

CITY COUNCIL REPORT

Meeting Date: April 19, 2016
Charter Provision: *Provide for the orderly government and administration of the affairs of the City*
Objective: *Adopt Budgets*

ACTION

Accept the Fiscal Year 2015/16 Monthly Financial Report as of February 2016.

BACKGROUND

Each month the City publishes a financial summary of the City's year-to-date General Fund, Transportation Fund, Tourism Development Fund, Enterprise Funds, Fleet Fund, Risk Fund and the Benefits Self-Insurance Fund.

The report focuses on the General Fund and includes a summary of revenues and expenditures by major categories, highlighting significant variances.

The FY 2015/16 budget was adopted June 2, 2015, by Ordinance No. 4217.

A Monthly Financial Update comparing General Fund actual results for fiscal year-to-date through February 2016 versus prior years was presented by the City Treasurer to City Council during the March 15, 2016 City Council meeting.

ANALYSIS & ASSESSMENT

There are no proposed FY 2015/16 budget adjustments or use of contingency requested for February 2016.

OPTIONS & STAFF RECOMMENDATION

Staff recommends the acceptance of the Fiscal Year 2015/16 Monthly Financial Report as of February 2016.

Total General Fund Sales Taxes	\$67.3	\$72.0	\$74.9	\$71.6	\$3.3	5%
% Change vs. Prior Year	7%	7%	4%	-1%		

Actual to Revised Budget variance of \$3.3 million or 5%:

The favorable variance is primarily due to low gas prices and overall improved economy, which is reflected in increases in miscellaneous retail, automotive sales, computer hardware/software wholesalers, and sales from websites. Additionally, there were several large one-time audit payments recorded, and two large self-reported spec sales of apartment buildings.

% Change vs. Prior Year	-7%	12%	26%	17%		

Actual to Revised Budget variance of \$1.5 million or 8%:

Recreation fees are trending ahead thanks to strong revenues in July, November and December. The favorable variance in WestWorld is due to rental facilities and concession fee payments received earlier than budgeted. The decline in Court Fines filings is offset by the continuing growth in Photo Enforcement. The unfavorable variance in Intergovernmental Revenue is due to the \$0.3 million reduction to the School Resource Officer Program intergovernmental agreement authorized by City Council after the FY 2015/16 budget adoption. The favorable variance in Miscellaneous is primarily due to the unbudgeted sale of a DC Ranch property. Finally, the unfavorable variance in Reimbursements is mostly due to lower than anticipated jail fees collections.

Building Permit Fees and Charges**Actual to Revised Budget variance of \$0.0 million or 0%:**

No explanation is necessary.

Interest Earnings**Actual to Revised Budget variance of \$0.3 million or 51%:**

The favorable variance is due mainly to higher than expected rates as well as having \$40 million more in investment funds than budgeted. The city is required to record potential gains/losses that result from changes in fair value of investments. However these may or may not materialize as it will depend on the activity in the portfolio.

Indirect/Direct Cost Allocations**Actual to Revised Budget variance of \$0.0 million or 0%:**

No explanation is necessary.

Actual to Revised Budget variance of \$1.1 million or 1%:

The favorable variance in Personnel Services is due primarily to savings in Full and Part-Time Wages in Community Services. The division has hired a number of new incumbents at rates less than the existing budget and has also maximized the hours worked and scheduling of part-time staff to allow for greater coverage with existing staff. There is also significant savings in both Fire and City Attorney due to retirements and existing employees promoting into positions with budget amounts that exceed their current earnings. Additionally, while Overtime has no notable citywide variance the Fire Division is unfavorable by \$363K due to increased leave usage for staff trained in Advanced Life Support (ALS - paramedics) and during February there were a number of firefighters on light duty and other various leaves for medical and other injuries. This is slightly offset by the Police Division which is favorable by \$286K in their various Overtime lines and other smaller divisions contributing with favorable variances as well. Finally, the favorable variance in Retirement is related to the Police Division DROP (Deferred Retirement Option Program). The City does not pay retirement for those sworn employees in the DROP program and, therefore, a retirement budget is not programmed for DROP employees. However, there was a larger number of employees than originally anticipated who entered the DROP program after the budget was adopted, so for those DROP employees their retirement budget will go unspent and a favorable variance will result.

Total Vacancy Savings/Payouts	\$0.9	\$3.1	\$1.2	(\$0.6)	\$0.6

Total Saved/(Used) YTD of (\$0.6) million:

The City has achieved \$3.2 million in vacancy savings year-to-date offset by (\$1.2) million in vacation and medical leave payouts. In July, the Citywide Pay Program was funded and implemented initiating the use of ongoing dollars for compensation. Additionally, Arizona State Retirement System (ASRS) rates were budgeted higher than the actual rates. Therefore, the ASRS budget within divisions was reduced to the actual need and the savings was placed in a macro holding account and will go unused for FY 2015/16. Similarly, for Public Safety Personnel Retirement System (PSPRS), all 3 pay periods in July were budgeted at the new year rate of 35.53% when the first pay period should have been budgeted at FY 2015/16's 28.38% so a budget transfer occurred to modify the month of July and to reduce division budgets.

Contractual Services

Actual to Revised Budget variance of \$1.1 million or 3%:

The favorable variance is attributable to fewer callouts for building maintenance in city buildings than was anticipated based on previous activity levels. This variance also relates to contracts that did not receive the expected invoices during this period including invoices for Public Safety and various other invoices such as computer hardware and software related updates. Although the budget for these items is in the period where staff believed the payment would exist there have been delays in the timely receipt of these and other invoices.

Commodities**Actual to Revised Budget variance of \$0.7 million or 14%:**

The favorable variance is primarily the result of the timing and receipt of pending invoices. In certain instances budget adjustments have occurred to minimize this variance moving forward. In addition, the favorable variance is a result of various accounts, such as operating supplies, maintenance services and repair materials, education and recreation supplies, and office supplies which are difficult to budget in the appropriate period as they do not have a predictable spending pattern across all periods throughout the year.

Capital Outlays**Actual to Revised Budget variance of (\$0.1) million or (55%):**

The unfavorable variance is due to invoice timing.

Actual to Revised Budget variance of (\$1.7) million or (85%):

The CIP- PAYGO unfavorable variance is due to the sale of City Property per Council Resolution No. 10271 on December 2, 2015. These proceeds while collected in the General Fund were transferred to the Capital Improvement Program (CIP). Additionally the City Council approved Resolution No.10336 on January 23, 2016 authorizing the transfer of approximately \$1.0 million from the General Fund to the Benefits Self Insurance Fund. This is to reimburse the Fund for it's proportional share for health related expenditures which accumulated due to offering coverage to retirees in previous years (\$0.7 million). A portion is also related to a subsidy authorized by City Council to offer ongoing health benefits to disabled Public Safety retirees (\$0.3 million) and will be included in future budgets.

^a Beginning balance was adjusted to reflect the appropriate recording of a FY2014/15 transfer out to CIP that had been originally recorded as a transfer out to enterprise funds and therefore not affecting the year's ending balance.

^b In FY 2014/15, the timing when gains/losses on investments were recognized was retrospectively changed, which affects prior periods.

* Includes budgeted vacancy savings net of leave accrual payouts, up to 3% for performance and compensation adjustments.

Actual vs Revised Budget variance at \$(16.3) million or (14%):

The unfavorable variance for Water Service Charges is a result of lower than forecasted water sales. The unfavorable variance for Non-potable Water Fees is a result of lower than historical water deliveries. The favorable variance for Interest Earnings is driven by change in fair value of investments. The favorable variance for Miscellaneous Revenue is driven by an unforecasted vendor reimbursement. The unfavorable variance for Department Indirect Cost Allocation is due to timing; offset with the same allocation on the expense side.

Actual vs Revised Budget Variance at \$4.6 millions or 7%:

The favorable variance for Contractual is driven by lower than forecasted expense for equipment maintenance, other professional services, and the timing for electricity payments. The favorable variance for Commodities is driven by less treatment chemical expense and the budget spread of treatment filter media. The favorable variance for Department Indirect Cost Allocation is due to the timing and it is offset by the same allocation on the revenue side. The favorable variance for Franchise Fees is driven by less water deliveries than expected.

Actual vs Revised Budget Variance at \$0.5 millions or 4%:

The unfavorable variance in Personnel Services is primarily due to the overtime needed to respond to increased demand for Brush and Bulk services and to fill staff vacancies across all programs. The favorable variance in Contractual is the result of reduced fuel and maintenance costs for collection vehicles. In addition, the favorable variance in Commodities results from a delay in replacement of large containers purchases.

The favorable variance in Contractual is related to ongoing litigation that was expected to settle in the beginning of this fiscal year but settled at the end of the prior fiscal year. Due to the ongoing expenses of this fund and the nature in which these expenses are recognized, the existing budget was not pushed to a later period and the favorable variance could be eliminated by year end.

Actual to Revised Budget variance of \$0.8 million or 4%:

The unfavorable variance in Medical Premiums - COS is due to self-insurance coming in slightly lower than estimated due to plan participation and migration. Plans are budgeted and adopted prior to participants plan selection for the fiscal year which causes differences between employees actual selection of plans and the assumption of what plans they would choose. The Medical Premiums - EE favorable variance is due to an unplanned state subsidy health contribution slightly offset by plan migration and participation. The unfavorable variance in Other Revenue is related to various healthcare and prescription rebates the city receives, which are not received on a consistent basis and amounts fluctuate between periods. Based on updated information the city is expecting to receive a large prescription rebate by year end. The large favorable variance in Transfers In is due to the approval of Council Resolution 10336 on January 23, 2016 which reimburses the Benefits Self Insurance Fund for the coverage of Retirees and Public Safety Disabled Retirees. While there are no regular retirees currently on the City's healthcare plan anymore there were continued run-off claims and the accumulated impacts of offering coverage in previous years, which these transfers mitigated.

Actual to Revised Budget variance of (\$0.5) million or (3%):

The unfavorable variance in Medical Claims is due to a spike in the number of claims exceeding large thresholds caused by unavoidable treatments and care. While these claims are not uncommon, the number of them seen during this fiscal year have far surpassed historical trends. While this variance is currently unfavorable the funding loss ratio of the various health plans is trending more favorable as the year progresses. The favorable variance in Behavioral Health Claims is due to actual activities being less than expected.

Rental Sales Taxes

The rental category includes rentals of commercial and residential real property and personal property rentals, (such as rentals of formal wear, DVD's, home health equipment, recreational goods, electronics, appliances, etc.)

Actual to Revised Budget variance of \$0.8 million or 10%: The increase is a result of a sale of two apartment complexes and a large audit payment.

Miscellaneous Retail Stores Sales Taxes

This category includes small clothing stores, art galleries, luggage stores, home furnishing stores, jewelry stores, drug stores, hobby stores, household appliance stores, sporting goods stores, florists, computer stores, hardware stores, and pet supply stores.

Actual to Revised Budget variance of \$0.6 million or 5%: The increase is due in part to increased sales in home furnishings, building supplies, computer software/hardware, and sales from websites.

Major Department Stores Sales Taxes

This category includes large department stores, warehouse clubs, supercenters, and discount department stores.

Actual to Revised Budget variance of (\$0.3) million or (4%): This is due to lower sales than expected.

Automotive Sales Taxes

The automotive category includes automobile dealers, motorcycle dealers, automotive repair shops, tire shops, car washes, and car leasing companies.

Actual to Revised Budget variance of \$0.3 million or 3%: This is due to increased sales of new and used motor vehicles in addition to a new Mazda dealership.

Food Stores Sales Taxes

This category includes grocery stores, candy stores, meat markets and convenience stores.

Actual to Revised Budget variance of \$0.1 million or 1%: Normal business fluctuations.

Construction Sales Taxes

The construction tax is collected on all construction activity; commercial and residential; new and re-model. It also includes landscaping, painting, flooring installation, siding, roofing, concrete, plumbing, heating, electrical, framing, drywall, infrastructure, masonry, finish carpentry, etc.

Actual to Revised Budget variance of \$1.1 million or 18%: This is due to several large one-time audit payments and a sale of a commercial building.

Dining/Entertainment Sales Taxes

The restaurant category includes restaurants, bars, cafeterias, mobile food vendors, and caterers.

Actual to Revised Budget variance of \$0.1 million or 2%: Normal business fluctuations.

Other Taxable Activity Sales Taxes

This category includes movie theatres, golf courses, gyms, bowling centers, amusement arcades, interior designers, publishers, banks, doctors, lawyers, accountants, beauty salons, barber shops, personal goods repair shops, photographers, advertising, wholesalers, and manufacturers.

Actual to Revised Budget variance of \$0.5 million or 9%: This is due in part to increase in taxable sales from computer hardware/software wholesalers.

Hotel/Motel Sales Taxes

This category includes lodging space rental on a short-term basis and other activities provided at the hotel/motel.

Actual to Revised Budget variance of \$0.0 million or 0%: No explanation necessary.

Utilities Sales Taxes

This category includes businesses that provide telecommunication (landlines and cellular), electricity, gas, or water services.

Actual to Revised Budget variance of \$0.0 million or 0%: No explanation necessary.

License Fees, Penalty & Interest

This category consists of application and license fees for Transaction Privilege (sales) tax licenses, interest, and penalties.

Actual to Revised Budget variance of (\$0.1) million or (9%): This is due to a decrease in penalties and interest and due to fewer license renewals from the change in the law for construction contractors.

Glossary

To ensure legal compliance and financial management for the various restricted revenues and program expenditures, the city's accounting and budget structure is segregated into various funds. This approach is unique to the government sector. Fund accounting segregates functions and activities into separate self-balancing funds that are created and maintained for specific purposes.

A **fund** is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The city, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The General Fund is the city's chief operating fund and is used to account for all financial resources, except those that are legally required to be accounted for in another fund.

GENERAL FUND SOURCES

Sales Tax - Scottsdale's total city sales tax rate is 1.65 percent. Of that amount, 0.55 percent is dedicated to the specific purposes related to transportation and preservation (which are accounted for in Special Revenue Funds) and 0.10 percent is dedicated to public safety (accounted for in the General Fund). The remaining 1.0 percent of the sales tax is also accounted for in the General Fund and is available to fund basic municipal services such as police, fire, libraries, and parks. Sales tax receipts received in the current month are based on prior month activity. This general-purpose sales tax is the city's single largest revenue source. The sales tax category results can be found in Appendix 1.

State Shared Revenues - These revenues are derived from state shared sales taxes, income taxes (revenue sharing), and vehicle license taxes (auto lieu). On a per capita basis, state sales taxes generated in Scottsdale tend to be higher than most other cities/towns due to higher wealth, consumer spending habits, and larger amounts of visitor/tourist spending. As directed by statute, the State distributes the shared portion of State sales taxes back to local governments based on population, not by the amount of sales taxes collected within the local jurisdiction.

Charges for Services/Other - Charges for Services include numerous revenues such as building permits, recreation fees, fire department fees, WestWorld fees, interest income, and property rentals. Also included are cost allocations from the General Fund to the enterprise funds.

Property Taxes - Property taxes are comprised only of the "Primary" property taxes levied on the assessed value of all property within the city to help pay for basic operations of the City. Secondary property taxes are not included in the General Fund as they must be used solely for General Obligation bond debt service payments. Increases in revenue from year to year reflect new property additions to the tax roll and Council actions to increase total revenue as legally allowed.

Franchise Fees and In-Lieu Taxes - This category represents revenues from utility and cable providers for their permitted use of the city's Rights-of-Way.

Transfers In - Transfers in reflects funds received from the Enterprise Funds (In-Lieu Franchise Fees and In-Lieu Property Tax), Special Programs (30 Day Tow) and Tourism Development Fund.

GENERAL FUND USES

Personnel Services category includes the salaries and wages (pay for time worked, overtime premium, vacation, and sick leave) plus the city's contribution for fringe benefits such as retirement, social security, health, and workers' compensation insurance. It is reduced by vacancy savings, but increased for medical and vacation leave accrual payouts that are made at the time of separation from the city. Personnel services also include pay-for-performance and compensation adjustments.

Contractual Services category includes expenditures for services performed by firms, individuals, or other city divisions.

Commodities category includes supplies, repair and replacement parts, small tools, and maintenance and repairs.

Capital outlays category includes the purchase of land, the purchase or construction of buildings, structures, and facilities, plus machinery and equipment. It includes expenditures that result in the acquisition or addition of a fixed asset or increase the capacity, efficiency, span of life, or economy of operating an existing fixed asset. For an item to qualify as capital outlay the expenditure must meet all of the following requirements: (1) have an estimated useful life of more than two years; (2) have a unit cost of \$10,000 or more; and (3) be betterment or improvement.

Glossary

Debt Service & Contracts Payable is primarily debt payments related to Municipal Property Corporation (MPC) bonds where the city's excise taxes are pledged to meet debt service. It also includes contractual obligations related to development agreements (funded by sales tax rebates) which vary based on the actual sales tax collections.

Transfers-Out represents the authorized transfer of cash to other funds and/or capital projects.

OTHER FUNDS

Transportation Fund is considered a Special Revenue Fund, which is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Transportation Fund receives and expends the city's allocation of the Arizona Highway User Revenue Tax (HURF) as well as other transportation related revenues. The amount of HURF available to each city is allocated based on population. These monies must be used for street construction, reconstruction, maintenance, or transit. The State of Arizona requires the city to establish and maintain an accounting for Highway User Revenue Funds. The fund also accounts for the 1989 voter approved Transportation Privilege (Sales) Tax of 0.20 percent which is dedicated to funding transportation improvements and operations. Fifty percent of the Transportation Sales Tax is transferred to the Capital Improvement Fund for transportation related capital improvement projects.

Tourism Development Fund is a Special Revenue Fund to account for the sources and uses related to tourism. Revenues consist of transient lodging tax (bed tax) and lease rental earnings from the Princess Hotel. Bed Tax is the largest portion of this fund and is derived from lodging room charges for stays of 29 days or less in hotels or short-term rentals.

Enterprise Funds are used to account for operations, which are financed and operated similarly to private businesses, where the intent is that the service is self-sufficient, with all costs including debt service supported predominantly by user charges. The city maintains three Enterprise Funds to account for Water & Water Reclamation, Aviation, and Solid Waste activities.

Water & Water Reclamation Funds

This fund accounts for the transactions related to the city's water and water reclamation business activities, including operating revenue, expenditures and debt service payments.

- Water Service Charges are monthly water billings which consist of a base charge according to meter size and a variable charge for the amount of water consumed.
- Water Reclamation Service Charges are monthly charges based on the volume and strength of the sewage discharge.
- Non-Potable Water Fees include the sale of surface water, reverse osmosis (RO) and effluent treated to irrigation standards. These different water types are delivered to 23 Reclaimed Water Distribution System (RWDS) golf courses, 3 Irrigation Water Distribution System (IWDS) golf courses, the Gainey Ranch Golf Club, the WestWorld golf course and the Inlet/Silverado golf course.
- Miscellaneous Revenue includes rental income, miscellaneous reimbursements and other minor fees.

Aviation Fund

This fund accounts for the transactions related to the city's aviation business activity at the Scottsdale Airport.

- Aviation Fees are charges for a variety of services provided to airport customers including Landing Fees, Airport/Airpark Fuel Fees, Transient Parking Fees, Fixed Tenant Rents, Percentage Fees for Aeronautical Business Permits (ABPs), Custom Fees and miscellaneous other charges.
- Privilege and Use Tax-Jet Fuel are charges earned from jet fuel sales by Fixed Based Operators (FBOs) in accordance with the Scottsdale Revised Code, Article IV, Section 422.

Glossary

Solid Waste Fund

This fund accounts for the transactions related to the city's solid waste and recycling business activities.

- Solid Waste Fees include residential charges which are a flat fee per month and commercial charges which are based on the size of the container and the number of pickups per month. Additionally Solid Waste Rates include roll-off charges, uncontained service charges, recycling program charges, and household hazardous waste collection charges.

Internal Service Funds are used to account for the financing, on a cost-reimbursement basis, of commodities or services provided by one program for the benefit of other programs within the city. The report includes three Internal Service Funds to account for Fleet, Risk, and Benefits activities.

Fleet Fund

This fund is used to account for the expenditures associated with purchasing and maintaining the city's vehicles. Replacement and operation of vehicles are charged to the city departments as internal operating costs to each program based on the quantity and type of vehicle used. The department charges become revenue to the Fleet Fund.

Risk Fund

This fund is used to account for the city's self-insurance, safety and risk management functions. Revenue to this fund is derived from internal charges to division programs and is captured as internal rates. Payments for unemployment, workers' compensation, and property and liability claims are made from this fund.

Benefits Self Insurance Fund

This fund is used to account for the city's self-insured medical and dental benefits. Revenue to this fund is derived from premiums collected through charges to division programs, which consists of both city and employee components. Revenue is also collected through pharmacy rebates and stop loss insurance recoveries. This fund provides payment of actual healthcare expenses (medical, prescription and dental claims) as well as claims administration and other benefit plan expenses.
