Transmittal Letter

For the Fiscal Year
Ended June 30, 2003

City of Scottsdale
Scottsdale, Arizona

September 12, 2003

The Honorable Mayor, City Council,
And Citizens of the City of Scottsdale, Arizona

The Comprehensive Annual Financial Report of the City of Scottsdale (the City), Arizona, for the fiscal year ended June 30, 2003, is submitted in accordance with Article 6, Section 14, of the City Charter. This report was prepared by the City's Accounting and Budget Divisions, in conformity with U.S. generally accepted accounting principles (GAAP) and audited in accordance with U.S. generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the City of Scottsdale. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Scottsdale has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Scottsdale's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Scottsdale's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Scottsdale's financial statements have been audited by Cronstrom & Trbovich, PC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Scottsdale for the fiscal year ended June 30, 2003, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Scottsdale's financial statements for the fiscal year ended June 30, 2003, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of Scottsdale was part of a broader, federally mandated “Single Audit” designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government’s internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of Scottsdale’s separately issued Single Audit Report.

GAAP require that management provides a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Scottsdale’s MD&A can be found immediately following the report of the independent auditors.

CITY OF SCOTTSDALE PROFILE

Scottsdale is centrally located in Maricopa County, Arizona, with its boundaries encompassing an area approximately 184.6 square miles. Lying at an elevation of 1,260 feet above sea level, the City averages 314 days of sunshine and 7.74 inches of rainfall per year, with the average minimum and maximum temperatures ranging from 55.7 degrees to 84.6 degrees, respectively. The City is bordered to the west by Phoenix, the state capital, by Tempe to the south, and by the Salt River/Pima Maricopa Indian Community to the east. Scottsdale, together with its neighboring cities, forms the greater Phoenix metropolitan area, which is the economic, political, and population center of the state.

Scottsdale was founded in the 1800’s when retired Army Chaplain Major Winfield Scott homesteaded what is now the center of the City. The City incorporated in 1951 and the City Charter, under which it is presently governed, was adopted in 1961. The City has experienced significant increases in population, with the 1950 census reporting 2,032 residents. The City’s 1990 census was 130,069. The population grew to 168,176 in October 1995 and is estimated to grow to approximately 216,640 by January 2003 and an estimated 221,033 by January 2004.

Scottsdale operates under a council-manager form of government as provided by its Charter. The Mayor and six City Council members are elected at large on a non-partisan ballot for a four-year term. The City Council appoints the City Manager, who has full responsibility for carrying out Council policies and administering City operations. The City Manager, in turn, appoints City employees and department General Managers under service procedures specified by Charter. City service departments provide a full range of services including police and fire protection, sanitation/solid waste service, water and sewer services, construction and maintenance of streets, recreational activities, and cultural events.

The annual budget serves as the foundation for Scottsdale’s financial planning and control. The City Council formally adopts the budget and legally allocates, or appropriates, available monies for the General Fund, Highway User Fuel Tax Special Revenue Fund, Preserve Privilege Tax Special Revenue Fund, Transportation Privilege Tax Special Revenue Fund, Debt Service Funds (except for the Community Facilities Districts Debt Service Funds), and Enterprise Funds. Therefore, these funds have appropriated budgets, and budget to actual information is presented. On or before the second regular Council meeting in May, the City Manager submits to the City Council a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. Two public hearings are held prior to the budget’s final adoption in order to obtain taxpayer comments. At the first regular Council meeting in June, the budget is legally enacted through passage of an ordinance. The ordinance sets the limit for expenditures during the fiscal year. Additional expenditures may be authorized for unanticipated and/or inadequately budgeted events threatening the public health or safety as prescribed in the State Constitution, Article 9, Section 20. During 2002/03, there were no supplemental budgetary appropriations to the original budget.

The expenditure appropriations in the adopted budget are by department. The maximum legal expenditure permitted for the fiscal year is the total budget as adopted. Departmental appropriations may be amended during the year. Upon the recommendation of the City Manager, and with the approval of the City Council: (1) transfers may be made from the appropriations for contingencies to departments; and (2) unexpended appropriations may be transferred from one department to another. Management control of budgets is further maintained at a line item level within the department.

FACTORS AFFECTING THE CITY'S FINANCIAL CONDITION

At the time this transmittal letter was written, the national and state leading economic indicators continued to fluctuate, underscoring a tenuous economic recovery. Some factors hinting at the prospects of better economic growth include slowly rising consumer confidence, modest increases in retail sales, a \$330 billion dollar federal tax stimulus package, low interest rates, and a weakened dollar creating enhanced opportunities for the export of US goods. However, factors suggesting a tepid economic recovery include a poor labor market, rising unemployment, declining factory orders, and a lack of pent-up consumer demand for big ticket items due to 30-year historic lows in mortgage rates and zero-percent financing incentives on motor vehicles.

The City of Scottsdale continues to benefit from favorable conditions, including a stable, diversified economic base and a desirable location for work, destination, and living. Low commercial vacancy rates, declining mortgage interest rates and the attractive developments within Scottsdale continue to bring high-end residential growth and commercial development. Commercial successes, such as Scottsdale Airpark, can be expected to continue because of the City's commitment to targeted recruitment efforts that focus on industry segments that complement the existing business mix, including corporate headquarter and regional offices, high-tech, research and development, bio-med, and business and professional services.

From a long-term perspective, the nation's economy may be significantly affected by many factors, including geopolitical instability, a growing national debt, demands on Social Security as baby-boomers near retirement, and an upcoming presidential election. On the local front, the City of Scottsdale will face critical decisions regarding redevelopment and in-fill projects as the City reaches build out; a gradual decline in population growth, which will impact distributions of state-shared revenues; a shifting of the City's economic base, as ample tax revenues derived from new growth will no longer be available; and intense competition from other communities in the region. The following categories represent key factors affecting Scottsdale's economic and financial success.

Local Economy

Retail Sales - Scottsdale's largest revenue source is sales tax generated from a well-balanced variety of business categories including automotive, construction, food stores,

hotels/motels, department stores, retail stores, restaurants, utilities, and rentals. For the second consecutive year, the City of Scottsdale sales tax posted negative year-over-year growth in FY 2002/03, declining approximately 0.6 percent. This decline is approximately half a percent less than the 1.0 percent decrease in FY 2001/02. During FY 2002/03, shaky consumer confidence, rising unemployment, declining factory orders, and the Iraqi war all contributed to the continued economic doldrums. Of positive note, certain sales tax categories exhibited growth in FY 2002/03, including food stores up 3.2 percent, major department stores up 5.0 percent, and restaurants up 5.2 percent from the previous year.

Residential Activity - Residential property value in Scottsdale increased to \$19.2 billion in FY 2002/03, up approximately 5.5 percent from \$18.2 billion in FY 2001/02. The number of dwelling units for residential construction increased slightly to 2,046 in FY 2002/03, up approximately 1.3 percent from 2,019 in FY 2001/02; respective residential construction value decreased to \$400.5 million in FY 2002/03, down approximately 11.7 percent from \$453.4 million in FY 2001/02.

Commercial Activity - Commercial property value in Scottsdale increased to \$7.3 billion in FY 2002/03, up approximately 9.0 percent from \$6.7 billion in FY 2001/02. The number of commercial construction permits decreased to 2,215 in FY 2002/03, down approximately 10.1 percent from 2,464 in FY 2001/02; respective commercial construction value decreased to \$199.2 million in FY 2002/03, down approximately 19.5 percent from \$247.4 million in FY 2001/02.

Vacancy Rates - Scottsdale's citywide vacancy rate was 16 percent at the end of FY 2002/03, which was below the Valley-wide average. The weighted average rent was 8.6 percent higher than the Valley-wide average, evidence that Scottsdale remains an attractive city to conduct business. The forecasted vacancy rate for FY 2003/04 indicates improvement, in line with more positive economic outlook.

Job Growth - The City of Scottsdale recruited over 20 new target firms resulting in over 2,000 new jobs in FY 2002/03 with an average annual salary of \$62,000. The City benefited from population growth as well as higher income levels due to higher wage jobs. Major new

employers to announce moves to Scottsdale in FY2002/03 include DHL Worldwide Express, Spectrum Financial Group, National Bank of Arizona-Corporate Headquarters, Del Webb Group, Atronic Americas, and Centex Homes.

Employment -Scottsdale is creating jobs faster than it is adding to its labor force and thus remains a net importer of labor. This creates employment opportunities for Scottsdale residents and creates a significant business component to the local tax base. Scottsdale's current unemployment rate of 3.7 percent is lower than state and metropolitan Phoenix area levels and is lower than its 2002 unemployment rate of 4.0 percent.

Tourism- Tourism is one of Scottsdale's largest industries and is a significant contributor to the City's economy. Numerous resorts, country clubs, and convention facilities, as well as many hotels and motels, provide nearly 10,000 guest rooms and offer recreational facilities including golf courses, tennis courts, and swimming pools. More than 2,500 retail shops, boutiques, and galleries are located throughout the City and a selection of almost 400 restaurants is available. These services and facilities, complemented by the mild winter climate, have made Scottsdale a popular vacation spot for tourists and winter visitors.

Hotel occupancy tax receipts increased slightly by approximately 0.1 percent in FY 2002/03 compared to almost a 11.8 percent decrease in FY 2001/02. The current assessment is that tourism will remain flat during the remaining summer months with a modest recovery beginning during peak season. The local tourism industry continues to exhibit signs of moderate recovery as leisure and business travelers return to Scottsdale; however, hotel room rates remain soft as hoteliers offer discounts to spur demand. Therefore, while the long-term outlook for local tourism remains cautiously optimistic, slower hotel occupancy tax growth is expected relative to historical levels.

Long-term Financial Planning

The City's responsiveness to emerging economic challenges and its careful long-range planning have been key factors in Scottsdale's fiscal health. Despite actual FY 2002/03 revenues that lagged behind adopted budget estimates, the City recognized the trend early enough to cut expenditures without affecting services. The

Mayor and City Council have co-created a mission statement as well as six broad goal categories, which represent key interests and priorities of the Mayor, City Council, and reflect their constituency's suggestions and expectations for the future. Council's approvals of these Mission and Goal statements enable staff to create strategic plans and a programmatic budget that directly responds to the Council's and community's goals and expectations. Plans articulated in the 2003/04 Budget and Five Year Balanced Financial Plan continue to support basic government services (roads, water, sewer, solid waste management, public transit, parks and recreation, police, fire, etc.), while also addressing the City Council's broad goals and citizen expectations for the community. The following are the mission and broad goals identified by Scottsdale's Mayor and City Council:

Mission - It is the mission of the City of Scottsdale to build citizen trust by fostering/practicing open, accountable, and responsive government; to provide quality services; to provide long-term prosperity; to preserve Scottsdale's unique southwestern character; to plan and manage growth in harmony with its desert surroundings; and to promote livability by enhancing and protecting its neighborhoods. Quality of life for residents and visitors shall be the paramount consideration.

Broad Goals

- A. Enhance and protect a diverse, family-oriented community where neighborhoods are safe, protected from adverse impacts, and well maintained.
- B. Preserve the character and environment of Scottsdale.
- C. Provide for the safe, efficient and affordable movement of people and goods.
- D. Position Scottsdale for short and long-term economic prosperity by stabilizing, promoting, strengthening, stimulating, expanding, and diversifying our economic resources.
- E. Ensure Scottsdale is fiscally responsible and fair in its management of taxpayer money and city assets, and coordinates land use and infrastructure planning within the context of financial demands and available resources.
- F. Make government accessible, responsive, and accountable so that pragmatic decisions reflect community input and expectations.

Strategic Financial Plan

Scottsdale’s financial plan requires many elements working in concert with one another. Some of these financial plan elements are financial resource planning, multi-year budget planning, strategic capital improvement project planning and debt management, all of which are further identified below. Currently, due to the tenuous economic recovery, Scottsdale’s financial forecast includes very modest revenue growth, potential for State reductions of revenue sharing, and continued increases in demand for City services such as police, fire, transportation and social services. Financial Services management role will be to maintain and enhance financial plan elements and ensure the continued financial stability for the City of Scottsdale.

Financial Resource Planning -

Strategic financial planning begins with determining the City’s fiscal capacity based upon long-term financial forecasts of recurring available revenues. Financial forecasts coupled with financial trend analysis techniques and careful reserve analysis help preserve the fiscal well being of Scottsdale. Strategic financial capacity planning is a critical element to reach long-term financial stability goals and to determine special financial needs for critical objectives of the City Council.

Multi-Year Budget Planning - Multi-year budget planning encompasses long-range operating expenditure plans (including the operating impacts of planned capital projects), which are linked to community expectations and broad goals of the City Council. The multi-year approach provides a better opportunity for staff to change its financial paradigm from what do we need this year to how do we accomplish our service objectives over-time, given our financial capacity. While the City is required to adopt an annual budget to meet State statutory requirements, Scottsdale builds a financial plan for the next five years to help anticipate future impacts and ensure achievement of City objectives.

Strategic Capital Improvement Project

Planning - Scottsdale Capital Improvement Projects are planned for five or more years and analyzed using City specific prioritization criteria. The operating cost impacts of projects

are also planned and considered in developing future operating budget plans. Projects with significant operating impacts are carefully timed to avoid contingent liabilities, which future operating resources cannot meet. Pay-as-you-go funding sources are also conservatively estimated to avoid over-committing to capital construction using revenues that are not certain. To the extent debt financing is used and/or required capital project plans are sized to conform to existing debt management policies. The table below estimates the operating costs attributable to the Five Year Capital Improvement Plan:

Estimated Operating Impacts Attributable to Capital Projects For the five years ending June 30, 2008 (In Thousands of Dollars)	
Community Facilities	\$ 11,048.0
Preservation	153.4
Public Safety.....	4,194.2
Service Facilities	3,160.3
Transportation Improvements	10,625.9
Water Resources	12,241.5
Total Estimated Operating Impacts	\$ 41,423.3

Debt Management - Scottsdale has a financial policy that prohibits the issuance of debt for operating expenses. All debt issuances by the City; therefore, are used for financing capital infrastructure or long-lived costly assets. Each debt issuance is evaluated against multiple financial policies, including debt service as a percent of operating expenditures, tax and revenue bases for the repayment of debt, the overall debt burden on the community, statutory limitations, and market factors affecting tax-exempt interest costs. For each debt issuance, a long-term analysis is performed of the financial (debt) capacity that fits the ability and willingness of the community to pay for the capital projects. Every additional \$1 million in new debt costs just under \$100,000 in annual debt service operating expenses when amortized over 20 years. Sizing of the City’s Capital Improvement Plan based on debt capacity, in conjunction with conservatively estimated pay-as-you-go revenues, will help stabilize per capita debt and lower annual debt service costs to the City over the long-term.

Cash Management Policies and Practices

Temporarily idle cash during the year, excluding the Municipal Property Corporation (MPC) and the Community Facilities Districts, was primarily invested in obligations of the United States Treasury and its agencies. Cash needed for normal operations was also invested in the State Treasurer's Local Government Investment Pool, as well as mutual funds consisting solely of United States Government Treasury and Agency securities. The City utilizes a pooled cash concept in order to invest greater amounts of cash at one time and therefore; receives more favorable interest rates. The average yield on pooled investments for FY 2002/03 was 2.9 percent and the average balance was \$454.6 million.

The City of Scottsdale's investment policy requires investment of the City funds at the highest available interest rate while assuring that all monies are fully secured with emphasis on safety of principal, liquidity, and financial return on principal, in that order.

Risk Management

The City of Scottsdale is exposed to various risks of loss related to public, property, and airport operator's liability, as well as employee workers' compensation exposures. Public liability includes public officials' errors and omissions, automobile, and general liability areas of coverage. The City is self-insured for the first \$2,000,000 of public liability, the first \$100,000 of property insurance, and the first \$600,000 of workers' compensation claims. Coverage in excess of these respective amounts is provided through the purchase of commercial insurance. During the fiscal year ending June 30, 2003, there was significant reduction in excess liability insurance coverage limits due to a very restricted and expensive global insurance marketplace, due in large part to the terrorist attacks of September 11, 2001. As a result, overall liability coverage limits were reduced from a total of \$75 million to \$30 million to stay within budget. As for claim expenditures, settlements for each of the past three fiscal years have not exceeded the City's excess insurance coverage amounts for any claims.

Scottsdale has an aggressive safety program that promotes on-the-job safety practices focusing on risk control techniques designed to minimize accident-related losses. In addition to

preventative practices geared to work unit functions, the Risk Management division reviews every claim in order to develop and implement prevention techniques that minimize the City's exposures to similar incidents.

Post-Employment Benefits

The City of Scottsdale participates in the Arizona State Retirement System, the Public Safety Personnel Retirement System, and the Elected Officials' Retirement Plan. In addition, the City provides an option of post-retirement health care benefits in accordance with Chapter 14 of the City Code. At retirement, employees with medical leave accumulated prior to September 6, 1976 are eligible for payment of medical leave at 100 percent cash value of their current pay rate. Employees hired before July 1, 1982 can elect to receive cash equal to 50 percent of the first 520 hours of unused medical leave plus 25 percent of all hours in excess of 520 hours. The conversion rate is the employee's average hourly base pay rate for the 5 years immediately preceding retirement. Any retiring employee with 300 or more hours of accumulated medical leave who chooses to remain on the city medical plan may elect to apply the value of the sick leave to the employee's portion of the health care premiums, up to age 65. The value of the accumulated medical leave is calculated at the employee's hourly rate of pay at the time of retirement. The number of participants during FY 2002/03 was 75 and is expected to grow as more employees reach retirement age. The projected liability for this benefit was actuarially determined on January 1, 2003 and was used to calculate the liability recorded in the financial statements. (See Note V of the Notes to the Financial Statements for additional information on this benefit).

MAJOR INITIATIVES AND SERVICE EFFORTS AND ACCOMPLISHMENTS

During FY 2002/03, Scottsdale continued to invest in basic government service programs and amenities that define the special character of the City. These programs and amenities will assist in maintaining Scottsdale as a "livable" community for future generations.

Service efforts to shape and maintain Scottsdale as a sustainable community that were made in the past year included enhancements to the quality citizen services, contributions to environmentally and fiscally sound

infrastructure, and contributions toward building and maintaining a sustainable economic base.

The following are some department service efforts and accomplishments for FY 2002/03.

Police

Implemented a new photo enforcement contract with Digital Camera Systems in 4 speed enforcement vehicles and 6 red light camera systems, thereby continuing the Focus On Safety program to reduce vehicle accidents.

Opened the Family Advocacy Center to serve as a multidisciplinary facility for victims of child abuse, sexual assault, domestic violence, and elder abuse. The facility provides a place where victims in crisis receive a full spectrum of services in a victim friendly environment, thereby reducing victim trauma.

The Department's Crime Scene Unit was the first unit in Arizona to achieve national accreditation from the American Society of Crime Laboratory Directors' Laboratory Accreditation Board. Only about 12 other accredited crime scene units throughout the country have received this prestigious accreditation.

Implemented an Internet reporting system that offers victims of certain crimes with an easier and more efficient means of filing a police report.

Fire

Completed construction and manned two new City fire stations located at 16701 North 100th Street (Station 817) and 27777 North Alma School Road (Station 818). The new permanent facility for the Scottsdale Airport (Station 812) is under construction and will be open this fiscal year. Another fire station (Station 827) will be located on the northwest corner of Pima and Ranch Roads.

All first responding fire units were equipped with new portable thermal imaging cameras which are some of the most technologically advanced firefighting tools available. Thermal imaging cameras allow firefighters to "see" heat through walls and smoke-filled rooms making it much quicker and easier to find trapped persons or to locate the source of a hidden fire.

Financial Services

The three major credit rating agencies, Fitch Ratings, Moody's Investors Service, and Standard and Poor's Ratings Services, have assigned ratings of "AAA", "Aaa", and "AAA" respectively on outstanding general obligation bonds. These are the highest possible ratings.

Issued \$72 million of General Obligation refunding bonds to take advantage of low interest rates and the City's high credit ratings. This resulted in \$3.2 million debt service savings.

Transportation

Scottsdale's first Systematically Managed Arterial (SMART) roadway along Indian School Road became operational in August 2002.

Five Traffic Impact Mitigation Analyses were completed under the develop-funded/City-controlled program to uniformly assess the impact of development on the City's circulation system.

Community Services

Completed the renovation of Eldorado Aquatic and Fitness Center. This \$5.4 million project added a new pool facility with slide, beach entry, therapy pool and 13 lap lanes. A 1,200 square foot fitness facility was also added to this southern neighborhood amenity.

Completed Sonoran Hills Neighborhood Park adjacent to Paradise Valley School District Pinnacle Peak School. Amenities include: tennis courts, one unlit ball field, playground, and picnic facilities.

Completed the Scottsdale Ranch Park Desert Garden, the last remaining parcel at Scottsdale Ranch Park. A \$250,000 Arizona Heritage Grant and a \$190,000 donation from the Scottsdale Ranch Community Association helped to fund this unique and welcomed project.

Installed PC Reservation System, an automated system for time management and reservation of public computers, in all four libraries. This system impartially manages and monitors usage and provides excellent statistics on computer usage for 125 public access computers in the library system, as well as freeing staff to work with library customers.

Information Systems

Completed an external evaluation of the City's current technology position and strategic plan.

Implementation of the Police Incident Reporting Program (PIRP) – This program utilizes a mobile police reporting system that facilitates electronic compilation of police reports, thereby replacing manual/paper processes. Benefits include improved data quality and simplified report editing. PIRP will be deployed in over 150 police vehicles.

Implementation of a mobile asset management system for Water Resources - This application automates processes surrounding water-related customer service requests, preventative maintenance, work scheduling, and map retrieval/display. Deployment will encompass over 50 Water Resources service vehicles.

Security Enhancements - This effort included migration of the City's computing environment to a new state-of-the-art suite of virus software. This new environment provides the City with three new levels of security against computer viruses. In addition, a number of new security enhancements were implemented, including strengthened passwords, increased desktop security, intrusion monitoring and alert systems, and ongoing organizational outreach with City staff regarding the importance of security.

Planning and Development Services

The 6-month Downtown Fee Reduction program resulted in 31 properties receiving fee discounts. This program was implemented to assist downtown property owners in financing renovation projects. Additionally, Staff proactively assisted 98 properties with researching and scheduling proposed revitalization and renovation projects. This focused approach is designed to provide downtown property owners with one-on-one support for any and all questions related to downtown reinvestment.

The Current Planning Division converted the Planning Commission agenda packets to an electronic format and posted them to the City's web site for greater community access. The Development Review Board and Board of Adjustment packets will also be making the transition to the electronic packet format, resulting in continued enhanced community awareness.

To further enhance customer service, the Department provided After-Hours Inspections and an Expedited Review process. Revenues from the After-Hours Inspections totaled \$13,468 and revenues from the Expedited Review process totaled \$321,693. These revenues offset the Department's entire overtime expenses for the fiscal year, with the remaining funds going directly to the City's General Fund to support other General Fund activities.

Preservation

Acquired an additional 322 acres for inclusion in the McDowell Sonoran Preserve.

Applied to purchase 399 acres of State Trust land within the planned McDowell Sonoran Preserve. This property was reclassified by the State Land Commissioner as suitable for conservation under the Arizona Preserve Initiative. Acquisition is pending for FY 2003/04.

Water Resources

The City of Scottsdale increased the use of surface water used to meet potable water demands from slightly over half of demand (53%) to over two-thirds (67%) of water supplied in 2002 and reduced reliance on groundwater.

Design of the \$60 million Chaparral Water Treatment Plant has been completed. Upon completion of the public bidding process, construction is expected to begin in November 2003, with completion scheduled for January 2006. This plant will utilize advanced technology to provide high quality drinking water to the southern neighborhoods of the City.

Water Resources completed the federally mandated Vulnerability Assessment of the water system in March 2003. This assessment identified potential areas for improving the security of the system. In order to complete the Assessment, the Department obtained a \$115,000 grant from the USEPA which was used to retain a professional consultant who assisted in completing the assessment.

Municipal Services

Completed numerous capital improvement projects including: Pima Road Water Transmission Main – Pinnacle Peak Road to Cave Creek Road – a multiple construction

contract project involving the construction of large diameter potable water mains, pump station and reservoir expansions spanning a total length of nine miles and requiring a total budget of approximately \$24 million. Completion of this project enables the City to distribute treated surface water to all northern areas and eliminates the need for constant pumping of dwindling groundwater resources.

Issued a contract to provide required data and collection services to complete the City's development of a state-of-the-art pavement management system. All commuter-class streets will be surveyed and analyzed for current condition and maintenance needs with information available through sophisticated technology, which will enable development of cost-effective, annual maintenance plans and budgets.

Fleet management completed deployment of a new fuel management system. The new system can calculate total cost per mile and miles per gallon for individual vehicles, provide exception reporting, initiate fuel reordering, and reconcile fuel usage with inventory levels. The final product is improved accountability and better environmental health reporting.

The Green Waste Pilot Program diverted 5,665 tons of green waste material from the landfill to a mulching program. This represents 38.3 percent of the brush and bulk items collected. A formal agreement for this program is anticipated in FY 2003/04.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Scottsdale for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2002. This was the 30th consecutive year that the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR, which must satisfy both Generally Accepted Accounting Principles and applicable legal requirements. This Certificate of Achievement is rewarded on a yearly basis. We believe that our current comprehensive annual financial report

continues to meet the Certificate of Achievement Program's requirements and we are submitting this year's CAFR to the GFOA to determine its eligibility for another Certificate of Achievement.

The City of Scottsdale received the Distinguished Budget Presentation Award for the fiscal year beginning July 1, 2002 from the GFOA for our conformity in budget presentation. We believe that our current budget continues to conform to the program requirements and expect to receive this award for the fiscal year beginning July 1, 2003. In addition the City's AAA ratings from all three rating agencies on uninsured general obligation bonds as provided above were affirmed by the rating agencies in September 2003 in conjunction with the issuance of general obligation refunding bonds. (See the Management Discussion and Analysis for additional information on the bond ratings by bond type.)

The preparation of this report could not have been accomplished without the dedicated service of the entire staff of the Accounting and Budget divisions, the assistance of administrative personnel in the various departments, and through the competent service of our independent auditors. I also wish to express my sincere appreciation to the City Council, the City Manager, and the Assistant City Managers for their interest and support in planning and conducting the financial affairs of the City of Scottsdale in a responsible and progressive manner.

Respectfully submitted,

Craig Clifford, CPA, CGFM

Chief Financial Officer

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Scottsdale,
Arizona

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2002

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITORS' REPORT

The Honorable Mayor and the City Council of the
City of Scottsdale, Arizona

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Scottsdale, Arizona (City), as of and for the year ended June 30, 2003, which collectively comprise the City's basic financial statements as listed in the table of contents. We also have audited the financial statements of each of the City's nonmajor governmental, internal service, and fiduciary funds presented as supplementary information in the accompanying combining and individual fund financial statements and schedules as of and for the year ended June 30, 2003, as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial reports contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Scottsdale, Arizona, as of June 30, 2003, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental, internal service, and fiduciary fund of the City of Scottsdale, Arizona, as of June 30, 2003, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages 15 through 29 and the Public Safety Personnel Retirement System Schedule of Funding Progress on page 88 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements and on the combining and individual fund statements. The accompanying introductory section, other supplementary information and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with *Government Auditing Standards*, we have also issued a report dated September 12, 2003 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City of Scottsdale's (the City) Comprehensive Annual Financial Report presents a narrative overview and comparative analysis of the financial activities of the City for the fiscal years ended June 30, 2003 and 2002. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

FINANCIAL HIGHLIGHTS

The assets of the City exceeded its liabilities at the close of the fiscal years 2003 and 2002 by \$2.6 billion and \$2.5 billion (net assets), respectively. Of these amounts, \$346.2 million and \$328.4 million (unrestricted net assets), respectively, may be used to meet the government's ongoing obligations to citizens and creditors.

The City's total net assets increased by \$96.0 million and \$127.3 million during fiscal years 2003 and 2002, respectively.

As of June 30, 2003 and 2002, the City's governmental funds reported combined ending fund balances of \$270.9 million and \$283.6 million, respectively. The decrease is primarily due to the capital spending of bond proceeds received in fiscal year 2002. Approximately 94.2 percent of the fund balance at June 30, 2003, \$255.2 million, is unreserved fund balance available for spending at the government's discretion, compared to \$268.7 million at June 30, 2002. However, in fiscal year 2003 management has designated \$58.4 million of the unreserved fund balance for various uses.

At the close of the current fiscal year, unreserved fund balance for the General Fund was \$71.2 million or 42.0 percent of total General Fund expenditures of \$169.7 million. At the close of fiscal year 2002, unreserved fund balance for the General Fund was \$74.4 million or 45.1 percent of total General Fund expenditures of \$164.0 million.

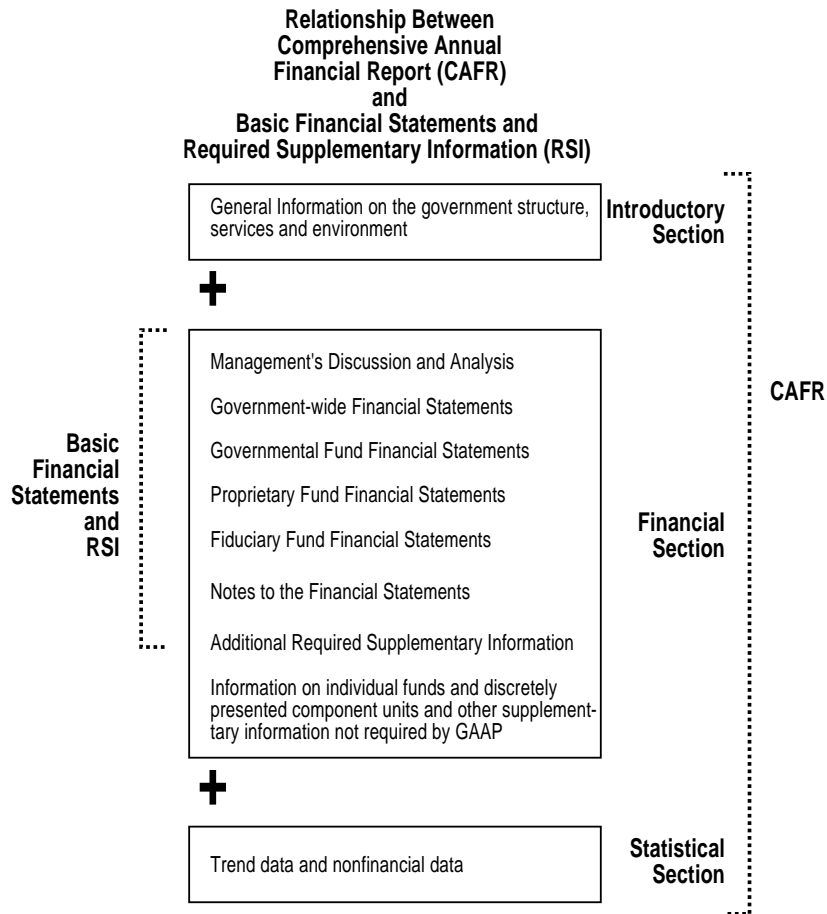

During fiscal year 2003, the City's total bonded debt decreased by approximately \$25.5 million, in contrast to the increase of approximately \$52.5 million in fiscal year 2002. Although the City completed several refunding transactions, the key contributor to the decrease was normal debt service payments.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components:

- (1) **Government-wide** financial statements,
- (2) **Fund** financial statements, and
- (3) **Notes** to the financial statements.

This report also contains other **supplementary information** in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The **statement of net assets** presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether or not the financial position of the City is improving or deteriorating.

The **statement of activities** presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, such as revenues pertaining to uncollected taxes and expenses pertaining to earned but unused vacation and sick leave.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, police, financial services, transportation, community services, information systems, planning and development, fire, municipal services, and citizen and neighborhood resources. The business-type activities of the City include water, sewer, solid waste, and airport operations.

The government-wide financial statements are for the City itself. However, included within the governmental activities of the government-wide financial statements are the operations of the City of Scottsdale Municipal Property Corporation (MPC), the Scottsdale Preserve Authority (SPA), and Scottsdale Mountain, McDowell Mountain Ranch, DC Ranch, and Via Linda Road Community Facilities Districts. Although legally separate from the City, these component units are blended with the primary government because of their governance or financial relationships to the City.

Separate financial statements of the MPC, SPA and Scottsdale Mountain, McDowell Mountain Ranch, DC Ranch, and Via Linda Road Community Facilities Districts may be obtained at the City's Financial Services Department, Accounting Division, 7447 East Indian School Road, Suite 210, Scottsdale, Arizona 85251.

The government-wide financial statements can be found on pages 32 and 33 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into the following three categories: **Governmental Funds**, **Proprietary Funds**, and **Fiduciary Funds**.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in determining what financial resources are available in the near future to finance the City's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains several individual governmental funds organized according to their type (special revenue, debt service, and capital projects). Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, General Obligation Bond Debt Service Fund, and General Capital Improvement Plan Construction Capital Projects Fund, which are considered to be major funds. Data from the remaining governmental funds are combined into a single, aggregated presentation.

Individual fund data for each of the non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

Proprietary Funds

Proprietary Funds are generally used to account for services for which the City charges customers—either outside customers, or internal units or departments of the City. Proprietary Funds provide the same type of information as shown in the government-wide financial statements, only in more detail. The City maintains the following two types of Proprietary Funds:

Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses Enterprise Funds to account for the operations of the Water, Sewer and Solid Waste operations of the City as well as the Airport. All Enterprise Funds are considered to be major funds of the City.

Internal Service Funds are used to report activities that provide supplies and services for certain City programs and activities. The City uses Internal Service Funds to account for its fleet of vehicles and self-insurance. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. The Internal Service Funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the Internal Service Funds is provided in the form of combining statements elsewhere in this report.

Fiduciary Funds

Fiduciary Funds are used to account for resources held for the benefit of parties outside the City. The City has two private-purpose trust funds and two agency funds, which are reported under the Fiduciary Funds. Fiduciary Funds are not reflected in the government-wide financial

statement because the resources of those funds are not available to support the City's own programs. The accounting used for Fiduciary Funds is much like that used for Proprietary Funds.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension benefits to its employees.

Combining Statements

The combining statements referred to earlier in connection with non-major governmental funds, Internal Service Funds, and Fiduciary Funds are presented immediately following the required supplementary information on pensions.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Analysis of Net Assets

As noted earlier, net assets may serve as a useful indicator of a government's financial position. For the City, assets exceeded liabilities by \$2.6 billion and \$2.5 billion at the close of the fiscal years 2003 and 2002, respectively.

The largest portion of the City's net assets reflects its investment of \$2.15 billion (81.7 percent) and \$2.06 billion (81.1 percent) in capital assets (e.g. land, buildings, and equipment), less any related outstanding debt used to acquire those assets, for the fiscal years 2003 and 2002, respectively. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be liquidated for these liabilities.

Net Assets

June 30, 2003 and 2002 (in thousands of dollars)

	Governmental		Business-type		Total	
	Activities		Activities			
	2003	2002	2003	2002	2003	2002
Assets						
Current and other assets	\$ 384,223	\$ 387,530	\$ 227,423	\$ 210,073	\$ 611,646	\$ 597,603
Capital Assets	2,023,879	1,977,725	754,640	741,373	2,778,519	2,719,098
Total Assets	2,408,102	2,365,255	982,063	951,446	3,390,165	3,316,701
Liabilities						
Long-term liabilities outstanding	562,122	552,788	96,855	96,300	658,977	649,088
Other liabilities	75,161	96,781	23,210	34,017	98,371	130,798
Total Liabilities	637,283	649,569	120,065	130,317	757,348	779,886
Net Assets						
Invested in capital assets, net of related debt	1,492,879	1,429,495	659,130	629,106	2,152,009	2,058,601
Restricted	117,801	133,460	16,721	16,399	134,522	149,859
Unrestricted	160,139	152,731	186,147	175,624	346,286	328,355
Total Net Assets	1,770,819	1,715,686	861,998	821,129	2,632,817	2,536,815
Total Liabilities and Net Assets	\$ 2,408,102	\$ 2,365,255	\$ 982,063	\$ 951,446	\$ 3,390,165	\$ 3,316,701

An additional portion of the City's net assets, \$134.5 million (5.1 percent) for fiscal year 2003 and \$149.8 million (5.9 percent) for fiscal year 2002 represent resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets for fiscal years 2003 and 2002, \$346.3 million (13.2 percent) and \$328.4 million (12.9 percent), respectively, may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of both the current and previous fiscal years, the City was able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for the business-type activities.

Analysis of Changes in Net Assets

The City's total net assets increased by \$96.0 million and \$127.2 million during the fiscal years 2003 and 2002, respectively. These increases are explained in the government and business-type activities discussion herein, and are primarily a result of contributions from developers of infrastructure assets.

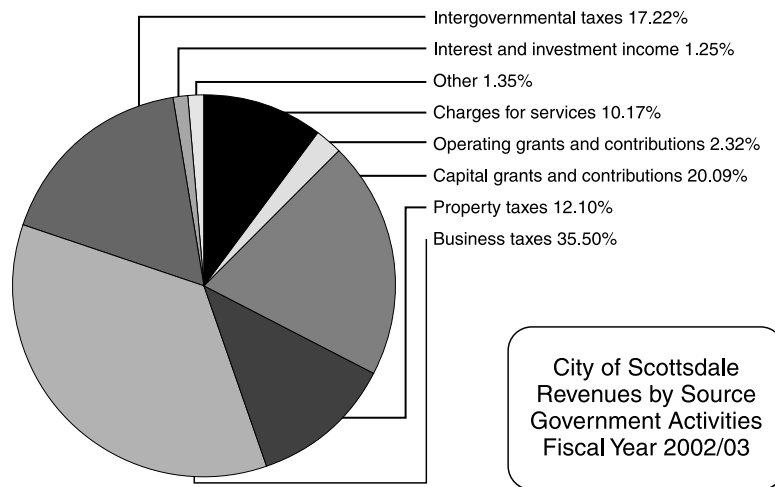

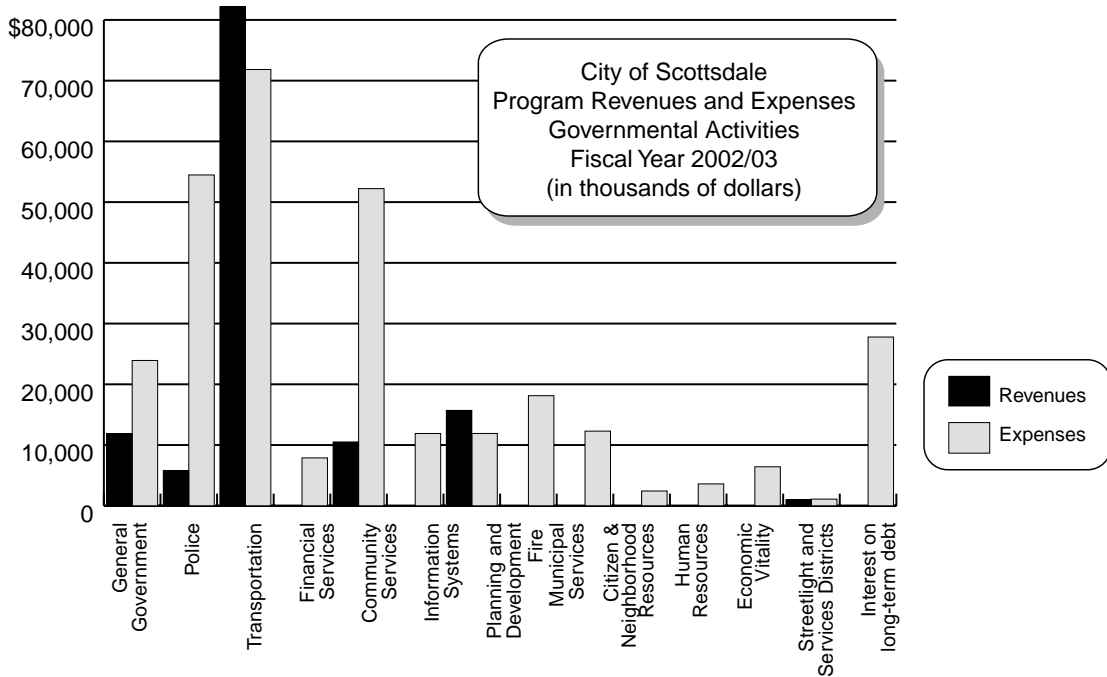

Changes in Net Assets

For the Years Ended June 30, 2003 and 2002 (in thousands of dollars)

Net Assets at End of Year	\$ 1,770,819	\$ 1,715,686	\$ 861,998	\$ 821,129	\$ 2,632,817	\$ 2,536,815

Governmental activities. Governmental activities increased the City's net assets by \$55.1 million in fiscal year 2003 and \$70.4 million in fiscal year 2002, thereby accounting for 57.4 percent and 55.3 percent, respectively, of the total growth in the net assets of the City. Key factors of this increase are as follows:

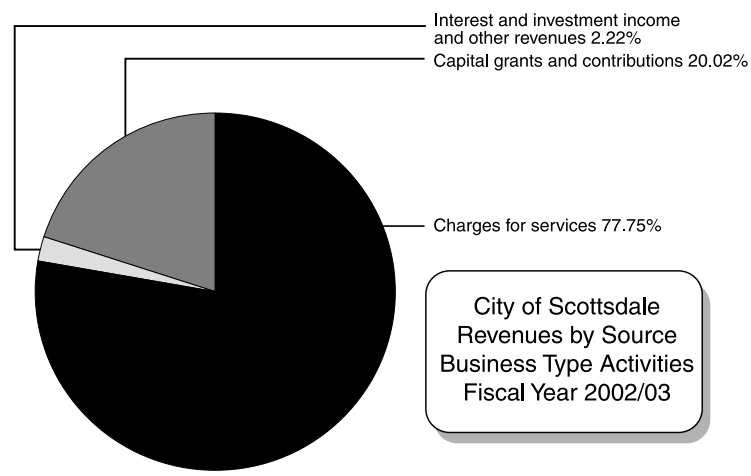

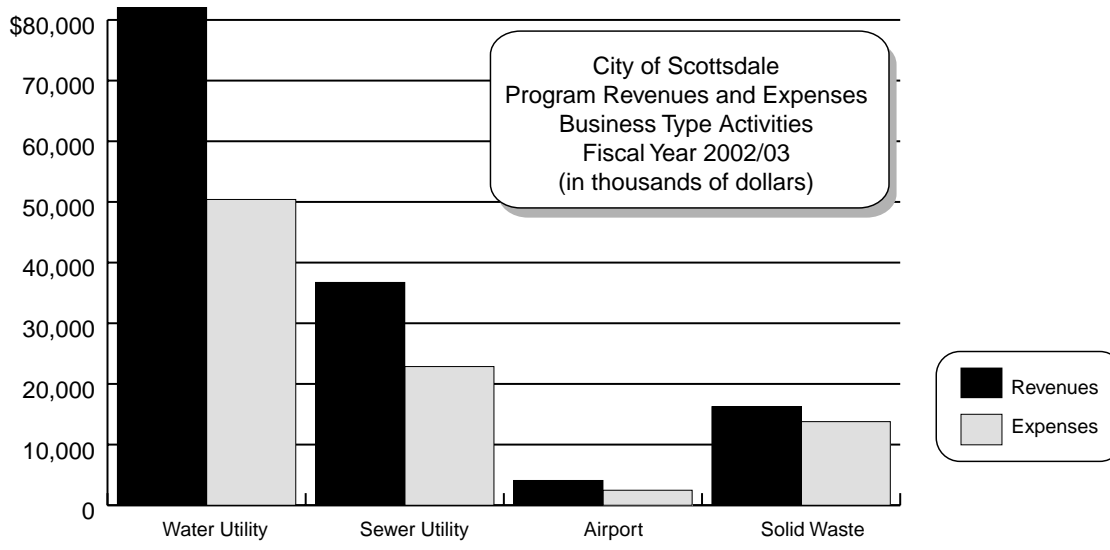

- For the second consecutive year, City sales tax posted negative year-over-year growth in the 2003 fiscal year. However, property taxes were up 6.9 percent and 4.6 percent, respectively, over the previous year. In preparation for the revenue decrease, the City placed spending limitations and restrictions on all departments to help ensure that total net assets did not decline.

As shown in the "Program Revenues and Expenses for Governmental Activities" chart and the "Revenues by Source for Governmental Activities" chart, transportation is the largest function in expense (23.5 percent), followed by police (17.8 percent), and community services (17.1 percent). General revenues such as property, business, and privilege taxes are not shown by program, but are effectively used to support program activities citywide. For governmental activities overall, without regard to program, business taxes are the largest single source of funds (35.7 percent), followed by capital grants and contributions (20.1 percent), and intergovernmental taxes (13.4 percent).

Business-type activities. Business-type activities increased the City's net assets in fiscal years 2003 and 2002 by \$40.9 million and \$56.8 million, respectively, accounting for 42.6 percent and 44.7 percent, respectively, of the total growth in the City's net assets. Key factors of this increase are as follows:

- The Water and Sewer Utility Fund had capital contributions from developers and grantors resulting in \$26.8 million and \$35.8 million in revenue for fiscal years 2003 and 2002, respectively. The majority of this amount is from infrastructure donated from developers and development fees received as development continues throughout the City.

- The Airport Fund had capital contributions from grantors resulting in \$1.6 million and \$3.0 million in revenue for fiscal years 2003 and 2002, respectively. The majority of this amount is airport improvements financed by state and federal grants.
- The Solid Waste fund had increase in net assets in 2003 and 2002 of \$1.4 million and \$1.3 million, respectively. Operating expenses for the same periods stayed relatively constant at \$13.7 million and \$13.9 million, respectively. However, revenues increased from \$15.8 million to \$16.3 million from the fiscal year 2002 to 2003, a 3.2 percent increase. Although rates for solid waste services were unchanged from fiscal year 2002 and 2003, the number of homes and business continues to grow as the population increases.

As shown in "Program Revenues and Expenses for Business Type Activities" and the "Revenues by Source for Business Type Activities" charts, the largest of Scottsdale's business-type activities, Water and Sewer utilities, each had expenses in excess of \$50.4 million and \$22.9 million, respectively, in fiscal year 2003, followed by Solid Waste with operating expenses of \$13.7 million. For the fiscal year, revenues exceeded expenses in all four areas of business activity. Fees provided the largest share of revenues (77.8 percent) followed by capital grants and contributions (20.0 percent), which are largely developer contributions and development fees, for all of the business-type activities.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Types of Governmental funds reported by the City include the General Fund, Special

Revenue Funds, Debt Service Funds, and Capital Project Funds.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$270.9 million, a decrease of \$12.7 million in comparison to fiscal year 2002. The combined ending fund balances for fiscal year 2002 were \$283.6 million. The decrease in the current year's fund balance is primarily due to the capital spending of bond proceeds received in fiscal year 2002. Approximately \$255.2 million of the total for fiscal year 2003 and \$268.7 million of the total for fiscal year 2002 constitutes unreserved fund balance, which is available for spending at the City's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed, (1) to pay debt service (\$13.7 million and \$12.8 million for fiscal years 2003 and 2002, respectively); (2) for the repayment of a long-term loan from another fund (\$1.2 million and \$1.1 million for fiscal years 2003 and 2002, respectively) or; (3) to pay for the ongoing cost of the streetlight and services districts (\$801,000 and \$882,000 for fiscal years 2003 and 2002, respectively).

Revenues for governmental functions overall totaled approximately \$285.1 million and \$289.9 million in the fiscal years ended June 30, 2003 and 2002, respectively, which represents a decrease of 1.7 percent (\$4.8 million) and 2.4 percent (\$7.2 million), respectively, from the previous years. In fiscal year 2003 expenditures for governmental functions, totaled \$327.0 million, an increase by 3.4 percent (\$10.7 million) over the fiscal year 2002 total of \$316.4 million. In the fiscal years ended June 30, 2003 and 2002 expenditures for governmental functions exceeded revenues by approximately \$41.9 million (14.7 percent) and \$26 million (9.1 percent), respectively. Increases in the deficit from 2002 to 2003 were caused by decreased interest earnings, federal grants and miscellaneous revenue as well as an increase in police, fire and debt service principal expenditures. A portion of this year's deficit was offset by transfers in from other funds.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the unreserved fund balance of the General Fund was \$71.2 million, while total fund balance was \$73.2 million. The unreserved and total balances for the General Fund at the end of fiscal year 2002 were \$74.4 million and \$76.4 million,

respectively. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 42.0 percent of the total General Fund expenditures of \$169.7 million in fiscal year 2003 and 45.4 percent of the total General Fund expenditures of \$163.9 million in fiscal year 2002. The total fund balance represents 43.1 percent and 46.6 percent of those same amounts for fiscal years 2003 and 2002, respectively. In fiscal year 2003 management has designated \$58.4 million of the General Fund unreserved fund balance for various uses.

For the second consecutive year the fund balance in the City's General Fund decreased. The decrease in fiscal year 2003 by \$3.1 million is mainly due to the funding of the pay-as-you-go Capital Improvement Plan and decreased revenues due to the current economy and was offset by spending restrictions placed on all departments during the year. Overall, the General Fund's performance resulted in revenues over expenditures in the fiscal year ended June 30, 2003, of \$27.3 million, an increase of 85.7 percent over the comparable figure from the prior year of \$14.7 million.

The General Obligation Bond Debt Service fund is used to account for the accumulation of resources for, and the payment of, general obligation long-term debt principal, interest and related costs. At the end of the current fiscal year, the fund balance of the General Obligation Bond Debt Service Fund was \$9.0 million relatively unchanged from the previous year. The fund balance at the end of fiscal year 2002 was \$8.4 million. During the fiscal year, the City issued \$72,000,000 of General Obligation Refunding Bonds, Series 2002, (advance refunding) dated September 26, 2002, with an average interest rate of 4.5%, to refund \$71,510,000 of Series 1992, 1993, 1994, 1995, 1997, 1998, 1999, 1999A and 2001 General Obligation and Preservation Bonds with an average interest rate of 4.92%. The City will reduce its total debt service payments over the next 22 years by approximately \$3,218,584 and obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$611,585.

The General CIP Construction Capital Project fund accounts for the resources used to acquire,

construct and improve major capital facilities, other than those financed by proprietary funds. At the end of the current fiscal year, the fund balance of the General CIP Construction Capital Project Fund was \$81.2 million. The fund balance at the end of fiscal year 2002 was \$72.5 million. The increase in fund balance is primarily due to amounts transferred from the General Fund to fund the pay-as-you-go Capital Improvement Plan. The increase in funding was offset by increased spending for capital projects. Capital Improvement expenditures in 2003 and 2002 were \$32.3 million and \$23.1 million, respectively, an increase of 39.6 percent.

Proprietary Funds

The City's Proprietary Funds provide the same type of information found in the government-wide financial statements, but in more detail.

At the end of the fiscal years 2003 and 2002, the unrestricted net assets for the Water and Sewer Utility were \$181.5 million and \$171.8 million, respectively; Scottsdale Airport were \$100,000 and \$459,000, respectively; and the Solid Waste Utility Fund \$4.5 million and \$3.3 million, respectively. The Internal Service Funds, which are used to account for certain governmental activities also had unrestricted net assets of \$16.6 million and \$19.8 million, respectively.

The total growth in net assets for the Enterprise Funds was \$40.9 million and \$56.8 million for fiscal years 2003 and 2002, respectively. Factors concerning the finances of these funds have been addressed previously in the discussion of the City's business-type activities. In particular, the Scottsdale Water and Sewer net assets increased by \$38.4 million due to capital contributions of \$26.8 million and increased water and sewer fees of \$3.3 million.

Fiduciary Funds

The City maintains Fiduciary Funds for the assets of the Family Self-Sufficiency Agency Fund, the Retainage Escrow Agency Fund, the Handicap Scholarship Private Purpose Trust Fund, and the Scottsdale Memorial Hospital Redevelopment Private Purpose Trust Fund. The Hospital Trust Fund manages the investment of monies held in trust for the redevelopment of the Scottsdale Memorial Hospital. As of the end of fiscal year 2003, the net assets of the Scottsdale Memorial

Hospital Trust Fund totaled \$695,000, representing a decrease of \$33,000 in total net assets since June 30, 2002. The change is primarily related to increased expenses directly related to the redevelopment area. Changes to the other Fiduciary Funds were immaterial for the fiscal year.

General Fund Budgetary Highlights

The City's final budget differs from the original budget due to adjustments that were made during the fiscal year. In fiscal year 2003, the slight increase in expenditure budgets was offset by an increase in revenue budgets, thereby maintaining an excess of revenues over expenditures for the year. Net budget increases for expenditures by department totaled \$1.1 million compared to a net budget decrease of expenditures in fiscal year 2002 of \$3.4 million. The net increase is defined as follows:

- \$41,000..... General Government
- \$109,000..... Financial Services
- \$821,000..... Police
- \$236,000..... Community Services
- (\$1,000)..... Fire
- (\$3,000)..... Citizen & Neighborhood Resources
- (\$86,000)..... Economic Vitality

Net budget increases for revenues of \$6.7 million were due to the addition of the following revenue, not previously budgeted for in the General Fund. This revenue was previously reported in the Highway User Revenue Fund:

- \$6,700,000 Auto Lieu Tax

During the year, actual revenues and other resources fell short of budgetary estimates by \$3.6 million compared to a shortage of \$17.8 million in fiscal year 2002. The City was able to adjust revenue estimates for the 2003 budget year due to observed trends from the economic recession which began in fiscal year 2002.

Capital Assets and Debt Administration

Capital Assets

The City's capital assets for its governmental and business-type activities as of June 30, 2003 and 2002, amount to \$2.8 billion and \$2.7 billion, respectively (net of accumulated depreciation). Capital assets include land, buildings and improvements, water and sewer systems, water rights vehicles, machinery and equipment, furniture and fixtures, and construction in progress. The total increase in the City's capital assets (net of accumulated depreciation) for the fiscal years 2003 and 2002 was 2.2 percent as shown in the table below.

Capital Assets, Net of Depreciation

June 30, 2003 (in thousands of dollars)

	Governmental Activities		Business-type Activities		Total	
	2003	2002	2003	2002	2003	2002

Major capital asset events during the current fiscal year included the following:

- Completion of construction in progress on the Pima Road Water Transmission Main – Pinnacle Peak Road to Cave Creek Road – A multiple construction contract project accounting for \$23.5 million in budgeted funds.
- The acquisition of an additional 322 acres, totaling \$17.2 million, for inclusion in the McDowell Sonoran Preserve.
- Renovation of the Eldorado Aquatic and Fitness Center. A project that added a new pool facility with a slide, beach entry, therapy pool and lap lanes for a total \$5.4 million.

For government-wide financial statement presentation, all depreciable capital assets were depreciated from acquisition date to the end of the current fiscal year. Fund financial statements record capital asset purchases as expenditures. See Section IV in the Notes to the Financial Statements for further information regarding capital assets.

Debt Administration

At the end of the fiscal years 2003 and 2002, the City had total long-term obligations outstanding of \$659.0 million and \$687.5 million, respectively. Of these amounts, \$319.3 million and \$338.0 million, respectively, are general obligation bonds backed by the full faith and credit of the City. The remainder includes revenue bonds, certificates of participation, and other obligations of \$339.7 million and \$349.5 million, respectively.

Outstanding Debt (in thousands of dollars)

Total Long-term Liabilities	\$ 562,122	\$ 582,101	\$ 96,855	\$ 105,380	\$ 658,977	\$ 687,481

During the fiscal year, the City issued \$72,000,000 of General Obligation Refunding Bonds, Series 2002, (advance refunding) dated September 26, 2002, with an average interest rate of 4.5%, to refund \$71,510,000 of Series 1992, 1993, 1994, 1995, 1997, 1998, 1999, 1999A and 2001 General Obligation and Preservation Bonds with an average interest rate of 4.92%. The City will reduce its total debt service payments over the next 22 years by approximately \$3,218,584 and obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$611,585. In addition, the City issued \$30,570,000 of Municipal Property Corporation Refunding Bonds, Series 2002, (forward refunding) dated August 7, 2002, with an average interest rate of 5.5%, to refund \$30,885,000 of Series 1992 Excise Tax Revenue Refunding Bonds with an average interest rate of 6.26%. The City refunded the bonds to reduce its total debt service payments over the next 13 years by approximately \$2,059,698 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$2,073,165.

During fiscal year 2003, the City's total bonded debt decreased by approximately \$25.5 million, in contrast to the increase of approximately \$52.5 million in fiscal year 2002. Although the City completed several refunding transactions, the key contributor to the decrease was normal debt service payments. In addition to the refunding bonds, the City also issued \$12.2 million in General Obligation Bonds for the DC Ranch Community Facilities District, to be used for capital projects.

The State constitution imposes certain debt limitations on the City of six percent (6%) and twenty percent (20%) of the outstanding assessed valuation of the City. The City's available debt margin at June 30, 2003 and 2002 is \$139.9 million and \$114.9 million, respectively, in the 6% capacity and \$467.9 million and \$410.4 million, respectively, in the 20% capacity. Additional information on the debt limitations and capacities may be found in Section IV of the Notes to the financial statements and also in Table XV in the statistical section of this report.

On November 19, 2002, the City Council approved a development agreement with John Lund relating to a new automotive complex at the southeast corner of Scottsdale Rd. and Loop 101 Freeway. The terms of this agreement require the City to reimburse Lund for up to \$5.5 million in public benefits relating to the project including the acquisition of public lands, reimbursement of the City's water and sewer development fees, and reimbursement of the City's stormwater retention payment in lieu. The actual amount will be dependent upon actual costs. However, the reimbursement amount may not exceed \$5.5M even if actual costs are higher. The City has also agreed to pay interest costs on Lund's cost of borrowing on the unpaid balance beginning at 8.5% in the first year and dropping by .5% per year. The reimbursement of the costs listed above is performance-based and will be accomplished by paying Lund quarterly payments equal to 67% of the City's General Fund sales tax receipts received from the new dealership in that quarter, for a maximum of 10 years. The first payment is not due until the calendar quarter after the calendar quarter in which the first certificate of occupancy is issued. Because the total liability is not estimable, earned or due, no debt is recorded on the statement of Net Assets at June 30, 2003 related to this contract.

Subsequent to June 30, 2003 the following events related to debt occurred:

On July 2, 2003 the City Council approved a redevelopment agreement for the former Los Arcos Redevelopment District. Under the terms of the agreement, the City will provide an economic incentive calculated upon sales tax proceeds generated by the project with the Ellman Companies (the developer), up to a net present value maximum of \$36,750,000 plus interest at a rate of 7.18%. This allocation is based on performance-based equal to 69% of the General Fund portion of sales tax generated at the site.

On September 10, 2003, the City sold City of Scottsdale General Obligation Refunding Bonds, Series 2003 in an aggregate principal amount not to exceed \$16,265,000. The sale of these bonds will reduce future debt service payments by \$1.1 million over the next ten years.

Additional information in the City's long-term debt can be found in Section IV of the Notes to the Financial Statements.

City of Scottsdale Bonded Debt Ratings
As of June 30, 2003

	Moody's Investors Service	Standard and Poor's Rating Group	Fitch Investors Service, Inc.
General Obligation (GO)	Aaa	AAA	AAA
Municipal Property Corp (MPC)	Aa1	AA+	AA+
Water and Sewer Revenue (W&S)	Aa1	AA	AA
Highway User Revenue Fund (HURF)	Aa3	AA	Not Rated
Scottsdale Preserve Authority (SPA)	Aa3	AA-	AA-

The City's ratings on uninsured General Obligation Bonds as provided above were affirmed by the Rating Agencies in September 2003 in conjunction with the issuance of General Obligation Refunding Bonds. Rating Agencies also reviewed and confirmed several of the revenue based bond ratings at various times throughout the year.

Economic Factors and Next Year's Budget and Rates

The City is entering an unprecedented third year of declining revenues amid continued economic uncertainty. Despite actual revenues that lagged behind adopted budget estimates, the City recognized the trend early enough to cut expenditures without affecting services.

Fiscal year 2003/04 revenue projections estimate declines or limited growth in many of the City's significant revenue sources, such as privilege tax, transient occupancy tax state-shared revenues, and development permits and fees. Despite these challenges, the City's 2003/04 budget continues to fund essential services, maintains investment in critical capital projects and carries forward Scottsdale's emergency reserve fund. To bring the budget into balance, the City has reduced the size of its workforce through attrition, trimmed employee programs and fringe benefits, reduced the General Fund subsidy to transportation projects, and adopted a more realistic and better-defined Capital Improvement Plan.

All of the above factors were considered in preparing the City's budget for fiscal year 2004. The budget for the 2003/04 year includes:

- Zero-based program budget approach.
- An \$8.8 million dollar decrease in expenditures and transfers-out of the General Fund. Expenditures and transfers-out will decline from an estimated FY 2002/03 year-end level of \$204.3 million to \$195.5 million in FY 2003/04.
- An annualized reduction of \$2.6 million in personnel costs through the elimination of 41 vacant positions. Of the total, 32 positions will come from the General Fund, where revenues are influenced significantly by the economy.
- Externally driven personnel cost increases due primarily to increases in city retirement contributions and health care insurance premiums. Increases in retirement contributions are estimated at \$3.4 million, and increases in health care costs are estimated at \$2.6 million.
- Additional measures to control personnel costs, including the elimination of across-the-board pay increases, elimination or reduction of several fringe benefits and

employee programs and a significant reduction in training and travel expenditures.

- A more realistic and precise plan for continued investment in the city's basic infrastructure and public facilities, combined with a more comprehensive analysis of associated maintenance and operating costs. Improved cash management and other changes in the proposed Capital Improvement Plan will ensure that the City can take advantage of favorable financing and construction markets to build key projects and phase in operating costs for new facilities at a reasonable pace.
- Sustained funding of the General Fund ten-percent reserve to ensure the City can provide basic services in the event of major emergencies. Use of reserves is under close scrutiny by the credit rating industry as governments deal with the tough economy.
- An estimated three-cent drop in the combined property tax rate, from \$1.15 to \$1.12 per \$100 in assessed valuation.
- An average increase of only about \$1.50 in the average homeowner's combined bill for water, sewer, refuse and recycling services.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all of those with an interest in the government's finances. If you have questions about this report or need additional financial information, contact:

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets

June 30, 2003 (in thousands of dollars)

Fund Balances -Total Governmental Funds	\$ 270,872
Amounts reported for governmental activities in the statement of net assets are different because (see Section II A):	
Capital Assets used in governmental activities are not financial resources and; therefore, are not reported in the funds.	1,999,256
Bond issue costs are not financial resources and, therefore, are not reported in the funds.	1,467
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.	(561,844)
Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current period expenditures. Those assets are offset by deferred revenue in the funds.	19,842
Internal Service Funds are used by management to charge the costs of certain activities, such as, insurance and vehicles to individual funds. The assets and liabilities of the Internal Service Funds are included in governmental activities in the statement of net assets.	<u>41,226</u>
Net Assets of Governmental Activities	<u>\$ 1,770,819</u>

The notes to the financial statements are an integral part of this statement.

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

June 30, 2003 (in thousands of dollars)

Net Change in Fund Balances - Total Governmental Funds	\$ (12,702)
Amounts reported for governmental activities in the statement of activities are different because (see Section II B):	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.	(12,702)
Donations of capital assets are not reflected on the governmental fund statements but are shown in the statement of activities.	59,888
Some expenses reported in the statement of activities do not require the use of current financial resources and; therefore, are not reported as expenditures in governmental funds.	885
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	4,121
Bond issue costs are expended in the governmental funds when paid, and are capitalized and amortized in the statement of net assets. This is the amount by which current year bond issuance costs exceed amortization expense in the current period.	904
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction; however, has any effect on net assets. This is the amount by which bond proceeds exceeded principal retirement in the current period.	17,363
Additional accrued interest calculated on bonds and notes payable.	2,115
The net revenues of certain activities of internal service funds is reported with governmental activities.	<u>(4,739)</u>
Changes in Net Assets of Governmental Activities	<u>\$ 55,133</u>

The notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The City of Scottsdale (the City) was incorporated in 1951. The current City Charter was adopted in 1961, which established the Council/Manager form of government. The City provides basic government services to its citizens including roads, water, sewer, solid waste management, public transit, parks and recreation facilities, police and fire.

The accounting policies of the City conform to U.S. generally accepted accounting principles (GAAP) as applicable to governmental units. The following is a summary of the more significant policies.

The financial reporting entity presented in these financial statements consists of the City of Scottsdale (the primary government) and its component units. The component units discussed below are included in the City's reporting entity because of the significance of their operational or financial relationships with the City.

Individual Component Units - Blended

The City of Scottsdale Municipal Property Corporation (MPC), a nonprofit corporation, was created by the City in 1967 solely for the purpose of constructing, acquiring and equipping buildings, structures, or improvements on land owned by the City. The MPC is governed by a Board of Directors appointed by the City Council. For financial reporting purposes, transactions of the MPC are included as a Governmental Fund type as if it were part of the City's operations.

The Scottsdale Preserve Authority (SPA), a nonprofit corporation, was created by the City in 1997 for the purpose of financing land acquisitions for the McDowell Sonoran Preserve. The City Council must approve the election of the SPA's Board of Directors. For financial reporting purposes, transactions of the SPA are included as a Governmental Fund type as if it were part of the City's operations.

Scottsdale Mountain, McDowell Mountain Ranch, DC Ranch, and Via Linda Road Community Facilities Districts were formed by petition to the City Council in 1992, 1994, 1997, and 1998 respectively. The Districts' purposes are to acquire and improve public infrastructure in specified land areas. As special purpose districts and separate political subdivisions under the Arizona Constitution, the Districts can levy taxes and issue bonds independently of the City. Property owners in the designated areas are assessed for District taxes and thus for the costs of operating the Districts. The City Council serves as the Board of Directors. The City has no liability for the Districts' debt. For financial reporting purposes, transactions of the Districts are combined together and included as a Governmental Fund type as if they were part of the City's operations.

Separate financial statements of the MPC, SPA and Scottsdale Mountain, McDowell Mountain Ranch, DC Ranch, and Via Linda Road Community Facilities Districts may be obtained at the City's Financial Services Department, Accounting and Budget Division, 7447 East Indian School Road, Suite 210, Scottsdale, Arizona 85251.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses for a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for Governmental Funds, Proprietary Funds, and Fiduciary Funds, even though the latter are excluded from the government-wide financial statements. Major individual Governmental Funds and major individual Enterprise Funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the Proprietary Fund and trust fund financial statements. Agency funds do not have a measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental Fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers revenues to be available if they are collected within 30 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to vacation, sick leave, claims, and judgments, are recorded only when payment is due.

Property taxes, other local taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the City receives cash.

The government reports the following major Governmental Funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *General Obligation Bond Debt Service Fund* is used to account for the accumulation of resources for, and the payment of, general long-term obligation debt principal, interest, and related costs.

The *General Capital Improvement Plan Construction Capital Projects Fund* accounts for the resources used to acquire, construct and improve major capital facilities, other than those financed by Proprietary Funds. Capital Projects Funds allow the City to compile project cost data and demonstrate that legal or contractual requirements, regarding the use of the resources, are fully satisfied.

The government reports the following major Proprietary Funds:

The *Water and Sewer Utility, Airport and Solid Waste Funds* account for the operating revenues and expenses of the City's water and sewer utility systems, airport and sanitation services (solid waste, brush removal, container maintenance, etc.).

Additionally, the government reports the following fund types:

The *Internal Service Funds* account for fleet management and self-insurance services provided to other departments or units of the City, on a cost-reimbursement basis.

The *Agency Funds* are purely custodial (assets equal liabilities) and do not involve measurement of results of operations or have a measurement focus. The City's agency funds are used to record the Family Self-Sufficiency activity and Retainage Escrow activity.

The *Private-Purpose Trust Funds* are used to account for assets held in a trustee capacity for scholarships and other purposes as designated by the donors or by legal restrictions. Both the principal and earnings of these expendable trust funds can be expended for the trusts' intended purposes.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and Proprietary Fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board (GASB).

Governments also have the option of following subsequent private-sector guidance for their business-type activities and Enterprise Funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

In general, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are payments-in-lieu of taxes, indirect costs and franchise fees, and other charges between the City's Water and Sewer Utility Fund, Airport Fund, and Solid Waste Fund, because elimination of these charges would distort the direct costs and program revenues reported in the Statement of Activities.

Amounts reported as program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Proprietary Funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. The principal operating revenues of the City's Enterprise and Internal Service Funds are charges for customer services including water, sewer, airport, and solid waste fees, vehicle purchase amounts and risk management charges. Operating expenses for Enterprise Funds and Internal Service Funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

Cash equivalents for purposes of the statements of cash flows are investments (including restricted assets) in the State of Arizona Local Government Investment Pool, mutual funds, demand deposits, repurchase agreements, and U.S. Treasury bills and notes with maturities of three months or less at acquisition date.

GASB Statement No. 31 provides that governmental entities may report all investments at fair value or they may elect to report certain money market investments and participating interest-earning investment contracts at amortized cost. The City has elected to report all investments at fair value. The City's policy is to invest in certificates of deposit, repurchase agreements, direct U.S. Treasury debt, securities guaranteed by the United States Government or any of its agencies, and the State of Arizona Local Government Investment Pool (LGIP). The fair value of each share in the LGIP is \$1.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable Governmental Funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All accounts, property tax and court receivables are shown net of an allowance for uncollectibles. All receivables in excess of one year comprise the allowance for uncollectibles at June 30, 2003.

The City's property tax is levied each year on or before the third Monday in August based on the previous January 1 full cash value as determined by the Maricopa County Assessor. Levies are due and payable in two installments, on October 1 and March 1, and become delinquent on November 1 and May 1, respectively. A lien attaches to the property on the first day of January preceding the assessment and levy of taxes. Delinquent amounts bear interest at the rate of 16 percent. Maricopa County, at no charge to the taxing entities, bills and collects all property taxes. Public auctions of properties which have delinquent real estate taxes are held in February following the May 1 date upon which the second half taxes become delinquent.

Property taxes levied for current operation and maintenance expenses on residential property are limited to 1.0 percent of the primary full cash value of such property. In addition, taxes levied for current operation and maintenance expenses on all types of property are limited to a maximum increase of 2.0 percent over the prior year's levy, adjusted for new construction and annexations.

Property taxes levied to pay principal and interest on bonded indebtedness are not limited.

3. Inventories

Inventories of the Governmental Funds are recorded under the consumption method as expenditures when consumed rather than when purchased. Inventories are valued at year-end based on cost, with cost determined using an average cost method.

4. Restricted Assets

Certain proceeds of the City's Enterprise Fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheets because they are maintained in separate bank accounts and their use is limited by applicable bond covenants. The revenue bond renewal and replacement account is used to report resources set aside to meet unexpected contingencies or to fund asset renewals and replacements.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (i.e., roads, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government, as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Assets contributed (donated) to those funds are recorded by reference to historical costs of the donor if recently purchased or constructed, or if such records are not available, at estimated fair market value on the date of receipt.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized for the fiscal year 2002/03.

Depreciation and amortization of all assets are recorded and calculated using the straight-line method over the following estimated useful lives:

Water System	10 to 75 Years
Sewer System	25 to 50 Years
Buildings and Improvements	25 Years
Land Improvements	25 Years
Machinery and Equipment	20 Years
Motor Vehicles	3 to 10 Years
Furniture, Fixtures and Office Equipment	5 to 10 Years

The excess purchase price over fair market value of assets acquired in the Water and Sewer Utility Enterprise Fund is amortized on the straight-line method over 20 to 25 years.

When capital assets are disposed of, the cost and accumulated depreciation or amortization is removed from the accounts, and any resultant gain or loss is recognized in the government-wide and Proprietary Fund financial statements.

6. Compensated Absences

Compensated absences consist of vacation leave and a calculated amount of sick leave earned by employees based on services already rendered. Employees may accumulate up to a maximum number of hours of vacation depending on years of service, but any vacation hours in excess of the maximum amount unused at year end are forfeited. The City's policy is to pay employees for unused accumulated vacation hours at termination or retirement. Sick leave time can be accumulated without limit. The City's policy, however, is that only those employees hired full-time before July 1, 1982 are paid for unused sick leave at death or retirement. Employees who retire on or after July 1, 1996, and who have accumulated 300 or more hours of sick leave, may elect to apply the value of the sick leave toward their City medical plan premiums.

All vacation pay is accrued when incurred in the government-wide, Proprietary and Fiduciary Fund financial statements. A liability for the current amount of compensated absences is recorded as a current liability at June 30 in the Governmental and Proprietary Funds. The current compensated absences amount in the Governmental Funds is combined with accrued payroll and other payroll related amounts in the accrued payroll and benefits line item. The City calculates this current amount based on vacation taken and an actuarial valuation dated January 1, 2003, for medical leave conversion. There is no long-term liability for compensated absences in the Governmental Funds.

7. Long-term obligations

In the government-wide financial statements and the Proprietary Fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or Proprietary Fund statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount and deferred amounts on refundings. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, Governmental Fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received are reported as debt service expenditures.

8. Fund equity

In the fund financial statements, Governmental Funds report reservation of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the Governmental Fund balance sheet and the government-wide statement of net assets.

The fund balances of the City's Governmental Funds, \$270,872, differs from net assets of governmental activities, \$1,770,819, reported in the statement of net assets. The difference primarily results from the long-term economic focus in the statement of net assets versus the current financial resources focus in the Governmental Fund balance sheets.

Reconciliation of Governmental Funds Balance Sheet and the Government-wide Statement of Net Assets

(in thousands of dollars)

	Total Governmental Funds	Long-Term Assets/ Liabilities (1)	Internal Service Funds (2)	Reclassifications and Eliminations	Statement of Net Assets Totals

Total Liabilities	<u>91,046</u>	<u>542,002</u>	<u>9,938</u>	<u>(5,703)</u>	<u>637,283</u>
Fund Balances/Net Assets					
Total Fund Balances/Net Assets	270,872	1,458,721	41,226	-	1,770,819
Total Liabilities and Fund Balances/Net Assets	<u>\$ 361,918</u>	<u>\$ 2,000,723</u>	<u>\$ 51,164</u>	<u>\$ (5,703)</u>	<u>\$ 2,408,102</u>

- (1) When capital assets (land, buildings, equipment, etc) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net assets includes those capital assets among the assets of the City as a whole.

Cost of capital assets	\$ 2,799,823
Accumulated depreciation	<u>(800,567)</u>
	<u>\$ 1,999,256</u>

Bond issuance costs are expended in governmental funds when paid, and are capitalized and amortized over the life of the corresponding bonds for purpose of the statement of net assets.

Bond issuance costs @ 7/1/02	\$ 563
Bond issuance cost for FY 2003	1,046
Amortization of bond issuance costs	<u>(142)</u>
	<u>\$ 1,467</u>

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities in the governmental funds. All liabilities, both current and long-term, are reported in the statement of net assets. Also, during the year the City refunded some of its existing debt. The amount borrowed is received in the governmental funds and increases fund balance. The amount that was sent to the paying agent (\$108,077) to be placed in escrow for payment of the old debt (\$102,570) as it comes due is paid out of governmental funds and reduces fund balance. The difference between those amounts was \$5,507 and will be amortized as an adjustment of interest expense in the statement of activities over the remaining life of the refunded debt. Balances at June 30, 2003 were:

Contract and capital lease payables	\$ (48,377)
Bonds payable	(503,713)
Deferred charge on refunding	8,327
Deferred issuance premium	(6,864)
Accrued vacation and sick leave pay	<u>(11,217)</u>
	<u>\$ (561,844)</u>

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current period expenditures. Those assets (for example, receivables) are offset by deferred revenues in the governmental funds and thus are not included in fund balance. Deferred revenue for the long-term special assessment receivables shown on the governmental fund statements is not deferred on the statement of net assets. Certain grant revenues deferred under modified accrual for governmental fund statements, is recognized as revenue under accrual accounting for the government-wide statements.

Deferred special assessment revenue	\$ 10,085
Deferred court revenue	3,388
Deferred other	4,000
Deferred tax revenue	<u>2,369</u>
	<u>\$ 19,842</u>

- (2) Internal Service Funds are used by management to charge the costs of certain activities, such as fleet management and self insurance, to individual funds. The assets and liabilities of certain Internal Service Funds are included in governmental activities in the statement of net assets.

	<u>\$ 41,226</u>
--	------------------

B. Explanation of certain differences between the Governmental Fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The net change in fund balances for Governmental Funds, \$(12,702), differs from the change in net assets for the governmental activities, \$55,133, reported in the statement of activities. The differences arise primarily from the long-term economic focus in the statement of activities versus the current financial resources focus in the Governmental Funds. The effect of the differences is illustrated below.

Reconciliation of Governmental Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (in thousands of dollars)

**Reconciliation of Governmental Statement of Revenues, Expenditures, and Changes
in Fund Balances and the Government-wide Statement of Activities (in thousands of dollars)**

Reconciling Items Description:

- (3) Because some property taxes will not be collected for several months after the city's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Similarly, other revenues are not currently available at year-end and are not reported as revenue in the governmental funds.

Property taxes	\$ (14)
Court revenue	(1,415)
Tax audit revenue	(221)
Special Assessment revenue	5,771
	<u>\$ 4,121</u>

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Accrual for long-term compensated absences	<u>\$ (885)</u>
--	-----------------

- (4) When capital assets that are used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net assets decrease by the amount of depreciation expense charged for the year, and the loss on disposal of capital assets.

Capital expenditures	\$ 65,460
Depreciation Expenses	(77,643)
Loss on disposal of capital assets	(203)
Difference	<u>\$ (12,386)</u>

The proceeds from the sale of land are reported as revenue in the governmental funds. However, the cost of the land sold is removed from the capital assets account in the statement of net assets and offset against the sales proceeds resulting in a "gain on sale of land" in the statement of activities. Thus, more revenue is reported in the governmental funds than gain in the statement of activities.

Cost of land sold	<u>\$ (316)</u>
-------------------	-----------------

Donations of capital assets are not shown on the governmental fund statements, but are included in the assets of the City. On the statement of activities, these donations are shown as capital contributions.

Capital Contributions	<u>\$ 59,888</u>
-----------------------	------------------

- (5) Internal Service funds are used by management to charge the costs of certain activities, such as insurance and motor pool, to the individual funds. The adjustments for internal service funds close those funds by charging additional amounts to participating governmental activities to completely cover the internal service funds' costs for the year. Capital assets contributed by the governmental funds (\$516) are treated as capital contribution revenue in the Internal Service fund statements and capital outlay expenditures in the governmental funds statements. For government-wide purposes, the capital contribution is reclassified as a transfer in in the Internal Service Fund column and a transfer out in the Capital Related Items column.

Change in Net Assets	<u>\$ (4,739)</u>
----------------------	-------------------

Reconciliation of Governmental Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (in thousands of dollars)

(6) Bond issuance costs are reported as an expenditure in governmental funds in the year of bond issuance and thus, have the effect of reducing fund balance because current financial resources have been used. For the government-wide statements; however, the bond issuance costs are deferred and amortized (expensed) over the life of the bonds.

Bond issuance costs for FY 2003	\$ 1,046
Amortization of bond issuance costs	(142)
Difference	\$ 904

Repayment of bond principal is reported as an expenditure in governmental funds and, thus, has the effect of reducing fund balance because current financial resources have been used. For the government-wide statements, however, the principal payments reduce the liabilities in the statement of net assets and do not result in an expense in the statement of activities. The City's bonded debt was reduced in two ways; principal payments were made to bond holders and resources were sent to the bond paying agent for the advance refunding of outstanding bonds.

Transferred to the paying agent:	
For bond principal	\$ 108,077
Principal payments made	30,305
	\$ 138,382

Interest expense in the statement of activities differs from the amount reported in governmental funds because additional accrued interest was calculated for bonds and notes payable, and additional interest expense was recognized on the amortization of bond discount and premiums which are expended within the fund statements.

Amortization of deferred charges on refundings	\$ 1,123
Amortization of bond premium and discounts	992
	\$ 2,115

Bond proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the government-wide statements, however, issuing debt increases long-term liabilities in the statement of net assets and does not affect the statement of activities. Proceeds were received from:

Refunding General Obligation Bonds	\$ (84,165)
Refunding Revenue Bonds	(30,570)
Premium on Refunding Bonds	(6,284)
	\$ (121,019)

III. STEWARDSHIP, COMPLIANCE, and ACCOUNTABILITY

A. Budget And Budgetary Accounting

The City prepared an annual budget that covered fiscal year 2002/03 on a cash basis and the appropriation for this budget is established and reflected in the financial statements as follows:

The City Council formally adopts the budget and legally allocates, or appropriates, available monies for the General Fund, Special Revenue Fund (Highway User Fuel Tax, Preserve Privilege Tax, and Transportation Privilege Tax), Debt Service Funds (except for the Community Facilities Districts Debt Service Funds), and Enterprise Funds. Therefore, these funds have appropriated budgets, and budget to actual information is presented.

The Community Development, Home, Grants, Section 8, and Special Programs Special Revenue Funds, Community Facilities Districts Funds, Capital Projects Funds, Internal Service Funds, and Trust and Agency Funds have non-appropriated budgets. Accordingly, no comparison of budget to actual is presented in the financial statements for these funds. Budgets for the Community Development, Grants, and Section 8 Funds are established pursuant to the terms of the related grant awards. Budgets for the Community Facilities Districts are established in accordance with Arizona Revised Statutes, which do not require their inclusion in the City budget or adoption by the City Council. Budgets for Capital Projects Funds are established for individual projects and unexpended funds are re-appropriated each year until the project is completed and capitalized. Budgets for Internal Service Funds are established in order to help departments control operational costs. Budgets for Trust and Agency Funds are established in accordance with the trust/agency agreements.

On or before the second regular Council meeting in May, the City Manager submits to the City Council a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.

Two public hearings are held prior to the budget's final adoption in order to obtain taxpayer comments.

At the first regular Council meeting in June, the budget is legally enacted through passage of an ordinance. The ordinance sets the limit for expenditures during the fiscal year. Additional expenditures may be authorized for expenditures directly necessitated by a natural or man-made disaster as prescribed in the State Constitution, Article 9, Section 20. During fiscal year 2002/03, there were no supplemental budgetary appropriations to the original budget.

The expenditure appropriations in the adopted budget are by department. The maximum legal expenditure permitted for the fiscal year is the total budget as adopted. Departmental appropriations may be amended during the year.

Upon the recommendation of the City Manager, and with the approval of the City Council: (1) transfers may be made from the appropriations for contingencies to departments; and (2) unexpended appropriations may be transferred from one department to another.

Management control of budgets is further maintained at a line item level within the department.

All expenditure appropriations that have not been expended lapse at year end. Beginning July 1, 1998, the City discontinued the use of encumbrance accounting. As such, fund balance amounts are not reserved for purchase orders, contract or other commitments.

B. Excess of Expenditures Over Appropriations

The Streetlight and Services District Department exceeded its expenditure appropriation by \$(31,000). This over expenditure was funded by available fund balance.

The Highway User Revenue Fund exceeded its Operating Expenditures appropriation by \$(450,000). This over expenditure was funded by the General Fund.

The Airport Enterprise Fund exceeded its expense appropriation by \$(84,000). This over expense was funded by a transfer from the General Fund.

C. Deficit Fund Equity

The Section 8 Housing Fund had a deficit fund balance of (\$42,000) caused by certain grant reimbursements due which may not be available in the upcoming period. Since these reimbursements are not assured, no revenue was accrued in the current fiscal year. These reimbursements due will be recognized as revenue when actually received. Since January 1998, the Fund has generated a surplus. Program administrators expect this trend to continue and anticipate eliminating the fund deficit within one year.

The Preserve Privilege Tax Capital Projects Fund had a deficit fund balance of \$(7,110,000), caused by advanced spending of bond proceeds under a reimbursement resolution. Bonds will be sold in March 2004.

D. Fund Balance/Net Assets Reservations and Designations

Only restrictions imposed by external sources are shown as Restricted Net Assets on the government-wide financial statements. Reservations or designations of fund balances are shown in aggregate on the Governmental Fund financial statements, but not on the Proprietary Fund financial statements. The City does, however, reserve or designate portions of net assets in other funds to demonstrate the government's intended use of those net assets. Designations are created by administrative policy. The following are the reservations and designations of fund balance/net assets included in the reserved and unreserved fund balance/net assets at June 30, 2003:

Fund Balance Reservations and Designations (in thousands of dollars)

General Fund	Major	Nonmajor
Designated for Bonds Payable	\$ 33,720	
Designated for Economic Stabilization Reserve	20,476	
Designated for Economic Investment	4,220	
Total Designated	\$ 58,416	
Debt Service		
Reserved for Debt Service	\$ 9,006	\$ 4,664

Restricted Net Asset and Unrestricted Net Asset Designations

Water and Sewer		
Restricted for Repair and Replacement	\$ 14,286	
Restricted for Acquisition and Construction	2,435	
Total Restricted	\$ 16,721	

The amounts presented below detail the City's planned use of the following Unrestricted Net Asset amounts:

Water and Sewer		
Designated for Operating Reserve	\$ 15,363	
Solid Waste		
Designated for Operating Reserve	\$ 3,156	
Airport		
Designated for Operating Reserve	\$ 68	
Self-Insurance		
Designated for General Liability Claims	\$ 4,431	
Designated for Benefits	4,109	
	\$ 8,540	
Fleet Management		
Designated for Capital Equipment Replacement	\$ 4,057	

IV. DETAILED NOTES ON ALL FUNDS

A. Cash and Investments

The City maintains a cash and investment pool for use by all funds except the Municipal Property Corporation and Community Facilities Districts Funds, which have investments held separately by a trustee.

The City early implemented the provisions of GASB Statement No. 40, *Deposit and Investment Risk Disclosures* for the year ended June 30, 2003. This Statement establishes and modifies disclosure requirements related to investment and deposit risks; accordingly, the note disclosure on cash and investments has been revised to conform to the provisions of GASB Statement No. 40.

Deposits

At June 30, 2003, the carrying amount of the City's deposits was \$16,698,779, and the bank balance was \$15,739,883. The \$958,896 difference represents outstanding checks and other reconciling items.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of June 30, 2003, the City's deposits were covered by federal depository insurance or by collateral held by the City's agent or pledging financial institution's trust department or agent in the name of the City, and thus had no deposits that were exposed to custodial credit risk.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits the City's investment portfolio to maturities of less than three years.

Credit Risk

City Charter, Ordinance, and Trust Agreements authorize the City to invest in obligations of the U.S. Treasury, U.S. Government agencies, Certificates of Deposit, bankers' acceptances, commercial paper (A-1, P-1), repurchase agreements, mutual funds consisting of the foregoing, and the State of Arizona Local Government Investment Pool (LGIP).

Investments

The City's investments at June 30, 2003, are summarized as follows:

(in thousands of dollars)	<u>Investment Type</u>	<u>Investment Maturities (in Years)</u>			
		<u>Fair Value</u>	<u>Less Than 1</u>	<u>1 - 2</u>	<u>2 - 3</u>
	U.S. Treasuries	\$ 66,163	\$ 66,163	\$ -	\$ -

	Contracts	475	475	-	-
	Money Market Funds	54,824	54,824	-	-
	Total Investments	\$ 481,713	\$ 177,950	\$111,215	\$ 192,548

*\$29,475 of these bonds are callable July 21, 2003 to May 3, 2004

**\$172,431 of these bonds are callable July 23, 2003 to June 30, 2004

Total City cash and investments at fair value are as follows (in thousands of dollars):

Carrying Amount of City Deposits	\$ 16,699
Investments	<u>481,713</u>
Total Cash and Investments	<u>\$ 498,412</u>

Total City cash and investments are reported as follows (in thousands of dollars):

Primary Government	
Cash and Investments	\$ 422,727
Cash Held with Fiscal Agent	52,391
Restricted Cash	22,056
Handicap Scholarship Private Purpose Trust Fund	9
Scottsdale Memorial Hospital Redevelopment	
Private Purpose Trust Fund	695
Family Self-sufficiency Agency Fund	70
Retainage Escrow Agency Fund	464
Total Cash and Investments	<u>\$ 498,412</u>

Investment income comprises the following for the year ended June 30, 2003 (in thousands of dollars):

Net Interest and Dividends	\$ 14,821
Net Decrease in the Fair Value of Investments	<u>(9,194)</u>
Total Net Investment Income	<u>\$ 5,627</u>

The net decrease in the fair value of investments during fiscal year 2002/03 was \$9,193,871. This amount takes into account all changes in fair value (including purchases and sales) that occurred during the year. Of the \$9,193,871 net decrease, \$7,864,309 represents the City's share of the loss on an investment within the Local Government Investment Pool. In addition, the City had an unrealized gain on investments held at June 30, 2003, of \$1,187,935.

B. Receivables

Receivables as of year-end for the government's individual major and nonmajor funds and Internal Service Funds in the aggregate, including the applicable allowances for uncollectible accounts are as follows:

Receivable Balance (Net of Allowance for Uncollectible)

(in thousands of dollars)

Governmental Activities:

Furniture, Fixtures and Office Equipment	412	52	-	464
Total Accumulated Depreciation:	<u>166,502</u>	<u>21,542</u>	<u>(6,023)</u>	<u>182,021</u>
 Total Capital Assets, Being Depreciated, Net	 <u>558,464</u>	 <u>50,652</u>	 <u>(2,043)</u>	 <u>607,073</u>
 Business-type Activities Capital Assets, Net	 <u>\$ 741,373</u>	 <u>\$ 77,794</u>	 <u>\$ (64,527)</u>	 <u>\$ 754,640</u>

Depreciation expense (in thousands of dollars) was charged to functions/programs of the primary government as follows:

Governmental Activities	
General Government	\$ 6,123
Police	1,488
Financial Services	208
Transportation	62,619
Community Services	3,343
Information Services	3,572
Fire	202
Municipal Services	19
Citizen and Neighborhoods Resources	19
Human Resources	3
Economic Vitality	3
Planning and Development	44
Capital Assets Held by the Government's Internal Service Funds are Charged to the Various Functions Based on their Usage of the Assets	<u>5,720</u>
Total Depreciation Expense - Government Activities	<u>\$ 83,363</u>

Business-Type Activities	
Water and Sewer System	\$ 20,663
Airport	677
Solid Waste	202
<hr/>	
Total Depreciation Expense - Business-Type Activities	<u>\$ 21,542</u>

Construction Commitments

The City has active construction projects as of June 30, 2003. At year-end the government's commitments with contractors for specific projects (in thousands of dollars) are as follows:

Construction Commitments	Spent to Date	Remaining Commitment
Streets	\$ 7,294	\$ 4,383
Traffic Improvement District	1,509	1,810
Fire	6	27
Police	1,336	2,203
Drain/Flood Control	461	1,306
Community	1,064	596
Parks/Recreation	864	1,800
Municipal Facilities	6,131	1,932
Technology	460	331
Libraries	48	1,263
Airport	136	618
Transit	775	86
Water System	141	166
Sewer System	16,856	7,190
	305	2,045
	<u>\$ 37,386</u>	<u>\$ 25,756</u>

The improvement district portion of the commitment is financed by improvement district bonds. The traffic commitments are being financed by the .2 percent Transportation Privilege (Sales) Tax, which is reported in the Special Revenue Fund financial statements. All water and sewer system improvement projects are being financed through the use of water or sewer development fees and water or sewer rates.

D. Interfund Balances and Interfund Transfers

"Due to" and "due from" balances have primarily been recorded when funds overdraw their share of pooled cash. The composition of interfund balances as of June 30, 2003, is as follows (in thousands of dollars):

Receivable Fund	Amount
General	\$ 263
<hr/>	
Nonmajor Governmental Funds	4,401
Total	<u>\$ 4,664</u>

Payable Fund	Amount
Nonmajor Governmental Funds	\$ 111
Major Enterprise	
Airport	152
Nonmajor Governmental Funds	4,401
Total	<u>\$ 4,664</u>

The composition of individual funds having advances to and from other funds at June 30, 2003 is as follows.

The advance to the Preserve Privilege Capital Projects Fund from the General Fund is a result of a loan that was made in order to purchase a parcel of land outside of the area authorized for preservation sales tax funding in fiscal year 1999/00. The loan is required to be repaid in June 2005. The advance accrues interest at a rate of 6% compounded annually. The advance from the General Capital Improvement Plan Capital Project Fund to the Airport was to provide cash for the completion of the Kilo Ramp and Airport Service Road Reconstruction. The amounts will be repaid from the Airport Enterprise Fund when the Airport operations generate sufficient cash to cover operations.

Advances To Other Funds:		Advances From Other Funds:	
(in thousands of dollars)	Amount	(in thousands of dollars)	Amount
General	\$ 1,191	Nonmajor Governmental Funds	\$ 1,191
Major Governmental Funds		Major Enterprise Funds	
General CIP Construction	107	Airport	107
Total	\$ 1,298	Total	\$ 1,298

Transfers are used to fund capital projects and debt service, reallocate special revenue funds to operating centers or other operations and for indirect administrative cost allocations (including in-lieu property tax and franchise fees) charges to Enterprise Funds. During the year a transfer in the amount of \$500,000 was made from the Fleet Management Internal Service Funds to the General Fund. Of the total, transfers totaling \$4,658,000 from the Fleet Management Fund to Capital Projects were made in order to fund pay-as-you go capital projects and to reduce the excess cash balance in the Fleet Management Fund.

Net transfers (in thousands of dollar):

E. Bonds, Loans, Capital Leases and Other Payables

The following are brief descriptions of bonds outstanding at June 30, 2003. The totals shown are the principal amount outstanding, net of the current portion due July 1, 2003.

There are a number of limitations and restrictions contained in the various bond indentures. The City is in compliance with all significant limitations and restrictions.

General Obligation Bonds

General Obligation (GO) bonds are issued, after approval by City of Scottsdale voters at an authorized bond election, to finance the construction of water and sewer systems, artificial lighting, parks and open spaces, recreational facilities, and general purpose improvements. At June 30, 2003, the City had \$330,200,000 of unissued various purpose GO bonds, which were authorized in September 2000. In addition, the City had \$65,400,000 of unissued Preservation GO bonds, which were authorized in September 1999. GO bonds are backed by the full faith and credit of the City, and are repaid through the City's levying of property (ad valorem) taxes. However, the Preservation GO bonds are repaid through the two-tenths of one percent City sales tax approved by voters in September 1996 to be used specifically to finance land acquisitions for the McDowell Sonoran Preserve. Additionally, a portion of the City's GO bonds are recorded in the Water Enterprise Fund as described below, and are repaid through revenues of that fund unless such revenues are insufficient.

Highway User Revenue Fund Bonds

Highway User Revenue Fund (HURF) bonds are issued specifically for the purpose of constructing street and highway projects. These bonds are repaid out of the Special Revenue Fund by gas tax revenues collected by the State of Arizona and distributed to cities and towns based on a formula of population and gas sales within each county.

Municipal Property Corporation Bonds

The Municipal Property Corporation (MPC) is a nonprofit corporation created by the City in 1967 to finance the construction or acquisition of certain capital improvement projects. The MPC issues its own bonds, which are repaid through the City's excise tax collections and other unrestricted revenues. The use of property taxes to repay these bonds is specifically prohibited by law. Most of these bonds are recorded as general long-term debt. The 1995 MPC Transfer Station bonds, however, are recorded in and paid out of revenues of the Solid Waste Enterprise Fund. The

2001 MPC Scottswater bonds are recorded in and paid out of the revenues of the Water Enterprise Fund.

Scottsdale Preserve Authority Bonds

The Scottsdale Preserve Authority (SPA) is a nonprofit corporation created by the City in 1997 to finance land acquisitions for the McDowell Sonoran Preserve. The SPA issues its own bonds which are repaid through the two tenths of one percent City sales tax approved by voters in September 1996 to be used specifically for this purpose. SPA bonds are recorded as general long-term debt and are paid out of the SPA Debt Service Fund.

Water & Sewer Revenue Bonds

Water & Sewer Revenue Bonds are issued as authorized by the voters for the construction, acquisition, furnishing and equipping of water and sewer facilities and related systems. At June 30, 2003, the City had \$3,340,000 authorized but unissued Water & Sewer Revenue bonds. The City has no plans to issue the remaining portion of the unissued Water & Sewer Revenue bonds authorized as all projects related to the authorization have been completed. The Water & Sewer Revenue bonds are collateralized by revenue in excess of operating and maintenance expenses of the City's water & sewer utility system, and are repaid via user charges or fees for service. Property taxes cannot be used to pay the debt service on these bonds.

Water & Sewer Revenue bond covenants require that the City accumulate sufficient reserves to cover the eventual replacement of the water and sewer system. The City has continued to meet this reserve requirement. At June 30, 2003, the funds reserved for this purpose were \$14,285,965.

Special Assessment Bonds

Special Assessment bonds are issued by the City on behalf of improvement districts created by property owners for a specific purpose, such as to finance local street, water or sewer improvements, or to acquire an existing water or sewer operation. Property owners in the designated districts agree to be assessed for the principal and interest costs of repaying the bonds. As trustee for improvement districts, the City is responsible for collecting the assessments levied against the owners of property within the improvement districts and for disbursing these amounts to retire the bonds issued to finance the improvements. The receivables, revenues, and debt service expenses related to these bonds are recorded in the Special Assessments Debt Service Fund. At June 30, 2003, special assessments receivable, together with amounts paid in advance and interest to be received over the life of the assessment period, were adequate for the scheduled maturities of the bonds payable and the related interest.

These bonds are secured by a lien on the property and improvements of all parcels within each district. In the event of default by the property owner, the City may enforce auction sale to satisfy the debt service requirements of the improvement bonds. The City is contingently liable on Special Assessment bonds to the extent that proceeds from auction sales are insufficient to retire outstanding bonds.

The City Council's adopted policy is that special assessment debt is permitted only when the ratio of the full cash value of the property (prior to improvements being installed) when compared to debt is a minimum of 3 to 1 prior to issuance of debt, and 5 to 1 or higher after construction of improvements. In addition, cumulative improvement district debt is not permitted to exceed 5 percent of the City's secondary assessed valuation.

At June 30, 2003, there were 6 separate series of Special Assessment Bonds outstanding, each series issued as serial bonds to be repaid over 10 years.

Community Facilities Districts General Obligation Bonds

Community Facilities District General Obligation Bonds are issued by community facilities districts (CFDs), which are special purpose districts created specifically to acquire and improve public infrastructure in specified land areas. CFD Bonds are repaid by ad valorem taxes levied directly by the districts and collected by the county. Property owners in the districts are assessed for District taxes and thus for all costs associated with the Districts. The City has no liability for CFD Bonds.

CFDs are created only by petition to the City Council by property owners within the district areas. As board of directors for the CFDs, the City Council has adopted a formal policy that CFD debt will be permitted only when the ratio of the full cash value of the unimproved district property to the proposed district debt, is a minimum of 3 to 1, and 5 to 1 or higher after construction of improvements. These ratios are verified by an appraisal paid for by the CFD and administered by the City. In addition, cumulative debt of all CFDs cannot exceed 5 percent of the City's secondary assessed valuation.

CFD Advance Refundings

There were no refundings during fiscal year 2002/03. In prior years, the McDowell Mountain Ranch CFD and the Scottsdale Mountain CFD refinanced other bond issues through the issuance of refunding bonds. The proceeds from the refunding bonds have been deposited in irrevocable trusts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future redemption or payment of principal and interest of the issues refunded. The assets, liabilities, and financial transactions of all of these trust accounts and the liability for refunded (defeased) bonds are not reflected in the financial statements of the City.

The table reflects refunded debt outstanding at June 30, 2003, and net of any amounts to be paid or retired by the trustee on July 1, 2003 (in thousands of dollars).

Statutory Debt Limitation

Under the provisions of the Arizona Constitution, outstanding general obligation bonded debt issued for water, sewer, light, parks, and open space purposes may not exceed 20 percent of a city's net secondary assessed valuation. Outstanding general obligation bonded debt for all other purposes may not exceed 6 percent of a city's net secondary assessed valuation. Accretion on capital appreciation bonds, which is included for GAAP purposes as outstanding debt, is excluded for this calculation. General obligation bonds of community facilities districts also are not subject to or included in this calculation. The following summarizes the City of Scottsdale's legal general obligation bonded debt borrowing capacity at June 30, 2003 (in thousands of dollars):

<u>General Obligation Bonds Issued to Provide Water, Sewer, Light,</u>		<u>General Obligation Bonds Issued for All Other Purposes</u>	
20% Constitutional Limit	\$ 705,321	6% Constitutional Limit	\$ 211,596
Less General Obligation 20% Bonds Outstanding	<u>(237,400)</u>	Less General Obligation 6% Bonds Outstanding	<u>(71,695)</u>
Available 20% Limitation Borrowing Capacity	<u>\$ 467,921</u>	Available 6% Limitation Borrowing Capacity	<u>\$ 139,901</u>

Arbitrage

Under U.S. Treasury Department regulations, all governmental tax-exempt debt issued after August 31, 1986, is subject to arbitrage rebate requirements. The requirements stipulate, in general, that the earnings from the investment of tax-exempt bond proceeds, which exceed related interest expenditures on the bonds, must be remitted to the Federal government on every fifth anniversary of each bond issue. The City has an independent consultant evaluating the City's outstanding tax-exempt debt for arbitrage liability. As of June 30, 2003, the City has recognized an arbitrage liability of \$151,853. This arbitrage liability is reported in due to other governments in the governmental activities statement of net assets.

Advance and Forward Refundings

During the year ended June 20, 2003, the City issued two series of refunding bonds.

The City issued \$72,000,000 of General Obligation Refunding Bonds, Series 2002, (advance refunding) dated September 26, 2002, with an average interest rate of 4.5%, to refund \$71,510,000 of Series 1992, 1993, 1994, 1995, 1997, 1998, 1999, 1999A and 2001 General Obligation and Preservation Bonds with an average interest rate of 4.92%. The City will reduce its total debt service payments over the next 22 years by approximately \$3,218,584 and obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$611,585.

The City issued \$30,570,000 of Municipal Property Corporation Refunding Bonds, Series 2002, (forward refunding) dated August 7, 2002, with an average interest rate of 5.5%, to refund \$30,885,000 of Series 1992 Excise Tax Revenue Refunding Bonds with an average interest rate of 6.26%. The City refunded the bonds to reduce its total debt service payments over the next 13 years by approximately \$2,059,698 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$2,073,165.

The proceeds from the issuance of the bonds were used to purchase U.S. Government securities that were placed in an irrevocable trust with an escrow agent to provide debt service payments on the bonds being refunded. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the governmental activities column of the City's financial statements.

In prior years, the City refinanced other bond issues through the issuance of refunding bonds. The proceeds from the refunding bonds have been deposited in irrevocable trusts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future redemption or payment of principal and interest of the issues refunded.

The assets, liabilities, and financial transactions of all of these trust accounts and the liability for refunded (defeased) bonds are not reflected in the financial statements of the City.

The tables below reflect refunded debt outstanding at June 30, 2003, net of any amounts to be paid or retired by the trustee on July 1, 2003.

Refunded in Year Ended June 30, 2003

	<u>\$ 95,500</u>

Contracts Payable

The City of Scottsdale has entered into various purchase contracts related to economic development, acquisition of water system facilities, acquisition of recreational facilities and patents. The following is a summary of debt service to maturity for all long-term contracts payable at June 30, 2003. The final payment for the water facilities contract was made during the current year; as a result, there were no long-term contracts payable classified in business-type activities.

Classified in Governmental activities on the government-wide financial statements:

	Contracts Payable (in thousands of dollars)
Contract payable to the U.S. Army Corps of Engineers for the construction of flood control and recreation facilities; due in annual installments through 2032; interest at 5.1 percent.	\$ 3,304
Contract payable for the construction of public infrastructure relating to completion of The Dial Corporation new corporate headquarters; due in annual installments beginning September 1998 through September 2007; non-interest bearing.	268
Contract payable for the maintenance of a federal patent; due in three year installments beginning January 1, 2001 through January 1, 2009; non-interest bearing.	5
Contract payable for the oversight and management of the Tournament Players Club Recreational Land Use Agreement; due in annual installments beginning March 1999 through June 2035; non-interest bearing.	1,760
Contract payable for the oversight and management of the Westworld Cost-share and Land Use Agreement; due in annual installments beginning December 2000 through December 2032; non-interest bearing.	1,650
Contract payable for the construction of public infrastructure relating to completion of the Anchor National Life / Portales mixed use development; due in annual installments beginning 2003.	2,117
Contract payable for the construction of public infrastructure relating to completion of the Promenade shopping center; due in annual installments beginning March 2000 through March 2007; non interest bearing.	2,953
Contract payables for the undergrounding of 69kv power lines; due in annual installments beginning January 1999 through; interest at 10.0 percent.	140
Contract payable for the purchase of a portion of 2,685 acres of land for the McDowell Sonoran Preserve; due in fifteen annual installments beginning July 1, 1999 through July 1, 2013; interest from 3.75 percent to 6.0 percent.	<u>7,430</u>
Total Contracts Payable Recorded in Governmental Activities	<u><u>\$ 19,627</u></u>

Capital Lease

In connection with the Waterfront Area Redevelopment Plan, the City has entered into a garage lease agreement in order to provide public parking. The lease has an initial term of 50 years. The lease is payable over 30 years in the amount of \$28,750,000, plus interest at 9.14% per annum compounded annually, subject to an interest rate buy down option. The exclusive funding source for the lease payments is new retail sales tax revenues generated by the Nordstrom department store and the multilevel retail bridge linking Nordstrom to Fashion Square, as well as increased retail sales tax revenues (over 1995) from Fashion Square.

The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded as buildings and other improvements, at the present value of the future minimum lease payments as of the inception date. According to the lease agreement annual payments should be allocated to interest due first with the remaining amount allocated to the principal. Current estimates indicate that it is unlikely that any principal will be paid until near the end of the lease.

Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities reported in the government-wide financial statements for the year ended June 30, 2003 (in thousands of dollars).

	Beginning Balance	Additional Obligations, Interest Accretion and Net Increases	Current Maturities, Retirements, and Net Decreases	Ending Balance	Amounts Due Within One Year
Governmental Activities:					
Bonds payable:					
General Obligation Bonds	\$ 319,657	\$ 72,741	\$ (87,395)	\$ 305,003	\$ 14,483

Debt Service Requirements to Maturity

The following is a summary of debt service requirements to maturity for long-term liabilities at June 30, 2003. Deferred issuance costs and deferred amounts on refunding are not included.

V. OTHER INFORMATION

A. Risk Management

The City is exposed to various risks of loss related to public, property, and aviation premises liability, self-insured benefits and workers compensation. Public liability includes public officials' errors and omissions, automobile and general liability. The City is self-insured for the first \$2,000,000 of public liability, the first \$100,000 of property coverage and the first \$600,000 of workers compensation. Coverage in excess of these respective amounts is provided through the purchase of commercial insurance. During the fiscal year ending June 30, 2003, there was significant reduction in excess liability insurance coverage limits due to a very restricted and expensive global insurance marketplace, due in large part to the terrorist attacks of September 11, 2001. As a result, overall liability coverage limits were reduced from a total of \$75 million to \$30 million to stay within budget. As for claim expenditures, settlements for each of the past three fiscal years have not exceeded the City's excess insurance coverage amounts for any claims.

The City reports its self-insurance activity in its Self-Insurance Internal Service Fund. Claims liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated.

The claims liabilities amount recorded in the accompanying financial statements is based on reported pending claims and an actuarial analysis and projection of the accrued liability amounts necessary to fund the claims. At June 30, 2003, the general liability claims payable totaled \$7,610,421 and the self-insured benefits claims totaled \$1,229,000.

	Years Ended June 30	
	2003	2002
(in thousands of dollars)		
Claims Payable, July 1	\$ 8,420	\$ 7,721
Current Year Claims Incurred	6,065	7,883
Current Year Claim Payments	(5,646)	(7,184)
Claims Payable June 30	\$ 8,839	\$ 8,420

In addition, management has established a policy to retain a cash balance at the 90% confidence level for general risk claims and a corridor and premium stabilization reserve for the self-insured health benefits. At June 30, 2003, the 90% confidence level recommendation is \$11,035,110 for all lines of pending claims and the claims incurred, corridor reserve and premium stabilization reserve total \$1,981,000 for self-insured benefits.

B. Contingent Liabilities

The City is a party to several lawsuits incidental to its normal operations. Management, with concurrence of the City Attorney, and outside legal counsel, is of the opinion that settlement of these lawsuits will not have a material effect on the financial position of the City. Therefore, no specific provision has been reflected in the accompanying basic financial statements for these matters.

C. Commitments and Subsequent Events

On November 19, 2002, the City Council approved a development agreement with John Lund relating to a new automotive complex at the southeast corner of Scottsdale Rd. and Loop 101 Freeway. The terms of this agreement require the City to reimburse Lund for up to \$5.5 million in public benefits relating to the project including the acquisition of public lands, reimbursement of the City's water and sewer development fees, and reimbursement of the City's stormwater retention payment in lieu. The actual amount will be dependent upon actual costs. However, the reimbursement amount may not exceed \$5.5 million even if actual costs are higher. The City has also agreed to pay interest costs on Lund's cost of borrowing on the unpaid balance beginning at 8.5% in the first year and dropping by .5% per year. The reimbursement of the costs listed above, will be accomplished by paying Lund

quarterly payments equal to 67% of the City's General Fund sales tax receipts received from the new dealership in that quarter, for a maximum of 10 years. The first payment is not due until the calendar quarter after the calendar quarter in which the first certificate of occupancy is issued.

In June 2002, the City Council approved a three-year agreement with Rural/Metro Corporation (Rural/Metro) whereby Rural/Metro will provide fire protection and related services to the City to June 30, 2005 with the option of two one-year extensions. Payments to Rural/Metro amounted to \$16,717,726 for the year ended June 30, 2003. The new contract requires 26 payments during the fiscal year 2003/04 for a total amount of \$18,235,442.

The City has a Service Agreement with the Scottsdale Cultural Council (Council) that provides that the Council will manage the arts and cultural affairs within the Scottsdale community for a ten-year period, automatically renewable for two five-year periods. In return, the City will pay service fees to the Council based on the Service Agreement between the City and the Council. Payments to Scottsdale Cultural Council amounted to \$2,780,596 for the year ended June 30, 2003. Annual amounts due in fiscal year 2003/04 will approximate \$2,780,596.

The City has a Service Agreement with the Scottsdale Convention and Visitors' Bureau (Bureau) that provides that the Council will manage the tourism promotion within the Scottsdale community for a ten-year period. In return, the City will pay service fees to the Council based on the Service Agreement between the City and the Council. Payments to Scottsdale Cultural Council amounted to \$5,023,610 for the year ended June 30, 2003. The annual amount due in fiscal year 2004 will be \$4,506,000.

The City has entered into several agreements whereby it will reimburse developers for construction costs of certain public infrastructure improvements. The funding source for the reimbursements will come from Water and Sewer development fees paid over the life of the development. Only amounts paid subsequent to January 13, 1997 are eligible for reimbursement. The City does not become liable under the agreements until the City has accepted the cost, a development fee has been paid and a water meter has been set. The City has limited its liability to the lesser of the cost accepted by the City or the development fees paid. The City's maximum contingent liability at June 30, 2003, is \$6,512,170.

On July 2, 2003, the City Council approved a redevelopment agreement for the former Los Arcos Redevelopment District. Under the terms of the agreement, the City will share sales tax proceeds generated by the project with the Ellman Companies (the developer), up to a net present value maximum of \$36,750,000 plus interest at a rate of 7.18%. This allocation is based on performance-based sharing 69% of the General Fund portion of sales tax generated at the site. After completion of improvements, but prior to any payments by the City, the Developer will deed to the City title to a parking structure and approximately 20 acres of land, plus all improvements on those lands. The City will not be obligated to make any payments until the entire project is completed. Litigation has been filed to challenge this Agreement on a variety of legal issues. The actions seek to declare the Agreement invalid, but do not request money damages against the City or other defendants. The City Attorney's Office has reviewed this Agreement and is optimistic that it is legally defensible.

On September 10, 2003, the City sold City of Scottsdale General Obligation Refunding Bonds, Series 2003 in an aggregate principal amount not to exceed \$16,625,000.

D. Joint Venture

The City participates with the cities of Phoenix, Glendale, Mesa, and Tempe in the multi-city Sub-Regional Operating Group (SROG). SROG was formed pursuant to the Joint Exercise of Powers Agreement (JEPA) in order to govern the construction, operation, and maintenance of jointly used sewage treatment and transportation facilities. The facilities include the 91st Avenue Wastewater Treatment Plant, the Salt River Outfall Sewer, the Southern Avenue Interceptor, and related transportation facilities. The City of Phoenix acts as lead agency and is responsible for the planning, budgeting, construction, operation, and maintenance of the facilities. In addition, the City of Phoenix provides all management, personnel, and financing arrangements and accepts federal grants on behalf of the participants. JEPA requires each city to pay for its share of the actual cash costs of operating and maintaining the facilities based on relative sewage flows and strengths.

The City records its share of SROG's cash operating expenses, and its equity in the joint venture in the City's Water and Sewer Utility Fund. For the year ended June 30, 2002, (the latest audited information available from SROG), the City's net investment in SROG was \$39,922,000. SROG's net cash operating expenses for the year ended June 30, 2002, were \$24,004,656, of

which the City's share was \$2,348,946, or 9.8 percent. For the year ended June 30, 2003, the City paid \$13,133,376 for SROG capital contributions, and \$2,190,090 for SROG operating expenses, including adjustments to the operating and replacement reserves.

The Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 2002 for the multi-city Sub-Regional Operating Group (the latest SROG CAFR available) may be obtained from the Arizona Municipal Water Users Association, 4041 N. Central Avenue, Suite 900, Phoenix, AZ 85012.

E. Related Organization

The Industrial Development Authority (Authority) is a nonprofit corporation established by the City in 1984 to promote industry and develop trade by inducing manufacturing, industrial and commercial enterprises to locate and remain in Scottsdale. The Board of Directors of the Authority is appointed by the City Council; however, the City's accountability for the authority does not extend beyond making the appointments.

F. Retirement and Pension Plans

All full-time employees of the City, the Mayor, and City Council are covered by one of three pension plans. All full-time City employees, except public safety personnel, participate in the Arizona State Retirement System, a multiple-employer cost sharing pension plan. All public safety personnel participate in the Public Safety Personnel Retirement System, which is an agent multiple-employer pension plan. The Mayor and Council participate in the Elected Officials' Retirement Plan, a multiple-employer cost sharing pension plan. All three pension plans are administered by the State of Arizona.

Arizona State Retirement System

Plan Description

All full-time City employees (except public safety personnel) participate in the Arizona State Retirement System (System), a multiple-employer cost sharing defined benefit pension plan. The System was established by the State of Arizona to provide pension benefits for employees of the state and employees of participating political subdivisions and school districts. The System is administered in accordance with Title 38, Chapter 5, of the Arizona Revised Statutes. The system provides for retirement, disability, health insurance premium benefits, and death and survivor benefits. The Arizona State Retirement System issues a

publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to Arizona State Retirement System, P.O. Box 33910, Phoenix, AZ 85067-3910, or by calling 1-800-621-3778.

Funding Policy

The Arizona Revised Statutes (ARS) provide statutory authority for determining the employees' and employers' contribution amounts as a percentage of covered payroll. Employers are required to contribute at the same rate as employees. Although the statutes prescribe the basis of making the actuarial calculation, the Arizona legislature is able to legislate a contribution rate other than the actuarially determined rate. The actuarially determined contribution rate for the years ended June 30, 2003, 2002, and 2001 were 2.49% (2.00% retirement and .49% long-term disability) 2.49% and 2.66%, respectively, for both employers and employees. The City's contributions to the System for the years ending June 30, 2003, 2002, and 2001 were \$2,034,363, \$2,057,262, and \$1,925,741, respectively, equal to the required contributions for each year.

Public Safety Personnel Retirement System

Plan Description

All of the City's public safety personnel (police officers) participate in the Public Safety Personnel Retirement System (PSPRS), an agent multiple-employer defined benefit pension plan. PSPRS was established by Title 38, Chapter 5, Article 4 of the Arizona Revised Statutes to provide pension benefits for public safety employees of certain state and local governments. The PSPRS is jointly administered by the fund manager and 171 local boards. PSPRS provides retirement benefits, as well as death and disability benefits. The Public Safety Personnel Retirement System of the State of Arizona issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Safety Personnel Retirement System, 1020 East Missouri Avenue, Phoenix, AZ 85014 or by calling (602) 255-5575.

Funding Policy

The System is funded through a member contribution of 7.65% of gross payroll, an employer contribution set by an actuarial valuation expressed as a percent of gross payroll, and a distribution of the net earnings of the Fund. The City's current contribution rate is 5.37% of annual covered payroll, consisting of 11.64% for normal cost and (6.27%) for amortization of unfunded actuarial accrued liability. Contribution rates for 2002 and 2001 were 5.37% and 4.48%, respectively.

Annual Pension Cost

For 2002, the City’s annual pension cost of \$924,558 for PSPRS was equal to the City’s required and actual contributions. The required contribution was determined as part of the June 30, 2002 actuarial valuation using the individual entry-age actuarial cost method.

The actuarial assumptions include (a) a rate of return on the investment of present and future assets of 9.0% per year compounded annually, (b) projected salary increases of 6.5% per year compounded annually, attributable to inflation and other across-the-board factors, and (c) additional projected salary increases ranging from 6.5% to 9.5% per year, attributable to seniority/merit. Included in (b) is an inflation component of 5.5%. The actuarial value of PSPRS assets was determined using techniques that smooth the market value of assets over a 4-year period. PSPRS’s unfunded accrued liability is being amortized as a level percent of projected payroll on an open basis. The remaining amortization period at July 1, 2002 was 20 years.

Elected Officials’ Retirement Plan

Three-Year Trend Information for PSPRS
(in thousands of dollars)

Fiscal Year Ending	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
2000	\$ 1,198	100%	-
2001	1,133	100%	-
2002	925	100%	-

Plan Description

The City’s Mayor and Council participate in the Elected Officials’ Retirement Plan (EORP), a multiple-employer cost sharing defined benefit pension plan. The EORP was established and is administered by the State of Arizona to provide pension benefits for state and county elected officials, judges, and certain City-elected officials. The fund manager of the PSPRS is also the administrator for the EORP. EORP provides retirement benefits, as well as death and disability benefits. The Elected Officials’ Retirement Plan issues a publicly available financial report that includes financial statements and required supplementary information for EORP. That report may be obtained by writing to Elected Officials’ Retirement Plan, 1020 East Missouri Avenue, Phoenix, Arizona 85014 or by calling (602) 255-5575.

Funding Policy

Covered employees are required by state statute to contribute an amount equal to 7% of gross salary. Incorporated city or town employers are required to contribute an amount sufficient to meet both the normal cost of a level-cost method attributable to the EORP, plus the amount required to amortize the unfunded accrued liability for the employer. Such amount is to be determined each year by actuarial valuation and paid as a level percent of compensation. The contribution requirements for plan members are established and may be amended by the Fund Manager, a five-member board. The City’s rates for fiscal years ended June 30, 2003, 2002, and 2001 were 6.97%, 6.97% and 10.22%, respectively. The City’s contributions to EORP for the years ending June 30, 2003, 2002 and 2001 were \$10,036, \$9,749, and \$13,445, respectively, equal to the required contributions for each year.

G. Other Post-Employment Benefits

In addition to the pension benefits described previously in H the City provides an option of post-retirement health care benefits, in accordance with Chapter 14 of the City Code. At retirement, employees with medical leave accumulated prior to September 6, 1976 are eligible for payment of medical leave at one hundred percent cash value at current rate of pay. Employees hired before July 1, 1982 can elect to receive cash equal to fifty percent of the first five hundred twenty hours of unused medical leave plus twenty-five percent of all hours in excess of five hundred twenty. The conversion rate is the employee's average hourly base pay rate for the five years immediately preceding retirement. Any retiring employee with 300 or more hours of accumulated medical leave, who chooses to remain on the city medical plan, may elect to apply the value of the sick leave to the employee's portion of the health care premiums, up until age 65. The value of the accumulated medical leave is calculated at the employee's hourly rate of pay at the time of retirement.

The number of participants during fiscal year 2002/03 was 85. The projected liability, as of June 30, 2003, for medical conversion was \$6,308,534. Of this liability, \$5,784,311 is considered payable in greater than one year and is not reflected as a current expenditure in the Governmental Fund statements. The projected liability is based on a January 1, 2003, actuarial valuation. Significant actuarial assumptions of the January 1, 2003 actuarial valuation include a) mortality rates based on the 1983 Group Annuity Mortality Table set back 1 year for males and no set back for females, b) interest compounded 5.0 percent annually, c) salaries increase at a rate of 4.5 to 9.5 percent based on years of service per annum, d) unit credit cost method based on participant data as of January 1, 2003.

Nonmajor Governmental Funds

SPECIAL REVENUE FUNDS

Special Revenue Funds are established to finance particular activities and are created out of receipts of specific taxes or other earmarked revenue. Such funds are authorized by statutory or charter provisions to pay for certain activities with some form of continuing revenue.

Highway User Fuel Tax

This fund receives and expends the City's allocation of the Arizona's Highway User Revenue Tax ("gas tax) and other transportation related revenue. The amount available to each city is allocated on a population basis, which is determined by the latest federal census. These monies must be used for street construction, reconstruction, maintenance or transit.

Community Development Block Grants (CDBG)

This fund receives and expends the City's Community Development Block Grant revenues. The amount of the grant is awarded annually by the U.S. Department of Housing and Urban Development (HUD) upon application for funding by the City. Community Development Block Grant revenues may be used only for those projects approved in the grant budget and are subject to agency expenditure guidelines.

Home Fund

The fund receives and expends monies from the Maricopa County Home Consortium. Expenditures are made to provide affordable housing, expand the capacity of nonprofit housing providers, strengthen the ability of local governments to provide housing and leverage private-sector participation in housing.

Grants Fund

This fund receives and expends the City's grant revenues. The amount of grants received is generally based upon application to granting agencies by the City and upon availability of funding by the grantors. Grant revenues may be used only for the stated purpose in the approved grant agreement and are subject to grantor expenditure guidelines.

Section 8 Fund

This fund receives and expends the City's Section 8 Housing revenues. Assistance contracts are awarded by the U.S. Department of Housing and Urban Development (HUD) upon application by the City, and covers a five year period. Budgets are approved annually by HUD. Section 8 revenues may be used only for assistance approved by HUD and are subject to agency expenditure guidelines.

Preserve Privilege Tax Fund

This fund receives a .2 percent Preservation Privilege (Sales) Tax revenue approved by the voters to purchase property in the McDowell Sonoran Preserve. Revenues are transferred to Capital Projects Funds for land purchase or are used for debt service payments for land contracts.

Transportation Privilege Tax Fund

This fund receives a .2 percent Transportation Privilege (Sales) Tax approved by the voters for transportation purposes. Revenues are transferred to Capital Projects to fund transportation related improvements.

Special Programs Fund

This fund receives monies from a variety of sources. The monies are required to be expended for specific purposes related to the source of the revenue.

DEBT SERVICE FUNDS

These funds record the accumulation of resources for, and the payment of, long-term debt principal and interest not serviced by the proprietary funds.

Municipal Property Corporation Fund

This fund accounts for the principal and interest requirements of the City's Municipal Property Corporation (MPC) bonds. Financing is provided primarily by transaction privilege tax.

Special Assessments Fund

This fund accounts for the principal and interest requirements of special assessment bonds. Financing is provided by special assessment levies against the benefited property holders.

Community Facilities Districts Funds:

Scottsdale Mountain Community Facilities District Fund

McDowell Mountain Community Facilities District Fund

DC Ranch Community Facilities District Fund

Via Linda Road Community Facilities District Fund

These funds account for the principal and interest of general obligation bonds issued by community facilities districts. Although these bonds are *not* obligations of the City, generally accepted accounting principles indicate that the bonds should be disclosed herein.

Scottsdale Preserve Authority Fund

This fund accounts for the principal and interest requirements of excise tax revenue bonds issued by the Scottsdale Preserve Authority. Financing is provided by a .2 percent Transportation Privilege (Sales) Tax

Preserve Privilege Tax Fund

Accounts for the May 23, 1995, voter-approved .2 percent Preservation Privilege (Sales) Tax and the expenditure of proceeds from the sale of 1999 voter-approved general obligation bonds dedicated to acquisition of land within the McDowell Sonoran Preserve.

Transportation Privilege Tax Fund

Accounts for the authorized .2 percent Transportation Privilege (Sales) Tax dedicated to transportation capital improvements. Voters approved the tax on November 7, 1989.

Community Facilities Districts Funds:

McDowell Mountain Community Facilities District Fund

DC Ranch Community Facilities District Fund

Accounts for the proceeds issued by community facilities districts to acquire and improve public infrastructure in specified areas.

CAPITAL PROJECTS FUNDS

Capital Projects Funds account for the resources used to acquire, construct and improve major capital assets, other than those financed by proprietary funds. Capital Projects Funds allow the City to compile project cost data and demonstrate that legal or contractual requirements regarding the use of the resources are fully satisfied.

General Obligation Bond Fund

Accounts for the proceeds of the sale of 1989, 1992 and 2000 voter-approved general obligation bonds that are used for authorized capital improvements.

Municipal Property Corporation Fund

Accounts for the proceeds of Municipal Property Corporation bonds issued for acquisition or construction of capital improvements.

Explanation of Differences:

Items recorded as revenues for GAAP purposes:

Unrealized Loss on Investments \$ (452)

The City budgets for certain expenditures on the cash basis, rather than on the modified accrual basis:

Audit Expense 1

Net (Decrease) in Fund Balance - Budget to GAAP \$ (453)

Transportation Privilege Tax - Special Revenue Fund

Schedule of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual

Solid Waste Enterprise Fund

Schedule of Revenues and Expenses - Budget and Actual

For the Year Ended June 30, 2003 (in thousands of dollars)

	Budgeted Amounts		Actual Amounts Budgetary Basis	Budget to GAAP Differences	Actual Amounts GAAP Basis	Variance Between Final Budget and Actual Amounts Budgetary Basis
	Original	Final				
Revenues						
Charges for Sales and Services:						
Solid Waste Fees	16,115	16,115	16,250	-	16,250	135
Investment Income	44	44	72	(30)	42	28
Total Revenues	16,159	16,159	16,322	(30)	16,292	163
Expenses						
Cost of Sales and Services:						
Solid Waste Operations	12,512	12,283	11,995	(173)	11,822	288
Debt Service and Reserves	342	342	342	(230)	112	-
Depreciation	-	-	-	202	202	-
Indirect Costs	1,647	1,647	1,647	-	1,647	-
Transfers Out	35	35	35	1,031	1,066	-
Total Expenses	14,536	14,307	14,019	830	14,849	288
Change in Net Assets	\$ 1,623	\$ 1,852	\$ 2,303	\$ (860)	\$ 1,443	\$ 451

Explanation of Differences:

Items recorded as revenues for GAAP purposes that are not recorded as revenues for budget purposes:

Unrealized Loss on Investments	\$ (30)
Total Revenue Reconciling Items:	<u>(30)</u>

The City budgets for certain expenditures on the cash basis, rather than on the modified accrual basis.

Compensated Absences	\$ (173)
Debt Service Principal Payments	(230)
Depreciation Expense	202
Transfers Out for:	
Capital Budgeted in Prior Year	801
Unbudgeted Transfer to Fleet	230
Total Expenditure Reconciling Items:	<u>830</u>

Net(Decrease) in Net Assets - Budget to GAAP \$ (860)

INTERNAL SERVICE FUNDS

Internal Services Funds are established to finance and account for services and/or commodities furnished by one department or unit to other departments or units within the City.

Fleet Management Fund

The Fleet Management Fund is responsible for the maintenance and operations of various automobiles and other equipment of the City. Revenue to this fund is derived from charges to user programs.

Self-Insurance Fund

The Self-Insurance Fund is responsible for the administration of the City's self-insurance program. Revenue to this fund is derived from charges to user programs. This fund provides coverage of unemployment, self-insured benefits, workmen's compensation, property, and liability claims.

FIDUCIARY FUNDS

Private Purpose Trust Funds and Agency Funds administer resources received and held by the City as the trustee or as the agent for others. Use of these funds facilitates the discharge responsibilities placed upon the governmental unit by virtue of law or other similar authority.

Handicap Scholarship Private Purpose Trust Fund

This fund accounts for monies received and expended for college scholarships for individuals with handicaps.

Scottsdale Memorial Hospital Redevelopment Private Purpose Trust Fund

This fund accounts for monies received and expended for the redevelopment of Scottsdale Memorial Hospital.

Family Self-Sufficiency Agency Fund

This fund accounts for monies in escrow for Section 8 Housing Program participants.

Retainage Escrow Agency Fund

This fund accounts for monies held in escrow for construction contract retainage payable.

OTHER SUPPLEMENTARY INFORMATION

Debt Requirements

The supplemental debt service schedule provides a comprehensive overview of the City's total debt. The Schedule of Changes in Long-Term Debt for the current fiscal year presents the City's debt by debt type without regard to fund classification.

Debt issued by community facilities districts is included for full disclosure although such debt is not legally an obligation of the City.

Source: AZ Department of Revenue/Property Tax Division, Abstract of the Assessment Roll 2001

Real estate and improvements are combined in the primary valuation.

Under Arizona law, there are two property valuation bases: PRIMARY (P) and SECONDARY (S). The primary (limited assessed valuation is used when levying for maintenance and operation of cities, school districts, community college districts, counties, and the state. The secondary (full cash) assessed valuation is used when levying for debt retirement, voter-approved budget overrides, and maintenance and operation of special service districts.

Beginning in 2001, Real Estate and Improvements are combined in the secondary valuation of the improvements total.

The above classes were revised by Maricopa County for 2001 pursuant to HB 2634. Prior years were restated for comparison.

A statewide reappraisal program assesses property values by usage classification on varying percentages of actual cash value. These percentages are as follows:

Property Class:	
1. Mines, Utilities, Telecommunications, Comm. & Industrial	25%
2. Agricultural & Vacant Land	16%
3. Residential - Owner Occupied	10%
4. Residential - Leased & Common Areas	10%
5. Railroads, Private Car Cos., Airlines	21%
6. Historic, Non-commercial Special Use	5%
7. Commercial Historic	25%
8. Residential Historic	10%
9. Improvements on Gov Property	1%

The Salt River Project Agricultural Improvement and Power District's (SRP) assessed valuation is not reflected in the total assessed valuation of the City. SRP is subject to a "voluntary contribution" in lieu of ad valorem taxation. The 2002/03 secondary assessed valuation of the Salt River Project within the City is \$21,682,030. The estimated secondary in lieu contribution is \$202,864.

⁽¹⁾ Under Arizona law, cities can issue general obligation bonds for purposes of water, sewer, light, parks, and open space purposes, but outstanding bonds issued for such purposes may not exceed 20 percent of the City's net secondary assessed valuation. Outstanding general obligation bonded debt for all other purposes may not exceed 6 percent of the city's net secondary assessed valuation.

⁽²⁾ The computation of legal debt margins excludes premium on capital appreciation bonds.

⁽³⁾ General obligation bonds of community facilities districts are not subject to or included in this computation since they are not bonds of the City of Scottsdale.
