SURVEY BACKGROUND

About The National Citizen Survey™

The National Citizen Survey™ (The NCS™) is a collaborative effort between National Research Center, Inc. (NRC) and the International City/County Management Association (ICMA).

Understanding the Results

Survey Administration

Following the mailing of a pre-survey notification postcard to a random sample of 1,200 households, surveys were mailed to the same residences approximately one week later. A reminder letter and a new survey were sent to the same households after two weeks. Of the mailed postcards, 33 were undeliverable due to vacant or “not found” addresses. Completed surveys were received from 362 residents, for a response rate of 31%. Typically, the response rates obtained on citizen surveys range from 25% to 40%.

It is customary to describe the precision of estimates made from surveys by a “level of confidence” (or margin of error). The 95 percent confidence level for this survey of 1,200 residents is generally no greater than plus or minus 5 percentage points around any given percent reported for the entire sample.

The results were weighted to reflect the demographic profile of all residents in the City of Scottsdale. (For more information on the survey methodology, see Appendix B in the Report of Results. A copy of the survey materials can be found in Appendix C of the Report of Results.)

Use of the “Excellent, Good, Fair, Poor” Response Scale

The scale on which respondents are asked to record their opinions about service and community quality is “excellent,” “good,” “fair” or “poor” (EGFP). While symmetrical scales often are the right choice in other measurement tasks, we have found that ratings of almost every local government service in almost every jurisdiction tend, on average, to be positive (that is, above the scale midpoint). Therefore, to permit finer distinctions among positively rated services, EGFP offers three options across which to spread those ratings. EGFP is more neutral because it requires no positive statement of service quality to judge (as agree-disagree scales require) and, finally, EGFP intends to measure absolute quality of service delivery or community quality (unlike satisfaction scales which ignore residents’ perceptions of quality in favor of their report on the acceptability of the level of service offered).

Putting Evaluations onto a 100-Point Scale

Although responses to many of the evaluative questions were made on a 4 point scale with 4 representing the best rating and 1 the worst, many of the results in this summary are reported on a common scale where 0 is the worst possible rating and 100 is the best possible rating. If everyone reported “excellent,” then the result would be 100 on the 100-point scale. Likewise, if all respondents gave a “poor” rating, the result would be 0 on the 100-point scale. If the average rating for quality of life was “good,” then the result would be 67 on a 100-point scale; “fair” would be 33 on the 100-point scale. The 95 percent confidence interval around an average score on the 100-point scale is no greater than plus or minus 5 points based on all respondents.

PROFILE OF SCOTTSDALE

As assessed by the survey, about 25% of Scottsdale residents have lived in the community for more than 20 years and 74% are over age 34. Another 23% are over age 64. Seventy-four percent are currently employed; 30% rent; 70% own and 51% live in detached single family homes. Over 90% of Scottsdale residents have at least some college and 65% have annual household incomes above \$50,000. Five percent of Scottsdale residents reported that they are Spanish, Hispanic or Latino and 94% said they are White or Caucasian.

COMMUNITY LIFE

The National Citizen Survey™ contained many questions related to the life of residents in the community. Survey participants were asked to rate their overall quality of life, as well as other aspects of quality of life in Scottsdale. They also evaluated characteristics of the community, and gave their perceptions of safety in the City of Scottsdale. The questionnaire assessed use of the amenities of the community and involvement by respondents in the civic and economic life of Scottsdale.

Quality of Life

When asked to rate the overall quality of life in Scottsdale, 39% of respondents thought it was “excellent.” Only 1% rated overall quality of life as “poor.” Scottsdale as a place to raise children received an average rating of 68 on a 100-point scale in 2003 and 70 in 2004, compared to 67 in 2006.

Ratings of Community Characteristics

In 2006, the highest rated characteristics of Scottsdale were shopping opportunities, overall appearance of Scottsdale, and recreational opportunities. The average rating on a 100-point scale given to shopping opportunities in 2006 was 84 compared to 85 in 2003 and 87 in 2004.

When asked about potential problems in Scottsdale, the three concerns rated by the highest proportion of respondents as a “major problem” in 2006 were traffic congestion, too much growth, and drugs. In 2006 48% rated traffic congestion as a “major problem” compared to 33% in 2003 and 32% in 2004.

Perceptions of Safety

When evaluating safety in the community, 75% of respondents felt “somewhat” or “very safe” from violent crimes in Scottsdale in 2006, compared to 70% in 2003 and 78% in 2004. In their neighborhood after dark, 79% of survey participants felt “somewhat” or “very safe” in 2006, compared to 81% in 2003 and in 2004.

In 2006, as assessed by the survey, 87% of households reported that at least one member had been the victim of one or more crimes in the past year. In 2003, 88% of households had reported that at least one member had been a crime victim, while 86% reported so in 2004. Of those who had been the victim of a crime in 2006, 66% had reported it to police.

Community Participation

Participation in the civic, social and economic life of Scottsdale during the past year was assessed on the survey. Among those completing the questionnaire in 2006, 41% reported volunteering in the past year compared to 39% in 2003 and 40% in 2004.

LOCAL GOVERNMENT

Several aspects of the government of the City of Scottsdale were evaluated by residents completing The National Citizen Survey™. They were asked how much trust they placed in their local government, and what they felt about the services they receive from the City of Scottsdale. Those who had any contact with a City of Scottsdale employee in the past year gave their impressions of the most recent encounter.

Public Trust

When asked to evaluate whether they were pleased with the overall direction taken by the City of Scottsdale, residents gave an average rating of a 61 on a 100-point scale in 2006, compared to 56 in 2003 and 67 in 2004.

Service Provided by Scottsdale

The overall quality of services provided by the City of Scottsdale was rated as 66 on a 100-point scale in 2006, compared to 68 in 2003 and 71 in 2004.

The City of Scottsdale Employees

Impressions of the City of Scottsdale employees were assessed on the questionnaire. In 2006, those who had been in contact with a City of Scottsdale employee in the past year (54%) rated their overall impression as 65 on a 100-point scale, compared to an average rating of 72 received in 2003 and 71 in 2004.

ADDITIONAL QUESTIONS

Two additional questions were asked by the City of Scottsdale as listed below. The results for these questions are also available in the Report of Results.

Policy Question #1	
	In which area of Scottsdale do you live?
South or Indian Bend Road	42%
North of Indian Bend Road and south or west of the Central Arizona Project (CAP)	29%
North or east of the Central Arizona Project (CAP) Canal	29%
Total	100%

Policy Question #2		
To what level do you agree or disagree with each of the following statements?	The City of Scottsdale should do more to promote water conservation among residents	My household could do more to conserve water
Strongly agree	34%	10%
Somewhat agree	46%	40%
Neither agree nor disagree	15%	26%
Somewhat disagree	3%	16%
Strongly disagree	2%	7%
Total	100%	100%

Note: "don't know" responses have been removed.

SURVEY BACKGROUND

About The National Citizen Survey™

The National Citizen Survey™ (The NCS™) is a collaborative effort between National Research Center, Inc. (NRC) and the International City/County Management Association (ICMA).

The survey and its administration are standardized to assure high quality survey methods and comparable results across The National Citizen Survey™ jurisdictions. Participating households are selected at random and the household member who responds is selected without bias. Multiple mailings give each household more than one chance to participate with self-addressed and postage paid envelopes. Results are statistically re-weighted to reflect the proper demographic composition of the entire community.

The National Citizen Survey™ customized for this jurisdiction was developed in close cooperation with local jurisdiction staff. The City of Scottsdale staff selected items from a menu of questions about services and community problems; they defined the jurisdiction boundaries NRC used for sampling; and they provided the appropriate letterhead and signatures for mailings. City of Scottsdale staff also determined local interest in a variety of add-on options to The National Citizen Survey™ Basic Service.

UNDERSTANDING THE RESULTS

Survey Administration

Following the mailing of a pre-survey notification postcard to a random sample of 1,200 households, surveys were mailed to the same residences approximately one week later. A reminder letter and a new survey were sent to the same households after two weeks. Of the mailed postcards, 33 were undeliverable due to vacant or “not found” addresses. Completed surveys were received from 362 residents, for a response rate of 31%. Typically, the response rates obtained on citizen surveys range from 25% to 40%.

It is customary to describe the precision of estimates made from surveys by a “level of confidence” (or margin of error). The 95 percent confidence level for this survey of 1,200 residents is generally no greater than plus or minus 5 percentage points around any given percent reported for the entire sample.

The results were weighted to reflect the demographic profile of all residents in the City of Scottsdale. (For more information on the survey methodology, see Appendix B. A copy of the survey materials can be found in Appendix C.)

Survey Validity

The question of survey validity has two parts: 1) how can we be confident that the results from our sample are representative of the results we would have gotten had we administered the survey to the entire population? and 2) how closely do the perspectives recorded on the survey reflect what residents really believe or do?

To answer the first question, we use the best survey research practices for the resources spent to assure that the results from the sample reflect the opinions of residents in the entire jurisdiction. These practices include:

1. Using a mail-out/mail-back methodology, which typically gets a higher response rate than phone for the same dollars spent.
2. Selecting households at random within the jurisdiction.
3. Over-sampling attached units to improve response from hard-to-reach, lower income, or younger apartment dwellers.

4. Selecting the respondent within the household using an unbiased sampling procedure¹.
5. Contacting potential respondents three times to encourage response from people who may have different opinions or habits than those who would respond with only a single prompt.
6. Soliciting response on jurisdiction letterhead signed by the highest ranking elected official or staff member.
7. Providing a self-addressed, postage-paid return envelope.
8. Offering the survey in Spanish when appropriate and requested by City officials.
9. Using the most recent available information about the characteristics of jurisdiction residents to re-weight the data to reflect the demographics of the population.

The answer to the second question about how closely the perspectives recorded on the survey reflect what residents really believe or do is more complex. Resident responses to surveys are influenced by a variety of factors. For questions about service quality, residents' expectations for service quality play a role as well as the "objective" quality of the service provided, the way the resident perceives the entire community (that is, the context in which the service is provided), the scale on which the resident is asked to record her opinion and, of course, the opinion, itself, that a resident holds about the service. Similarly a resident's report of certain behaviors is colored by what he or she believes is the socially desirable response (e.g. reporting tolerant behaviors toward "oppressed groups," likelihood of voting a tax increase for services to poor people, use of alternative modes of travel to work besides the single occupancy vehicle), her memory of the actual behavior (if it is not a question speculating about future actions, like a vote), her confidence that she can be honest without suffering any negative consequences (thus the need for anonymity) as well as the actual behavior itself.

How closely survey results come to recording the way a person really feels or behaves often is measured by the coincidence of reported behavior with observed current behavior (e.g. driving habits), reported intentions to behave with observed future behavior (e.g. voting choices) or reported opinions about current community quality with objective characteristics of the community (e.g. feelings of safety correlated with rates of crime). There is a body of scientific literature that has investigated the relationship between reported behaviors and actual behaviors. Well-conducted surveys, by and large, do capture true respondent behaviors or intentions to act with great accuracy. Predictions of voting outcomes tend to be quite accurate using survey research, as do reported behaviors that are not about highly sensitive issues (e.g. family abuse or other

¹ The birthday method requests that the respondent in the household be the adult (18 years old or older) who most recently had a birthday, irrespective of year of birth.

illegal or morally sanctioned activities). For self-reports about highly sensitive issues, statistical adjustments can be made to correct for the respondents' tendency to report what they think the "correct" response should be.

Research on the correlation of resident opinion about service quality and "objective" ratings of service quality tend to be ambiguous, some showing stronger relationships than others. NRC's own research has demonstrated that residents who report the lowest ratings of street repair live in communities with objectively worse street conditions than those who report high ratings of street repair (based on road quality, delay in street repair, number of road repair employees). Similarly, the lowest rated fire services appear to be "objectively" worse than the highest rated fire services (expenditures per capita, response time, "professional" status of fire fighters, breadth of services and training provided). Whether some research confirms or disconfirms that relationship between what residents think about a community and what can be seen "objectively" in a community, we have argued that resident opinion is a perspective that cannot be ignored by government administrators. Elsewhere we have written, "If you collect trash three times a day but residents think that your trash haul is lousy, you still have a problem."

Use of the "Excellent, Good, Fair, Poor" Response Scale

The scale on which respondents are asked to record their opinions about service and community quality is "excellent," "good," "fair" or "poor" (EGFP). This scale has important advantages over other scale possibilities (very good to very bad; very satisfied to very dissatisfied; strongly agree to strongly disagree, as examples). EGFP is used by the plurality of jurisdictions conducting citizen surveys across the U.S. The advantage of familiarity is one we did not want to dismiss because elected officials, staff and residents already are acquainted with opinion surveys measured this way. EGFP also has the advantage of offering three positive options, rather than only two, over which a resident can offer an opinion. While symmetrical scales often are the right choice in other measurement tasks, we have found that ratings of almost every local government service in almost every jurisdiction tend, on average, to be positive (that is, above the scale midpoint). Therefore, to permit finer distinctions among positively rated services, EGFP offers three options across which to spread those ratings. EGFP is more neutral because it requires no positive statement of service quality to judge (as agree-disagree scales require) and, finally, EGFP intends to measure absolute quality of service delivery or community quality (unlike satisfaction scales which ignore residents' perceptions of quality in favor of their report on the acceptability of the level of service offered).

“Don’t Know” Responses

On many of the questions in the survey respondents may answer “don’t know.” The proportion of respondents giving this reply is shown in the full set of responses included in Appendix A. However, these responses have been removed from the analyses presented in the body of the report. In other words, the tables and graphs display the responses from respondents who had an opinion about a specific item.

For two of the items related to crime victimization and crime reporting, “don’t know” responses were not removed. These questions were not evaluative; rather, respondents were asked if they or any member of their household had been a victim of a crime within the last year. If they were, they were then asked whether the crime had been reported to police.

Putting Evaluations Onto a 100-Point Scale

Although responses to many of the evaluative questions were made on a 4 point scale with 4 representing the best rating and 1 the worst, many of the results in this summary are reported on a common scale where 0 is the worst possible rating and 100 is the best possible rating. If everyone reported “excellent,” then the result would be 100 on the 100-point scale. Likewise, if all respondents gave a “poor” rating, the result would be 0 on the 100-point scale. If the average rating for quality of life was “good,” then the result would be 67 on a 100-point scale; “fair” would be 33 on the 100-point scale. The 95 percent confidence interval around an average score on the 100-point scale is no greater than plus or minus 5 points based on all respondents.

Interpreting Comparisons to Previous Years

This report contains comparisons with prior years’ results; found primarily in the graphic representations of the data. In these graphs, data from 2006 are compared to data from 2003 and 2004. The table following a graph contains 2006 data only, and is titled accordingly. Differences between years can be considered “statistically significant” if they are greater than 5 percentage points or 5 points on a 100 point scale.

COMMUNITY LIFE

The National Citizen Survey™ contained many questions related to the life of residents in the community. Survey participants were asked to rate their overall quality of life, as well as other aspects of quality of life in Scottsdale. They also evaluated characteristics of the community, and gave their perceptions of safety in the City of Scottsdale. The questionnaire assessed use of the amenities of the community and involvement by respondents in the civic and economic life of Scottsdale.

Quality of Life

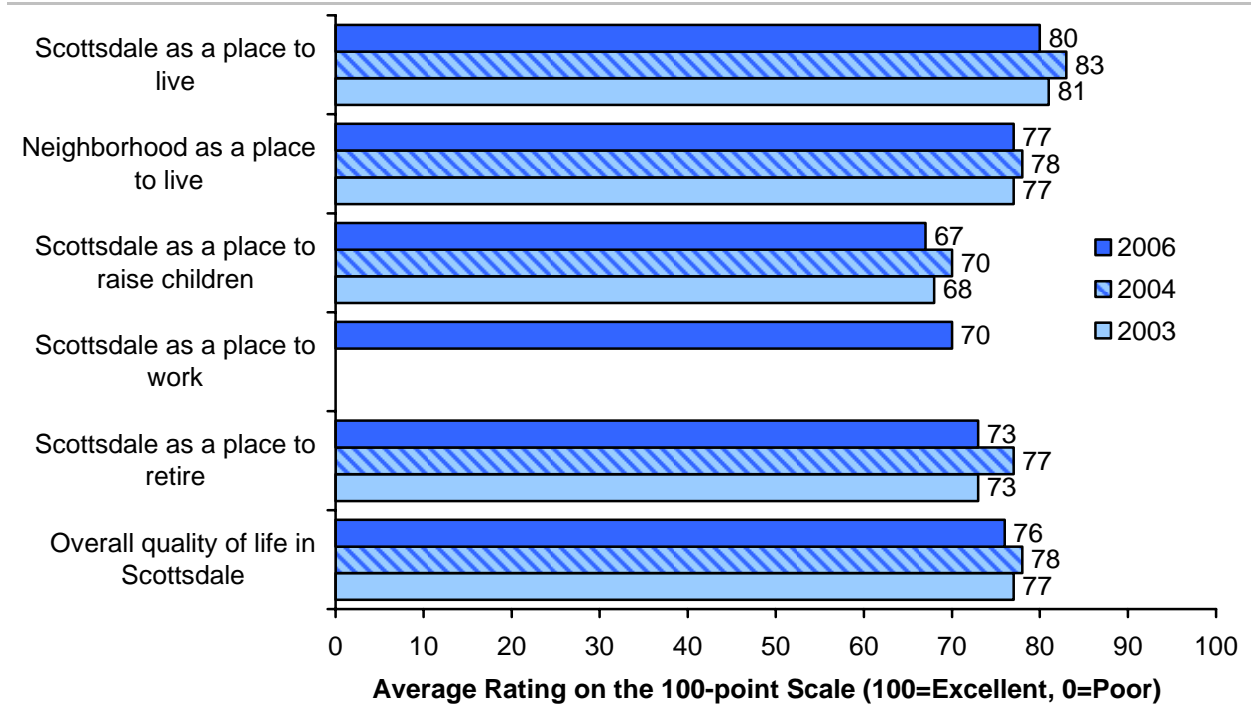

When asked to rate the overall quality of life in Scottsdale, 39% of respondents thought it was “excellent.” Only 1% rated overall quality of life as “poor.”

Figure 1: Overall Quality of Life in Scottsdale

The average rating of overall quality of life on a 100-point scale was 77 in 2003 and 78 in 2004. In 2006, the rating was 76. Scottsdale as a place to raise children received an average rating of 68 on a 100-point scale in 2003 and 70 in 2004, compared to 67 in 2006. Other ratings can be seen in the charts below.

Figure 2: Quality of Life Ratings

2006 Quality of Life Ratings

	Excellent	Good	Fair	Poor	Total	Average rating on a 100-point scale (100=Excellent, 0=Poor)
How do you rate Scottsdale as a place to live?	48%	46%	4%	1%	100%	80
How do you rate your neighborhood as a place to live?	41%	49%	9%	1%	100%	77
How do you rate Scottsdale as a place to raise children?	27%	52%	17%	5%	100%	67
How do you rate Scottsdale as a place to work?	28%	56%	15%	1%	100%	70
How do you rate Scottsdale as a place to retire?	43%	38%	14%	5%	100%	73

How do you rate the overall quality of life in Scottsdale?	39%	51%	9%	1%	100%	76

Note: "don't know" responses have been removed.

Ratings of Community Characteristics in Scottsdale

In 2006, the highest rated characteristics of Scottsdale were shopping opportunities, overall appearance of Scottsdale, and recreational opportunities. The average rating on a 100-point scale given to shopping opportunities in 2006 was 84 compared to 85 in 2003 and 87 in 2004. Average ratings given to all the characteristics are shown in Figures 3, 4 and 5.

Figure 3: Characteristics of the Community: General and Opportunities

2006 Characteristics of the Community: General and Opportunities

Please rate each of the following characteristics as they relate to Scottsdale as a whole:						Average rating on a 100-point scale (100=Excellent, 0=Poor)

Please rate each of the following characteristics as they relate to Scottsdale as a whole:

Excellent Good Fair Poor Total

Average rating on a 100-point scale (100=Excellent, 0=Poor)

Note: "don't know" responses have been removed.

When asked about potential problems in Scottsdale, the three concerns rated by the highest proportion of respondents as a “major problem” in 2006 were traffic congestion, too much growth, and drugs. In 2006 48% rated traffic congestion as a “major problem” compared to 33% in 2003 and 32% in 2004.

Figure 5: Ratings of Potential Problems in Scottsdale

In 2006, the rate of population growth in Scottsdale was viewed as “too fast” by 79% of respondents, while 0% thought it was “too slow.”

Note: Responses of “right amount” were omitted.

In 2006, 39% of respondents felt the impact of the economy would be positive on their family income in the next 12 months, while 17% felt it would be negative. In 2003, 29% of respondents and in 2004, 38% felt the impact of the economy would be positive.

Figure 7a: 2006 Perceptions of Economy

What impact, if any, do you think the economy will have on your family income in the next 6 months? Do you think the impact will be...

Figure 7b: Comparisons of Perceptions of Economy by Year

Note: Responses of "neutral" were omitted.

Perceptions of Safety

When evaluating safety in the community, 75% of respondents felt “somewhat” or “very safe” from violent crimes in Scottsdale in 2006, compared to 70% in 2003 and 78% in 2004. In their neighborhood after dark, 79% of survey participants felt “somewhat” or “very safe” in 2006, compared to 81% in 2003 and in 2004.

In 2006, as assessed by the survey, 87% of households reported that at least one member had been the victim of one or more crimes in the past year. In 2003, 88% of households had reported that at least one member had been a crime victim, while 86% reported so in 2004. Of those who had been the victim of a crime in 2006, 66% had reported it to police.

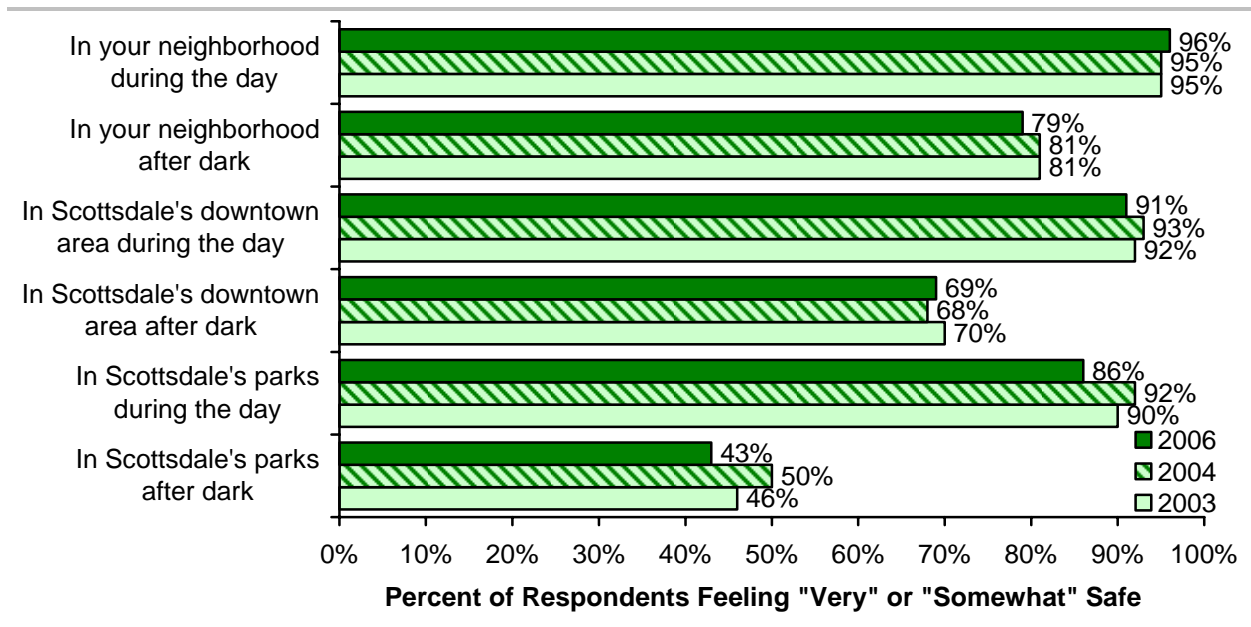

Figure 10: Percent of Respondents' Households That Were Victim of a Crime in the Last 12 Months by Year

Figure 11: Percent of Respondents' Households That Were Victim of a Crime Who Reported the Crime by Year

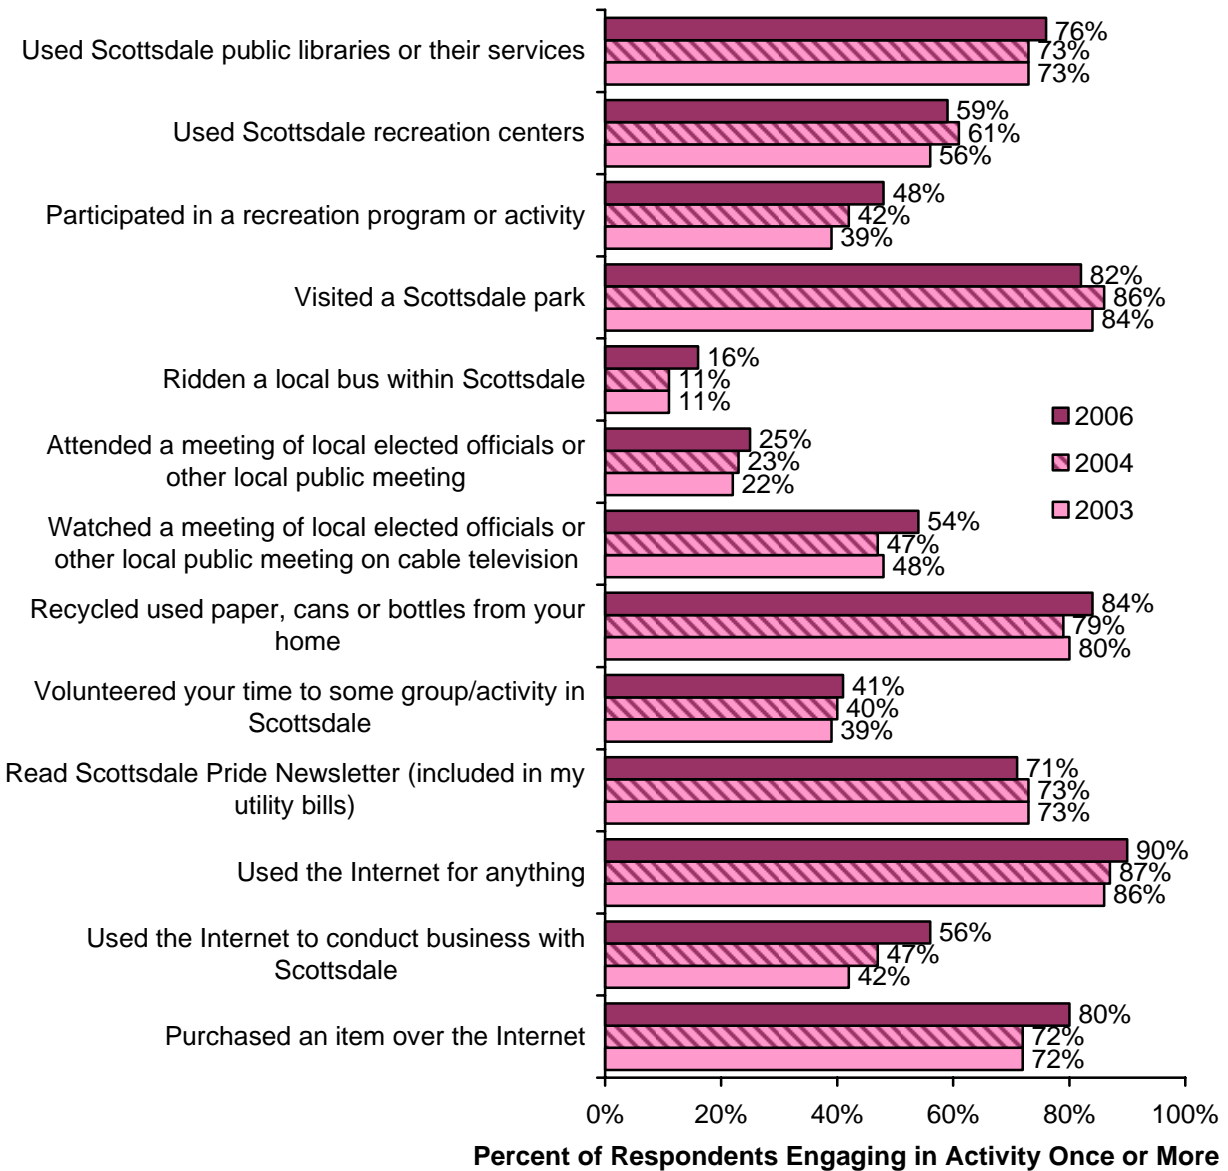

Community Participation

Participation in the civic, social and economic life of Scottsdale during the past year was assessed on the survey. The proportion of respondents engaging in various activities is shown in the chart below, with comparisons made between 2006, 2004 and 2003.

Among those completing the questionnaire in 2006, 41% reported volunteering in the past year compared to 39% in 2003 and 40% in 2004. Voter status was also estimated, and is shown on the next page.²

Figure 12: Percent of Respondents Engaging in Various Activities in Scottsdale in the Last 12 Months by Year

² In general on a survey, a greater proportion of people will report having voted, than actual voting records verify.

Figure 13: Voter Status and Activity by Year

LOCAL GOVERNMENT

Several aspects of the government of the City of Scottsdale were evaluated by residents completing The National Citizen Survey™. They were asked how much trust they placed in their local government, and what they felt about the services they receive from the City of Scottsdale. Those who had any contact with a City of Scottsdale employee in the past year gave their impressions of the most recent encounter.

Public Trust

When asked to evaluate whether they were pleased with the overall direction taken by the City of Scottsdale, residents gave an average rating of a 61 on a 100-point scale in 2006, compared to 56 in 2003 and 67 in 2004.

Figure 14: Ratings of Public Trust by Year

2006 Public Trust Ratings

Please rate the following statements:	Strongly agree	Somewhat agree	Neither agree nor disagree	Somewhat disagree	Strongly disagree	Total	Average rating on a 100-point scale (100=Strongly agree, 0=Strongly disagree)
I receive good value for the City of Scottsdale taxes I pay	24%	45%	22%	4%	5%	100%	70
I am pleased with the overall direction that the City of Scottsdale is taking	16%	40%	20%	15%	8%	100%	61

The City of Scottsdale Employees

Impressions of the City of Scottsdale employees were assessed on the questionnaire. In 2006, those who had been in contact with a City of Scottsdale employee in the past year (54%) rated their overall impression as 65 on a 100-point scale, compared to an average rating of 72 received in 2003 and 71 in 2004.

ADDITIONAL QUESTIONS

Two additional questions were asked by the City of Scottsdale. The results for these questions are displayed below.

Policy Question #1	
	In which area of Scottsdale do you live?
South or Indian Bend Road	42%
North of Indian Bend Road and south or west of the Central Arizona Project (CAP)	29%
North or east of the Central Arizona Project (CAP) Canal	29%
Total	100%

Policy Question #2		
To what level do you agree or disagree with each of the following statements?	The City of Scottsdale should do more to promote water conservation among residents	My household could do more to conserve water
Strongly agree	34%	10%
Somewhat agree	46%	40%
Neither agree nor disagree	15%	26%
Somewhat disagree	3%	16%
Strongly disagree	2%	7%
Total	100%	100%

Note: "don't know" responses have been removed.

APPENDIX A: FREQUENCY OF RESPONSES TO ALL SURVEY QUESTIONS

This appendix displays the complete distribution of responses to questions in 2006. The “don’t know” responses are shown, where applicable.

Question 1: Quality of Life Ratings

	Excellent	Good	Fair	Poor	Don't know	Total
How do you rate Scottsdale as a place to live?	48%	46%	4%	1%	0%	100%
How do you rate your neighborhood as a place to live?	41%	49%	9%	1%	0%	100%
How do you rate Scottsdale as a place to raise children?	21%	41%	13%	4%	21%	100%
How do you rate Scottsdale as a place to work?	22%	45%	12%	1%	20%	100%
How do you rate Scottsdale as a place to retire?	36%	32%	12%	5%	15%	100%
How do you rate the overall quality of life in Scottsdale?	39%	51%	9%	1%	0%	100%

Question 2: Please rate each of the following characteristics as they relate to Scottsdale as a whole

	Excellent	Good	Fair	Poor	Don't know	Total
Sense of community	11%	42%	31%	14%	2%	100%
Overall appearance of Scottsdale	37%	49%	13%	1%	0%	100%
Opportunities to attend cultural activities	31%	43%	16%	6%	4%	100%
Shopping opportunities	58%	36%	5%	0%	0%	100%
Recreational opportunities	32%	49%	12%	3%	3%	100%
Job opportunities	9%	37%	24%	5%	25%	100%
Ease of car travel in Scottsdale	8%	31%	39%	21%	2%	100%
Ease of bus travel in Scottsdale	2%	9%	12%	21%	55%	100%
Ease of bicycle travel in Scottsdale	9%	30%	26%	7%	28%	100%
Ease of walking in Scottsdale	20%	44%	22%	8%	6%	100%

Question 3: Please rate the speed of growth in the following categories in Scottsdale over the past two years

	Much too slow	Somewhat too slow	Right amount	Somewhat too fast	Much too fast	Don't know	Total
Population growth	0%	0%	19%	37%	35%	9%	100%
Retail growth (stores, restaurants etc.)	2%	5%	39%	28%	20%	6%	100%
Jobs growth	4%	19%	27%	2%	0%	47%	100%

Question 4: To what degree are the following problems in Scottsdale

	Not a problem	Minor problem	Moderate problem	Major problem	Don't know	Total
Crime	9%	33%	40%	10%	8%	100%
Drugs	8%	25%	25%	17%	25%	100%
Too much growth	10%	13%	31%	41%	6%	100%
Lack of growth	74%	11%	5%	1%	9%	100%
Noise	25%	43%	25%	6%	1%	100%
Run down buildings, weed lots, or junk vehicles	34%	47%	14%	2%	3%	100%
Taxes	23%	25%	30%	13%	10%	100%
Traffic congestion	3%	16%	33%	48%	1%	100%
Unsupervised youth	16%	31%	23%	5%	25%	100%

Question 5: Please rate how safe you feel from the following occurring to you in Scottsdale

	Very safe	Somewhat safe	Neither safe nor unsafe	Somewhat unsafe	Very unsafe	Don't know	Total
Violent crime (e.g., rape, assault, robbery)	31%	42%	17%	8%	0%	2%	100%
Property crimes (e.g., burglary, theft)	13%	43%	20%	17%	4%	3%	100%
Fire	32%	37%	20%	2%	1%	8%	100%

The City of Scottsdale Citizen Survey

Question 16a: Policy Question 1				
	South or Indian Bend Road	North of Indian Bend Road and south or west of the Central Arizona Project (CAP) Canal	North or east of the Central Arizona Project (CAP) Canal	Total
In which area of Scottsdale do you live?	42%	29%	29%	100%

Question 16b: Policy Question 2							
To what level do you agree or disagree with each of the following statements?	Strongly agree	Somewhat agree	Neither agree nor disagree	Somewhat disagree	Strongly disagree	Don't know	Total
The City of Scottsdale should do more to promote water conservation among residents	33%	44%	15%	3%	2%	4%	100%
My household could do more to conserve water	10%	40%	26%	16%	7%	1%	100%

Question 17: Do you live within the City limits of the City of Scottsdale?

	No	Yes	Total
Do you live within the limits of the City of Scottsdale?	5%	95%	100%

Question 18: Employment Status

	No	Yes	Total
Are you currently employed?	26%	74%	100%

Question 18a: Usual Mode of Transportation to Work

What one method of transportation do you usually use (for the longest distance of your commute) to travel to work?

Motorized vehicle	89%
Public transportation	3%
Walk	2%
Work at home	6%
Other	0%
Total	100%

Question 18b: Drive Alone or Carpool

	No	Yes	Total
If you checked the motorized vehicle (e.g. car, truck, van, motorcycle, etc.) box in 18a, do other people usually ride with you to or from work?	87%	13%	100%

Usual Mode of Transportation to Work, Including Carpooling

Usual mode of transportation to work	
Motorized vehicle, no others (SOV)	78%
Motorized vehicle, with others (MOV)	11%
Public transportation	3%
Walk	2%
Work at home	6%
Other	0%
Total	100%

Question 19: Length of Residency

How many years have you lived in Scottsdale?

Less than 2 years	15%
2 to 5 years	20%
6 to 10 years	19%
11 to 20 years	21%
More than 20 years	25%
Total	100%

Question 20: Type of Housing Unit

Which best describes the building you live in?

One family house detached from any other houses	51%
One family house attached to one or more houses	14%
Building with two or more apartments or condominiums	33%
Other	1%
Total	100%

Question 21: Tenure Status

	Rented for cash or occupied without cash payment?	Owned by you or someone in this house	Total
Is this house, apartment, or mobile home...	30%	70%	100%

Questions 22 to 25: Household Characteristics

	No	Yes	Total
Do any children age 12 or under live in your household?	88%	12%	100%
Do any teenagers ages 13 through 17 live in your household?	92%	8%	100%
Are you or any other members of your household aged 65 or older?	74%	26%	100%
Does any member of your household have a physical handicap or is anyone disabled?	90%	10%	100%

Question 26: Education

What is the highest degree or level of school you have completed?

12th Grade or less, no diploma	1%
High school diploma	9%
Some college, no degree	20%
Associate's degree (e.g. AA, AS)	8%
Bachelor's degree (e.g. BA, AB, BS)	40%
Graduate degree or professional degree	22%
Total	100%

Question 27: Annual Household Income

How much do you anticipate your household's total income before taxes will be for the current year?

Less than \$24,999	11%
\$25,000 to \$49,999	25%
\$50,000 to \$99,999	32%
\$100,000 or more	33%
Total	100%

Question 28: Ethnicity

	No	Yes	Total
Are you Spanish/Hispanic/Latino?	95%	5%	100%

Question 29: Race

What is your race?	Percent of Respondents
American Indian or Alaskan native	0%
Asian or Pacific Islander	1%
Black, African American	1%
White/Caucasian	94%
Other	4%

Total may exceed 100% as respondents could select more than one category.

Question 30: Age

In which category is your age?

18 to 24 years	5%
25 to 34 years	21%
35 to 44 years	14%
45 to 54 years	24%
55 to 64 years	14%
65 to 74 years	13%
75 years or older	10%
Total	100%

Question 31: Gender

	Female	Male	Total
What is your gender?	54%	46%	100%

Questions 32 to 34: Voter Status and Activity

	No	Yes	Don't know	Total
Are you registered to vote in your jurisdiction?	16%	83%	0%	100%
Did you vote in the last election?	24%	76%	0%	100%
Are you likely to vote in the next election?	8%	86%	7%	100%

APPENDIX B: SURVEY METHODOLOGY

The National Citizen Survey™ was developed to provide local jurisdictions an accurate, affordable and easy way to assess and interpret resident opinion about important community issues. While standardization of question wording and survey methods provide the rigor to assure valid results, each jurisdiction has enough flexibility to construct a customized version of The National Citizen Survey™ that asks residents about key local services and important local issues.

Results offer insight into residents' perspectives about local government performance and as such provide important benchmarks for jurisdictions working on performance measurement. The National Citizen Survey™ is designed to help with budget, land use and strategic planning as well as to communicate with local residents. The National Citizen Survey™ permits questions to test support for local policies and answers to its questions also speak to community trust and involvement in community-building activities as well as to resident demographic characteristics.

The methods detailed in the following section are for the 2006 administration of The NCS in the City of Scottsdale. Information about the implementation in previous years can be found in past reports.

Sampling

Approximately 1,200 households were selected to participate in the survey using a stratified systematic sampling method.³ An individual within each household was selected using the birthday method.⁴

Survey Administration

Selected households received three mailings, one week apart, beginning November 6, 2006. The first mailing was a prenotification postcard announcing the upcoming survey. The next mailing contained a letter from the city manager inviting the household to participate, a questionnaire and postage-paid return envelope. The final mailing contained a reminder letter and another survey and postage-paid return envelope. Completed surveys were collected over the following 5 weeks.

³ Systematic sampling is a method that closely approximates random sampling by selecting every Nth address until the desired number of households is chosen.

⁴ The birthday method is a process to remove bias in the selection of a person within the household by asking the "person whose birthday has most recently passed" to complete the questionnaire. The underlying assumption in this method is that day of birth has no relationship to the way people respond to surveys but leaving selection of respondent to household members will lead to bias.

Response Rate and Confidence Intervals

Of the 1,167 eligible households, 362 completed the survey providing a response rate of 31%. Approximately 33 addresses sampled were “vacant” or “not found.”⁵ In general, the response rates obtained on citizen surveys range from 25% to 40%. The sample of households was selected systematically and impartially from a list of residences in the United States maintained by the U.S. postal service and sold to NRC through an independent vendor. The sample drawn for Scottsdale used USPS data to approximate the geographic boundaries of the jurisdiction, though some households just outside the city limits may have received surveys. The survey completers who technically do not reside in the jurisdiction may choose to respond to the survey because they feel an affiliation with the jurisdiction and its services. Local governments often have a sphere of influence – providing in-jurisdiction services that perimeter-residents use or even providing services outside the jurisdiction boundaries.

In theory, in 95 cases out of 100, the results based on such samples will differ by no more than 5 percentage points in either direction from what would have been obtained had responses been collected from all Scottsdale adults. This difference is also called a “margin of error.”⁶ This difference from the presumed population finding is referred to as the sampling error. For subgroups of responses, the margin of sampling error is larger. In addition to sampling error, the practical difficulties of conducting any survey of the public may introduce other sources of error. For example, the failure of some of the selected adults to participate in the sample or the difficulty of including all sectors of the population, such as residents of some institutions or group residences, may lead to somewhat different results.

Weighting and Analyzing the Data

The surveys were analyzed using the SPSS statistical package. Frequency distributions and average (mean) ratings are presented in the body of the report.

The demographic characteristics of the sample were compared to those of the City of Scottsdale as reflected in the information sent by staff to National Research Center, Inc. When necessary, survey results were statistically adjusted to reflect the known population profile.

Generally, only two variables are used in a weighting scheme. Known population characteristics are compared to the characteristics of survey respondents. Generally, characteristics chosen as weighting variables are selected because they are not in proportion to what is shown in a jurisdiction’s demographic profile and because differences in opinion are observed between subgroups of these characteristics. The two

⁵ “Eligible” households refer to addresses that belong to residences that are not vacant within the City of Scottsdale.

⁶ The margin of error was calculated using the following formula: $1.96 * \text{square root}(0.25/400)$. This margin of error is calculated in the most conservative way. The standard error was assumed to be the greatest for a binomial distribution: 50%/50%.

socioeconomic characteristics that were used to weight the survey results were gender/age and tenure. Other discrepancies between the whole population and the sample were also aided by the weighting due to the intercorrelation of many socioeconomic characteristics, although the percentages are not always identical in the sample compared to the population norms. The results of the weighting scheme are presented in the table on the following page.

Weighting Scheme for the City of Scottsdale Citizen Survey

Respondent Characteristics	Population Norm⁷	Unweighted Survey Data	Weighted Survey Data
Tenure			
Rent Home	30%	16%	30%
Own Home	70%	84%	70%
Type of Housing Unit			
Single-Family Detached	55%	62%	51%
Attached	45%	38%	49%

APPENDIX C: SURVEY MATERIALS

The following pages contain copies of the survey materials sent to randomly selected households within the City of Scottsdale. All households selected for inclusion in the study were first sent a prenotification postcard informing them that they would be receiving a questionnaire within the following week. A week later, a cover letter and survey were sent, with a postage paid return envelope. Two weeks later a second cover letter and survey were sent. The second cover letter asked that those who had responded not do so again, while urging those who had not yet returned their surveys to please do so.

Dear Scottsdale Resident,

Your household has been selected at random to participate in an anonymous citizen survey about the City of Scottsdale. You will receive a copy of the survey next week in the mail with instructions for completing and returning it. Thank you in advance for helping us with this important project!

Sincerely,

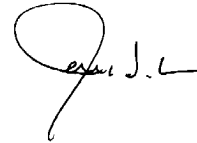

A handwritten signature in black ink, appearing to read "Jan Dolan". The signature is fluid and cursive, with a large initial "J" and "D".

Jan Dolan
City Manager

November 2006

Dear Scottsdale Resident:

The City of Scottsdale wants to know what you think about our community and municipal government. You have been randomly selected to participate in Scottsdale's 2006 Citizen Survey.

Please take a few minutes to fill out the enclosed Citizen Survey. Your answers will help the City Council make decisions that affect our community. You should find the questions interesting and we will definitely find your answers useful. Please participate!

To get a representative sample of Scottsdale residents, the adult (anyone 18 years or older) in your household who most recently had a birthday should complete this survey. Year of birth of the adult does not matter.

Please have the appropriate member of the household spend a few minutes to answer all the questions and return the survey in the enclosed postage-paid envelope. **Your responses will remain completely anonymous.**

Your participation in this survey is very important – especially since your household is one of only a small number of households being surveyed. If you have any questions about the Citizen Survey, please call 480-312-2335.

Please help us shape the future of Scottsdale. Thank you for your time and participation.

Sincerely,

A handwritten signature in black ink, appearing to read "Jan Dolan".

November 2006

Dear Scottsdale Resident:

About one week ago, you should have received a copy of the enclosed survey. **If you completed it and sent it back, we thank you for your time and ask you to discard this survey. Please do not respond twice.** If you have not had a chance to complete the survey, we would appreciate your response. The City of Scottsdale wants to know what you think about our community and municipal government. You have been randomly selected to participate in the City of Scottsdale Citizen Survey.

Please take a few minutes to fill out the enclosed Citizen Survey. Your answers will help the City Council make decisions that affect our community. You should find the questions interesting and we will definitely find your answers useful. Please participate!

THE CITY OF SCOTTSDALE 2006 CITIZEN SURVEY

Please complete this questionnaire if you are the adult (age 18 or older) in the household who most recently had a birthday. The adult's year of birth does not matter. Please circle the response that most closely represents your opinion for each question. Your responses are anonymous and will be reported in group form only.

1. Please circle the number that comes closest to your opinion for each of the following questions:

	<u>Excellent</u>	<u>Good</u>	<u>Fair</u>	<u>Poor</u>	<u>Don't know</u>
How do you rate Scottsdale as a place to live?.....	1	2	3	4	5
How do you rate your neighborhood as a place to live?	1	2	3	4	5
How do you rate Scottsdale as a place to raise children?.....	1	2	3	4	5
How do you rate Scottsdale as a place to work?	1	2	3	4	5
How do you rate Scottsdale as a place to retire?.....	1	2	3	4	5
How do you rate the overall quality of life in Scottsdale?	1	2	3	4	5

2. Please rate each of the following characteristics as they relate to Scottsdale as a whole:

	<u>Excellent</u>	<u>Good</u>	<u>Fair</u>	<u>Poor</u>	<u>Don't know</u>
Sense of community	1	2	3	4	5
Overall appearance of Scottsdale	1	2	3	4	5
Opportunities to attend cultural activities.....	1	2	3	4	5
Shopping opportunities	1	2	3	4	5
Recreational opportunities.....	1	2	3	4	5
Job opportunities	1	2	3	4	5
Ease of car travel in Scottsdale	1	2	3	4	5
Ease of bus travel in Scottsdale	1	2	3	4	5
Ease of rail/subway travel in Scottsdale	1	2	3	4	5
Ease of bicycle travel in Scottsdale	1	2	3	4	5
Ease of walking in Scottsdale.....	1	2	3	4	5

3. Please rate the speed of growth in the following categories in Scottsdale over the past 2 years:

	<u>Much too slow</u>	<u>Somewhat too slow</u>	<u>Right amount</u>	<u>Somewhat too fast</u>	<u>Much too fast</u>	<u>Don't know</u>
Population growth.....	1	2	3	4	5	6
Retail growth (stores, restaurants etc.).....	1	2	3	4	5	6
Jobs growth	1	2	3	4	5	6

4. To what degree, if at all, are the following problems in Scottsdale:

	<u>Not a problem</u>	<u>Minor problem</u>	<u>Moderate problem</u>	<u>Major problem</u>	<u>Don't know</u>
Crime	1	2	3	4	5
Drugs	1	2	3	4	5
Too much growth.....	1	2	3	4	5
Lack of growth	1	2	3	4	5
Noise.....	1	2	3	4	5
Run down buildings, weed lots, or junk vehicles	1	2	3	4	5
Taxes	1	2	3	4	5
Traffic congestion	1	2	3	4	5
Unsupervised youth	1	2	3	4	5

5. Please rate how safe you feel from the following occurring to you in Scottsdale:

	Very safe	Somewhat safe	Neither safe nor unsafe	Somewhat unsafe	Very unsafe	Don't know
Violent crime (e.g., rape, assault, robbery)	1	2	3	4	5	6
Property crimes (e.g., burglary, theft)	1	2	3	4	5	6
Fire	1	2	3	4	5	6

6. Please rate how safe you feel:

	Very safe	Somewhat safe	Neither safe nor unsafe	Somewhat unsafe	Very unsafe	Don't know
In your neighborhood during the day	1	2	3	4	5	6
In your neighborhood after dark	1	2	3	4	5	6
In Scottsdale's downtown area during the day	1	2	3	4	5	6
In Scottsdale's downtown area after dark.....	1	2	3	4	5	6
In Scottsdale's parks during the day.....	1	2	3	4	5	6
In Scottsdale's parks after dark	1	2	3	4	5	6

7. During the past twelve months, were you or anyone in your household the victim of any crime?

- No → Go to question #9 Yes → Go to question #8 Don't know

8. If yes, was this crime (these crimes) reported to the police?

- No Yes Don't know

9. In the last 12 months, about how many times, if ever, have you or other household members participated in the following activities in Scottsdale?

	Never	Once or twice	3 to 12 times	13 to 26 times	More than 26 times
Used Scottsdale public libraries or their services.....	1	2	3	4	5
Used Scottsdale recreation centers.....	1	2	3	4	5
Participated in a recreation program or activity	1	2	3	4	5
Visited a neighborhood or City park	1	2	3	4	5
Ridden a local bus within Scottsdale	1	2	3	4	5
Attended a meeting of local elected officials or other local public meeting.....	1	2	3	4	5
Watched a meeting of local elected officials or other local public meeting on cable television.....	1	2	3	4	5
Recycled used paper, cans or bottles from your home.....	1	2	3	4	5
Volunteered your time to some group/activity in Scottsdale.....	1	2	3	4	5
Read Scottsdale Pride Newsletter (included in my utility bills).....	1	2	3	4	5
Used the Internet for anything	1	2	3	4	5
Used the Internet to conduct business with Scottsdale.....	1	2	3	4	5
Purchased an item over the Internet	1	2	3	4	5

10. How do you rate the quality of each of the following services in Scottsdale?

	<u>Excellent</u>	<u>Good</u>	<u>Fair</u>	<u>Poor</u>	<u>Don't know</u>
Police services.....	1	2	3	4	5
Fire services	1	2	3	4	5
Ambulance/emergency medical services	1	2	3	4	5
Traffic enforcement.....	1	2	3	4	5
Garbage collection.....	1	2	3	4	5
Recycling	1	2	3	4	5
Yard waste pick-up	1	2	3	4	5
Street repair	1	2	3	4	5
Street cleaning.....	1	2	3	4	5
Sidewalk maintenance.....	1	2	3	4	5
Traffic signal timing.....	1	2	3	4	5
Amount of public parking	1	2	3	4	5
Bus/transit services.....	1	2	3	4	5
Storm drainage	1	2	3	4	5
Drinking water	1	2	3	4	5
City parks.....	1	2	3	4	5
Recreation programs or classes.....	1	2	3	4	5
Appearance/maintenance of parks.....	1	2	3	4	5
Appearance of recreation centers/facilities	1	2	3	4	5
Land use, planning and zoning	1	2	3	4	5
Code enforcement (weeds, abandoned buildings, etc)	1	2	3	4	5
Animal control	1	2	3	4	5
Economic development	1	2	3	4	5
Services to seniors	1	2	3	4	5
Services to youth	1	2	3	4	5
Public library services.....	1	2	3	4	5
Public information services.....	1	2	3	4	5

11. Overall, how would you rate the quality of the services provided by each of the following?

	<u>Excellent</u>	<u>Good</u>	<u>Fair</u>	<u>Poor</u>	<u>Don't know</u>
The City of Scottsdale.....	1	2	3	4	5
The Federal Government	1	2	3	4	5
The State Government	1	2	3	4	5

12. Have you had any in-person or phone contact with an employee of the City of Scottsdale within the last 12 months (including police, receptionists, planners or any others)?

- No → Go to question #14 Yes → Go to question #13

13. What was your impression of employees of the City of Scottsdale in your most recent contact? (Rate each characteristic below.)

	<u>Excellent</u>	<u>Good</u>	<u>Fair</u>	<u>Poor</u>	<u>Don't know</u>
Knowledge	1	2	3	4	5
Responsiveness.....	1	2	3	4	5
Courtesy	1	2	3	4	5
Overall impression	1	2	3	4	5

14. Please rate the following statements by circling the number that most clearly represents your opinion:

	Strongly <u>agree</u>	Somewhat <u>agree</u>	Neither agree <u>nor disagree</u>	Somewhat <u>disagree</u>	Strongly <u>disagree</u>	Don't <u>know</u>
I receive good value for the City of Scottsdale taxes I pay	1	2	3	4	5	6
I am pleased with the overall direction that the City of Scottsdale is taking	1	2	3	4	5	6
The City of Scottsdale government welcomes citizen involvement	1	2	3	4	5	6
The City of Scottsdale government listens to citizens	1	2	3	4	5	6

15. What impact, if any, do you think the economy will have on your family income in the next 6 months? Do you think the impact will be:

- Very positive
 Somewhat positive
 Neutral
 Somewhat negative
 Very negative

16. Please check the response that comes closest to your opinion for each of the following questions:

a. In which area of Scottsdale do you live?

- South of Indian Bend Road
 North of Indian Bend Road and south or west of the Central Arizona Project (CAP) Canal
 North or east of the Central Arizona Project (CAP) Canal

b. To what level do you agree or disagree with each of the following statements?

	strongly <u>agree</u>	somewhat <u>agree</u>	neither agree <u>nor disagree</u>	somewhat <u>disagree</u>	strongly <u>disagree</u>	don't <u>know</u>
The City of Scottsdale should do more to promote water conservation among residents	1	2	3	4	5	6
My household could do more to conserve water	1	2	3	4	5	6

Our last questions are about you and your household. Again, all of your responses to this survey are completely anonymous and will be reported in group form only.

17. Do you live within the City limits of the City of Scottsdale?

- No Yes

18. Are you currently employed?

- No → Go to question #19
 Yes → Go to question #18a

18a. What one method of transportation do you usually use (for the longest distance of your commute) to travel to work?

- Motorized vehicle (e.g. car, truck, van, motorcycle etc...)
 Bus, Rail, Subway, or other public transportation
 Walk
 Work at home
 Other

18b. If you checked the motorized vehicle (e.g. car, truck, van, motorcycle, etc.) box in 18a, do other people (adults or children) usually ride with you to or from work?

- No Yes

19. How many years have you lived in Scottsdale?

- Less than 2 years 11-20 years
 2-5 years More than 20 years
 6-10 years

20. Which best describes the building you live in?

- One family house detached from any other houses
 House attached to one or more houses (e.g., a duplex or townhome)
 Building with two or more apartments or condominiums
 Mobile home
 Other

21. Is this house, apartment, or mobile home...

- Rented for cash or occupied without cash payment?
 Owned by you or someone in this house with a mortgage or free and clear?

22. Do any children 12 or under live in your household?

- No Yes

23. Do any teenagers aged between 13 and 17 live in your household?

- No Yes

24. Are you or any other members of your household aged 65 or older?

- No Yes

25. Does any member of your household have a physical handicap or is anyone disabled?

- No Yes

26. What is the highest degree or level of school you have completed? (mark one box)

- 12th Grade or less, no diploma
 High school diploma
 Some college, no degree
 Associate's degree (e.g. AA, AS)
 Bachelor's degree (e.g. BA, AB, BS)
 Graduate degree or professional degree

27. How much do you anticipate your household's total income before taxes will be for the current year? (Please include in your total income money from all sources for all persons living in your household.)

- Less than \$24,999
 \$25,000 to \$49,999
 \$50,000 to \$99,999
 \$100,000 or more

28. Are you Spanish/Hispanic/Latino?

- No Yes

29. What is your race? (Mark one or more races to indicate what race you consider yourself to be)

- American Indian or Alaskan native
 Asian or Pacific Islander
 Black, African American
 White/Caucasian
 Other

30. In which category is your age?

- 18-24 years 55-64 years
 25-34 years 65-74 years
 35-44 years 75 years or older
 45-54 years

31. What is your sex?

- Female Male

32. Are you registered to vote in your jurisdiction?

- No Yes Don't know

33. Did you vote in the last election?

- No Yes Don't know

34. Are you likely to vote in the next election?

- No Yes Don't know

SURVEY BACKGROUND

About The National Citizen Survey™

The National Citizen Survey™ (The NCS™) is a collaborative effort between National Research Center, Inc. (NRC) and the International City/County Management Association (ICMA).

The survey and its administration are standardized to assure high quality survey methods and comparable results across The National Citizen Survey™ jurisdictions. Participating households are selected at random and the household member who responds is selected without bias. Multiple mailings give each household more than one chance to participate with self-addressed and postage paid envelopes. Results are statistically re-weighted to reflect the proper demographic composition of the entire community.

The National Citizen Survey™ customized for this jurisdiction was developed in close cooperation with local jurisdiction staff. The City of Scottsdale staff selected items from a menu of questions about services and community problems; they defined the jurisdiction boundaries NRC used for sampling; and they provided the appropriate letterhead and signatures for mailings. City of Scottsdale staff also determined local interest in a variety of add-on options to The National Citizen Survey™ Basic Service.

UNDERSTANDING THE NORMATIVE COMPARISONS

Comparison Data

National Research Center, Inc. has collected citizen surveys conducted in over 400 jurisdictions in the United States. Responses to thousands of survey questions dealing with resident perceptions about the quality of community life and services provided by local government were recorded, analyzed and stored in an electronic database.

The jurisdictions in the database represent a wide geographic and population range as shown in the table below.

Jurisdiction Characteristic	Percent of Jurisdictions
Region	
West Coast ¹	17%
West ²	20%
North Central West ³	11%
North Central East ⁴	13%
South Central ⁵	9%
South ⁶	25%
Northeast West ⁷	3%
Northeast East ⁸	2%
Population	
Less than 40,000	39%
40,000 to 74,999	20%
75,000 to 149,000	17%
150,000 or more	24%

¹ Alaska, Washington, Oregon, California, Hawaii

² Montana, Idaho, Wyoming, Colorado, Utah, Nevada, Arizona, New Mexico

³ North Dakota, South Dakota, Nebraska, Kansas, Iowa, Missouri, Minnesota

⁴ Illinois, Indiana, Ohio, Michigan, Wisconsin

⁵ Oklahoma, Texas, Louisiana, Arkansas

⁶ West Virginia, Virginia, Kentucky, Tennessee, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, Maryland, Delaware, Washington DC

⁷ New York, Pennsylvania, New Jersey

⁸ Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont, Maine

Use of the “Excellent, Good, Fair, Poor” Response Scale

The scale on which respondents are asked to record their opinions about service and community quality is “excellent,” “good,” “fair” or “poor” (EGFP). This scale has important advantages over other scale possibilities (very good to very bad; very satisfied to very dissatisfied; strongly agree to strongly disagree, as examples). EGFP is used by the plurality of jurisdictions conducting citizen surveys across the U.S. The advantage of familiarity is one we did not want to dismiss because elected officials, staff and residents already are acquainted with opinion surveys measured this way. EGFP also has the advantage of offering three positive options, rather than only two, over which a resident can offer an opinion. While symmetrical scales often are the right choice in other measurement tasks, we have found that ratings of almost every local government service in almost every jurisdiction tend, on average, to be positive (that is, above the scale midpoint). Therefore, to permit finer distinctions among positively rated services, EGFP offers three options across which to spread those ratings. EGFP is more neutral because it requires no positive statement of service quality to judge (as agree-disagree scales require) and, finally, EGFP intends to measure absolute quality of service delivery or community quality (unlike satisfaction scales which ignore residents’ perceptions of quality in favor of their report on the acceptability of the level of service offered).

Putting Evaluations onto a 100-Point Scale

Although responses to many of the evaluative questions were made on a 4 point scale with 4 representing the best rating and 1 the worst, many of the results in this summary are reported on a common scale where 0 is the worst possible rating and 100 is the best possible rating. If everyone reported “excellent,” then the result would be 100 on the 100-point scale. Likewise, if all respondents gave a “poor” rating, the result would be 0 on the 100-point scale. If the average rating for quality of life was “good,” then the result would be 67 on a 100-point scale; “fair” would be 33 on the 100-point scale. The 95 percent confidence interval around an average score on the 100-point scale is no greater than plus or minus 5 points based on all respondents.

Interpreting the Results

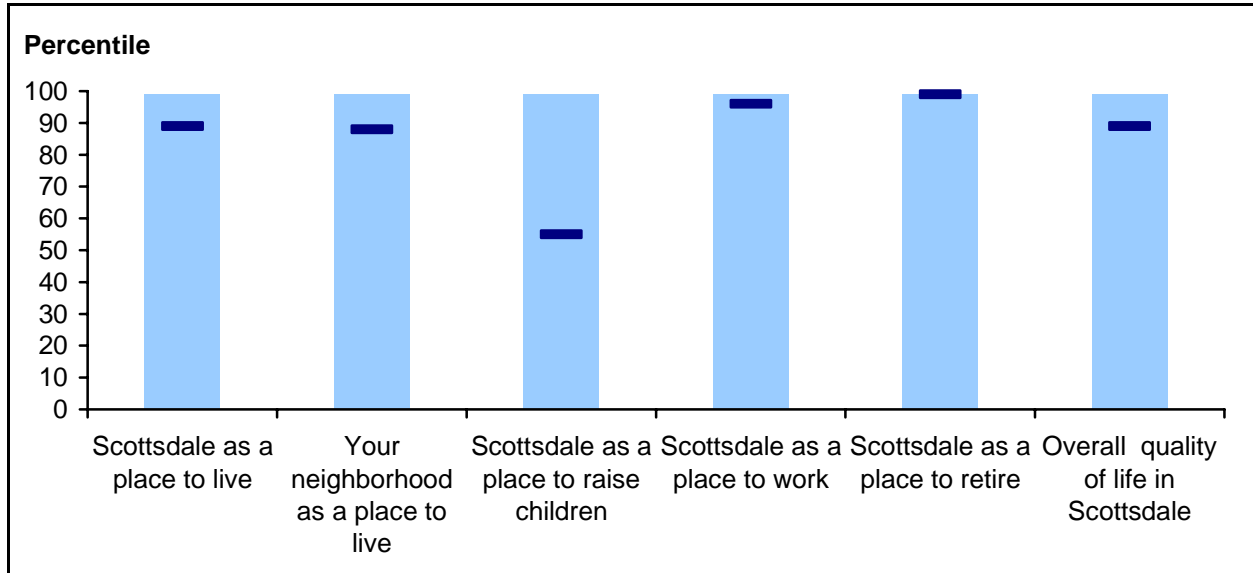

Comparisons are provided when similar questions are included in our database, and there are at least five other jurisdictions in which the question was asked. Where comparisons are available, three numbers are provided in the table. The first is the rank assigned to your jurisdiction's rating among jurisdictions where a similar question was asked. The second is the number of jurisdictions that asked a similar question. Third, the rank is expressed as a percentile to indicate its distance from the top score. This rank (5th highest out of 25 jurisdictions' results, for example) translates to a percentile (the 80th percentile in this example). A percentile indicates the percent of jurisdictions with identical or lower ratings. Therefore, a rating at the 80th percentile would mean that your jurisdiction's rating is equal to or better than 80 percent of the ratings from other jurisdictions. Conversely, 20 percent of the jurisdictions where a similar question was asked had higher ratings.

Alongside the rank and percentile appears a comparison: "above the norm," "below the norm" or "similar to the norm." This evaluation of "above," "below" or "similar to" comes from a statistical comparison of your jurisdiction's rating to the norm (the average rating from all the comparison jurisdictions where a similar question was asked). Differences of 5 or more points on the 100-point scale between your jurisdiction's ratings and the average based on the appropriate comparisons from the database are considered "statistically significant," and thus are marked as "above" or "below" the norm. When differences between your jurisdiction's ratings and the national norms are less than 5 points, they are marked as "similar to" the norm.

The data are represented visually in a chart that accompanies each table. Your jurisdiction's percentile for each compared item is marked with a black line on the chart.

APPENDIX B: FREQUENTLY ASKED QUESTIONS ABOUT THE CITIZEN SURVEY DATABASE

What is in the citizen survey database?

NRC's database includes the results from citizen surveys conducted in over 450 jurisdictions in the United States. These are public opinion polls answered by hundreds of thousands of residents around the country. We have recorded, analyzed and stored responses to thousands of survey questions dealing with resident perceptions about the quality of community life and public trust and residents' report of their use of public facilities. Respondents to these surveys are intended to represent over 50 million Americans.

What kinds of questions are included?

Residents' ratings of the quality of virtually every kind of local government service are included – from police, fire and trash haul to animal control, planning and cemeteries. Many dimensions of quality of life are included such as feeling of safety and opportunities for dining, recreation and shopping as well as ratings of the overall quality of community life and community as a place to raise children and retire.

What is so unique about National Research Center's Citizen Survey database?

It is the only database of its size that contains the people's perceptions about government service delivery and quality of life. For example, others use government statistics about crime to deduce the quality of police services or speed of pot hole repair to draw conclusions about the quality of street maintenance. Only National Research Center's database adds the opinion of service recipients themselves to the service quality equation. We believe that conclusions about service or community quality are made prematurely if opinions of the community's residents themselves are missing.

What is the database used for?

Benchmarking. Our clients use the comparative information in the database to help interpret their own citizen survey results, to create or revise community plans, to evaluate the success of policy or budget decisions, to measure local government performance. We don't know what is small or tall without comparing. Taking the pulse of the community has little meaning without knowing what pulse rate is too high and what is too low. So many surveys of service satisfaction turn up at least "good" citizen evaluations that we need to know how others rate their services to understand if "good" is good enough. Furthermore, in the absence of national or peer community comparisons, a jurisdiction is left with comparing its fire protection rating to its street maintenance rating. That comparison is unfair. Streets always lose to fire. We need to

ask more important and harder questions. We need to know how our residents' ratings of fire service compare to opinions about fire service in other communities.

So what if we find that our public opinions are better or – for that matter – worse than opinions in other communities? What does it mean?

A police department that provides the fastest and most efficient service—one that closes most of its cases, solves most of its crimes and keeps the crime rate low—still has a problem to fix if its clients believe services are not very good compared to ratings received by objectively “worse” departments.

National Research Center's database can help that police department – or any city department – to understand how well citizens think it is doing. Without the comparative data from National Research Center's database, it would be like bowling in a tournament without knowing what the other teams are scoring. We recommend that citizen opinion be used in conjunction with other sources of data to help managers know how to respond to comparative results.

Aren't comparisons of questions from different surveys like comparing apples and oranges?

It is true that you can't simply take a given result from one survey and compare it to the result from a different survey. National Research Center, Inc. principals have pioneered and reported their methods for converting all survey responses to the same scale. Because scales responses will differ among types of survey questions, National Research Center, Inc. statisticians have developed statistical algorithms, which adjust question results based on many characteristics of the question, its scale and the survey methods. All results are then converted to the PTM (percent to maximum) scale with a minimum score of 0 (equaling the lowest possible rating) to a maximum score of 100 (equaling the highest possible rating). We then can provide a norm that not only controls for question differences, but also controls for differences in types of survey methods. This way we put all questions on the same scale and a norm can be offered for communities of given sizes or in various regions.

How can managers trust the comparability of results?

Principals of National Research Center, Inc. have submitted their work to peer reviewed scholarly journals where its publication fully describes the rigor of our methods and the quality of our findings. We have published articles in *Public Administration Review*, *Journal of Policy Analysis and Management* and *Governing*, and we wrote a book, *Citizen Surveys: How to do them, how to use them, what they mean*, that describes in detail how survey responses can be adjusted to provide fair comparisons for ratings among many jurisdictions. Our work on calculating national norms for resident opinions about service delivery and quality of life won the Samuel C. May award for research excellence from the Western Governmental Research Association.

SURVEY BACKGROUND

About The National Citizen Survey™

The National Citizen Survey™ (The NCS™) is a collaborative effort between National Research Center, Inc. (NRC) and the International City/County Management Association (ICMA).

The National Citizen Survey™ was developed to provide local jurisdictions an accurate, affordable and easy way to assess and interpret resident opinion about important community issues. While standardization of question wording and survey methods provide the rigor to assure valid results, each jurisdiction has enough flexibility to construct a customized version of The National Citizen Survey™ that asks residents about key local services and important local issues.

Results offer insight into residents' perspectives about local government performance and as such provide important benchmarks for jurisdictions working on performance measurement. The National Citizen Survey™ is designed to help with budget, land use and strategic planning as well as to communicate with local residents. The National Citizen Survey™ permits questions to test support for local policies and answers to its questions also speak to community trust and involvement in community-building activities as well as to resident demographic characteristics.

The survey and its administration are standardized to assure high quality survey methods and comparable results across The National Citizen Survey™ jurisdictions. Participating households are selected at random and the household member who responds is selected without bias. Multiple mailings give each household more than one chance to participate with self-addressed and postage paid envelopes. Results are statistically re-weighted to reflect the proper demographic composition of the entire community. The National Citizen Survey™ customized for this jurisdiction was developed in close cooperation with local jurisdiction staff. The City of Scottsdale staff selected items from a menu of questions about services and community problems; they defined the jurisdiction boundaries we used for sampling; and they provided the appropriate letterhead and signatures for mailings. City of Scottsdale staff also determined local interest in a variety of add-on options for The National Citizen Survey™ Basic Service.

One of the add-on options that Scottsdale chose was to have crosstabulations of evaluative questions 1-15 by demographic questions 19 (length of residency), 26 (education), 27 (household income), 30 (age of respondent) and question 31 (gender of respondent).

UNDERSTANDING THE RESULTS

“Don’t Know” Responses

On many of the questions in the survey respondents may answer “don’t know.” The proportion of respondents giving this reply is shown in the full set of responses included in Appendix A of the Report of Results. However, these responses have been removed from the analyses presented in this report. In other words, the tables display the responses from respondents who had an opinion about a specific item.

Putting Evaluations onto a 100-Point Scale

Although responses to many of the evaluative questions were made on a 4 point scale with 4 representing the best rating and 1 the worst, many of the results in this summary are reported on a common scale where 0 is the worst possible rating and 100 is the best possible rating. If everyone reported “excellent,” then the result would be 100 on the 100-point scale. Likewise, if all respondents gave a “poor” rating, the result would be 0 on the 100-point scale. If the average rating for quality of life was “good,” then the result would be 67 on a 100-point scale; “fair” would be 33 on the 100-point scale.

Understanding the Tables

In this report, comparisons between demographic subgroups are shown. For most of the questions, we have shown only one number for each question. Usually this number is the rating on a 100-point scale. Sometimes this scale was not appropriate to use. In these cases we have summarized responses to show only the proportion of respondents giving a certain answer; for example, the percent of respondents who reported a crime, or the percent of respondents who felt the rate of growth was “about right.” For a few questions, we have shown the full set of responses: these include the policy questions and the question about respondents’ perceptions about the economy.

Anova and chi square tests of significance were applied to these comparisons of survey questions by demographic subgroups. A “p-value” of 0.05 or less indicates that there is less than a 5% probability that differences observed between subgroups are due to chance; or in other words, a greater than 95% probability that the differences observed are “real.” Where differences were statistically significant, they are marked in gray.

Average rating on a 100-point scale (100=Strongly agree, 0=Strongly disagree)									

Perceptions of the Economy

What impact, if any, do you think the economy will have on your family income in the next 6 months? Do you think the impact will be:	How many years have you lived in Scottsdale?					What is the highest degree or level of school you have completed?						How much do you anticipate your household's total income before taxes will be for the current year?			
	Less than 2 years	2 to 5 years	6 to 10 years	11 to 20 years	More than 20 years	12th Grade or less, no diploma	High school diploma	Some college, no degree	Associate's degree (e.g. AA, AS)	Bachelor's degree (e.g. BA, AB, BS)	Graduate degree or professional degree	Less than \$24,999	\$25,000 to \$49,999	\$50,000 to \$99,999	\$100,000 or more
