considered to

be major funds. Data from the remaining governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Proprietary Funds

Proprietary funds are generally used to account for services for which the City charges customers—either outside customers, or internal units or departments of the City. Proprietary funds provide the same type of information as shown in the government-wide financial statements, only in more detail. The City maintains the following two types of proprietary funds:

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for the operations of the Water, Sewer and Solid Waste operations of the City as well as the Airport. All enterprise funds are considered to be major funds of the City.

Internal Service funds are used to report activities that provide supplies and services for certain City programs and activities. The City uses internal service funds to account for its fleet of vehicles and self-insurance. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. The internal service funds are combined into a single, aggregated presentation in the propriety fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the City. The City has two private-purpose trust funds and two agency funds,

which are reported under the fiduciary funds. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension benefits to its employees.

Combining Statements

The combining statements referred to earlier in connection with non-major governmental funds, internal service funds, and fiduciary funds are presented immediately following the required supplementary information on pensions.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

This is the first year that the City has presented its financial statements under the new reporting model required by the Governmental Accounting Standards Board Statement No. 34 (GASB 34), Basic Financial Statements — and Management's Discussion and Analysis (MD&A) — for State and Local Governments. Because this reporting model changes significantly both the recording and presentation of financial data, the City has not restated prior fiscal years for the purposes of providing comparative information for the MD&A. In future years when prior-year information is available a comparative analysis of government-wide data will be included in this report.

Analysis of Net Assets

As noted earlier, net assets may serve as a useful indicator of a government's financial position. For the City, assets exceeded liabilities by \$2.5 billion at the close of the current fiscal year.

The largest portion of the City's net assets (81 percent) reflects its investment of \$2.06 billion in capital assets (e.g. land, buildings, and equipment), less any related outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be liquidated for these liabilities.

Net Assets			
June 30, 2002 (in thousands of dollars)			
	Governmental Activities	Business- Type Activities	Total
Assets			
Current and other assets	\$ 387,530	\$ 210,073	\$ 597,603
Capital Assets	1,977,725	741,373	2,719,098
Total Assets	2,365,255	951,446	3,316,701
Liabilities			
Long-term liabilities outstanding	552,788	96,300	649,088
Other liabilities	96,781	34,017	130,798
Total Liabilities	649,569	130,317	779,886
Net Assets			
Invested in capital assets, net of related debt	1,429,495	629,106	2,058,601
Restricted	133,460	16,399	149,859
Unrestricted	152,731	175,624	328,355
Total Net Assets	1,715,686	821,129	2,536,815
Total Liabilities and Net Assets	\$ 2,365,255	\$ 951,446	\$ 3,316,701

An additional portion of the City's net assets, \$149.8 million (6 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets, \$328 million (13 percent) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City was able to report positive balances in all three categories of net assets for the government as a whole, as well as for the business-type activities.

Analysis of Changes in Net Assets

The City's net assets overall increased by \$127.2 million during the current fiscal year. These increases are explained in the government and business-type activities discussion below, and are primarily a result of contributions from developers of infrastructure assets.

Changes in Net Assets			
For the Year Ended June 30, 2002 (in thousands of dollars)			
	Governmental Activities	Business- Type Activities	Total
Revenues			
Program revenues:			
Charges for services	\$ 36,954	\$ 109,566	\$ 146,520
Operating grants and contributions	9,626	-	9,626
Capital grants and contributions	77,412	38,733	116,145
General revenues:			
Property taxes	39,485	-	39,485
Business taxes	127,620	-	127,620
Other taxes	57,492	-	57,492
Interest and investment income	11,485	5,820	17,305
Other	5,213	-	5,213
Total revenues	365,287	154,119	519,406
Expenses			
General Government	\$ 26,982	\$ -	\$ 26,982
Police	52,719	-	52,719
Transportation	72,159	-	72,159
Financial Services	7,464	-	7,464
Community Services	53,325	-	53,325
Information Systems	10,821	-	10,821
Planning and Development	18,269	-	18,269
Fire	16,494	-	16,494
Municipal Services	11,482	-	11,482
Citizen & Neighborhood Resources	2,484	-	2,484
Streetlight and Services Districts	1,044	-	1,044
Interest on long-term debt	28,063	-	28,063
Water Utility	-	51,125	51,125
Sewer Utility	-	24,007	24,007
Airport	-	2,648	2,648
Solid Waste	-	14,071	14,071
Total expenses	301,306	91,851	393,157
Increase in assets before special items and transfers	63,981	62,268	126,249
Special items	234	874	1,108
Transfers	6,223	(6,289)	(66)
Increase in net assets	70,438	56,853	127,291
Net assets at beginning of year	1,645,248	764,276	2,409,524
Net assets at end of year	\$ 1,715,686	\$ 821,129	\$ 2,536,815

Governmental activities. Governmental activities increased the City's net assets by \$70.4 million, thereby accounting for 55 percent of the total growth in the net assets of the City. Key factors of this increase are as follows:

Infrastructure assets donated by developers accounted for the majority \$70 million increase in net assets.

Total revenues and expenditures for the governmental funds remained almost flat from the previous year. After thirty consecutive years of positive sales tax growth, City sales tax posted negative year-over-year growth in the 2001/02 fiscal year. Fiscal year 2001/02 sales tax receipts were down approximately 1% over the prior year. The national and local recessions, coupled with the fallout from the September 11 terrorist attacks fueled the decline. Budget reductions were made in each department during the year to ensure that the decrease in revenue inflows were offset and that total net assets did not decline.

The charts above illustrate the City's governmental expenses and revenues by function, and its revenues by source. As shown, transportation is the largest function in expense (24 percent), followed by community services (18 percent) and police (17 percent). General revenues such as property, business, and privilege taxes are not shown by program, but are effectively used to support program activities citywide. For governmental activities overall, without regard to program, business taxes are the largest single source of funds (34.94 percent), followed by capital grants and contributions (21.19 percent) and other local taxes (15.74 percent). As with the statement of net assets and the statement of activities, because the GASB No. 34 reporting model significantly changes the form of financial data, the City has not restated prior fiscal year revenue and expenditure information. Year to year comparisons will be included in future reports.

Business-type activities. Business-type activities increased the City's net assets by \$56.8 million, accounting for 45 percent of the total growth in the City's net assets. Key factors of this increase are as follows:

Capital contributions from developers are the major revenue source for the Water and Sewer fund, and resulted in \$38.7 million in revenue. The majority of this amount is from infrastructure donated from developers and development fees received as development continues throughout the City.

As shown in the charts above, the largest of Scottsdale's business-type activities, Water & Sewer utilities, each had expenses in excess of \$51 million and \$24 million, respectively, in fiscal year 2002, followed by Solid Waste with operating expenses of approximately \$14 million. For the fiscal year, revenues exceeded expenses in all four areas of business activity. Fees provided the largest share of revenues (71 percent) followed by capital grants and contributions, which are largely developer contributions and development fees, (25 percent) for all of the business-type activities.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Types of Governmental funds reported by the City include the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Project Funds.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$283 million, an increase of \$61 million in comparison with the prior year. The increase is primarily due to the issuance of debt. Approximately \$268 million of this total amount constitutes unreserved fund balance, which is available for spending at the City's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed, (1) to pay debt service (\$12.8 million), (2) for the repayment of a long-term loan from another fund (\$1.1 million), (3) to pay for the ongoing cost of the streetlight and services districts (\$882,000).

Revenues for governmental functions overall totaled approximately \$289.9 million in the fiscal year ended June 30, 2002, which represents a decrease of 2.4 percent or \$7 million from the fiscal year ended June 30, 2001. Expenditures for governmental functions, totaling \$316 million, decreased by approximately 1 percent (\$2.7 million) from the fiscal year ended June 30, 2001. In the fiscal year ended June 30, 2002, expenditures for governmental functions exceeded revenues by approximately \$26 million, or slightly more than 9 percent.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, the unreserved fund balance of the general fund was \$74.3 million, while total fund balance was \$76.3 million. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 45 percent of total general fund expenditures of \$163.9 million, while total fund balance represents 46 percent of that same amount.

The fund balance in the City's general fund decreased by \$962,000 during the fiscal year mainly due to the decrease in revenues resulting from the terrorist attacks of September 11th. The decrease was offset by budget reductions for all departments during the year. Overall, the general fund's performance resulted in revenues over expenditures in the fiscal year ended June 30, 2002 of \$14.7 million, a decrease of 39 percent over the comparable figure from the prior year of \$24.2 million.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

At the end of the fiscal year, the unrestricted net assets for the Water and Sewer Utility were \$171.8 million, Scottsdale Airport were \$459,000 and the Solid Waste Utility Fund \$3 million. The internal service funds, which are used to account for certain governmental activities also had unrestricted net assets of \$19.8 million.

The total growth in net assets for the enterprise funds was \$56.8 million. Factors concerning the finances of these funds have been addressed previously in the discussion of the City's business-type activities. In particular, the Scottsdale Water and Sewer net assets increased by \$51.5 million due to capital contributions of \$35.7 million and increased water and sewer fees of \$4 million.

Fiduciary Funds

The City maintains fiduciary funds for the assets of the Family Self-Sufficiency Agency Fund, the Retainage Escrow Agency Fund, the Handicap Scholarship Private Purpose Trust Fund, the Scottsdale Memorial Hospital Redevelopment Private Purpose Trust Fund. The Hospital Trust Fund manages the investment of monies held in trust for the redevelopment of the Scottsdale Memorial Hospital. As of the end of fiscal year 2001-2002, the net assets of the Scottsdale Memorial Hospital Trust Fund totaled \$728,000, representing an increase of \$111,000 in total net assets since June 30, 2001. The change is primarily related to expenses directly related to the redevelopment area. Changes to the other fiduciary funds were immaterial for the fiscal year.

General Fund budgetary highlights

The City's final budget differs from the original budget due to budget reductions that were made during the fiscal year. In fiscal year 2002, significant reductions in expenditure budgets were made in order to offset the reduced revenue received from sales and other local taxes due to the downturn in the economy after the terrorist attacks of September 11th. Net budget reductions in the departments totaled \$3,413,000 and were as follows:

\$780,000	General Government
\$595,000	Police
\$514,000	Information Systems
\$308,000	Fire
\$183,000	Financial Services
\$29,000	Municipal Services
\$46,000	Citizen and Neighborhood Resources
\$971,000	Community Services

These reductions were offset by the increases in the budget for transfers from the contingency budget for items approved by the City Council in the following function:

\$13,000	Planning and Development
----------	--------------------------

During the year, actual revenues and other resources fell short of budgetary estimates by \$17 million. The majority of this amount is attributable to local taxes—specifically the property, privilege, and hotel occupancy taxes where actual performance was lower than estimates due to the slowdown in the economy which began in March 2001 and was exacerbated by the terrorist attacks on September 11, 2001.

Capital Assets and Debt Administration

Capital Assets

The City's capital assets for its governmental and business-type activities as of June 30, 2002, amount to \$2.7 billion (net of accumulated depreciation). Capital assets include land, buildings and improvements, water and sewer systems, water rights vehicles, machinery and equipment, furniture and fixtures, and construction in progress. The total increase in the City's capital assets (net of accumulated depreciation) for the current fiscal year was 9.8 percent (a 3 percent increase for governmental activities and a 6.8 percent increase for business-type activities) as shown in the table below.

	Governmental Activities	Business- Type Activities	Total
Land	\$ 324,138	\$ 13,916	\$ 338,054
Buildings and Land Improvements	154,059	9,746	163,805
Streets and Storm Drains	1,346,180	-	1,346,180
Machinery and Equipment	23,193	3,002	26,195
Water Rights	-	64,489	64,489
Water System	-	332,675	332,675
Sewer System	-	212,755	212,755
Motor Vehicles and Maintenance by Fleet	23,461	-	23,461
Furniture, Fixtures and Office Equipment	-	286	286
Construction in Progress	106,694	104,504	211,198
Total	\$1,977,725	\$ 741,373	\$2,719,098

Major capital asset events during the current fiscal year included the following:

The acquisition of \$25 million in land as a part of the Sonoran Preserve Initiative.

The acquisition of the interest in the Central Arizona Project water treatment plant formerly owned through a limited partnership with Ford Motor Company. \$6.75 million was paid from capital projects funded through the Water and Sewer Fund. An additional, \$10.00 million was paid from Municipal Property Corporation bond proceeds.

Governmental activities construction in progress increased by \$23.5 million due to progress on the Bell Road II Improvement District, Family Advocacy Center, Pinnacle Peak Mountain Park, Scottsdale Flood Control Program, Traffic Management Program and various recreation and park, and public works improvement projects.

Business-type activities construction in progress increased by \$21.9 million due to progress on the Chaparral Water Treatment Plan, McDowell Mountain, Ranch Reservoir Expansion, Pima Road – Ashler Hills to Cave Creek Waterline, Pima Road-Jomax to Ashler Hills Waterline, and the water Zone 5-7 Pump Station, and the Zone 9 Reservoir Expansion.

For government-wide financial statement presentation, all depreciable capital assets were depreciated from acquisition date to the end of the current fiscal year. Fund financial statements record capital asset purchases as expenditures. See Section IV in the Notes to the Financial Statements for further information regarding capital assets.

The City has recorded its infrastructure as part of the general fixed asset account group in past years and has recorded infrastructure for the water and sewer funds in the appropriate funds at it was built or donated. With the implementation of GASB 34, the City reduced

the governmental capital assets for the appropriate accumulated depreciation amount of \$654 million. During fiscal year 2002, ongoing infrastructure projects are accounted for in construction in progress.

Debt Administration

At the end of the current fiscal year, the City had total long-term obligations outstanding of \$687.5 million. Of this amount, \$337.9 million is general obligation bonds backed by the full faith and credit of the City and \$105.4 million is revenue bonds, commercial paper, loans, and other obligations of the City's business enterprises. The remainder includes revenue bonds, certificates of participation, and other obligations of \$244.1 million of governmental activities.

During the fiscal year, the City issued \$51,155,000 of General Obligation Refunding Bonds, Series 2001, dated July 18th, 2001, with an average interest rate of 5.1%, to refund \$49,835,000 of Series 1991,

1992, 1994, 1995 and 1999 General Obligation and Preservation Bonds with an average interest rate of 5.6%. The City will reduce its total debt service payments over the next 20 years by approximately \$1,861,280 and obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$1,268,629. In addition, the City issued \$17,495,000 of Scottsdale Preserve Authority Excise Tax Revenue Refunding Bonds, Series 2001, dated July 18th, 2001, with an average interest rate of 4.9%, to refund \$16,690,000 of Series 1997 Excise Tax Revenue Refunding Bonds with an average interest rate of 5.6%. The City refunded the bonds to reduce its total debt service payments over the next 20 years by approximately \$619,921 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$435,418.

During fiscal year 2002, the City's total bonded debt increased by approximately \$52.5 million.

Outstanding Debt			
As of June 30, 2002 (in thousands of dollars)			
	Governmental Activities	Business- Type Activities	Total
General obligation bonds	\$ 319,657	\$ 18,315	\$ 337,972
Revenue bonds	13,385	73,945	87,330
Municipal Property Corporation bonds	49,870	11,555	61,425
Scottsdale Preserve Authority bonds	90,585	-	90,585
Special assessments bonds	13,061	-	13,061
Community Facilities Districts			
general obligation bonds	34,935	-	34,935
Add deferred issuance premiums	1,572	225	1,797
Less deferred amounts on refunding	(3,585)	(288)	(3,873)
Total bonds payable	519,480	103,752	623,232
Contracts payable	21,416	-	21,416
Capital lease	28,750	-	28,750
Compensated absences	12,455	1,628	14,083
Total long-term liabilities	\$ 582,101	\$ 105,380	\$ 687,481

The key factors were the issuances of \$68 million for various capital projects, \$10.5 million for the Scottswater Project, and \$7.5 million for the Bell Road II Special Assessment District.

The State constitution imposes certain debt limitations on the City of six percent (6%) and twenty percent (20%) of the outstanding assessed valuation of the City. The City's available debt margin at June 30, 2002 is \$114.9 million in the 6% capacity and \$410.4 million in the 20% capacity. Additional information on the debt limitations and capacities may be found in Section IV of the Notes to the financial statements and also in Table XV in the statistical section of this report.

The City's ratings on uninsured general obligation bonds as provided above were affirmed by the Rating Agencies in September 2002 in conjunction with the issuance of general obligation refunding bonds. Rating Agencies also reviewed and confirmed several of the revenue based bond ratings at various times throughout the year.

City of Scottsdale Bonded Debt Ratings			
As of June 30, 2002			
	Moody's Investors Service	Standard and Poor's Rating Group	Fitch Investors Service, Inc.
General Obligation (GO)	Aaa	AAA	AAA
Municipal Property Corp (MPC)	Aa1	AA+	AA+
Water and Sewer Revenue (W&S)	Aa1	AA	AA
Highway User Revenue Fund (HURF)	Aa3	AA	Not Rated
Scottsdale Preserve Authority (SPA)	Aa3	AA-	AA-

Subsequent to June 30, 2002 the following events related to debt occurred:

DC Ranch Community Facilities District (CFD) received authorization from the CFD Board to issue \$12,165,000 in General Obligation bonds (the remainder of its bond authorization). The bonds will be sold during the fiscal year 2002/03. The bonds will be used to construct roadways from Horseshoe Canyon south on 94th Street to the property line, and west toward Pima Road and the associated utilities. Upon completion the roadways will be dedicated to the City.

The City of Scottsdale Municipal Property Corporation (MPC) issued \$30,570,000 of Excise Tax Revenue Forward Delivery Refunding Bonds, Series 2002, dated August 7, 2002, with an interest rate of 5.5%, to refund \$30,885,000 of Series 1992 Excise Tax Revenue Bonds with an average interest rate of 6.27%. The MPC refunded the bonds to reduce its total debt service payments over the next 10 years by approximately \$2,059,698 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$2,073,838.

On September 10, 2002, the City sold \$72,000,000 in refunding bonds. Several maturities of the Series C (1992), Series D (1993), Series E (1994), Series 1994, Series 1995, Series 1997, Series 1998, Series 1999A, Series 1999, and Series 2001 General Obligation Bonds were refunded.

Additional information in the City's long-term debt can be found in Section IV of the Notes to the Financial Statements.

Economic Factors and Next Year's Budget and Rates

The 2001/02 fiscal year posed several significant challenges for Scottsdale's economy. Similar to the United States and Arizona economies,

Scottsdale began the fiscal year in a recession. As early as March 2001, Scottsdale's economy began exhibiting signs of slowing economic growth. Specifically, sales tax, hotel/motel occupancy tax, and development permit and fee receipts were all below prior year levels.

The September 11, 2001 terrorist attacks compounded the already slowing economy, particularly the hotel/motel industry. The hotel/motel occupancy rate fell to 40.7% in September 2001 versus 60.5% in September 2000.

In December 2001 and early 2002, Scottsdale's economy began to improve as the hospitality industry began to rebound and consumer confidence improved. While the slowdown has affected the local economy, the overall economic and business environment continues to exhibit strength. Scottsdale's June 2002 unemployment rate stood at 4.0 percent versus 5.6 percent for the Phoenix-Mesa Metropolitan Statistical Area and 6.3 percent for Arizona.

All of the above factors were considered in preparing the City's budget for fiscal year 2003. The budget for the 2002/03 year includes:

A conservative economic forecast and limited revenue growth.

A zero-based approach to the operating budget, leading to limited increases or, in some cases, overall reductions in department budgets.

No net increases in positions supported by General Fund tax dollars.

Continued investment in the city's basic infrastructure and public facilities, combined with a careful analysis of their operating costs.

An emphasis on a "pay-as-you-go" approach to funding city capital investments.

Sustained funding of General Fund and economic investment reserves to ensure the city can provide basic services during economic downturns or major emergencies and make strategic investments in Scottsdale's economic base.

Both the Water and Sewer rates were increased for the 2003 budget year. The water rates were increased by 5% and the sewer rates were increased by 1.5%. The water rates were increased to finance increased operating and capital costs resulting from proposed Environmental Protection Agency regulations. Sewer rates were increased to help provide for the costs associated with expansion of the multi-city 91st Avenue Wastewater Treatment Facility and related facilities to accommodate existing customers' sewer treatment needs.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all of those with an interest in the government's finances. If you have questions about this report or need additional financial information, contact:

Bond issue costs are not financial resources and, therefore, are not reported in the funds.	563
--	-----

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.	(581,756)
---	-----------

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current period expenditures. Those assets are offset by deferred revenue in the funds.	15,721
---	--------

Internal service funds are used by management to charge the costs of certain activities, such as, insurance and vehicles to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets.	<u>45,965</u>
---	---------------

Net assets of governmental activities.	<u>\$ 1,715,686</u>
--	---------------------

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Year Ended June 30, 2002 (in thousands of dollars)

Net change in fund balances - Total governmental funds	\$ 61,134
Amounts reported for governmental activities in the statement of activities are different because (see Section II B):	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.	(9,281)
Donations of capital assets are not reflected on the governmental fund statements but are shown in the statement of activities.	70,262
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	(3,509)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	2,950
Bond issue costs are expended in the governmental funds when paid, and are capitalized and amortized in the statement of net assets. This is the amount by which current year bond issuance costs exceed amortization expense in the current period.	563
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This is the amount by which bond proceeds exceeded principal retirement in the current period.	(50,335)
Additional accrued interest calculated on bonds and notes payable.	1,033
The net revenues of certain activities of internal service funds is reported with governmental activities.	<u>(2,379)</u>
Changes in net assets of governmental activities	<u>\$ 70,438</u>

The notes to the financial statements are an integral part of this statement.

General Fund

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual

For the Year Ended June 30, 2002 (in thousands of dollars)

Explanation of Differences:

The City does not budget for Streetlight and Municipal Service district revenues:

Streetlight and Municipal Services Districts	\$ 1,012
--	----------

Items recorded as revenues for GAAP purposes that are recorded as operating transfers in, from the Enterprise Fund, for budget purposes and items recorded as revenues for GAAP purposes that are not recorded as revenues for budget purposes:

Unrealized Gain on Investments	817
Indirect Costs	<u>7,960</u>

For GAAP purposes that are not recorded as revenue for budget purposes:

Total revenue reconciling items:	<u>9,789</u>
----------------------------------	--------------

The City budgets for certain expenditures on the cash basis, rather than on the modified accrual basis. Additionally the City does not budget for district expenditures:

Claims and compensated absences	1,043
Streetlight and Services Districts	<u>1,044</u>

Total expenditure reconciling items:	<u>2,087</u>
--------------------------------------	--------------

Items recorded as revenues for GAAP purposes that are recorded as operating transfers in, from the Enterprise Fund, for budget purposes:

Transfers In	<u>(7,960)</u>
--------------	----------------

Net increase/(decrease) in fund balance - budget to GAAP	<u>\$ (258)</u>
--	-----------------

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The City of Scottsdale (City) was incorporated in 1951. The current City Charter was adopted in 1961, which established the Council/Manager form of government. The City provides basic government services to its citizens including roads, water, sewer, solid waste management, public transit, parks and recreation facilities, police and fire.

The accounting policies of the City conform to U.S. generally accepted accounting principles (GAAP) as applicable to governmental units. The following is a summary of the more significant policies.

The financial reporting entity presented in these financial statements consists of the City of Scottsdale (the primary government) and its component units. The component units discussed below are included in the City's reporting entity because of the significance of their operational or financial relationships with the City.

1. Individual Component Units - Blended

The City of Scottsdale Municipal Property Corporation (MPC), a nonprofit corporation, was created by the City in 1967 solely for the purpose of constructing, acquiring and equipping buildings, structures, or improvements on land owned by the City. The MPC is governed by a Board of Directors appointed by the City Council. For financial reporting purposes, transactions of the MPC are included as a governmental fund type as if it were part of the City's operations.

The Scottsdale Preserve Authority (SPA), a nonprofit corporation, was created by the City in 1997 for the purpose of financing land acquisitions for the McDowell Sonoran Preserve. The City Council must approve the election of the SPA's Board of Directors. For financial reporting purposes, transactions of the SPA are included as a governmental fund type as if it were part of the City's operations.

Scottsdale Mountain, McDowell Mountain Ranch, DC Ranch, and Via Linda Road Community Facilities Districts were formed by petition to the City Council in 1992, 1994, 1997, and 1998 respectively. The Districts' purposes are to acquire and improve public infrastructure in specified land areas. As special purpose districts and separate political subdivisions under the Arizona Constitution, the Districts can levy taxes and issue bonds independently of the City. Property owners in the designated areas are assessed for District taxes and thus for the costs of operating the Districts. The City Council serves as the Board of Directors. The City has no liability for the Districts' debt. For financial reporting purposes, transactions of the Districts are combined together and included as a governmental fund type as if they were part of the City's operations.

Separate financial statements of the MPC, SPA and Scottsdale Mountain, McDowell Mountain Ranch, DC Ranch, and Via Linda Road Community Facilities Districts may be obtained at the City's Financial Services Department, Accounting and Budget Division, 7447 East Indian School Road, Suite 210, Scottsdale, Arizona 85251.

2. Individual Component Unit - Discrete

The component unit column in the government-wide financial statements reflects the combined financial data of Scottswater Company, Inc. (the Company) and the Los Arcos Multi-Purpose Facilities District (the District) as described below.

The Company was a nonprofit corporation established by the City Council in 1993 to act as the general partner in the Scottsdale Water Service Company Limited Partnership (the Partnership). The City Council appointed and approved the Company's Board of Directors and nominated Company officers. The Partnership itself managed and operated a Central Arizona Project water treatment plant that, in conjunction with other City facilities, provides water and water services to Scottsdale citizens. All expenses of operating the water treatment plant were paid by the Partnership, and reimbursed by the City via a service agreement with the Partnership.

The financial information reported for the Company includes the consolidated activity of the Company and the Partnership. Both entities had a fiscal year end of December 31; therefore, the component unit column presents financial statements as of and for the year ended December 31, 2001. In October 2001, the City purchased the Ford Motor Company interest in the Company and dissolved the company as a separate legal entity. For additional discussion of the Company and disclosures regarding the amounts presented in the component unit column, refer to Part V, G of the notes to the financial statements.

Separate financial statements of the Company, and the Partnership for the year ended December 31, 2001, may be obtained from the City's Financial Services Department, at 7447 E. Indian School Road, Suite 210, Scottsdale, AZ 85251.

The City of Scottsdale created the Los Arcos Multipurpose Facilities District on December 17, 1998, to finance the construction of a multipurpose arena, stadium or similar facility. In a May 18, 1999 election the citizens upheld the formation of the District. The Board of Directors for the District consists of two members appointed by the governing body of each municipality participating in the District. On November 2, 1999, the voters approved the District to use 50 percent of the state sales tax revenue generated by all businesses operating at a multipurpose facility to finance an arena, entertainment and retail project.

The financial information presented for the District in the component unit column is for the fiscal year ended June 30, 2002. On June 4, 2002, the City Council voted not to appropriate funds to the District for the fiscal year 2002/03. Therefore, the District was terminated. For additional discussion of the District and disclosures regarding the amounts presented in the component unit column, refer to Part V, F of the notes to the financial statements.

Separate financial statements of the District for the year ended June 30, 2002, may be obtained from the City's Financial Services Department at 7447 E. Indian School Road, Suite 210, Scottsdale, AZ., 85251.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from Business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses for a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related

cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers revenues to be available if they are collected within 30 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to vacation, sick leave, claims, and judgments, are recorded only when payment is due.

Property taxes, other local taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the City receives cash.

The government reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *General Obligation Bond Debt Service Fund* is used to account for the accumulation of resources for, and the payment of, general obligation long-term debt principal, interest, and related costs.

The *General Obligation Bond* and *General CIP Construction capital projects funds* account for the resources used to acquire, construct and improve major capital facilities, other than those financed by proprietary funds. Capital Projects funds allow the City to compile project cost data and demonstrate that legal or contractual requirements, regarding the use of the resources, are fully satisfied.

The government reports the following major proprietary funds:

The *Water and Sewer Utility, Airport and Solid Waste funds* account for the operating revenues and expenses of the City's water and sewer utility systems, airport and sanitation services (solid waste, brush removal, container maintenance, etc.), respectively.

Additionally, the government reports the following fund types:

The *Internal Service funds* account for the financing of goods or services provided by one department or unit to other departments or units of the City, on a cost-reimbursement basis. These services include fleet management and self-insurance.

The *Agency funds* are purely custodial (assets equal liabilities) and do not involve measurement of results of operations. The City's agency funds are used to record the Family Self-Sufficiency activity and Retainage Escrow activity.

The *Private-Purpose Trust funds* are used to account for assets held in a trustee capacity for scholarships and other purposes as designated by the donors or by legal restrictions. Both the principal and earnings of these expendable trust funds can be expended for the trusts' intended purposes.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

In general, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are payments-in-lieu of taxes, indirect costs and franchise fees and other charges between the City's Water and Sewer Utility Fund, Airport Fund, and Solid Waste Fund, because

elimination of these charges would distort the direct costs and program revenues reported in the Statement of Activities.

Amounts reported as program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. The principal operating revenues of the City's enterprise and internal service funds are charges for customer services including: water, sewer, airport, and solid waste fees, vehicle purchase amounts and risk management charges. Operating expenses for enterprise funds and internal service funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. When both restricted and unrestricted resources are available for use, it is the City's policy to use unrestricted resources first, then restricted resources as they are needed.

D. Implementation of New Accounting Principles

1. Governmental Accounting Standards Board Statement No. 34

The City adopted the provisions of GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. This statement affects the manner in which the City records transactions and presents financial information. State and local governments have traditionally used a financial reporting model substantially different from the one used to prepare private-sector financial reports. GASB Statement No. 34 establishes new requirements and a new reporting model for the annual financial

reports of state and local governments. The statement was developed to make annual reports of state and local governments easier to understand and more useful to the people who use governmental financial information to make decisions and includes the following sections, which were not previously included in the Comprehensive Annual Financial Statements. The governmental fund financial statements continue to be presented as a building block for the new GASB Statement No. 34 statements.

a. Management's Discussion and Analysis – GASB Statement No. 34 requires that financial statements be accompanied by a narrative introduction and analytical overview of the City's financial activities in the form of "management's discussion and analysis" (MD&A). This analysis is similar to the analysis provided in the annual reports of private-sector organizations.

b. Government-Wide Financial Statements – The reporting model includes financial statements prepared using full accrual accounting for all of the City's activities. This approach includes not just current assets and liabilities but also capital and other long-term assets as well as long-term liabilities. Accrual accounting also reports all of the revenues and costs of providing services each year, not just those received or paid in the current year or soon thereafter.

Statement of Net Assets – The statement of net assets is designed to display the financial position of the primary government (government and business-type activities). The City now reports all capital assets in the government-wide statement of net assets and reports depreciation expense – the cost of "using up" capital assets – in the statement of activities. The net assets of the City are broken down into three categories – 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted.

Statement of Activities – The government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the City's functions. The expense of individual functions is compared to the revenue generated directly by the function. Accordingly, the City has recorded capital

and certain other long-term assets and liabilities in the statement of net assets, and has reported all revenues and the cost of providing services under the accrual basis of accounting in the statement of activities.

2. Governmental Accounting Standards Board Statement No. 36

The City adopted the provisions of GASB Statement No. 36, *Receipt Reporting for Certain Shared Nonexchange Revenues*. This statement amends GASB Statement No. 33 with respect to the manner in which shared nonexchange revenues are accounted for by recipient governments.

3. Governmental Accounting Standards Board Statement No. 37

The City adopted the provisions of GASB Statement No. 37, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments: Omnibus*. This statement amends GASB Statement No. 34 to either 1) clarify certain provisions or 2) modify other provisions that GASB believes may have unintended consequences in some circumstances. Accordingly, the City considered the effects of this statement when adopting the provisions of GASB Statement No. 34 as previously described.

4. Governmental Accounting Standards Board Statement No. 38

The City adopted the provisions of GASB Statement No. 38, *Certain Financial Statement Note Disclosures*. This statement modifies, establishes, and rescinds certain financial statement disclosure requirements. Accordingly, certain footnote disclosures have been revised to conform to the provisions of GASB Statement No. 38.

E. Assets, liabilities, and net assets or equity

1. Deposits and Investments

Cash equivalents for purposes of the statements of cash flows are investments (including restricted assets) in the State of Arizona Local Government Investment Pool, mutual funds, demand deposits, repurchase agreements, and U.S. Treasury bills and notes with maturities of three months or less at acquisition date.

GASB Statement No. 31 provides that governmental entities may report all investments at fair value or they may elect to report certain money market investments and participating interest-earning investment contracts at amortized cost. The City has elected to report all investments at fair value. The City’s policy is to invest in certificates of deposit, repurchase agreements, direct U.S. Treasury debt, securities guaranteed by the United States Government or any of its agencies, and the State of Arizona Local Government Investment Pool (“LGIP”). The LGIP is overseen by the State of Arizona. The fair value of each share in the LGIP is \$1.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All accounts, property tax and court receivables are shown net of an allowance for uncollectibles. All receivables outstanding for greater than one year comprise the allowance for uncollectibles at June 30, 2002.

The City’s property tax is levied each year on or before the third Monday in August based on the previous January 1 full cash value as determined by the Maricopa County Assessor. Levies are due and payable in two installments, on October 1 and March 1, and become delinquent on November 1 and May 1, respectively. A lien attaches to the property on the first day of January preceding the assessment and levy of taxes. Delinquent amounts bear interest at the rate of 16 percent. Maricopa County, at no charge to the taxing

entities, bills and collects all property taxes. Public auctions of properties which have delinquent real estate taxes are held in February following the May 1 date upon which the second half taxes become delinquent.

Property taxes levied for current operation and maintenance expenses on residential property are limited to 1.0 percent of the primary full cash value of such property. In addition, taxes levied for current operation and maintenance expenses on all types of property are limited to a maximum increase of 2.0 percent over the prior year's levy, adjusted for new construction and annexations.

Property taxes levied to pay principal and interest on bonded indebtedness are not limited.

3. Inventories

Inventories of the governmental funds are recorded under the consumption method as expenditures when consumed rather than when purchased. Inventories are valued at year-end based on cost, with cost determined using an average cost method.

4. Restricted Assets

Certain proceeds of the City's enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheets because they are maintained in separate bank accounts and their use is limited by applicable bond covenants. The revenue bond renewal and replacement account is used to report resources set aside to meet unexpected contingencies or to fund asset renewals and replacements.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government, as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Assets contributed (donated) to those funds are recorded by reference to historical costs of the donor if recently purchased or constructed, or if such records are not

available, at estimated fair market value on the date of receipt.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized for the fiscal year 2001/02.

Depreciation and amortization of all assets are recorded and calculated using the straight-line method over the following estimated useful lives:

Water System	10 to 75 Years
Sewer System	25 to 50 Years
Buildings and Improvements	25 Years
Land Improvements	25 Years
Machinery and Equipment	20 Years
Motor Vehicles	3 to 10 Years
Furniture, Fixtures, and Office Equipment	5 to 10 Years

The excess purchase price over fair market value of assets acquired in the Water and Sewer Utility Enterprise Fund is amortized on the straight-line method over 20 to 25 years.

When capital assets are disposed of, the cost and accumulated depreciation or amortization is removed from the accounts, and any resultant gain or loss is recognized in the government-wide and proprietary fund financial statements.

6. Compensated Absences

Compensated absences consist of vacation leave and a calculated amount of sick leave earned by employees based on services already rendered. Employees may accumulate up to a maximum number of hours of vacation depending on years of service. The City's policy is to pay employees for unused accumulated vacation hours at termination or retirement. Sick leave time can be accumulated without limit. The City's policy, however, is that only those employees hired full-time before July 1, 1982 are paid for unused sick leave at death or retirement. Employees who

retire on or after July 1, 1996, and who have accumulated 300 or more hours of sick leave, may elect to apply the value of the sick leave toward their City medical plan premiums.

All vacation pay is accrued when incurred in the government-wide, proprietary and fiduciary fund financial statements. A liability for the current amount of compensated absences is recorded as a current liability at June 30 in the governmental and proprietary funds. The current compensated absences amount in the governmental funds is combined with accrued payroll and other payroll related amounts in the accrued payroll and benefits line item. The City calculates this current amount based on vacation taken and an actuarial valuation dated January 1, 2002, for medical leave conversion. There is no long-term liability for compensated absences in the governmental funds.

7. Long-term Obligations

In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount and deferred amounts on refundings. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received are reported as debt service expenditures.

8. Fund Equity

In the fund financial statements, governmental funds report reservation of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

9. Special Items

Special items are significant items, subject to management's controls that are either unusual in nature or infrequent in occurrence. The City experienced the following special items during the fiscal year 2001/02:

The City purchased Ford Motor Credit's limited partner interest in Scottswater Company, Inc. (a component unit of the City of Scottsdale). In addition, the City redeemed the outstanding debt of the company, which had been issued through the Industrial Development Authority using Municipal Property Corporation bond proceeds. The company was dissolved as a legal entity in March of 2002. Proceeds from the sale and the resulting loss to the company are reported as special items. See section V of the notes the financial statements for additional information regarding Scottswater Company, Inc. and the Industrial Development Authority.

In addition, the Water and Sewer fund recognized litigation recovery revenue. In fiscal year 1995/96, the City received a \$9.2 million settlement for defective plastic pipe the City had used for water lines from the water main to the water meter. The settlement has been recognized based on the number of years it would take to replace the defective water pipes. The litigation recovery revenue is fully recognized as of fiscal year 2001/02.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain difference between the governmental fund balance sheet and the government-wide statement of nets assets.

The fund balances of the City's governmental funds, \$283,574, differs from net assets of governmental activities, \$1,715,686, reported in the statement of net assets. The difference primarily results from the long-term economic focus in the statement of net assets versus the current financial resources focus in the governmental fund balance sheets.

Reconciliation of Governmental Funds Balance Sheet and the Government-wide Statement of Net Assets

(in thousands of dollars)

	Total Governmental Funds	Long-Term Assets/ Liabilities (1)	Internal Service Funds (2)	Reclassifications and Eliminations	Statement of Net Assets Totals
ASSETS					
Cash and Investments	\$ 322,187	\$ -	\$ 29,024	\$ -	\$ 351,211
Receivables (net of allowance for uncollectible)

Fund Balances/Net Assets					
Total Fund Balances/Net Assets	283,574	1,386,147	45,965	-	1,715,686
Total Liabilities and Fund Balances/Net Assets	<u>\$ 358,504</u>	<u>\$ 1,952,182</u>	<u>\$ 55,952</u>	<u>\$ (1,383)</u>	<u>\$ 2,365,255</u>

(1) When capital assets (land, buildings, equipment, etc) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net assets includes those capital assets among the assets of the City as a whole.

Cost of capital assets	\$ 2,675,369
Accumulated depreciation	<u>(723,750)</u>
	<u>\$ 1,951,619</u>

Bond issuance costs are expended in governmental funds when paid, and are capitalized and amortized over the life of the corresponding bonds for purpose of the statement of net assets.

Bond issuance costs	\$ 597
Amortization of bond issuance costs	<u>(34)</u>
	<u>\$ 563</u>

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities in the governmental funds. All liabilities, both current and long-term, are reported in the statement of net assets. Also, during the year the City refunded some of its existing debt. The amount borrowed is received in the governmental funds and increases fund balance. The amount that was sent to the paying agent (\$75,364) to be placed escrow for payment of the old debt (\$71,555) as it comes due is paid out of governmental funds and reduces fund balance. The difference between those amounts was \$3,809 and will be amortized as an adjustment of interest expense in the statement of activities over the remaining life of the refunded debt. Balances at June 30, 2002 were:

Contract and capital lease payables	\$ (50,166)
Bonds payable	(521,493)
Less accrued interest payable from refunding	(9)
Deferred Charge on refunding	3,585
Deferred Issuance premium	(1,572)
Accrued vacation and sick leave pay	<u>(12,101)</u>
	<u>\$ (581,756)</u>

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current period expenditures. Those assets (for example, receivables) are offset by deferred revenues in the governmental funds and thus are not included in fund balance. Deferred revenue for the long-term special assessment receivables shown on the governmental fund statements is not deferred on the statement of net assets. Certain grant revenues deferred under modified accrual for governmental fund statements, is recognized as revenue under accrual accounting for the government-wide statements.

Deferred special assessment revenue	\$ 4,314
Deferred court revenue	4,803
Deferred note receivable	4,000
Deferred tax revenue	<u>2,604</u>
	<u>\$ 15,721</u>

(2) Internal service funds are used by management to charge the costs of certain activities, such as fleet management and self insurance, to individual funds. The assets and liabilities of certain internal service funds are included in governmental activities in the statement of net assets.

	<u>\$ 55,952</u>
--	------------------

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The net change in fund balances for governmental funds, \$61,134, differs from the change in net assets for the governmental activities, \$70,438, reported in the statement of activities. The differences arise primarily from the long-term economic focus in the statement of activities versus the current financial resources focus in the governmental funds. The effect of the differences is illustrated below.

Total	<u>380,701</u>	<u>3,509</u>	<u>9,281</u>	<u>4,768</u>	<u>(103,176)</u>	<u>295,083</u>
Net change for the year	<u>\$ 61,134</u>	<u>\$ (559)</u>	<u>\$ 60,981</u>	<u>\$ (2,379)</u>	<u>\$ (48,739)</u>	<u>\$ 70,438</u>

Reconciling Items Description:

- (3) Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Accrual for long-term compensated absences	<u>\$ 3,509</u>
--	-----------------

Because some property taxes will not be collected for several months after the City's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Similarly, other revenues are not currently available at year-end and are not reported as revenue in the governmental funds.

Property taxes	\$ 481
Court revenue	2,476
Tax audit and Privilege tax revenue	1,574
	<u>\$ 4,531</u>

The allowance for uncollectible accounts receivable reduces revenues in the governmental funds statement of revenue, expenditures and changes in fund balances, but under full accrual accounting used in the statement of activities, the offset is bad debt expense.

Allowance for uncollectible accounts receivable-Court	\$ 1,581
Bad debt expense	<u>(1,581)</u>
	<u>\$ -</u>

- (4) When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net assets decrease by the amount of depreciation expense charged for the year, and the loss on disposal of capital assets.

Capital expenditures	\$ 68,638
Depreciation Expenses	(76,657)
Loss on disposal of capital assets	<u>(947)</u>
	<u>\$ (8,966)</u>

Donations of capital assets are not shown on the governmental fund statements, but are included in the assets of the City. On the statement of activities, these donations are shown as capital contributions.

Capital Contributions	<u>\$ 70,262</u>
-----------------------	------------------

- (5) Internal Service funds are used by management to charge the costs of certain activities, such as insurance and motor pool, to the individual funds. The adjustments for internal service funds close those funds by charging additional amounts to participating governmental activities to completely cover the internal service funds' costs for the year. Capital assets contributed by the governmental funds (\$315) are treated as capital contribution revenue in the Internal Service fund statements and capital outlay expenditures in the governmental funds statements. For government-wide purposes, the capital contribution is reclassified as a transfer in the Internal Service Fund column and a transfer out in the Capital Related Items column.

Change in Net Assets	<u>\$ (2,379)</u>
----------------------	-------------------

- (6) Bond issuance costs are reported as an expenditure in governmental funds in the year of bond issuance and thus have the effect of reducing fund balance because current financial resources have been used. For the government-wide statements, however, the bond issuance cost are deferred and amortized (expensed) over the life of the bonds.

Bond issuance costs	\$ 597
Amortization of bond issuance costs	<u>(34)</u>
	<u>\$ 563</u>

Repayment of bond principal is reported as an expenditure in governmental funds and, thus, has the effect of reducing fund balance because current financial resources have been used. For the government-wide statements, however, the principal payments reduce the liabilities in the statement of net assets and do not result in an expense in the statement of activities. The City's bonded debt was reduced in two ways-principal payments were made to bond holders and resources were sent to the bond paying agent for the advance refunding of outstanding bonds.

Transferred to the paying agent:	
For bond principal	\$ 75,364
Principal payments made	26,216
	\$ 101,580

Interest expense in the statement of activities differs from the amount reported in governmental funds because additional accrued interest was calculated for bonds and notes payable, and additional interest expense was recognized on the amortization of bond discount and premiums which are expended within the fund statements.

Amortization of deferred charges on refundings	\$ 224
Amortization of bond premium and discounts	809
	\$ 1,033

Bond proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the government-wide statements, however, issuing debt increases long-term liabilities in the statement of net assets and does not affect the statement of activities. Proceeds were received from:

Refunding General Obligation Bonds	\$ (56,530)
General Obligation Bonds	(68,000)
Refunding Revenue Bonds	(17,495)
Improvement District	(7,500)
Premium on Refunding Bonds	(2,390)
	\$ (151,915)

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budget And Budgetary Accounting

Annual budgets are adopted on a basis other than GAAP. Budgets are prepared on a cash basis. The City prepared an annual budget that covered fiscal year 2001/02. The 2001/02 budget appropriation is established and reflected in the financial statements as follows:

The City Council formally adopts the budget and legally allocates, or appropriates, available monies for the General Fund, Special Revenue Fund (Highway User Fuel Tax, Preserve Privilege Tax, and Transportation Privilege Tax), Debt Service Funds (except for the Community Facilities Districts Debt Service Fund), and Enterprise Funds. Therefore, these funds have appropriated budgets, and budget to actual information is presented.

The Community Development, Home, Grants, Section 8, and Special Programs Special Revenue Funds, Community Facilities Districts Funds, Capital Projects Funds, Internal Service Funds, and Trust and Agency Funds have non-appropriated budgets. Accordingly, no comparison of budget to actual is presented in the financial statements for these funds. Budgets for the Community Development, Grants, and Section 8 Funds are established pursuant to the terms of the related grant awards. Budgets for the Community Facilities Districts are established in accordance with Arizona Revised Statutes, which do not require their inclusion in the City budget or adoption by the City Council. Budgets for Capital Projects Funds are established for individual projects and unexpended funds are re-appropriated each year until the project is completed and

capitalized. Budgets for Internal Service Funds are established in order to help departments control operational costs. Budgets for Trust and Agency Funds are established in accordance with the trust/agency agreements.

On or before the second regular Council meeting in May, the City Manager submits to the City Council a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.

Two public hearings are held prior to the budget's final adoption in order to obtain taxpayer comments.

At the first regular Council meeting in June, the budget is legally enacted through passage of an ordinance. The ordinance sets the limit for expenditures during the fiscal year. Additional expenditures may be authorized for expenditures directly necessitated by a natural or man-made disaster as prescribed in the State Constitution, Article 9, Section 20. During 2001/02, there were no supplemental budgetary appropriations to the original budget.

The expenditure appropriations in the adopted budget are by department. The maximum legal expenditure permitted for the fiscal year is the total budget as adopted. Departmental appropriations may be amended during the year.

Upon the recommendation of the City Manager, and with the approval of the City Council: (1) transfers may be made from the appropriations for contingencies to departments; and (2) unexpended appropriations may be transferred from one department to another.

Management control of budgets is further maintained at a line item level within the department.

All expenditure appropriations that have not been expended lapse at year end. Beginning July 1, 1998, the City discontinued the use of encumbrance accounting. As such, fund balance amounts are not reserved for purchase orders, contract or other commitments.

B. Excess of expenditures over appropriations

The Scottsdale Preserve Authority Debt Service Fund exceeded its Debt Service Expenditures appropriation by \$77,000. This over expenditure was funded by available fund balance. The Airport Fund exceeded its appropriation by \$362,000. The over expenditure was funded by a transfer from the General Fund.

C. Deficit fund equity

The Community Development Fund had a deficit fund balance of (\$4,000) caused by certain grant reimbursements due which may not be available in the upcoming period. Since these reimbursements are not assured, no revenue was accrued in the current fiscal year. These reimbursements due will be recognized as revenue when actually received.

The Section 8 Housing Fund had a deficit fund balance of (\$110,000) caused by certain grant reimbursements due which may not be available in the upcoming period. Since these reimbursements are not assured, no revenue was accrued in the current fiscal year. These reimbursements due will be recognized as revenue when actually received. Since January 1998, the Fund has generated a surplus. Program administrators expect this trend to continue and anticipate eliminating the fund deficit within one year.

IV. DETAILED NOTES ON ALL FUNDS

A. Change in Accounting Policy and Prior Period Adjustment

The City implemented GASB 34 for the fiscal year ended June 30, 2002. The following adjustments were made in order to properly state beginning net assets using the full accrual method of accounting.

Prior period adjustments were made to the General Fund to correct nonexchange revenue transactions (other than property taxes) in accordance with GASB 33, the Special Programs Special Revenue Fund, McDowell Mountain Ranch CFD, and the DC Ranch CFD to correct errors made in the previous year's receivable balances and the Airport Fund to properly state capital assets.

**Restatement of beginning net assets for governmental funds
(in thousands of dollars)**

	<u>Governmental Activities</u>
Net Assets:	
Fund balance at June 30, 2001, as previously reported governmental fund types:	
General	\$ 74,542
Special Revenue	13,163
Debt Service	9,682
Capital Projects	119,039
Permanent and new special revenue funds previously recorded as expendable trust funds	<u>4,769</u>

B. Cash and Investments

The City maintains a cash and investment pool for use by all funds except the Municipal Property Corporation and Community Facilities Districts Funds, which have investments held separately by a trustee.

Deposits

At June 30, 2002, the carrying amount of the City's deposits was \$8,978,687, and the bank balance was \$11,261,157. The \$2,282,470 difference represents outstanding checks and other reconciling items. Of the bank balance, \$3,458,788 was covered by federal depository insurance or by collateral held by the City's agent in the name of the City. The remaining balance of \$7,802,369 was collateralized with securities held by the pledging financial institution's trust department or agent in the City's name.

Investments

City Charter, Ordinance, and Trust Agreements authorize the City to invest in obligations of the U.S. Treasury, U.S. Government agencies, Certificates of Deposit, bankers' acceptances, commercial paper (A-1, P-1), repurchase agreements, mutual funds consisting of the foregoing, and the State of Arizona Local Government Investment Pool (LGIP).

Investments are categorized into these three categories of credit risk:

- (1) Insured or registered, or securities held by the City or its agent in the City's name.
- (2) Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the City's name.
- (3) Uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent, but not in the City's name.

The City's investments at June 30, 2002, are summarized below. There were no investments in risk categories two or three. Investments not subject to credit risk classification are not categorized.

(in thousands of dollars)	<u>Risk Category</u>	<u>Total Fair Value</u>

Component Units	9
Handicap Scholarship Private Purpose Trust Fund	5
Scottsdale Memorial Hospital Redevelopment Private Purpose Trust Fund	726
Family Self-sufficiency Agency Fund	110
Retainage Escrow Agency Fund	<u>233</u>
Total Cash and Investments	<u><u>\$ 499,456</u></u>

Investment income comprises the following for the year ended June 30, 2002 (in thousands of dollars):

Net interest and dividends	\$ 17,469
Net increase in the fair value of investments	153
Total net investment income	<u><u>\$ 17,622</u></u>

The net increase in the fair value of investments during fiscal year 2001-2002 was \$152,704. This amount takes into account all changes in fair value (including purchases and sales) that occurred during the year. The unrealized gain on investments held at June 30, 2002 was \$2,708,299.

C. Receivables

Receivables as of year end for the government's individual major funds and nonmajor and internal service funds in the aggregate, including the applicable allowances for uncollectible accounts are as follows:

Receivable Balance (Net of Allowance for Uncollectible)

Governmental Funds:

	General Fund	General Obligation Bond Debt Service	General Obligation Bond Capital Project	General CIP Construction Capital Project	Nonmajor and Other Funds	Total Governmental Funds

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

	Unavailable	Unearned
Property Tax	\$ 1,030	\$ -

Construction commitments

The City has active construction projects as of June 30, 2002. At year-end the government's commitments with contractors for specific projects were as follows:

Construction Commitments	Spent to Date	Remaining Commitment
Streets	\$ 1,780	\$ 1,233
Traffic	756	969
Improvement District	469	309
Fire	171	602
Police	308	588
Drain/Flood Control	211	1,309
Community	696	1,704
Parks/Recreation	1,108	1,817
Municipal Facilities	1,543	496
Technology	276	734
Libraries	14	468
Airport	164	170
Transit	302	124
Water System	14,391	12,073
Sewer System	7,038	1,970
	<u>\$ 29,227</u>	<u>\$ 24,566</u>

The improvement district portion of the commitment is financed by improvement district bonds. The traffic commitments are being financed by the .2% transportation sales tax, which is reported in the special revenue fund financial statements. All water and sewer system improvement projects are being financed through the use of water or sewer development fees and water or sewer rates.

E. Interfund Balances and Interfund Transfers

Individual funds having amounts due from or due to other funds at June 30, 2002:

"Due to" and "due from" balances have primarily been recorded when funds overdraw their share of pooled cash. The composition of interfund balances as of June 30, 2002 is as follows (in thousands):

Receivable Fund		Payable Fund	
(in thousands of dollars)	Amount	(in thousands of dollars)	Amount
General	\$ 235	Nonmajor governmental funds	\$ 235
Nonmajor governmental funds	24	Nonmajor governmental funds	24
Total	\$ 259	Total	\$ 259

Individual funds having advances to and from other funds at June 30, 2002:

The advance to and from other funds is a result of a loan to the Preserve Privilege Capital Projects fund that was made in order to purchase a parcel of land outside of the area authorized for preservation sales tax funding in fiscal year 1999/00. The loan is required to be repaid in June 2005. The advance accrues interest at a rate of 6% compounded annually.

Advances To Other Funds:	
(in thousands of dollars)	Amount
General	\$ 1,124
Total	\$ 1,124

Advances From Other Funds:	
(in thousands of dollars)	Amount
Nonmajor governmental funds	
Capital Projects	
Preserve Privilege Tax	\$ 1,124
Total	\$ 1,124

Transfers are used to fund capital projects and debt service, reallocate special revenue funds to operating centers or other operations and for indirect administrative cost allocations (including in-lieu property tax and franchise fees) charges to Enterprise Funds. During the year transfers in the amount of \$2,824,445 and \$2,914,171 were made from the Fleet Management and Self-Insurance internal service funds to Capital Projects Funds and the General Fund. Of the total, transfers totaling \$2,400,000 from the self-insurance fund to Capital Projects were made in order to fund pay-as-you go capital projects and to reduce the excess cash balance in the self-insurance fund.

Net operating transfers (in thousands of dollar):

F. Bonds, Loans, Capital Leases and Other Payables

The following are brief descriptions of bonds outstanding at June 30, 2002. The totals shown are the principal amount outstanding, net of the current portion due July 1, 2002.

There are a number of limitations and restrictions contained in the various bond indentures. The City is in compliance with all significant limitations and restrictions.

General Obligation Bonds

General obligation (GO) bonds are issued, after approval by City of Scottsdale voters at an authorized bond election, to finance the construction of water and sewer systems, artificial lighting, parks and open spaces, recreational facilities, and general purpose improvements. At June 30, 2002, the City had \$330,200,000 of unissued various purpose GO bonds, which were authorized in September 2000. In addition, the City had \$65,400,000 of unissued Preservation GO bonds, which were authorized in September 1999. GO bonds are backed by the full faith and credit of the City, and are repaid through the City's levying of property (ad valorem) taxes. However, the Preservation GO bonds are repaid through the two-tenths of one percent City sales tax approved by voters in September 1996 to be used specifically to finance land acquisitions for the McDowell Sonoran Preserve. Additionally, a portion of the City's GO bonds are recorded in the Water Enterprise Fund as described below, and are repaid through revenues of that fund unless such revenues are insufficient.

HURF Revenue Bonds

Highway User Revenue Fee (HURF) bonds are issued specifically for the purpose of constructing street and highway projects. These bonds are repaid out of the Special Revenue Fund by gas tax revenues collected by the State of Arizona and distributed to cities and towns based on a formula of population and gas sales within each county.

Municipal Property Corporation Bonds

The Municipal Property Corporation (MPC) is a nonprofit corporation created by the City in 1967 to finance the construction or acquisition of certain capital improvement projects. The MPC issues its own bonds, which are repaid through the City's excise tax collections and other unrestricted revenues. The use of property taxes to repay these bonds is specifically prohibited by law. Most of these bonds are recorded as general long-term debt. The 1995 MPC Transfer Station bonds and \$2,800,000 of the 1996 MPC bonds, as described below, however, are recorded in and paid out of revenues of the Solid Waste Enterprise Fund.

Scottsdale Preserve Authority Bonds

The Scottsdale Preserve Authority (SPA) is a nonprofit corporation created by the City in 1997 to finance land acquisitions for the McDowell Sonoran Preserve. The SPA issues its own bonds which are repaid through the two tenths of one percent City sales tax approved by voters in September 1996 to be used specifically for this purpose. SPA bonds are recorded as general long-term debt and are paid out of the SPA Debt Service Fund.

Water and Sewer Revenue Bonds

Water and sewer revenue bonds are issued as authorized by the voters for the construction, acquisition, furnishing and equipping of water and sewer facilities and related systems. At June 30, 2002, the City had \$3,340,000 authorized but unissued water and sewer revenue bonds. The City has no plans to issue the remaining portion of the unissued water and sewer revenue bonds authorized as all projects related to the authorization have been completed. The water and sewer revenue bonds are collateralized by revenue in excess of operating and maintenance expenses of the City's water and sewer utility system, and are repaid via user charges or fees for service. Property taxes cannot be used to pay the debt service on these bonds.

Water and sewer revenue bond covenants require that the City accumulate sufficient reserves to cover the eventual replacement of the water and sewer system. The City has continued to meet this reserve requirement. At June 30, 2002, the funds reserved for this purpose were \$14,045,440.

Special Assessment Bonds

Special assessment bonds are issued by the City on behalf of improvement districts created by property owners for a specific purpose, such as to finance local street, water or sewer improvements, or to acquire an

existing water or sewer operation. Property owners in the designated districts agree to be assessed for the principal and interest costs of repaying the bonds. As trustee for improvement districts, the City is responsible for collecting the assessments levied against the owners of property within the improvement districts and for disbursing these amounts to retire the bonds issued to finance the improvements. The receivables, revenues, and debt service expenses related to these bonds are recorded in the Special Assessments Debt Service Fund. At June 30, 2002, special assessments receivable, together with amounts paid in advance and interest to be received over the life of the assessment period, were adequate for the scheduled maturities of the bonds payable and the related interest.

These bonds are secured by a lien on the property and improvements of all parcels within each district. In the event of default by the property owner, the City may enforce auction sale to satisfy the debt service requirements of the improvement bonds. The City is contingently liable on special assessment bonds to the extent that proceeds from auction sales are insufficient to retire outstanding bonds.

The City Council's adopted policy is that special assessment improvement debt is permitted only when the ratio of the full cash value of the property (prior to improvements being installed) when compared to debt is a minimum of 3 to 1 prior to issuance of debt, and 5 to 1 or higher after construction of improvements. In addition, cumulative improvement district debt is not permitted to exceed 5 percent of the City's secondary assessed valuation.

At June 30, 2002, there were 9 separate series of special assessment improvement bonds outstanding, each series issued as serial bonds to be repaid over 10 years.

Community Facilities Districts General Obligation Bonds

Community Facilities District General Obligation Bonds are issued by community facilities districts (CFDs), which are special purpose districts created specifically to acquire and improve public infrastructure in specified land areas. At June 30, 2002, the Scottsdale Mountain CFD, McDowell Mountain Ranch CFD, DC Ranch CFD, and Via Linda Road CFD had, respectively, \$1,550,000, \$1,140,000, \$12,165,000, and \$275,000 of authorized but unissued general obligation bonds. The Scottsdale Mountain CFD, McDowell Mountain Ranch CFD, and Via Linda Road CFD have no plans to issue the remaining portion of the unissued general obligation bonds authorized as all projects related to the authorization have been completed. CFD bonds are repaid by ad valorem taxes levied directly by the districts and collected by the county. Property owners in the districts are assessed for District taxes and thus for all costs associated with the Districts. The City has no liability for community facilities district bonds.

CFDs are created only by petition to the City Council by property owners within the district areas. As board of directors for the CFDs, the City Council has adopted a formal policy that CFD debt will be permitted only when the ratio of the full cash value of the unimproved district property to the proposed district debt, is a minimum of 3 to 1, and 5 to 1 or higher after construction of improvements. These ratios are verified by an appraisal paid for by the CFD and administered by the City. In addition, cumulative debt of all CFDs cannot exceed 5 percent of the City's secondary assessed valuation.

CFD Advance Refundings

On May 15, 2002, the Scottsdale Mountain CFD issued \$5,375,000 of General Obligation Refunding Bonds, Series 2001, with an average interest rate of 4.29%, to refund \$5,030,000 of Series 1993A, 1993B, and 1995 General Obligation Bonds with an average interest rate of 7.1%. The City will reduce its total debt service payments over the next 16 years by approximately \$917,927 and obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$201,091.

In prior years, the McDowell Mountain Ranch CFD refinanced other bond issues through the issuance of a refunding bond. The proceeds from the refunding bond have been deposited in irrevocable trusts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future redemption or payment of principal and interest of the issues refunded.

The assets, liabilities, and financial transactions of all of these trust accounts and the liability for refunded (defeased) bonds are not reflected in the financial statements of the City.

The tables reflect refunded debt outstanding at June 30, 2002, and net of any amounts to be paid or retired by the trustee on July 1, 2002 (in thousands of dollars).

Refunded in Prior Year (in thousands of dollars)	
General Obligation Series Series 1994	\$ 8,115
General Obligation Series Series 1994 A	2,845

Statutory Debt Limitation

Under the provisions of the Arizona Constitution, outstanding general obligation bonded debt issued for water, sewer, light, parks, and open space purposes may not exceed 20 percent of a city's net secondary assessed valuation. Outstanding general obligation bonded debt for all other purposes may not exceed 6 percent of a city's net secondary assessed valuation. Accretion on capital appreciation bonds, which is included for GAAP purposes as outstanding debt, is excluded for this calculation. General obligation bonds of community facilities districts also are not subject to or included in this calculation. The following summarizes the City of Scottsdale's legal general obligation bonded debt borrowing capacity at June 30, 2002 (in thousands of dollars):

General Obligation Bonds Issued to Provide Water, Sewer, Light,	General Obligation Bonds Issued for All Other Purposes
20% Constitutional Limit \$ 655,590	6% Constitutional Limit \$ 196,677
Less General Obligation 20% Bonds Outstanding <u>(245,209)</u>	Less General Obligation 6% Bonds Outstanding <u>(81,757)</u>
Available 20% Limitation Borrowing Capacity <u>\$ 410,381</u>	Available 6% Limitation Borrowing Capacity <u>\$ 114,920</u>

Advance Refundings

On July 18th 2001, the City issued two series of refunding bonds.

The City issued \$51,155,000 of General Obligation Refunding Bonds, Series 2001, dated July 18, 2001, with an average interest rate of 5.1%, to refund \$49,835,000 of Series 1991, 1992, 1994, 1995 and 1999 General Obligation and Preservation Bonds with an average interest rate of 5.6%. The City will reduce its total debt service payments over the next 20 years by approximately \$1,861,280 and obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$1,268,629.

The City issued \$17,495,000 of Scottsdale Preserve Authority Excise Tax Revenue Refunding Bonds,

Series 2001, dated July 18, 2001, with an average interest rate of 4.9%, to refund \$16,690,000 of Series 1997 Excise Tax Revenue Refunding Bonds with an average interest rate of 5.6%. The City refunded the bonds to reduce its total debt service payments over the next 20 years by approximately \$619,921 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$435,418.

The proceeds from the issuance of the bonds were used to purchase U.S. government securities that were placed in an irrevocable trust with an escrow agent to provide debt service payments on the bonds being refunded. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the governmental activities column of the City's financial statements.

In prior years, the City refinanced other bond issues through the issuance of refunding bonds. The proceeds from the refunding bonds have been deposited in irrevocable trusts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future redemption or payment of principal and interest of the issues refunded.

The assets, liabilities, and financial transactions of all of these trust accounts and the liability for refunded (defeased) bonds are not reflected in the financial statements of the City.

The tables below reflect refunded debt outstanding at June 30, 2002, and net of any amounts to be paid or retired by the trustee on July 1, 2002 (in thousands of dollars).

Refunded in Year Ended June 30, 2002	
(In Thousands of Dollars)

1989 General Obligation Series E (1994) Bonds	4,325
General Obligation Series 1994 Bonds	9,525
	<u>\$ 30,075</u>

Contracts Payable

The City of Scottsdale has entered into various purchase contracts related to economic development, acquisition of water system facilities, acquisition of recreational facilities and patents. The contract for the acquisition of water system facilities is payable only from the operating revenue of the water and sewer utility system. The following is a summary of debt service to maturity for all long-term contracts payable at June 30, 2002. The final payment for the water facilities contract was made during the current year; as a result, there were no long-term contracts payable classified in business-type activities.

Classified in Governmental activities on the government-wide financial statements:

	Contracts Payable (in thousands of dollars)
Contract payable to the U.S. Army Corps of Engineers for the construction of flood control and recreation facilities; due in annual installments through 2032; interest at 5.1 percent.	\$ 3,363
Contract payable for the construction of public infrastructure relating to completion of The Dial Corporation new corporate headquarters; due in annual installments beginning September 1998 through September 2007; non-interest bearing.	303
Contract payable for the maintenance of a federal patent; due in three year installments beginning January 1, 2001 through January 1, 2009; non-interest bearing.	5
Contract payable for the oversight and management of the Tournament Players Club Recreational Land Use Agreement; due in annual installments beginning March 1999 through June 2035; non-interest bearing.	1,815
Contract payable for the oversight and management of the Westworld Cost-share and Land Use Agreement; due in annual installments beginning December 2000 through December 2032; non-interest bearing.	1,705
Contract payable for the construction of public infrastructure relating to completion of the Anchor National Life / Portales mixed use development; due in annual installments beginning 2003.	2,117
Contract payable for the construction of public infrastructure relating to completion of the Promenade shopping center; due in annual installments beginning March 2000 through March 2007; non interest bearing.	3,899
Contract payables for the undergrounding of 69kv power lines; due in annual installments beginning January 1999 through; interest at 10.0 percent.	209
Contract payable for the purchase of a portion of 2,685 acres of land for the McDowell Sonoran Preserve; due in fifteen annual installments beginning July 1, 1999 through July 1, 2013; interest from 3.75 percent to 6.0 percent.	8,000
	<hr/>
Total Contracts Payable recorded in governmental activities	\$ <u>21,416</u>

Capital Lease

Capital Lease – In connection with the Waterfront Area Redevelopment Plan, the City has entered into a garage lease agreement in order to provide unrestricted public parking. The lease has an initial term of 50 years. The lease is payable over 30 years in the amount of \$28,750,000, plus interest at 9.14% per annum, subject to an interest rate buy down option. The exclusive funding source for the lease payments will be new retail sales tax revenues generated by the Nordstrom department store and the multilevel retail bridge linking Nordstrom to Fashion Square, as well as increased retail sales tax revenues (over 1995) from Fashion Square.

The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded as buildings and other improvements, at the present value of the future minimum lease payments as of the inception date. The future lease payments are based on incremental tax revenues, therefore, the following

presentation of future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2002 are based on projected sales tax revenues.

The following is a summary of debt service requirements to maturity for all long-term contracts payable. Amounts include contracts paid out of the General Fund, the Special Revenue Fund and the Water and Sewer Utility Fund (in thousands of dollars).

Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities reported in the government-wide financial statements for the year ended June 30, 2002 (in thousands of dollars).

V. OTHER INFORMATION

A. Risk Management

The City is exposed to various risks of loss related to public, property, and aviation premises liability, self-insured benefits and workers compensation. Public liability includes public officials' errors and omissions, automobile and general liability. The City is self-insured for the first \$1,000,000 of public liability, the first \$50,000 of property coverage and the first \$250,000 of workers compensation. Coverage in excess of these respective amounts is provided through the purchase of commercial insurance. During the fiscal year ending June 30, 2002 there was no significant reduction in excess insurance coverage. Additionally, settlements for each of the past three fiscal years have not exceeded the City's excess insurance coverage amounts.

The City reports its self-insurance activity in its Self-Insurance Internal Service Fund. Claims liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated.

The claims liabilities amount recorded in the accompanying financial statements is based on reported pending claims; and an actuarial analysis and projection of the accrued liability amounts necessary to fund the claims. At June 30, 2002 the general liability claims payable totaled \$7,294,801 and the self-insured benefits claims totaled \$1,125,600.

	Year Ended June 30	
	2002	2001
Claims payable, July 1	\$ 7,721	\$ 5,660
Current year claims incurred	7,883	7,618
Current year claim payments	(7,184)	(5,557)
Claims payable June 30	<u>\$ 8,420</u>	<u>\$ 7,721</u>

In addition, Management has established a policy to retain a cash balance at the 90% confidence level for general risk claims and a corridor and premium stabilization reserve for the self-insured health benefits. At June 30, 2002 the 90% confidence level recommendation is \$10,577,461 for all lines of pending claims and the claims incurred, corridor reserve and premium stabilization reserve total \$1,812,200 for self-insured benefits.

B. Contingent Liabilities

The City is a party to several lawsuits incidental to its normal operations. Management, with concurrence of the City Attorney, and outside legal counsel, is of the opinion that settlement of these lawsuits will not have a material effect on the financial position of the City. Therefore, no specific provision has been reflected in the accompanying general purpose financial statements for these matters.

C. Commitments and Subsequent Events

In June 2002, the City Council approved a three-year agreement with Rural/Metro Corporation (Rural/Metro) whereby Rural/Metro will provide fire protection and related services to the City to June 30, 2005 with the option of two one-year extensions. Payments to Rural/Metro amounted to \$15,357,690 for the year ended June 30, 2002. The new contract requires 26 payments during the fiscal year 2002/03 for a total amount of \$16,828,969.

The City has a Service Agreement with the Scottsdale Cultural Council (Council) that provides that the Council will manage the arts and cultural affairs within the Scottsdale community for a ten-year period, automatically renewable for two five-year periods. In return, the City will pay service fees to the Council based on the Service Agreement between the City and the Council. Payments to Scottsdale Cultural Council amounted to \$2,408,734 for the year ended June 30, 2002. Annual amounts due in fiscal year 2003 will approximate \$2,780,596.

The City has a Service Agreement with the Scottsdale Convention and Visitors' Bureau (Bureau) that provides that the Council will manage the tourism promotion within the Scottsdale community for a ten-year period. In return, the City will pay service fees to the Council based on the Service Agreement between the City and the Council. Payments to Scottsdale Cultural Council amounted to \$3,625,267 for the year ended June 30, 2002. The annual amount due in fiscal year 2003 will be \$4,963,287.

The City has entered into several agreements whereby it will reimburse developers for construction costs of certain public infrastructure improvements. The funding source for the reimbursements will come from Water and Sewer development fees paid over the life of the development. Only amounts paid subsequent to January 13, 1997 are eligible for reimbursement. The City does not become liable under the agreements until the City has accepted the cost, a development fee has been paid and a water meter has been set. The City has limited its liability to the lesser of the cost accepted by the City or the development fees paid. The City's maximum contingent liability at June 30, 2002, is \$7,243,648.

DC Ranch Community Facilities District received authorization from the CFD Board to issue \$12,165,000 in General Obligation bonds (the remainder of its bond authorization). The bonds will be sold during the fiscal year 2002/03. The bonds will be used to construct roadways from Horseshoe Canyon south on 94th Street to the property line, and west toward Pima Road and the associated utilities. Upon completion the roadways will be dedicated to the City.

The City of Scottsdale Municipal Property Corporation (MPC) issued \$30,570,000 of Excise Tax Revenue Forward Delivery Refunding Bonds, Series 2002, dated August 7, 2002, with an interest rate of 5.5%, to refund \$30,885,000 of Series 1992

Excise Tax Revenue Bonds with an average interest rate of 6.27%. The MPC refunded the bonds to reduce its total debt service payments over the next 10 years by approximately \$2,059,698 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$2,073,838.

On September 10, 2002, \$72,000,000 in refunding bonds were issued. Several maturities of the Series C (1992), Series D (1993), Series E (1994), Series 1994, Series 1995, Series 1997, Series 1998, Series 1999A, Series 1999, and Series 2001 General Obligation Bonds were refunded.

D. Joint Venture

The City participates with the cities of Phoenix, Glendale, Mesa, and Tempe in the multi-city Sub-Regional Operating Group (SROG). SROG was formed pursuant to the Joint Exercise of Powers Agreement (JEPA) in order to govern the construction, operation, and maintenance of jointly used sewage treatment and transportation facilities. The facilities include the 91st Avenue Wastewater Treatment Plant, the Salt River Outfall Sewer, the Southern Avenue Interceptor, and related transportation facilities. The City of Phoenix acts as lead agency and is responsible for the planning, budgeting, construction, operation, and maintenance of the facilities. In addition, the City of Phoenix provides all management, personnel, and financing arrangements and accepts federal grants on behalf of the participants. JEPA requires each city to pay for its share of the actual cash costs of operating and maintaining the facilities based on relative sewage flows and strengths.

The City records its share of SROG's cash operating expenses, and its equity in the joint venture in the City's Water and Sewer Utility Fund. For the year ended June 30, 2001, (the latest audited information available from SROG), the City's net investment in SROG was \$32,305,000. SROG's net cash operating expenses for the year ended June 30, 2001, was \$21,817,526, of which the City's share was \$2,570,559, or 11.8 percent. For the year ended June 30, 2002, the City paid SROG \$12,042,358 for capital contributions, \$241,167 for replacement reserve contributions (which increased the City's net investment in SROG), and \$2,327,130 for operating expenses.

The Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 2001 for the multi-

city Sub-Regional Operating Group (the latest SROG CAFR available) may be obtained from the Arizona Municipal Water Users Association, 4041 N. Central Avenue, Suite 900, Phoenix, AZ 85012.

E. Related Organization

The Industrial Development Authority (Authority) is a nonprofit corporation established by the City in 1984 to promote industry and develop trade by inducing manufacturing, industrial and commercial enterprises to locate and remain in Scottsdale. The Board of Directors of the Authority is appointed by the City Council; however, the City's accountability for the authority does not extend beyond making the appointments.

F. Los Arcos Multi-Purpose Facilities District

Component Unit Disclosure - The Los Arcos Multi-Purpose Facilities District was formed by voter approval in May 1999 under Arizona Revised Statute § 48-4201 and included the City of Scottsdale, the Town of Fountain Hills, and the Town of Guadalupe.

On June 4, 2002, the Scottsdale City Council voted not to appropriate funds to the District for the fiscal year 2002/03 and not to extend the City of Scottsdale's participation in the District beyond June 30, 2002. In addition, the Los Arcos Multi-Purpose Facilities District Board did not vote to extend the District beyond June 30, 2002. The City Council Resolution creating the district, an intergovernmental agreement between the City and the District, and related documents state that these actions have the effect of terminating the District.

While the District existed, each participating municipality appointed two board members. However, board voting was weighted by the municipality's population. As a result, the City of Scottsdale appointed a voting majority to the District's Board of Directors. Therefore, for financial reporting purposes, the District was a component unit of the City of Scottsdale.

The tax-levying public improvement district was formed to redevelop a parcel of real property in the southern part of the City with a project consisting of a major sports arena together with related retail/office/entertainment/residential facilities. Funding was proposed to be derived from a rebate to the District of 50% of the incremental state sales taxes

generated by the proposed project for a period of ten years following commencement of the redevelopment, subject to the City's agreement to make direct payments to the District or expend moneys in an equal amount for land, infrastructure or other improvements relating to the redevelopment project.

Negotiations with the proposed sports arena user were not successful and no further negotiations are contemplated for any sports arena of the magnitude that would be required in order to qualify for the District to assist financially in developing the property. While the City is continuing in its efforts to identify a use for the property and a developer to develop the property, the City no longer envisions development of the site with a project that would qualify for the state revenue funding mechanism provided by the District or the issuance of District bonds.

As a special purpose district and separate political subdivision under the Arizona Constitution, the District could have issued bonds independently of the municipalities. Even if it had issued bonds, the municipalities would have had no liability for District debt.

The District had no deposits or investments at June 30, 2002.

At June 30, 2002 the District had no fixed assets and no long-term debt.

G. Scottswater Company, Inc. Component Unit Disclosures

During the fiscal year 2001/02, the City Council approved the purchase of the Ford Motor Credit interest in the Central Arizona Project Treatment Plant at a price of \$6,725,000 and agreed to redeem the outstanding Industrial Development Authority (IDA) Bonds outstanding of \$13,260,000 with the purchase of Ford's interest and redemption of the IDA debt. The company was dissolved. Ford Motor Credit was a limited partner in the Scottsdale Water Service Company Limited Partnership. The closing date of the bonds was October 10, 2001 with redemption of the IDA Series 1984 bonds on November 1, 2001. The amount of bonds sold was \$10,500,000.

Scottswater Company, Inc. (the Company) was a nonprofit corporation established by the City Council in 1993 to act as the general partner in the Scottsdale Water Service Company Limited

Partnership (the Partnership.) The City Council appointed and approved the Company's Board of Directors and nominates Company officers. The Partnership itself managed and operated a Central Arizona Project water treatment plant that, in conjunction with other City facilities, provides water and water services to Scottsdale citizens. All expenses of operating the water treatment plant were paid by the Partnership, and reimbursed by the City via a service agreement with the Partnership. At December 31, 2001, the Partnership had a payable to the City in the amount of \$9,249.

The Company received 1 percent of the Partnership's annual income, and received 53 percent of the Partnership's net assets upon dissolution of the Partnership. Therefore, the financial information reported in the component unit column in the combined financial statements includes the consolidated financial data of the Company and the Partnership. This information, reported as a proprietary fund type, is presented in a separate column to emphasize that the Company is legally separate from the City.

The Company and Partnership had a fiscal year end of December 31; therefore, the component unit column presents financial statements as of and for the year ended December 31, 2001.

Cash and Investments

At December 31, 2001, the book value of the Company's deposits and the bank balance was \$9,249.

Risk category one cash balances, which are covered entirely through federal depository insurance funds, equaled \$9,249 at December 31, 2001. At December 31, 2001, there were no cash balances in risk category two or three.

Investments

The company did not have any investments at December 31, 2001.

Fixed Assets

The Company's recorded its land, land improvements, and equipment at cost. Land improvements and equipment were depreciated in accordance with the Internal Revenue Service (IRS) Accelerated Cost Recovery System using the straight-line method with recovery periods of 18 years for land improvements, and 5 years for equipment. U.S. generally accepted accounting principles require that the cost of an asset be depreciated over its useful life using the straight line method of depreciation. The difference

between the IRS Accelerated Cost Recovery System using the straight-line method, and straight line depreciation as required by generally accepted accounting principles, was immaterial, and therefore no adjustments have been made to the Company's fixed asset accounts. The excess purchase price over fair market value of assets acquired by the Company was amortized using the straight-line method over 15 years. All assets of the company were acquired by the City and are recorded as part of the City's Water and Sewer Enterprise funds at June 30, 2002.

Long-Term Debt

The Company's land, improvements and equipment were principally financed from the proceeds of tax-exempt variable interest rate industrial development bonds, with an original face amount of \$25,000,000, issued by the Industrial Development Authority of the City of Scottsdale, Arizona. The nonrecourse bonds, which are insured by the Municipal Bond Insurance Association, were payable in varying installments to July 1, 2008. These bonds paid interest at a variable rate and repriced monthly. Upon dissolution, the Company had outstanding bonds of \$13,260,000. The bonds were fully redeemed using proceeds from the City of Scottsdale 2001 MPC bonds in the amount of \$10,500,000, a cash contribution of \$2,912,348 from the Company and a good faith deposit from the City of \$210,000.

H. Retirement and Pension Plans

All full-time employees of the City, the Mayor, and City Council are covered by one of three pension plans. All full-time City employees, except public safety personnel, participate in the Arizona State Retirement System, a multiple-employer cost sharing pension plan. All public safety personnel participate in the Public Safety Personnel Retirement System, which is an agent multiple-employer pension plan. The Mayor and Council participate in the Elected Officials' Retirement Plan, a multiple-employer cost sharing pension plan. All three pension plans are administered by the State of Arizona.

Arizona State Retirement System

Plan Description

All full-time City employees (except public safety personnel) participate in the Arizona State Retirement System (System), a multiple-employer cost sharing defined benefit pension plan. The System was established by the State of Arizona to provide pension benefits for employees of the state and employees of participating political subdivisions and school districts. The System is administered in accordance with Title 38, Chapter 5, of the Arizona Revised Statutes. The system provides for retirement, disability, health insurance premium benefits, and death and survivor benefits. The Arizona State Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to Arizona State Retirement System, P. O. Box 33910, Phoenix, AZ 85067-3910, or by calling 1-800-621-3778.

Funding Policy

The Arizona Revised Statutes (A.R.S.) provide statutory authority for determining the employees' and employers' contribution amounts as a percentage of covered payroll. Employers are required to contribute at the same rate as employees. Although the statutes prescribe the basis of making the actuarial calculation, the Arizona legislature is able to legislate a contribution rate other than the actuarially determined rate. The actuarially determined contribution rate for the years ended June 30, 2002, 2001, and 2000 were 2.49% (2.00% retirement and .49% long-term disability) 2.66% and 2.66%, respectively, for both employers and employees. The City's contributions to the System for the years ending June 30, 2002, 2001, and 2000 were \$2,057,262, \$1,925,741, and \$1,745,319, respectively, equal to the required contributions for each year.

Public Safety Personnel Retirement System

Plan Description

All of the City's public safety personnel (police officers) participate in the Public Safety Personnel Retirement System (PSPRS), an agent multiple-employer defined benefit pension plan. PSPRS was established by Title 38, Chapter 5, Article 4 of the Arizona Revised Statutes to provide pension benefits for public safety employees of certain state and local governments. The PSPRS is jointly administered by the fund manager and 171 local boards. PSPRS provides retirement benefits, as well as death and disability benefits. The Public Safety Personnel Retirement System of the State of Arizona issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Safety Personnel Retirement System, 1020 East Missouri Avenue, Phoenix, AZ 85014 or by calling (602) 255-5575.

Funding Policy

The System is funded through a member contribution of 7.65% of gross payroll, an employer contribution set by an actuarial valuation expressed as a percent of gross payroll, and a distribution of the net earnings of the Fund. The City's current contribution rate is 5.37% of annual covered payroll, consisting of 11.64% for normal cost and (6.27%) for amortization of unfunded actuarial accrued liability. Contribution rates for 2001 and 2000 were 4.48 and 5.50%, respectively.

Annual Pension Cost

For 2001, the City's annual pension cost of \$1,133,347 for PSPRS was equal to the City's required and actual contributions. The required contribution was determined as part of the June 30, 2001 actuarial valuation using the individual entry-age actuarial cost method.

The actuarial assumptions include (a) a rate of return on the investment of present and future assets of 9.0% per year compounded annually, (b) projected salary increases of 6.5% per year compounded annually, attributable to inflation and other across-the-board factors, and (c) additional projected salary increases ranging from 6.5% to 9.5% per year, attributable to seniority/merit. Included in (b) is an inflation component of 5.5%. The actuarial value of PSPRS assets was determined using techniques that smooth the market value of assets over a 4-year period. PSPRS's unfunded accrued liability is being amortized as a level percent of projected payroll on an open basis. The remaining amortization period at July 1, 2001 was 20 years.

Three-Year Trend Information for PSPRS
(in thousands of dollars)

Fiscal Year Ending	Annual Pension Cost (APC)	Percentage of	
		APC Contributed	Net Pension Obligation
1999	\$ 1,137	100%	-
2000	1,198	100%	-
2001	1,133	100%	-

Elected Officials' Retirement Plan

Plan Description

The City's Mayor and Council participate in the Elected Officials' Retirement Plan (EORP), a multiple-employer cost sharing defined benefit pension plan. The EORP was established and is administered by the State of Arizona to provide pension benefits for state and county elected officials, judges, and certain City-elected officials. The fund manager of the PSPRS is also the administrator for the EORP. EORP provides retirement benefits, as well as death and disability benefits. The Elected Officials' Retirement Plan issues a publicly available financial report that includes financial statements and required supplementary information for EORP. That report may be obtained by writing to Elected Officials' Retirement Plan, 1020 East Missouri Avenue, Phoenix, Arizona 85014 or by calling (602) 255-5575.

Funding Policy

Covered employees are required by state statute to contribute an amount equal to 7 percent of gross salary. Incorporated city or town employers are required to contribute an amount sufficient to meet both the normal cost of a level-cost method attributable to the EORP, plus the amount required to amortize the unfunded accrued liability for the employer. Such amount is to be determined each year by actuarial valuation and paid as a level percent of compensation. The contribution requirements for plan members are established and may be amended by the Fund Manager, a five-member board. The City's rates for fiscal years ended June 30, 2002, 2001, and 2000 were 6.97%, 10.22% and 10.22%, respectively. The City's contributions to EORP for the years ending June 30, 2002, 2001 and 2000 were \$9,749, \$13,445, and \$11,370, respectively, equal to the required contributions for each year.

I. Other Post-Employment Benefits

In addition to the pension benefits described in H (above) the City provides an option of post-retirement health care benefits, in accordance with Chapter 14 of the City Code. At retirement, employees with medical leave accumulated prior to September 6, 1976 are eligible for payment of medical leave at one hundred percent cash value at current rate of pay. Employees hired before July 1, 1982 can elect to receive cash equal to fifty percent of the first five hundred twenty hours of unused medical leave plus twenty-five percent of all hours in excess of five hundred twenty. The conversion rate is the employee's average hourly base pay rate for the five years immediately preceding retirement. Any retiring employee with 300 or more hours of accumulated medical leave, who chooses to remain on the city medical plan, may elect to apply the value of the sick leave to the employee's portion of the health care premiums, up until age 65. The value of the accumulated medical leave is calculated at the employee's hourly rate of pay at the time of retirement.

The number of participants during fiscal year 2001/02 was 56. The projected liability, as of June 30, 2002, for medical conversion was \$7,439,623. Of this liability, \$5,999,335 is considered payable in greater than one year and is not reflected as a current expenditure in the governmental fund statements. The projected liability is based on a January 1, 2002 actuarial valuation, as adjusted, based on the actuarial projection that for every additional 100 participants, future normal costs increase by an additional 3% per annum.

Significant actuarial assumptions of the January 1, 2002 actuarial valuation include a) mortality rates based on the 1983 Group Annuity Mortality Table set back 1 year for males and no set back for females, b) interest compounded 5.0 percent annually, c) salaries increase at a rate of 5.5 percent per annum, d) projected unit credit cost method based on participant data as of January 1, 2002.

Nonmajor Governmental Funds

SPECIAL REVENUE FUNDS

Special Revenue Funds are established to finance particular activities and are created out of receipts of specific taxes or other earmarked revenue. Such funds are authorized by statutory or charter provisions to pay for certain activities with some form of continuing revenue.

Highway User Fuel Tax Fund

This fund receives and expends the City's allocation of the Arizona Highway User Revenue tax and other transportation related revenue. The amount available to each city is allocated on a population basis, which is determined by the latest federal census. These monies must be used for street construction, reconstruction, maintenance or transit.

Community Development Fund

This fund receives and expends the City's Community Development Block Grant revenues. The amount of the grant is awarded annually by the U.S. Department of Housing and Urban Development (HUD) upon application for funding by the City. Community Development Block Grant revenues may be used only for those projects approved in the grant budget and are subject to agency expenditure guidelines.

Home Fund

This fund receives and expends monies from the Maricopa County Home Consortium. Expenditures are made to provide affordable housing, expand the capacity of nonprofit housing providers, strengthen the ability of local governments to provide housing and leverage private-sector participation in housing.

Grants Fund

This fund receives and expends the City's grant revenues. The amount of grants received is generally based upon application to granting agencies by the City and upon availability of funding by the grantors. Grant revenues may be used only for the stated purpose in the approved grant agreement and are subject to grantor expenditure guidelines.

Section 8 Fund

This fund receives and expends the City's Section 8 Housing revenues. Assistance contracts are awarded by the U.S. Department of Housing and Urban Development (HUD) upon application by the City, and covers a five year period. Budgets are approved annually by HUD. Section 8 revenues may be used only for assistance approved by HUD and are subject to agency expenditure guidelines.

Preserve Privilege Tax Fund

This fund receives a .2% transaction privilege tax revenue approved by the voters to purchase property in the McDowell Sonoran Preserve. Revenues are transferred to Capital Projects Funds for land purchase or are used for debt service payments for land contracts.

Transportation Privilege Tax Fund

This fund receives a .2% transaction privilege tax approved by the voters for transportation purposes. Revenues are transferred to Capital Projects to fund transportation related improvements.

Special Programs Fund

This fund receives monies from a variety of sources. The monies are required to be expended for specific purposes related to the source of the revenue.

DEBT SERVICE FUNDS

These funds record the accumulation of resources for, and the payment of, long-term debt principal and interest not serviced by the proprietary funds.

Municipal Property Corporation Fund

This fund accounts for the principal and interest requirements of the City's Municipal Property Corporation bonds. Financing is provided primarily by transaction privilege tax.

Special Assessments Fund

This fund accounts for the principal and interest requirements of special assessment bonds. Financing is provided by special assessment levies against the benefited property holders.

Community Facilities Districts Funds:

Scottsdale Mountain Community Facilities District Fund

McDowell Mountain Community Facilities District Fund

DC Ranch Community Facilities District Fund

Via Linda Road Community Facilities District Fund

These funds account for the principal and interest of general obligation bonds issued by community facilities districts. Although these bonds are *not* obligations of the City, generally accepted accounting principles indicate that the bonds should be disclosed herein.

Scottsdale Preserve Authority Fund

This fund accounts for the principal and interest requirements of excise tax revenue bonds issued by the Scottsdale Preserve Authority. Financing is provided by a .2 percent transaction privilege tax.

CAPITAL PROJECTS FUNDS

Capital Projects Funds account for the resources used to acquire, construct and improve major capital assets, other than those financed by proprietary funds. Capital Projects Funds allow the City to compile project cost data and demonstrate that legal or contractual requirements regarding the use of the resources are fully satisfied.

Municipal Property Corporation Bond Fund

Accounts for the proceeds of Municipal Property Corporation bonds issued for acquisition or construction of capital improvements.

Preserve Privilege Tax Fund

Accounts for the May 23, 1995, voter-approved .2 percent transaction privilege tax and the expenditure of proceeds from the sale of 1999 voter-approved general obligation bonds dedicated to acquisition of land within the McDowell Sonoran Preserve.

Transportation Privilege Tax Fund

Accounts for the authorized .2 percent transaction privilege tax dedicated to transportation capital improvements. Voters approved the tax on November 7, 1989.

Community Facilities Districts Funds:

McDowell Mountain Community Facilities District Fund

DC Ranch Community Facilities District Fund

Accounts for the proceeds issued by community facilities districts to acquire and improve public infrastructure in specified areas.

Explanation of Differences:

The Budget to GAAP Difference in the "fund balance" is related to the timing on when items are recognized on a budget basis versus a GAAP basis. (See Section III in notes to financial statements for a description of the City's budgetary accounting method.)

INTERNAL SERVICE FUNDS

Internal Services Funds are established to finance and account for services and/or commodities furnished by one department or unit to other departments or units within the City.

Fleet Management Fund

The Fleet Management Fund is responsible for the maintenance and operations of various automobiles and other equipment of the City. Revenue to this fund is derived from charges to user programs.

Self-Insurance Fund

The Self-Insurance Fund is responsible for the demonstration of the City's self-insurance program. Revenue to this fund is derived from charges to user programs. This fund provides coverage of unemployment, self-insured benefits, workmen's compensation, property, and liability claims.

FIDUCIARY FUNDS

Private Purpose Trust Funds and Agency Funds administer resources received and held by the City as the trustee or as the agent for others. Use of these funds facilitates the discharge responsibilities placed upon the governmental unit by virtue of law or other similar authority.

Handicap Scholarship Fund

This fund accounts for monies received and expended for college scholarships for individual with handicaps.

Scottsdale Memorial Hospital Redevelopment Fund

This fund accounts for monies received and expended for the redevelopment of Scottsdale Memorial Hospital.

Family Self-Sufficiency Agency Fund

This fund accounts for monies in escrow for Section 8 Housing Program participants.

Retainage Escrow Agency

This fund accounts for monies held in escrow for construction contract retainage payable.

OTHER SUPPLEMENTARY INFORMATION

Debt Requirements

The supplemental debt service schedule provides a comprehensive overview of the City's total debt. The Schedule of Changes in Long-Term Debt for the current fiscal year presents by debt type without regard to fund classification the City's debt.

Debt issued by community facilities districts is included for full disclosure although such debt is not legally an obligation of the City.

Source: AZ Department of Revenue/Property Tax Division, Abstract of the Assessment Roll 2001

Real estate and improvements are combined in the primary valuation.

Under Arizona law, there are two property valuation bases: PRIMARY (P) and SECONDARY (S). The primary (limited assessed valuation is used when levying for maintenance and operation of cities, school districts, community college districts, counties, and the state. The secondary (full cash) assessed valuation is used when levying for debt retirement, voter-approved budget overrides, and maintenance and operation of special service districts.

Beginning in 2001, Real Estate and Improvements are combined in the secondary valuation of the improvements total.

The above classes were revised by Maricopa County for 2001 pursuant to HB 2634. Prior years were restated for comparison.

A statewide reappraisal program assesses property values by usage classification on varying percentages of actual cash value. These percentages are as follows:

Property Class:	Percentage
1. Mines, Utilities, Telecommunications, Comm. & Industrial	25%
2. Agricultural & Vacant Land	16%
3. Residential - Owner Occupied	10%
4. Residential - Leased & Common Areas	10%
5. Railroads, Private Car Cos., Airlines	21%
6. Historic, Non-commercial Special Use	5%
7. Commercial Historic	25%
8. Residential Historic	10%
9. Improvements on Gov Property	1%

Source: The City of Scottsdale's Property Tax Auditor, as obtained from the Arizona Department of Revenue, CVP Department and the 2001 Maricopa County Treasurer's Roll.

The Salt River Project Agricultural Improvement and Power District's (SRP) assessed valuation is not reflected in the total assessed valuation of the City. SRP is subject to a "voluntary contribution" in lieu of ad valorem taxation. The 2001/02 secondary assessed valuation of the Salt River Project within the City is \$17,102,624. The estimated secondary in lieu contribution is \$202,864.

Under Arizona law, public auctions are held in January of each year at which disposition of delinquent assessments is made. By bid, special lien rights to properties against which due but unpaid assessments exist are offered in return for payment of all outstanding amounts plus penalties. In the event there are not interested bidders, the delinquency must be satisfied from budgetary funds of the sponsoring governmental unit. Thus, in January of each year, all outstanding delinquent assessments are collected. The amounts shown in this column represent unpaid balances of the June 1 semi-annual interest installment only.

**Ratio of Net General Obligation Bonded Debt to Assessed Value
and Net Bonded Debt Per Capita**

⁽¹⁾ Under Arizona law, cities can issue general obligation bonds for purposes of water, sewer, light, parks, and open space purposes, but outstanding bonds issued for such purposes may not exceed 20 percent of the City's net secondary assessed valuation. Outstanding general obligation bonded debt for all other purposes may not exceed 6 percent of the city's net secondary assessed valuation.

⁽²⁾ The computation of legal debt margins excludes premium on capital appreciation bonds.

⁽³⁾ General obligation bonds of community facilities districts are not subject to or included in this computation since they are not bonds of the City of Scottsdale.
