### ITEM 24B

# CITY COUNCIL REPORT

Meeting Date: General Plan Element: General Plan Goal:

June 11, 2019 **Public Services and Facilities Provide city service facilities to meet the needs of the community.** 

### ACTION

# Design-Build Manager, Construction Phase Services Contract for GMP 2 of Phase 1 of the Scottsdale Stadium Renovation Project.

- Adopt Resolution 11455 authorizing Contract Modification 2019-006-COS-A1 with Hunt Construction Group, Inc., in the amount of \$16,566,729 for design-build manager construction phase services, Guaranteed Maximum Price (GMP 2) to include the not-to-exceed costs for construction of remaining Phase 1 improvements of the Scottsdale Stadium Renovations capital project (PE05).
- 2) Adopt Resolution 11497 authorizing a FY 2018/19 budget appropriation transfer totaling \$22,200,000 from three capital contingency budgets for appropriation only including: 1) from the additional available budget appropriation in the Adopted FY 2018/19 Capital Improvement Plan (CIP) (\$15,553,700); 2) from the CIP Contingency for Future Grants (\$4,062,600); and 3) from the CIP Airport Contingency for Future Grants (\$2,583,700) to the Scottsdale Stadium Renovations capital project (PE05) to be funded by contributions from the San Francisco Giants (\$2,500,000) and the stadium's concessionaire (\$2,500,000) and from Municipal Property Corporation (MPC) Bonds that will be issued with debt service payments supported by an annual allocation from the Tourism Development Fund and capital contributions from the Giants and Charros (\$17,200,000).

### BACKGROUND

The purpose of this action is to secure Design-Build Manager construction services (GMP 2) for construction of Phase 1 of the Scottsdale Stadium Renovations project.

The Phase 1 project cost is estimated at \$50.6 million based on the current cost model and the phase 1 GMP developed by the design-build team led by Hunt Construction Group. This cost includes the GMP 1 construction services contract in the amount of \$22,853,327 as well as design costs incurred to date and City expenses related to management of the project.

The existing Scottsdale Stadium is located on the northeast corner of Osborn Road and Drinkwater Boulevard, Scottsdale, Arizona. The Scottsdale Stadium is home to the San Francisco Giants for

Cactus League Spring Training, the Arizona Summer League, and the Scottsdale Scorpions of the Arizona Fall League (including the championship game at the end of November). The facility also hosts multiple year-round events.

Given the current age of the stadium, the increased demand of events and larger crowd attendance, the City, the San Francisco Giants and the Scottsdale Charros recognized the need for multiple upgrades to the stadium. On September 20, 2016, Council authorized Architectural Services Contract 2016-080-COS with Populous Group, LLC for master planning services for the Scottsdale Stadium and baseball operations. The recently completed masterplan of the stadium included practice facilities and noted that the stadium is also an integral part of the downtown Scottsdale retail and entertainment district. The subject master plan identified and prioritized opportunities for the stadium upgrades to include greater multi-use activities that would benefit the overall downtown Scottsdale area throughout the year.

Some of the key project elements included in Phase 1 will be a new multi-story multi-use facility that will serve as Clubhouse for the spring training season and multi-use event center throughout the year, shade improvements to the right field Charros Lodge area, upgrades to the main entry plaza adjacent to Drinkwater Boulevard, and other improvements determined to benefit the Giants and greater downtown Scottsdale users.

### **ANALYSIS & ASSESSMENT**

### **Recent Staff Action**

On July 2, 2018, Council awarded Contract 2018-078-COS with Hunt Construction Group, Inc. for design-build manager and design phase services for the Scottsdale Stadium Renovations capital project. Since July 2018 the City, the San Francisco Giants, and the Scottsdale Charros have worked with Hunt Construction Group, Inc. to design improvements to the Scottsdale Stadium. On March 19, 2019, Council awarded Contract 2019-006-COS with Hunt Construction Group for design-build GMP 1 Phase 1 construction services. Both design and construction improvements will be delivered as a phased, multi-year project with final completion of Phase 1 in January 2020.

### **Community Involvement**

During the design-build construction services phase, the design-build team and city staff will meet with the public, stadium stakeholders including the San Francisco Giants, Scottsdale Charros, Experience Scottsdale and other Downtown user groups for input.

### **RESOURCE IMPACTS**

### Available funding

On March 19, 2019, Council adopted Resolution 11368 that authorized a FY 2018/19 budget appropriation transfer totaling \$23.4 million from the additional available budget appropriation in the Adopted FY 2018/19 Capital Improvement Plan (CIP) to the Scottsdale Stadium Renovations capital project (PE05) funded from: the FY 2018/19 Tourism Development Fund carry-over

undesignated, unreserved fund balance (\$5.0 million); a contribution from the San Francisco Giants (\$2.5 million); and from Municipal Property Corporation (MPC) Bonds that will be issued with debt service payments supported by an annual allocation from the Tourism Development Fund and capital contributions from the Giants and Charros (\$15.9 million).

An additional budget authorization of \$22.2 million is being requested to authorize the phase 1 GMP 2 and to fully fund phase 1. The funding for the additional budget authorization needed includes:

- 1) \$2.5 million from a contribution from the San Francisco Giants, in accordance with the Baseball Facilities Agreement;
- 2) \$2.5 million from the concessionaire to the stadium, in accordance with the Baseball Facilities Agreement;
- 3) The remaining \$17.2 million will be funded by MPC Bonds issued with debt service payments supported by an annual allocation from the Tourism Development Fund and capital contributions from the Giants and Charros.

Expenditure budget authority is available in three capital contingency budgets.

- Additional CIP budget appropriation is available because the total FY 2018/19 CIP adopted budget amount was based on an inception-to-date, year-end expenditure forecast from March 2018. At fiscal year-end the forecasted figures were reconciled to actual expenditures as of June 2018 resulting in a reduction of the total budget by approximately \$42.9 million, which is considered additional available budget appropriation for the fiscal year. In October 2018, \$4.0 million of this additional budget appropriation was used for the Drinkwater and 68<sup>th</sup> Street Bridges and in March 2019, \$23.4 million was used for the Stadium GMP1, leaving the additional budget appropriation balance at \$15.5 million.
- 2) The CIP Contingency for Future Grants represents budgeted expenditure authority set aside for unforeseen grants that may be awarded during the fiscal year. A total of \$4.1 million of budget appropriation balance is available. No additional grant activity is anticipated by year-end.
- 3) The CIP Airport Contingency for Future Grans represents budgeted expenditure authority set aside for unforeseen aviation grants that may be awarded during the fiscal year. A total of \$3.4 million of budget appropriation balance is available. This action will require the use of \$2.6 million. No additional aviation grants are anticipated by year-end.

### Staffing, Workload Impact

The contract administrator responsible for enforcement of all provisions of the contract is Anna Leyva, Senior Project Manager, Public Works Division. Community Services staff will provide support to the Senior Project Manager.

### **OPTIONS & STAFF RECOMMENDATION**

Staff recommends the following:

- Adopt Resolution 11455 authorizing Contract Modification 2019-006-COS-A1 with Hunt Construction Group, Inc., in the amount of \$16,566,729 for design-build manager construction phase services, Guaranteed Maximum Price (GMP 2) to include the not-to-exceed costs for construction of remaining Phase 1 improvements of the Scottsdale Stadium Renovations capital project (PE05).
- 2) Adopt Resolution 11497 authorizing a FY 2018/19 budget appropriation transfer totaling \$22,200,000 from three capital contingency budgets for appropriation only including: 1) from the additional available budget appropriation in the Adopted FY 2018/19 Capital Improvement Plan (CIP) (\$15,553,700); 2) from the CIP Contingency for Future Grants (\$4,062,600); and 3) from the CIP Airport Contingency for Future Grants (\$2,583,700) to the Scottsdale Stadium Renovations capital project (PE05) to be funded by contributions from the San Francisco Giants (\$2,500,000) and the stadium's concessionaire (\$2,500,000) and from Municipal Property Corporation (MPC) Bonds that will be issued with debt service payments supported by an annual allocation from the Tourism Development Fund and capital contributions from the Giants and Charros (\$17,200,000).

### **Proposed Next Steps:**

Upon Council approval, GMP 2 work will commence immediately and continue through Phase 1 completion in January 2020.

### RESOLUTION NO. 11497

A RESOLUTION OF THE COUNCIL OF THE CITY OF SCOTTSDALE, MARICOPA COUNTY, ARIZONA, AUTHORIZING A FY 2018/19 BUDGET APPROPRIATION TRANSFER TOTALING \$22,200,000 FROM THREE CAPITAL CONTINGENCY BUDGETS FOR APPROPRIATION ONLY INCLUDE: 1) FROM THE ADDITIONAL AVAILABLE BUDGET APPROPRIATION IN THE ADOPTED FY 2018/19 CAPITAL IMPROVEMENT PLAN (CIP) (\$15,553,700); 2) FROM THE CIP CONTINGENCY FOR FUTURE GRANTS (\$4,062,600); AND 3) FROM THE CIP AIRPORT CONTINGENCY FOR FUTURE GRANTS (\$2,583,700) TO THE SCOTTSDALE STADIUM RENOVATIONS CAPITAL PROJECT (PE05) TO BE FUNDED BY ANTICIPATED CONTRIBUTIONS FROM THE SAN FRANCISCO GIANTS (\$2,500,000) AND THE STADIUM'S CONCESSIONAIRE (\$2,500,000) AND FROM MUNICIPAL PROPERTY CORPORATION (MPC) BONDS THAT WILL BE ISSUED (\$17,200,000).

WHEREAS, the City desires design-build services to complete Phase 1 of needed upgrades to the Scottsdale Stadium Multi-Use Event Center; and

WHEREAS, Hunt Construction Group, Inc. has currently been providing the requisite design and construction services necessary for the stadium upgrades; and

WHEREAS, The City desires to fund the remaining design-build services necessary for the completion of Phase 1 services for the needed stadium upgrades, and

WHEREAS, Article 6, Section 11 of the Scottsdale City Charter permits the transfer of any unencumbered appropriation balance or portion thereof between general classifications of expenditures within an office, department, or agency or from one office, department or agency to another with the approval of the City Council; and

WHEREAS, Section 2 of Ordinance No. 4351 allows expenditures to be made from budget contingencies and reserves upon recommendation of the City Manager and approval of the City Council; and

BE IT RESOLVED by the Council of the City of Scottsdale as follows:

<u>Section 1</u>. The City Treasurer and the City Manager or designees are hereby authorized and directed to execute a FY 2018/19 budget appropriation transfer totaling \$22,200,000 from three capital contingency budgets for appropriation only including: 1) from the additional available budget appropriation in the Adopted FY 2018/19 Capital Improvement Plan (CIP) (\$15,553,700); 2) from the CIP Contingency for Future Grants (\$4,062,600); and 3) from the CIP Airport Contingency for Future Grants (\$2,583,700) to the Scottsdale Stadium Renovations capital project (PE05) to be funded by anticipated contributions from the San Francisco Giants (\$2,500,000) and the stadium's concessionaire (\$2,500,000) and from Municipal Property Corporation (MPC) Bonds that are planned to be issued (\$17,200,000).

### CITY OF SCOTTSDALE MODIFICATION TO CONSTRUCTION MANAGER AT RISK PROJECT NO. PE05 CONTRACT NO. 2019-006-COS-A1

THIS CONTRACT MODIFICATION entered into this \_\_\_\_\_ day of June 2019, by and between the City of Scottsdale, a municipal corporation of the State of Arizona, hereinafter referred to as "City", and Hunt Construction Group, an Indiana corporation, the Design-Build Manager, the "DBM".

### WITNESSETH

The City desires design-build services for needed upgrades to the Scottsdale Stadium Multi-Use Event Center, the "Project", from the original construction agreement, Contract No. 2019-006-COS ("Agreement"), for construction services relating to the Project; and

City and DBM mutually agree to modify the Contract as provided in this Contract Modification. The City and DBM further acknowledge that this is the first modification (Modification #1) of the Contract and concur that all of the provisions of Contract No. 2019-006-COS, not modified herein, are incorporated by this reference and made part of this modification.

IN CONSIDERATION of the mutual promises and obligations set forth herein, the parties agree as follows:

### **MODIFICATIONS:**

### 1.0 SCOPE OF SERVICES

Article 1, **DBM's Services and Responsibilities,** Section 1.0 is modified to include the new Scope of Work specified in the attached Exhibit A1 which is incorporated by this reference and made part of this modification.

### 2.0 PERIOD OF SERVICES

Article 3.0, Contract Time in accordance with the schedule provided in GMP2. The City will issue a new notice to proceed for GMP2.

### 3.0 CONTRACT PRICE

Article 4.0, **Contract Price**, is modified to add a second GMP contract price, as outlined in Exhibit C.2, "GMP Summary":

#### Total GMP: \$16,566,729

This second GMP is added to the previous approved GMP totaling \$22,853,327 for total approved GMP to date of \$39,420,056 for construction services.

14423500v1 9610034v1

Page 1 of 3

### **ATTACHMENT 4**

### 4.0 PERFORMANCE AND PAYMENT BONDS

Article 9.0, Section 9.10(A), **Bonds and Other Performance Security,** is modified to read as follows:

A. Before the commencement of the work specified in this contract modification, the DBM must provide a performance bond and a labor and materials bond, each in an amount equal to the total combined amount of all GMP's covering all phases of the Project. Bonds must be submitted in accordance with Title 34, Chapter 6 of the Arizona Revised Statutes and will be in substantially the same form as Exhibits D and E attached to Contract 2019-006-COS.

### 5.0 AFFIRMATION OF CONTRACT

All other provisions of Contract No. 2019-006-COS not modified herein are affirmed in their entirety.

### END OF PAGE

The City of Scottsdale by its Mayor and City Clerk has subscribed their names this \_\_\_\_\_ day of \_\_\_\_\_, 2019.

## SCOPE OF WORK

Due to the nature and schedule of the Scottsdale Stadium Multi-Use Event Center project, Phase 1 will be broken up into two separate GMP's. GMP 1 was approved in Contract No 2019-0006-COS on 3/19/2019. This GMP 2 includes the costs for the following remaining Phase 1 scope items:

- 06.10 Finish Carpentry / Millwork, Wood Lockers P3, P4
- 07.92 Firestopping, Caulking, Deck Coating P1, P2, P3, P4
- 08.33b Overhead Coiling Doors P3, P4
- 08.40b Interior & Exterior Glazing Systems P3, P4
- 09.30 Ceramic Tile P3, P4
- 09.50 Acoustical Ceilings P3, P4
- 09.65 Flooring Resilient Base & Tile, Athletic Flooring, Carpet P3, P4
- 09.90 Painting / Special Coatings P1, P2, P3, P4
- 10.10 Signage and Graphics P3, P4
- 10.26 Fiberglass Reinforced Wall Panels P3, P4
- 10.28 Toilet Partitions & Accessories, FEC, Wall Protection P3, P4
- 11.23 Laundry Equipment P3
- 11.24 Fall Protection Equipment P2
- 12.20 Roller Shades P3, P4
- 12.63 Aluminum Stadium Seating P4
- 13.10 Hydrotherapy Equipment Start-up P3
- 13.24 Sauna and Steam Room Equipment P3
- 22.00b Plumbing P3, P4
- 23.00b HVAC P3, P4
- 26.00b Electrical, Security, Fire Alarm, Telecommunications P3, P4
- 27.00 Audio Video P3 & P4
- 32.30 Chain Link Fences, Tree Grate, Modify Netting P1, P2, P3, P4

This GMP 2 was prepared based upon the following Phase 1 project documents, which are outlined in detail on the document log included in section 4 of this GMP. A slipsheeted set of the latest documents themselves are also included in section 4 of this GMP.

# SCOTTSDALE STADIUM MULTIUSE EVENT CENTER GMP 2 IFILOG

•GMP 2- RFI No.	Open / Closed	Date	Author	Discipline	Reference Document	Question	Response	Date	Response by
001		3/26/19	Dennis M / HUNt	Architectural	Specifications	Refer to Sheets G150, P4-A206, P4-S224, and Specification Section 05 S8 17.         1) Sheet P4-S224 specifies the Entry Canopy Roof Deck as 1 1/2" Type B x 22 ga galvanized <i>i</i> perforated (43% open) metal deck by Verco (or equal). Sheet P4-A206 calls out roof type R3 for this         material which is specified, per Sheet G150, as 1 1/2" perforated steel deck, powder coated.         We would like to propose using the MTL-7 material, outlined in specification section 05 S8 17, to be         used for the Entry Canopy Roof Deck in lieu of powder coated perforated steel deck. The material         would match the MTL-7 material on the Clubhouse and it would have a 20 year Finish Warranty. Is         this acceptable 7         2)         2) For the MTL-7 material, we would like to propose an equal material to the specified panels. See         details below. Is this an acceptable option?         • SPECIFIED MATERIAL: PAC-CLAD by Peterson Aluminum - 0.040 thickness aluminum - round 1/4"         diameter perforations on 3/8" staggered centers - 7.2 Panel Profile (per RFI 010)         • ROPOSED MATERIAL: ATAS Belvedere - 0.040 thickness aluminum - round 1/4" diameter         perforations on 3/8" staggered centers for a 40% Open Area - 7.2 Rib Profile	<ol> <li>yes MTL-7 is acceptable at entry canopy. Prefinished color to be Morin non-custom premium color medium gray or approved equal. Yes 20 yr warranty is good040 aluminum round 1/4" dia perf on 3/8" staggered centers 40% open. 2. Pac-ciad or Atas are both acceptable as they have same perf, same metal profile and same thickness.</li> </ol>	4/22/19	Adam Sprenger DWL
002		3/17/19	Depnis M / HUNt	Architectural	Drawings	Refer to sheets P4.2-A203 and P4.2-A700. On Sheet P4.2-A203, Doors C-106A, C-109A, C-111A, C-113A, & C-115A are all shown with side lites. On the Door Schedule on Sheet P4.2-A700, these doors are all listed with Door Frame Type 1, which N does not have a side lite, but are listed with GL-3 glass in the 'Glass' column. Will these side lites be integral with the door frames or will they be separate openings? Also, what size are the side lites?	Doors have a 1°-6" HM sidelite. Sidelite is integral to HM frame. Revided to frame type 6. yes GL-3 1/4" tempered. See attached revised door schedule.	4/22/19	Adam Sprenger DWL
003		3/17/19	Dennis M / HUNţ	Architectural	Drawings	<ul> <li>Refer to Sheets P4.2-A208 and P4.2-A700.</li> <li>(1) On Sheet P4.2-A208, Doors P-226A, P-P227A, P-2285A, &amp; P-231A are all drawn as swinging doors. On the Door Schedule on Sheet P4.2-A700, these are shown as having frame Type 4, which is for a pocket door. Which is correct?</li> <li>(2) On the Door Schedule on Sheet P4.2-A700, these are shown with GL-1 listed in the 'Glass' column. The door type and frame type for these does not show ary glass. Which is correct?</li> </ul>	See attached P4.2-A700 delta S door schedule with hardware sets. See delta 4 for revised hardware spec with sets. Doors P-226A, P-P227A, P-2285A, & P-231A HM frame type revised to type 5. field werify openings for transom heights. Doors are flush HM doors (no glass). Transom is a 1" IGU type GL-1.	4/22/19	Adam Sprenger DWL
004		3/17/19	Dennis M / HUNt	Architecturəl	Drawings	Refer to Sheets P3-A656 & P3-A666.         Elevation 8/P3-A666 appears to show a Sanitary Products Dispenser in Women's Restroom CH-150.         This item is not listed on the Restroom Accessories Legend on Sheet P3-A656.         N       1) Please provide a specification for this item.         2) Are there any other locations where this item will be installed.	Sanitary products dispensers are not included in this project. See 100% CD Enlarged restroom plan sheets P3A653-658 accessories legend for approved products. A Sndisposal is shown on plans type Bobrick B-353 1 sided and Bobrick B354 back to back are approved. The object on the DD set may have been the recessed baby changer station.	4/22/19	Adam Sprenger DWL
005		3/17/19	Dennis M / HUNt	Architectural	Drawings	Refer to Sheets P3-A654 & P3-A663. Elevation 11/P3-A663 and note 296/P3-A654 show a wall-mounted paper towel dispenser and trash N disposal unit. This item Is not listed and specified on the Accessories Legend on Sheet P3-A654. Please provide a specification for this item.	Auto paper tower lispenser Bobrick B-29744 has a 4 <sup>e</sup> recess into wall and is noted on P3 enlarged restroom plan sheets P3-A653 thru658. This requires power to each. Trash units will be provided and installed by CO5.	4/24/19	Adam Sprenger DWL
006		3/17/19	Dennis M / HUNt	Architectura	Drawings	Refer to Sheets P4.2-A203 & P4.2-A503 and the response to GMP2 RFI 018. Section 4/P4.2-A503 shows a clerestory window on the north exterior wall of the City Offices. GMP2 RFI 018 was written to ask for the size(s) of the clerestory windows. The response said that there will be (3) 2'x 4' clerestory windows along the north wall, but it did not provide a layout for the N windows. Please provide an elevation view of this exterior wall showing where the clerestory windows will go.	See attached sheet P4.2-A400 for north elevation dimensioning windows. Yes, (3) 2x4 storefront SF1.	4/22/19	Adam Sprenger DWL
007		3/17/19	Dennis M / HUNt	Architectural	Drawings	Refer to Sheet P4.2-A700. N Please provide door hardware sets for all the doors listed on the door schedule.	<ul> <li>See attached P4.2-A700 delta 5 door schedule with hardware sets. See delta 4 for revised hardware V<sup>4</sup> spec with sets.</li> </ul>	4/22/19	Adam Sprenger DWL

GMP 2 - RFILOG

*GMP 2- RFI No.	Open / Closed	Date	Author	Discipline	Reference Document	Question	Response	Date	Response by
008		4/18/19	Kevin Z / HUNT	Architectural	Drawings	<ul> <li>[1. TL-1A and TL-2 appear to be the same product, installed in the same orientation based on the Material Schedule on P3-A800 and various elevations. Please confirm if there is any difference between the product or installation of TL-1A and TL-2.</li> <li>[1] [2] [2] [2] [2] [2] [2] [2] [2] [2] [2</li></ul>	1. TL-2 - COLOR: BEIGE (REVISED ON MATERIAL SCHEDULE - SHEET P3-A800).     1. TL-28 - YES, INSTALLATION IS STAGGERED (NOTED ON MATERIAL SCHEDULE - SHEET P3-A800).     1. YI3. ACCENT TILE AT HYDROTHERAPY WALLS IS TL-S (TAGGED ON ELEVATION 7/P3-A818). See		Melissa Lowenthal DWL
						Schedule on P3-A800. 3. Elevation 7/P3-A818 does not label the narrow wall accent tile. Confirm TL-5 is the correct	attached revised schedule. Will be included in delta 5.		
009		4/19/19	Kevin Z / HUNT	Architectural	Drawings	<ul> <li>product to install.</li> <li>On sheet P3-A802, at the north entrance to room CH 199 (no door #) there is no floor finish shown.</li> <li>9/P3-A815 appears to show a ramp at the door opening. Please provide details for this ramp.</li> <li>5</li> </ul>	See delta 4 sheets P2-A200 and P2-5/P2-A604. Ramp is a tube steel construction with diamond plate floor surface. It is not an accessible route. Floor surface not shown on 4.2 finish plans because its constructed under P2.	4/22/19	Adam Sprenger DW
010		4/22/19	Dennis M / HUNt	Architectural	Drawings	Refer to Sheets P3-A860 & P3-A861 regarding locker details. As discussed in our Phone Meeting on Thursday 4/18/19, please confirm the following:	Confirmed. Sheet P3-A860 has been deleted and index updated. 2. metal screen behind locker     refrences deleted and notes added to not instal gyp from 0 to 7' behind lockers on sheet P3-A61.     see attached.	4/23/19	Adam Sprenger DW
						2) Sheet P3-A861 shall be revised to remove all references to perforated metal vents in the lockers. Also, the drywall behind the lockers will be left off to allow for ventilation.			
011		2/23/19	Dennis M / HUNt	Architectural	Drawings	Refer to P3-A201 & 3/P3-A657. N The toilet stall in CH142 Hydrotherapy Room appears to have a toilet partition on the north side of it, but it is not labeled as such. Should this be a type 'PART-1' partition & door in this location?	Confirmed hydro rr partition is label PART-1 on 100% P3 CD sheet P3-A657 dared 4/15/19	4/24/19	Adam Sprenger DW
012		4/23/19	Dennis M / HUNt	Architectural	Drawings	<ul> <li>Refer to Sheets P3-A652 - P3-A667.</li> <li>1) The only mirror listed on the accessory schedule (page P3-A656) is model #8026 by ASI, which is a stainless steel mirror with masonite backing (see attached cut sheet). Typically this internot is stainless steel mirror is masonite backing (see attached cut sheet). Typically this internot is response in highly vandized locations like high school and city parks. Is this intended only for the Public Restrooms CH-148, CH-150? What type of mirrors in these rooms. Should these Restrooms CH-148, CH-150 and C-104 do not show mirrors in these rooms. Should these Restrooms CH-148 &amp; CH-150 and C-104 do not show many shall be installed in CH148 &amp; CH-150?</li> <li>3) Restrooms CH-148 &amp; CH-150 do not show soap dispensers. Do soap dispensers need to be the go and how many shall be installed in CH148 &amp; CH-150?</li> <li>4) Toilet accessories Legend Keynote 'US' is a utility shelf. None of the stall types on Sheet P3-A652 show any utility shelves. The enlarged restroom plans for Restrooms CH-105, CH-108, CH-142, CH-148, CH-150, CH-302, P-203 &amp; P-224 appear to show utility shelves in several of the stalls (see attached sheet). Are these to be utility shelves rooms moting les?</li> <li>5) Toilet accessories Legend Keynote 'USC' is for a Medical Sharps Container. These are not labeled anywhere on the drawings. Are these to be installed in Doctor's Offices CH-130 &amp; CH-132? Will they need to be installed anywhere else?</li> </ul>	1. COS directed to not install mirrors in public rr's CH-148 and CH-150. Mirrors for other restrooms are currenly indicated as #8026. ASI has other mirrors of higher quality models#82878 polished tempered glass good rating or 82871 interlayered mirror excellent rating. Hunt please price and direct if we can adjust to the L model typ. See attached cut sheet.       2. COS directed to not install mirrors in public rr's CH-148 and CH-150.         to not install mirrors in public rr's CH-148 and CH-150.       3. See added soap dispensers on attached sheet for CH-148 and CH-150 however we are waiting for approval by COS on model number.       4. utility shelves removed from individual stalls. See attached enlarged rr plans.         Sharp containers are not required on this project. Accessories legend revised to remove sharps.       Y	4/30/19	Adam Sprenger DW
013		4/23/19	Dennis M / HUNt	Plumbing	Drawings	Refer to Sheets P3-A656 & P3-202. Enlarged Restroom Plan 1/P3-A656 shows LAV4 wash stations in Restrooms CH-148 & CH-150. N Sheet P3-202 shows (4) LAV-1 fixtures (counter top mounted lavatories) in each Restroom. Which is correct? If these shall be counter top mounted, please also provide counter top details for these lavs.	Lavs in CH 148 and CH-150 are the gang style lavs not individual lavs. COS approved sloan DSWD- 83000 (has 2 drains in lav basin) with (3) moen 8886 faucets for each restroom CH-148 and CH-150. These lavs are are wall mounted - no counter top.	5/2/19	Adam Sprenger DM
014		4/23/19	Dennis M / HUNt	Architectural	Drawings	Refer to Sheet P3-A800 and Details 3, 5, & 6 on Sheet P3-A867. These details all show Stainless Steel base at the wood panels around the elevator hoistway. The Material Schedule on Sheet P3-A800 does not list Stainless Steel base as a type of wall base. N Please provide a specification for the Stainless Steel base and call out any other locations that are to receive it.	Stainiess steel base only occurs on this project at the base of elevator wall finish at L1 L2 and L3. Finish schedule P3-A800 updated to indicate wall base type B-5 stainless stee! base #4 horiz brushed on wood backing. Yes construct per details 3,5,6 on P3-A867.	4/30/19	Adam Sprenger DW
015		4/23/19	Dennis M / HUNt	Architectural	Specifications	Refer to Specification Section 06 40 00-1.4-D. Specification Section 06 40 00 Architectural Woodwork paragraph 1.4-D is calling for Woodwork Institute-certified compliance certificates. Custom locker manufacturers do not belong to either the Woodwork Institute or AWI. They do adhere to FSC and LEED requirements. Can the Woodwork Institute Certification requirement be waived for the custom wood lockers?	OK AWI requirement waivede for custom locker manufacture only.	4/30/19	Adam Sprenger DW

#### 

*GMP 2- RFI No.	Open / Closed	Date	Author	Discipline	Reference Document	Question	Response	Date	Response by
038	Open	5/13/19	Amanda R / Architectural Millwork Design	Architectural	Specifications 1	The specification for the lockers 064000 specifies Hafele Mastercombi lock for the lockers however none are shown on the drawings. How many locks are needed and where are they to be installed? The Hafele Mastercombi lock is a handed lock and typically installed on single door configurations. This lock may need to be reselected if it is intended for use on a double door.			
039		5/16/19	Dennis M / HUNt	A	Drawings	Refer to Sheet P3-A818 of Budgetary Option #4. The drawing shows (2) cabinets to replace drawer banks in a few locations. If the cabinet doors are made to this size they will be outside of AWI limits for dimensions and the cabinet doors are likely to warp, and they will not be included in the Millwork subcontractor's warranty. Can each of these areas have (3) cabinets Instead of (2)? See attached marked-up drawing.	Yes, the (2) cabinets for each instance as described above can be replaced with (3) cabinet doors to be within the AWI limits and qualify for the millwork subcontractor's warranty.	1	Steve Boyd / Populous

## CLARIFICATIONS AND ASSUMPTIONS

This GMP 2 includes the following Phase 1 scope items for the Scottsdale Stadium Multi-Use Event Center Project:

- 06.10 Finish Carpentry / Millwork, Wood Lockers P3, P4
- 07.92 Firestopping, Caulking, Deck Coating P1, P2, P3, P4
- 08.33b Overhead Coiling Doors P3, P4
- 08.40b Interior & Exterior Glazing Systems P3, P4
- 09.30 Ceramic Tile P3, P4
- 09.50 Acoustical Ceilings P3, P4
- 09.65 Flooring Resilient Base & Tile, Athletic Flooring, Carpet P3, P4
- 09.90 Painting / Special Coatings P1, P2, P3, P4
- 10.10 Signage and Graphics P3, P4
- 10.26 Fiberglass Reinforced Wall Panels P3, P4
- 10.28 Toilet Partitions & Accessories, FEC, Wall Protection P3, P4
- 11.23 Laundry Equipment P3
- 11.24 Fall Protection Equipment P2
- 12.20 Roller Shades P3, P4
- 12.63 Aluminum Stadium Seating P4
- 13.10 Hydrotherapy Equipment Start-up P3
- 13.24 Sauna and Steam Room Equipment P3
- 22.00b Plumbing P3, P4
- 23.00b HVAC P3, P4
- 26.00b Electrical, Security, Fire Alarm, Telecommunications P3, P4
- 27.00 Audio Video P3 & P4
- 32.30 Chain Link Fences, Tree Grate, Modify Netting P1, P2, P3, P4

This GMP 2 for Phase 1 of the Scottsdale Stadium Multi-Use Event Center is based upon the following clarifications and assumptions.

#### A. GENERAL

- 1. This GMP 2 was prepared based upon the following Phase 1 project documents, which are outlined in detail on the document log included in section 4 of this GMP. A slipsheeted set of the latest documents themselves are also included in section 4 of this GMP.
  - a. Drawings
    - i. General (G) Drawings
      - 1. 100% CD Documents, dated 1/15/2019
      - 2. Delta 1/Addendum 1, dated 2/6/2019
      - 3. Delta 2/ASI 001, dated 2/18/2019
      - 4. Delta 3/ASI 002, dated 3/15/2019
      - 5. Delta 4/ASI 003, dated 4/19/2019
    - ii. Drawing Package P1

### CLARIFICATIONS AND ASSUMPTIONS

- 1. 100% CD Documents, dated 1/15/2019
- 2. Delta 1/Addendum 1, dated 2/6/2019
- 3. Delta 2/ASI 001, dated 2/18/2019
- 4. Delta 3/ASI 002, dated 3/15/2019
- 5. Delta 4/ASI 003, dated 4/19/2019
- iii. Drawing Package P2
  - 1. 100% CD Documents, dated 1/15/2019
  - 2. Delta 1/Addendum 1, dated 2/6/2019
  - 3. Delta 2/ASI 001, dated 2/18/2019
  - 4. Delta 3/ASI 002, dated 3/15/2019
  - 5. Delta 4/ASI 003, dated 4/19/2019
- iv. Drawing Package P3
  - 1. 100% CD Documents, dated 4/15/2019
- v. Drawing Package P4
  - 1. 100% CD Documents, dated 4/15/2019
- vi. Drawing Package P4.1
  - 1. 100% CD Documents, dated 4/15/2019
- vii. Drawing Package P4.2
  - 1. 100% CD Documents, dated 4/15/2019
- b. Specifications
  - i. 100% CD Documents, dated 1/15/2019
  - ii. Delta 1/Addendum 1, dated 2/6/2019
  - iii. Delta 2/ASI 001, dated 2/18/2019
  - iv. Delta 3/ASI 002, dated 3/15/2019
  - v. Delta 4/ASI 003, dated 4/19/2019
- c. Supplemental Information
  - i. Signage
  - ii. FF&E
- d. City of Scottsdale Documents
  - i. Building Supplemental Instructions, dated May 2018
  - ii. Design Standards and Policies Manual, dated 2018
- e. Bidder RFIs
- GMP 2 shall be a change order to Contract No. 2019-0006-COS, fully executed on 3/19/2019. This GMP 2 is in addition to GMP 1, which was included as part of Contract No. 2019-0006-COS. All clarifications included in GMP 1 still apply to the GMP 1 scope, unless noted otherwise in this GMP 2.
- 3. The following trades were previously included in GMP 1 for drawing packages P1 and P2 and are not being altered in this GMP 2: Overhead Coiling Doors, Interior & Exterior Glazing Systems, Plumbing, HVAC, and Electrical. GMP 2 includes the balance of scope for these trades in drawing packages P3, P4, P4.1, and P4.2.

### **AECOM** HUNT

### CLARIFICATIONS AND ASSUMPTIONS

- 4. General conditions and general requirements for Phase 1 were captured in GMP 1, dated 3/15/2019, so they are excluded from this GMP 2.
- 5. Design Fee for Construction Administration (CA) Phase 1 scope were captured in GMP 1, dated 3/15/2019, so this fee is excluded from this GMP 2.
- 6. Builders Risk deductibles are included for only insurance claims arising out of negligence of the DBM or DBM's Subcontractors.
- 7. Builders Risk Insurance will remain in place until Substantial Completion is achieved.
- 8. This GMP does not include potential impacts of trade agreements or tariffs that have not been fully implemented as of the date of this GMP.
- 9. All work associated with Phase 2 drawings is excluded.
- 10. The acoustical engineering design included in this GMP is based on recommendations from the City of Scottsdale's acoustic consultant, Callahan Studios, who was contracted directly by the City of Scottsdale.
- 11. The work shown on the home plate plaza build-out alternate plans LX1.1, LX1.2, and associated sheets is not included in this GMP 2.
- 12. Refer to the attached Furniture, Fixtures, and Equipment (FF&E) Responsibility Matrix, dated 5/17/2019 for clarification as to which group is responsible for the design, purchase, and installation of each item. Note that this matrix supersedes the matrix that was included in the approved GMP 1, dated 3/15/2019. Changes to this matrix are highlighted in red and include purchase and installation of the following scopes that have been reallocated from the Owner FF&E Costs to Hunt, per direction from City of Scottsdale: Audio Visual, Distributed TV System, Sound System, Video Coaching System, and Signage.
- 13. All City of Scottsdale soft costs and FF&E costs for GMP 2 are excluded. Refer to the attached FF&E Responsibility Matrix for clarification on the FF&E items.
- 14. The City of Scottsdale design build contract No. 2019-0006-COS supersedes the Division 00 and Division 01 supplemental specifications included with the project documents in this GMP 2.
- 15. An Owner allowance in the amount of \$261,925 (Not to Exceed) is included in this GMP 2 for changes to the project documents based on the City of Scottsdale permit comments and design updates. These updates will be issued as an Addendum with the final City Permit review set. All updates will be tracked via a Change Order Request and submitted to the City of Scottsdale for review and approval. This clarification applies to GMP 1 and GMP 2.
- 16. The attached sketches labeled as "Budgetary Options" contain details for the eight different design changes listed below, which have not yet been incorporated into the project drawings. The City of Scottsdale has provided direction for the Design Build team to proceed with incorporating these design changes into the project documents. This GMP 2 includes the costs for Budgetary Options 1, 2, 3, 4, 5, 6, and 7. The Giants will provide the PH Balancer from Budgetary Option 8 outside of the project budget, but this GMP 2 includes the added electric outlet required for the PH Balancer.
  - a. Budgetary Option #1: Modifications to Press Tower Offices
  - b. Budgetary Option #2: Modifications to the 2~ Level Clubhouse

SCOTTSDALE STADIUM MULTI-USE EVENT CENTER

### CLARIFICATIONS AND ASSUMPTIONS

- c. Budgetary Option #3: Modifications to the Manager's Office CH 1533CC
- d. Budgetary Option #4: Clubhouse Millwork Modifications
- e. Budgetary Option #5: Sauna and Steam Room Modifications
- f. Budgetary Option #6: Add Overhead Exam Lights
- g. Budgetary Option #7: Delete Glazing at Strength & Conditioning Coaches Office
- h, Budgetary Option #8: Add PH Balancer in Training Room
- 17. The following Owner allowances are included in this GMP 2:
  - a. 07.92 Firestopping, Caulking, Deck Coating
    - i. Traffic Coating Minor Repair Allowance at Press Club Level and above City & Ticket Offices, \$15,000
  - b. 09.50 Acoustical Ceilings
    - i. Acoustic Wall Panel Allowance at Multi-Purpose Room, \$58,470
    - ii. Acoustic Consultant (Kevin Callahan, Callahan Studios) Allowance, \$13,760
  - c. 09.90 Painting / Special Coatings
    - i. Repair Frieze Artwork Above City & Ticket Offices Allowance, \$5,000
  - d. 12.20 Roller Shades
    - Clubhouse Weight Room Sectional Door Mecho Shades Mounting Allowance, \$3,000
  - e. 12.63 Aluminum Stadium Seating
    - i. Right Field Bleacher Allowance, \$142,950
  - f. 13.24 Sauna and Steam Room Equipment
    - i. Budgetary Option #5: Sauna and Steam Room Modifications Allowance, \$50,000
  - g. 23.00b HVAC
    - i. Clubhouse Kitchen Air Curtain Allowance, \$4,500
  - h. 26.00b Electrical, Security, Fire Alarm, Telecommunications
    - i. Electrical and Lighting Attic Stock Allowance, \$15,000
  - i. 27.00 Audio Video
    - Portion of Phase 2 Sound Scope Included on Phase 1 Drawings Allowance \$156,799
  - j. 32.30 Chain Link Fences, Tree Grate, Modify Netting, Misc.
    - i. Modify Existing Practice Field Netting Allowance, \$10,000
    - ii. Tree Grate System and Associated Components Allowance, \$183,349
    - iii. Budgetary Option #1: Modifications to Press Tower Offices Allowance, \$4,000
    - iv. Budgetary Option #2: Modifications to the 2nd Level Clubhouse Allowance, \$87,700
    - v. Budgetary Option #3: Modifications to the Manager's Office CH 1533CC Allowance, \$8,316

### **AECOM** HUNT

## CLARIFICATIONS AND ASSUMPTIONS

#### B. SCHEDULE

- 18. This GMP 2 is based on the schedule included in the approved GMP 1, dated 3/14/2019. This schedule is included in section 6 of this GMP 2, for reference.
- 19. This GMP 2 is based upon the City of Scottsdale permit review periods and issuance dates provided on the schedule included in section 6 of this GMP. These dates are critical path to the project end date.
- 20. This GMP 2 is based upon a notice to proceed being issued by June 12, 2019. Any costs associated with a later notice to proceed are excluded.

#### C. DIVISION 5: METALS

- 21. Work associated with the right field bleacher modification was excluded in GMP 1 and is included in this GMP 2 under Division 12, Aluminum Stadium Seating.
- 22. The tree grating system, angles, and supports were excluded in GMP 1 and are included in this GMP 2 under Division 32, Exterior Improvements.
- 23. Chainlink fence modifications were excluded in GMP 1 and are now included in this GMP 2 under Division 32, Exterior Improvements.
- 24. Fall arrest cable and anchor points were excluded in GMP 1 and are now included in this GMP 2 under Division 11, Fall Protection Equipment.
- 25. Signage support steel was excluded in GMP 1 and is now included in this GMP 2 under Division 10, signage.
- 26. Television support frame bracing was excluded in GMP 1 and is now included in this GMP 2 under Division 27.
- 27. Countertop supports were excluded in GMP 1 and are now included in this GMP 2 under Division 6, Millwork.

#### D. DIVISION 6: WOOD

- 28. Finish Carpentry / Millwork
  - a. This GMP 2 includes a shelf and rod in the new closet in the Manager's Office shown in Budgetary Option #3.
  - b. The drawings for Budgetary Option #4 show (2) cabinets to replace drawer banks in a few locations. These cabinets will be outside of AWI limits for dimensions so this GMP 2 assumes that these locations will have (3) cabinets instead of (2).
  - c. The existing slat walls in the Team Store will remain in place. No repairs to existing damage or alterations are included in this GMP 2. Repairs will be made to any slat walls that may be damaged during construction.
  - d. Per RFI 020 the existing drink rail at the Charros Lodge will be demoed as part of GMP 1 and no new drink rail will be installed.
  - e. The countertops at the Press Level section doors are assumed to be a solid surface material.

- f. Room P225 Press Box 5 has a base cabinet with a sink that is assumed to be plastic laminate.
- 29. Lockers
  - a. This GMP 2 assumes that each locker (Staff, Player's, Women's) has a quantity of (4) hooks.
  - b. A lock shall be provided at each locker (Staff, Player's, Women's). The Player's lockers will have a divider in the two-door cabinet so one side can be lockable and the other side is non-lockable.
  - c. This GMP 2 includes the MW-2 material as a quartered sawn white oak veneer on a fire rated core.
  - d. This GMP 2 includes providing MW-2 quartered sawn white oak veneer on fire rated core for the women and staff lockers and ADA benches in lieu of the specified PL-5 compact laminate per direction from City of Scottsdale and Giants.

#### E. DIVISION 7: THERMAL AND MOISTURE PROTECTION

- 30. Metal Wall Panels
  - a. Trim metal associated with the Press Club Level and coiling doors was excluded from GMP 1 and is now included in this GMP 2 under Division 8, Overhead Coiling Doors.
- 31. Deck Coating
  - a. Replacement of the traffic topping at the Charros Lodge was excluded in GMP 1 and is now included in this GMP 2. This GMP 2 excludes replacement of the traffic coating at the entire Press Level.
  - b. This GMP 2 includes traffic topping at the upper Level of the Charros Area.
  - c. An owner allowance is included in this GMP 2 for minor traffic coating repairs at the Press Level and above the City and Ticket Offices.
- 32. Fireproofing
  - a. All fireproofing and intumescent paint is excluded.
- 33. The building interior fluid applied air barrier was excluded in GMP 1 and is now included in this GMP 2. All exterior fluid applied air barrier was included in GMP 1 and is therefore excluded from this GMP 2.

#### F. DIVISION 8: OPENINGS

- 34. Overhead Coiling Doors
  - a. The following items are included in this GMP 2 for the Press Tower Sectional Doors. Refer to the attached preliminary sketches for the Press Tower Sectional doors.
    - i. All (5) sectional doors are motorized
    - ii. All (5) sectional doors to have 1/4" laminated glass
    - iii. Demo of soffit above existing windows
    - iv. Additional steel support
    - v. Rebuild exterior header (framing & metal panels)
    - vi. Add interior soffit at door header (framing & drywall)

### **AECOM** HUNT

# CLARIFICATIONS AND ASSUMPTIONS

- 35. Glass and Glazing
  - a. Warranty is excluded for the re-salvaged ticket windows and microphones at the Ticket Office.
  - b. Re-finishing and re-painting of the existing window systems to remain in the Press Level is excluded in this GMP 2.

### G. DIVISION 9: FINISHES

- 36. Ceramic Tile
  - a. Per RFI 025, liquid waterproofing will be provided beneath the tile at all restrooms and hydrotherapy on the floors and on all walls up to the ceiling.
  - b. Single shower areas only shall contain vinyl shower pan liners, as requested by the City of Scottsdale and the Giants.
  - c. A high-performance grout, meeting ANSI 118.7, is included in this GMP 2 at all tile locations in lieu of a grout sealer.
  - d. Room CH 101B Serving wall tile TL-2 is being used per the elevations.
- 37. Acoustical Ceilings
  - a. This GMP 2 includes an Owner allowance for the acoustical wall panels in the Clubhouse Multi-Purpose room. Panels are assumed to be local source equal to G&S and ATS acoustical panel products with standard Guilford fabric.
  - b. This GMP 2 includes an Owner allowance of 40 hours at \$344/hour to coordinate with Kevin Callahan, from Callahan Studios, to finalize the Multi-Purpose Center acoustic panel design, which has been placed on hold by the City of Scottsdale.
  - c. Acoustical wall panels are excluded at the weight room.
- 38. Flooring -- Resilient Base & Tile, Athletic Flooring, Carpet
  - a. This GMP 2 includes sealed concrete with 6" rubber cove base and epoxy filled joints in the Clubhouse Kitchen in lieu of the Stonhard product listed in the project documents per direction from the City of Scottsdale.
  - b. A salt and pepper finish is included for all polished concrete areas.
  - c. The following flooring alternates listed on the project drawings are included in this GMP 2:
    - i. Alternate #7: Replacing PC-1 with CPT-3 in the Clubhouse first floor entry corridors (Keynote 287 on drawing P3-A801)
    - ii. Alternate #8: Replacing PC-1 with TL-1 in the Clubhouse first floor restrooms (Keynote 288 on drawing P3-A801)
- 39. Painting/Special Coatings
  - a. Electrostatic Spray Coatings is excluded from the project.
  - b. Steel preparation and primer for the structural steel special coatings was included in GMP 1 and is therefore excluded from this GMP 2. Field touch-up, steel connections, and final coat of structural steel special coatings is included in this GMP 2.
  - c. Water repellants were excluded in GMP 1, but are now included in this GMP 2.

- d. Anti-graffiti coatings are excluded from the project.
- e. This GMP 2 includes sanding, preparation, primer and finish paint of existing wood doors to remain at Press Club Level. Patching, re-staining, bondo, and new door hardware are excluded from this GMP 2.
- f. Painting of all existing guardrails and handrails that are not being modified is excluded from this GMP 2.
- g. Water repellent spray on existing concrete and masonry walls is excluded from this GMP2.
- h. An Owner allowance is included in this GMP 2 for the Frieze artwork repair above the City and Ticket offices.

#### H. DIVISION 10: SPECIALTIES

- 40. Signage and Graphics
  - a. Signage permits are excluded from this GMP 2 and shall be provided by the City of Scottsdale from the Plan Review and Permitting fees Soft Costs.
  - FrameBridge is excluded as the manufacturer for the P-07 Hall of Fame images as this company cannot fabricate frames this size. An alternate manufacturer is included in this GMP 2.
- 41. Toilet Partitions & Accessories
  - a. Medical Sharps Container Disposals are excluded from this GMP 2 per direction from the Giants.
  - b. This GMP 2 assumes (1) custodial hook rack in each janitor closet.
  - c. A liquid soap dispenser and sanitary napkin disposal is assumed to be located in rooms CH205 Unisex Toilet and C104 Unisex Toilet.
  - d. The urinal partitions shown on the floor plans are assumed to be the same material as the typical toilet partitions PART-1 (ASI, floor mounted, powder coated steel).
  - e. Restroom partitions in the press level are assumed to be typical toilet partition PART-1 (ASI, floor mounted, powder coated steel).

#### I. DIVISION 11: EQUIPMENT

- 42. Laundry Equipment
  - a. The following laundry equipment is included in this GMP 2:
    - vii. (2) each Fagor FWS-60 TP2 HW Washers
    - viii. (2) each Fagor FWS-80 TP2 HW Washers
    - ix. (1) each Fagor FD-80 Dryer
    - x. (2) each Fagor FD-120 Dryers
  - b. Fire suppression systems in the dryers are not required by code and are excluded per Giants' request.
  - c. Detergent injectors for the laundry equipment are excluded in this GMP 2 and shall be by operator.

- 43. Fall Protection Equipment
  - a. The fall protection system included in this GMP 2 contains a cabling system and arresting anchor points per direction from the City of Scottsdale.
  - b. This GMP 2 excludes harnesses and gear required to be used in conjunction with the fall protection equipment. These shall be provided by the City of Scottsdale staff when in use.

#### J. DIVISION 12: FURNISHINGS

- 44. Roller Shades
  - The design for the mounting details for the type WT-4 roller shades at the Clubhouse Weight Room sectional doors is incomplete. This GMP 2 includes an allowance for mounting these roller shades.
  - b. Window treatments at the existing Team Shop are excluded from this GMP 2.
  - c. Type WT-1 motorized window shades, in the Multi-Use Room, include WhisperIQ2 Motors which are operated by a wall switch and can have optional AV integration.
  - d. Type WT-2 motorized window shades, in Rooms CH 146 Weight Room (except sectional doors), CH 200 Cardio Deck, and CH 300 Open Offices, include RTS Motors which are operated by a wireless wall switch or remote control.
  - e. Alternate #9, called out as keynote 289 on drawing P3-A823, for changing the window treatments in room CH300 on the 3<sup>--</sup> floor of the Clubhouse from WT-2 (motorized) to a WT-3 (non-motorized) is not included in this GMP 2.
- 45. Aluminum Stadium Seating
  - This GMP 2 includes an allowance to remove and replace the existing Right Field Bleacher system and reconstruct with the new standing room only seating layout. This allowance assumes reuse of the existing bleacher footings.
  - b. This GMP 2 excludes ADA ramp and ADA-compliant front walkway at the new Right Field Bleachers.
- 46. High Density Storage
  - a. The furnish & installation of the high density storage is excluded in this GMP and shall be by the Giants.

#### K. DIVISION 13: SPECIAL CONSTRUCTION

- 47. Hydrotherapy Equipment Install
  - a. Hydroworx Phase II installation of the Hydroworx 2000 pool is excluded from this GMP 2.
     Phase II installation includes setting and the assembly of the treadmill for the Hydroworx 2000 pool. The (2) plunge pools are included in this GMP 2 and will be set and connected by the plumbing and electrical subcontractors.
- 48. Sauna & Steam Room Equipment
  - a. An Owner allowance for Budgetary Option #5 for the sauna and steam room equipment changes for the Clubhouse is included in this GMP 2. This allowance is intended to

include all associated components, trim, supply, drywall, insulation, flooring, plumbing, mechanical, electrical, and installation.

#### L. DIVISION 22: PLUMBING

- 49. A lavatory or sink is excluded at the hydrotherapy room per Giants request.
- 50. This GMP 2 includes additional water connections for a water bottle filler with filtered water at the Clubhouse Kitchen CH 301 and City Offices Lobby C105.
- 51. The PH balancer add in Budgetary Option #8 is assumed to be a Life Ionizer MXL-7 Alkaline Water Ionizer Hydrogen Unit per direction from the Giants.
- 52. Laundry sink LS-1 is included in this GMP 2, as listed on the Plumbing Schedule on P3-P002.
- 53. All storm water overflow drain downspout nozzles are Zurn/1999.
- 54. All wall hydrants and hose bibs are assumed to be Zurn.
- 55. Area drains at Clubhouse are assumed to be Zurn/Z505 12".
- 56. Floor drains are assumed to be located in toilet rooms with more than one water closet and in the Clubhouse Boiler/Mechanical Room.
- 57. Domestic water heater pipe is assumed to be PVC and heating water boiler flues are assumed to be Metal fab Corr-Guard AL29-4C.
- 58. There is a numbering discrepancy for VAV boxes listed on the HVAC equipment schedule and shown on the plumbing plans for the Clubhouse. However, the quantities are the same and this GMP includes a total of 65 VAV boxes in the Clubhouse.

#### M. DIVISION 23: HVAC

- 59. The purchase of a 3,000 gallon grease interceptor was included in GMP 1. The grease interceptor size was reduced to a 1,500 gallon grease interceptor in drawing package P3, but since this was purchased previously in GMP 1 the credit back to the City of Scottsdale will be captured as a deduct change order to GMP 1.
- 60. An Owner allowance for (3) air curtains at the Clubhouse Kitchen is included in this GMP 2.
- 61. This GMP 2 includes air quality testing for LEED credit in lieu of flushing the HVAC system.
- 62. Additional DP Sensors and Temperature sensors are included in this GMP 2 for commissioning requirements per direction from City of Scottsdale.
- 63. This GMP 2 includes the attached preliminary LEED Commissioning Specification 01 91 00.

#### N. DIVISION 26: ELECTRICAL

- 64. Electrical
  - a. Engineering of teledata cable supports is excluded from this GMP 2.
  - b. UL recertification is excluded for existing electrical panelboards and equipment.
  - c. This GMP 2 includes added power to the press tower sectional doors.
  - d. An Owner allowance is included in this GMP 2 for electrical and lighting attic stock.
- 65. Lighting

a. The overhead exam lights added in Budgetary Option #6 are assumed to be Welch Allyn GS900 per direction from the Giants

#### O. DIVISION 27: COMMUNICATIONS

66. Teledata/Communications

- a. The existing/abandoned teledata cabling in the existing stadium areas shall be tested and verified by the City of Scottsdale prior to the DBM team removing it.
- b. Hanging, testing, rework, and cable management of the existing cables that are to remain is excluded from this GMP 2. This work will be performed by the City of Scottsdale.
- c. All telecommunications cabling and equipment is excluded from this GMP and will be provided by the City of Scottsdale and the Giants. This GMP 2 includes providing all telecommunications conduit, pathways and power as required for a complete system as shown on the project documents. The City of Scottsdale and Giants shall provide any additional J-hooks, hangers, and firesafing materials, as required.
- d. Power and racks in the IDF/MDF rooms are included in this GMP 2. Network access shall be provided by the City of Scottsdale IT Department.
- 67. Audio Visual
  - a. All televisions and television mounts are excluded from this GMP 2 and shall be provided by the Giants. This GMP 2 includes all conduit, power, and back boxes.
  - b. This GMP 2 includes support for the locations of the televisions depicted on the current drawings and coordinated prior to the installation of drywall. Most of the televisions will be mounted to the existing metal stud framing.
- 68. Sound
  - a. Several of the sound devices and equipment shown on the Package P4.2 drawings could be shifted to Phase 2 scope and are included as an Owner allowance in this GMP
    2. Refer to the attached AV drawings clarifying which items are included in the allowance.
  - b. This GMP 2 includes relocating (2) sets of existing speakers at the existing Press Level suites to avoid conflicts with the sectional doors.
  - c. This GMP 2 includes providing a complete and operable sound system for Spring Training based on the use of some existing equipment and wiring (assumed to be in working order).
  - d. This GMP 2 includes a new fiber line and a media converter to replace the sound signal feed that had run from the existing Clubhouse IDF room to the Gate A concessions rack.
- 69. Video Coaching
  - a. Video coaching system cameras and video coaching system hardware are excluded from this GMP 2 and shall be provided by the Giants.

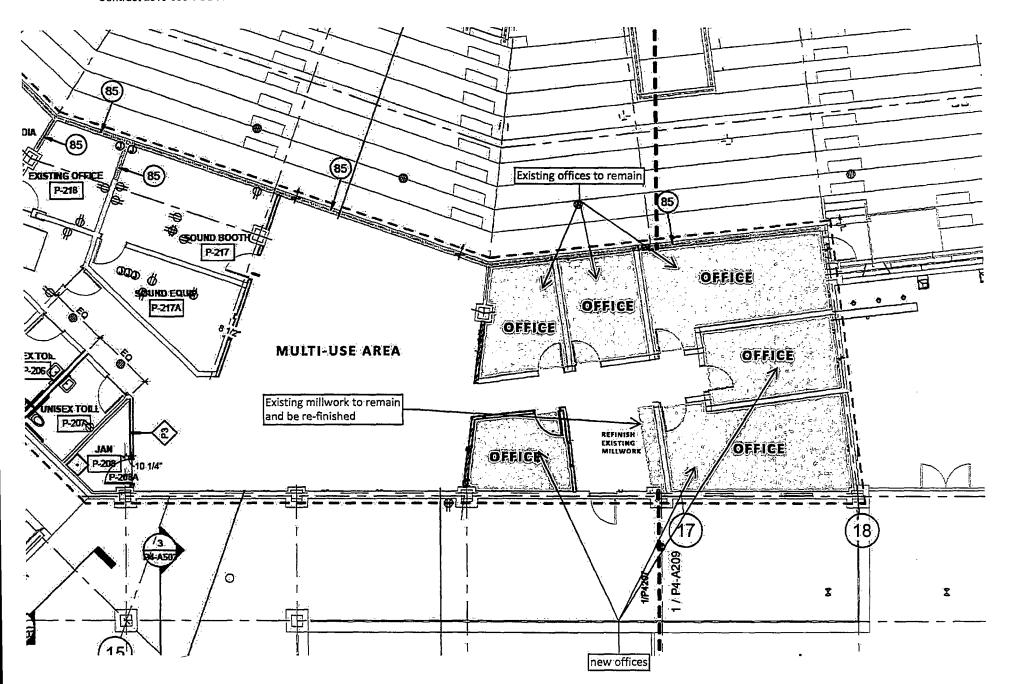

#### P. DIVISION 28: ELECTRONIC SAFETY AND SECURITY

- 70. Security
  - a. All cabling, camera and equipment associated with the CCTV system is excluded from this GMP 2 and will be provided by FSEC thru the City of Scottsdale. Conduit, pathways and power required for the CCTV system has been coordinated with FSEC's current design, as of the date of this GMP, and is included in this GMP 2.
  - b. All cabling and equipment associated with access control is excluded from this GMP 2 and will be provided by FSEC thru the City of Scottsdale. Conduit and pathways for the Access Control has been coordinated with FSEC's current design, as of the date of this GMP, and is included in this GMP 2.

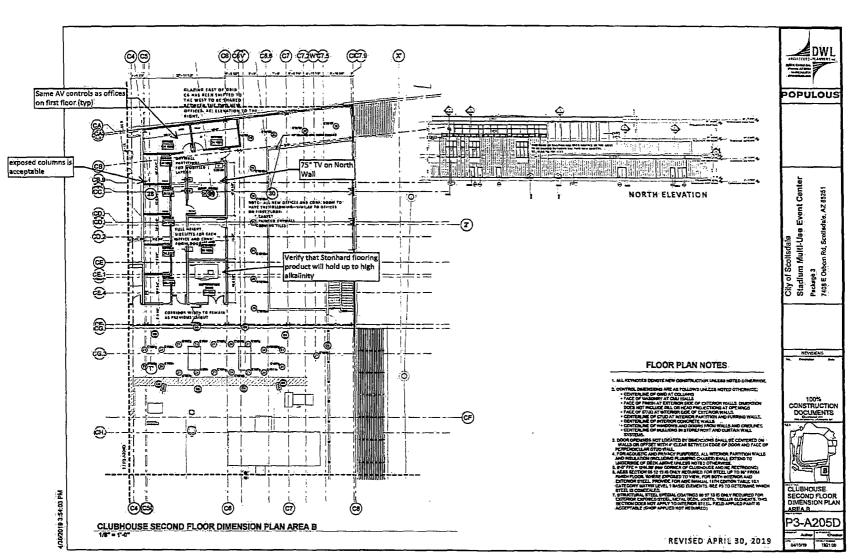

#### Q. DIVISION 32 - EXTERIOR IMPROVEMENTS

- 71. Tree Grate
  - a. This GMP 2 includes an Owner allowance for a Trex composite decking system around the (4) existing trees behind the right field bleachers. This system is assumed to contain concrete pedestals with metal framing for the decking system, small metal tree grates around the trees, and two catch-basins under the decking system that will connect to the storm sewer in this area.
  - b. The City of Scottsdale shall provide arborist during excavation for and installation of the tree grate system.
- 72. Modify Netting
  - a. This GMP 2 includes an Owner allowance for modifications to the existing practice field netting. This allowance does not include removing and/or relocating of the existing poles. Modifications will be completed by West Coast Netting to retain the existing netting warranty.

### NARRATIVE OF CHANGES

Scottsdale Stadium Multi-Event Center

The following narrative describes the anticipated scope of work for the miscellaneous changes included in add service 01 as detailed in the meeting minutes of the 5/1/19 design meeting:

Revised Giants offices at new Clubhouse Level 2 and Press Level

- Mechanical
  - Additional supply and return ductwork and diffusers to additional offices
  - Reallocate CFM to each space and resize ductwork and diffusers as required
  - Provide one additional VAV (current design has 5 zones, modified design has 6 zones)
  - New low-pressure ductwork and diffusers for new spaces
  - New return air boots
  - Revise exhaust to D-tank room
  - Aluminum ductwork at D-tank room?
  - Remove exhaust to restroom
- Plumbing
  - Coordinate food drain leaders with mechanical ductwork changes.
  - Remove restroom group.
  - Reroute plumbing serving 3<sup>rd</sup> floor.
  - Reroute roof drain leaders.
  - Provide floor drain and shower at D-tank room.
- Electrical
  - Additional receptacles to support additional offices (min. 4 receptacles each office)
  - Additional lighting to support additional offices (two L2A type fixture each office with dimmer/occupancy sensor switch control)
  - Additional devices to support new conference room similar to other conference rooms
  - Additional lighting to support new conference room (L10 type fixtures with spacing and controls similar to other conference rooms)
  - Additional receptacles to support new corridor (one per 50 linear feet and within 25 feet of corridor ends)
  - Additional lighting to support new corridor (L10 type fixtures with spacing and controls similar to other corridors).
  - Revised plans for misc. changes.
  - Maintain circuits to 3 existing to remain offices, as well as existing to remain millwork on Press Level
- Fire Alarm:
  - Add speakers and smoke detectors to support additional offices.
  - Add speaker/strobe and smoke detector to support additional Conference Room.
- Technology
  - Additional cabling, AV rough-in to support additional offices (min. 4 cables each office).
  - Additional cabling, AV rough-in, etc. in new conference room similar to other conference rooms.

Budgetary Options Narrative - Mechanical, Plumbing, Electrical, Fire Alarm, Technology

Scottsdale Stadium Multi-Use Event Center Meeting Notes <Date>

- Revised plans for misc. changes.
- Revised new Clubhouse Manager's Office
- Mechanical
  - Revise ductwork mains and branches as required.
  - Revise air terminals.
- Plumbing
  - Revise restroom plumbing to new layout.
- Electrical
  - Revise receptacles to new layout.
  - Revise lighting to new layout.
- Fire Alarm
  - Move devices to conform to new layout.
- Technology
  - Revise data outlets to new layout.

#### New Clubhouse millwork modifications

- Mechanical: no scope of work
- Plumbing: no scope of work
- Electrical
  - Modify outlet locations to accommodate new millwork.
- Fire Alarm: No scope of work
- Technology
  - Modify outlet locations to accommodate new millwork.

#### Delete glazing in new Clubhouse at Conditioning Coach Office

- No MPET scope of work.
- No Fire Alarm scope of work

#### New PH Balancer in new Clubhouse Training Room

- Mechanical: no scope of work
- Plumbing
  - Update sink specification to provide PH Balancer
- Electrical
  - Add dedicated receptacle, if required.
- Fire Alarm: no scope of work
- Technology: no scope of work

#### New exam lights in new Clubhouse Doctor Rooms

- Mechanical: no scope of work
- Plumbing: no scope of work
- Electrical
  - Add Welch Allyn Green Series 900 Exam Light, ceiling mount in Doctor Rooms.
- Fire Alarm: no scope of work
- Technology: no scope of work

Budgetary Options Narrative - Mechanical, Plumbing, Electrical, Fire Alarm, Technology

Scottsdale Stadium Multi-Use Event Center Meeting Notes <Date>

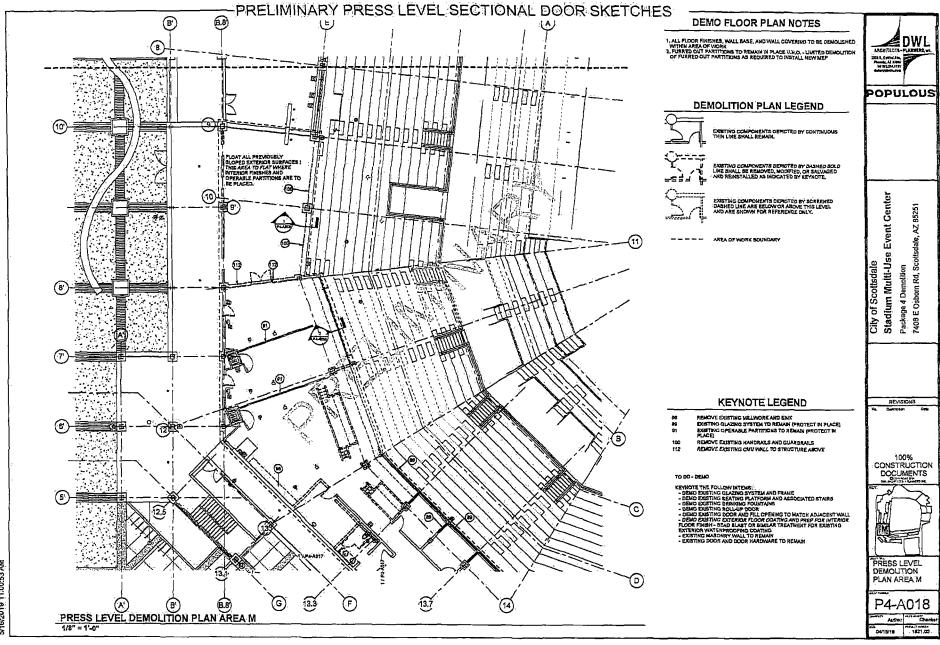

### New steam shower in Hydrotherapy Room

- Mechanical: no scope of work
- Plumbing: update fixture spec as required
- Electrical: Add L9A type fixture for new steam shower.
- Fire Alarm: Add speaker/strobe and smoke detector
- Technology: no scope of work

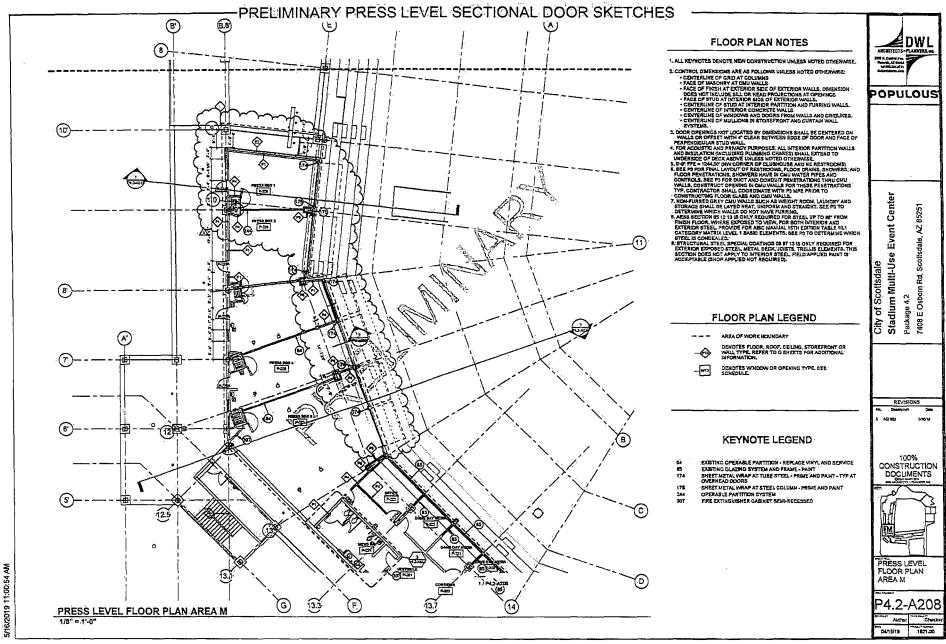

Revised new Clubhouse players restroom sauna

- Mechanical: no scope of work
- Plumbing: remove one of the Floor Drains
- Electrical
  - Modify power to sauna heating unit
  - Modify light fixture and lighting controls locations to accommodate revised sauna
- Fire Alarm
  - Delete strobes in former sauna areas
- Technology: no scope of work

### SECTION 01 91 00

#### GENERAL COMMISSIONING REQUIREMENTS

## PART 1 - GENERAL

### 1.1 SUMMARY

- A. The Owner will employ an independent Commissioning Authority (CxA). The CxA is an independent and knowledgeable third party, hired to verify that the systems work as intended. The CxA will inform the Owner and the Architect of the results of commissioning and provide recommendations for final acceptance of commissioned systems.
- B. Commissioning is the process to verify to the Owner that mechanical and electrical systems, as well as other special systems, function together properly to meet the facility performance requirements and design intent as described in the Contract Documents. The Contractor shall be responsible for participation in the commissioning process as outlined below, and in references and attachments throughout the Contract Documents. The Contractor shall furnish labor and materials sufficient to meet all requirements of building commissioning under this contract.
- C. LEED v4 Option 1 Path 2 MBCx: Engineering Economics, Inc. (EEI) utilizes software analytical tools to enhance the quality and thoroughness of Functional Performance Testing efforts. In order to support this effort, additional assistance of the controls (Building Automation System) contractor will be necessary. EEI will request that trend data be provided and automatically exported at specified concurrent fixed intervals for all of the equipment and systems that are to be Commissioned and that are also interfaced with the BAS in accordance with the contract documents. The controls contractor's ability to provide and automatically export trend data will be a prerequisite for EEI to proceed with Functional Performance Testing.
- D. The CxA, acting on the behalf of the Owner, will be cognizant of the Owner's Facilities Staff's need to be informed and given the opportunity to participate actively in the commissioning process to ensure a complete, thorough turnover of systems once the project is complete. To this end, the CxA will ensure that Facilities Personnel are informed of commissioning activity and schedule, and of any coordination issues, such as special testing procedures or opportunity for hands-on training during functional testing.
- E. The CxA<sup>\*</sup> is not authorized to modify, add to, or revoke the requirements of the Contract Documents. A change in the work can only be made as provided in the General Conditions.
- F. Specification sections in Division 1 General Requirements (019100); Division 22 Plumbing (220800 Commissioning of Plumbing); Division 23 Heating, Ventilating, and Air Conditioning (230800 Cx of HVAC); and Division 26 Electrical (260800 Cx of Electrical); outlines the specific commissioning responsibilities of each subcontractor for that division, and also obligates the Contractor to coordinate and manage the commissioning responsibilities of those subcontractors.

# 1.2 RELATED WORK

- A. Drawings and general provisions of Contract, including General and Supplementary Conditions and Division 1 Specification Sections, apply to the work of this section.
- B. General requirements for testing agencies as specified in the Division 1, "Section Quality Control Services."
- C. Applicable Divisions 22 and 23 sections identifying the requirements for plumbing and HVAC systems relating to the installation of mechanical equipment and systems, particularly with respect to equipment

and system testing, start-up and performance demonstration/observation. Coordinate with the work of Division 26.

D. Applicable Division 26 sections specifying the requirements for materials and installation of electrical equipment and systems, particularly with respect to equipment and system testing, start-up, arc flash and selective coordination and performance demonstration/observation. Coordinate with the work of Divisions 22 and 23.

## 1.3 TERMS

- A. Acceptable Performance: A component or system being able to meet specified design parameters under actual load, including satisfactory documented completion of all functional performance tests, control system trending, and resolution of outstanding issues.
- B. CxA: An independent and knowledgeable third party hired to verify that the systems achieve acceptable performance.
- C. Commissioning Field Workbook: A 3-ring binder (or similar) created by the CAA with input from the Commissioning Team. Tabs are created for blank Pre-functional Tests (s), Installation Inspections, TAB pencil copy reports, commissioning readiness sign-off sheets, and Building Automation system point-to-point documentation.
- D. Commissioning Plan: The Commissioning Plan is prepared by the Owner's CxA and defines the scope and format of the commissioning process and the responsibilities of all involved parties. The Commissioning Plan is provided to all commissioning team members to inform them of the intent and scope of the commissioning work to ensure inclusion in the project scope and to expedite the commissioning process.
- E. Commissioning Team: The term used to define the overall group associated with performing commissioning work, including designated representatives of the Owner, Facilities Staff, A/E Design Team, Construction Team, and the CxA.
- F. Construction Team. The term used to define the overall group responsible for performing the work to complete the work on the Contract Documents, including the Construction Manager, Contractor, the Mechanical Contractor and associated subcontractors, and the Electrical Contractor and associates subcontractors.
- G. Controls Summit: A-meeting or meetings that occurs early after project award to coordinate and finalize the-understanding of how the engineer of record sequence of operations is to be implemented before finalizing the control contractor's hardware and software shop drawings, graphics and other related submittals.
- H. Design Intent: Documentation behind design decisions that were made to meet the Owner's project requirements. The design intent describes the systems, components, conditions and methods to provide a fully functioning building.
- 1. Functional Performance Testing: Full range of checks, tests and demonstrations carried out to determine that all components, sub-systems, systems, and interfaces between the systems function in accordance with the Contract Documents. In this context, function includes all modes and sequences of control operation, all interlocks and conditional control responses, and all specified responses to abnormal emergency conditions.
- J. Issue Resolution Log (IRL): The purpose of this log is to provide a method for tracking and resolution of items discovered as a result of the commissioning process. This list also includes the current disposition of issues and the date of final resolution as confirmed by the CxA.

- K. International Energy Conservation Code (IECC): Comprehensive energy conservation code establishes minimum regulations for energy-efficient buildings using prescriptive and performance-related provisions.
- L. Owner Project Requirements (OPR): A document developed by the Owner, with help of the CxA and A/E Design Team. The OPR details the functional requirements of the project, and the expectations of the buildings use and operation as it relates to the systems being commissioned.
- M. Performance Period: A period of time following the completion of Functional Performance Testing with minimal involvement/intervention from the installing contractor(s) where the performance of the Commissioned Systems are monitored and tracked for any deviations from expected outcomes. A Performance Period may also sometimes be referred to as a "trending period."

### 1.4 DUTIES OF CONTRACTOR

- A. It is the responsibility of the Construction Manager or General Contractor to assure that all requirements of this specification section are completed by the CM/GC and their sub-contractors.
- B. Provide vendor information to the CxA as requested enhancing the CxA's understanding of contractor and vendor obligations and responsibilities, and as needed to benefit the commissioning effort.
- C. Provide electronic copies of all submittals, shop drawings, coordination drawings, manufacturer's literature, maintenance information or other information as may be needed for systems to be commissioned to the CxA.
- D. Submit all manufacturer's installation inspection and start-up procedures (i.e., pre-functional test procedures) for review by the CxA.
- E. Incorporate commissioning activities into the overall construction schedule.
- F. Coordinate participation of the Mechanical, Electrical, Controls, Security, Fire Alarm and TAB Contractors in the commissioning process.
- G. Collect and provide to the CxA information requested for development of a complete commissioning plan, Pre-functional Test Checklists, Commissioning Field Notebook, and functional test procedures.
- H. Review the commissioning plan, project communication reports and test results, and submit comments to the CxA.
- 1. Coordinate participation in the Controls Summit. Manage, track and complete the Commissioning Field Notebook, including Pre-functional Test Checklists and commissioning related specification requirements.
- J. Provide to the CxA the controls system complete point listing that includes a summary of all points; full description; point naming, address, type and units, including mapped points from third party equipment controls; and calculated or virtual points. This information shall be in Excel or .csv format.
- K. Verify that coordination, installation, quality control, and final testing have been completed such that installed systems and equipment comply with construction documents.
- L. Provide CxA with controls system wiring diagrams and narrative sequences of operation in time for use in preparing the functional test procedures.
- M. Participate in any efforts to finalize sequences of operations with Owner, A/E Design Team, and CxA.

- N. In a timely manner, address issues identified during construction that may affect the commissioning process or final system performance.
- O. Participate in commissioning meetings with the CxA.
- P. Ensure the building automation system graphics are submitted for approval by the A/E prior to testing and these graphics are operational prior to the start of functional testing.
- Q. Provide preliminary TAB report, indicating all actual field values recorded, to the CxA prior to initiation of functional testing. These reports may be hand written and shall be incorporated in the Commissioning Field Notebook.
- R. Provide a fully operational system per the contract documents, started, verified, debugged, calibrated, balanced, tested and under automatic control prior to providing written notice via the commissioning readiness sign-off sheet for inclusion in the commissioning field workbook.
- S. Issue a written notice of Cx readiness for each system to CxA upon completion via completed and signed readiness checklist, installation completion matrix or pre-functional checklist. Functional testing will not begin for any system until signed notice of Cx readiness is issued.
- T. Provide proprietary test equipment required to test all the system's and equipment in this project.
- U. Operate equipment and systems, as required, for functional performance testing. This includes, but is not limited to, manipulating the appropriate controls systems to achieve the expected response for the functional test procedure and initiating HVAC system fire alarm interactions via the fire alarm system.
- V. Provide building automation trends at the specified intervals as found in the Commissioning Plan. This will require editing in consideration of MBCx data extraction method, performance period, but consider leaving in regardless as back up for performance review.
- W. Participate in the fine-tuning or troubleshooting of system performance if either becomes necessary.
- X. Submit complete operation and maintenance information, and as-built drawings in accordance with contract documents and latest version of IECC requirements to the CxA for review.
- Y. If Performance Period verification is required by the Owner, or included in the contract documents, Contractor shall provide the necessary support for Commissioned Systems during the Performance Period. This includes, but is not limited to, providing the necessary personnel to operate all Commissioned Systems during a performance period to last 7 days, responding to hot/cold calls and other complaints from building occupants, notifying the Commissioning Team in writing of any issues that arise during the Performance Period, providing requested trend data, and correcting any issues that are identified for correction during this period.
- Z. Provide documentation of training for the systems specified.
- AA. LEED v4 Option 1 Path 1 Enhanced Systems Manual requirements: Within (60) days of approval of all submittals, the contractor shall submit to the CxA for inclusion in the systems manual:
  - 1. All Operation and Maintenance information.
  - 2. One electronic set of approved submittals,
  - 3. All maintenance procedures and schedules as well as operational record keeping recommendations.
  - 4. Emergency contact and service contact information for all equipment provided as part of the project including names, agency, address, phone number, and email address
  - 5. At the time of substantial completion, the contractor shall submit the following additional information to the CxA for inclusion in the systems manual

- One electronic set of as-built drawings, single-line diagrams, flow diagrams, equipment a. preventative maintenance schedules, as built sequences of operation, original setpoints, emergency operating procedures, and a record of all changes made throughout the project. h
- Confirmation record of completed training.
- The CxA shall develop narratives for each system, make recommendations for optimization, 6. recalibration and retesting, and compile the systems manual in its entirety. One electronic copy will be transmitted to the Owner.
- BB. Compensation for the CxA for retesting and/or troubleshooting time in excess of the specified retest allowance will be requested to the Owner from the CxA if the Contractor's systems do not meet specified performance. Contractor will be required to reimburse Owner for this additional expense-J.
- 1.5 DUTIES OF COMMISSIONING AUTHORITY (CxA)
  - Provide Contractor with expected durations of commissioning activities for inclusion in the construction A. schedule.

Station of the

- Collect and review design intent from the A/E Design Team. В.
- C. Review the Contract Documents.
- D. Develop the commissioning plan.
- Develop commissioning specifications for inclusion in the contract documents. E.
- F. Develop pre-functional test checklists for each piece of commissioned equipment.
- Develop the Commissioning Field Notebook for use by the Contractor. Provide supplemental G. documentation, as necessary, to ensure that all aspects of start-up and testing have been complete and documented prior to functional testing
- Organize a commissioning kickoff meeting and present the commissioning plan to the Commissioning H. Team.
- Review the Contractor submittals relative to the systems to be commissioned. Ĩ.
- Conduct a Controls Summit meeting with the Owner, Architect, Contractor and Building Automatic J. Temperature Control (ATC) Contractor.
- Review construction installation progress and verify system installation quality and readiness for testing. К.
- L Observe the start-up activities and initial testing of equipment and systems, as required, and review Contractor start-up documentation.
- M. Develop functional test procedures from Contractor submittals, including designer-approved control documentation, and narrative sequences of operation and control diagrams.
- N. Direct and perform and document functional testing with assistance from Contractor.
- О. Provide site observation, functional test and other project reports in a timely manner. Document inconsistencies or deficiencies in system operations and system compliance.
- P. Coordinate participation of Owner's Personnel involved with equipment, component and systems performance verification, and participation in required training.

- Q. Witness and verify satisfactory completion of equipment and component tests and systems and intersystems functional performance tests.
- R. Maintain the Issue Resolution Log. Verify resolution of issues identified through the commissioning process.
- S. If performance period verification is included in the project scope, analyze and compile trend log results from performance period activities.
- T. Verify training for commissioned equipment and systems is provided to the Owner.
- U. Review Contractor Operations & Maintenance Manuals for commissioned equipment and systems.
- V. Complete a commissioning report.
- W. Compile a Systems Manual.
- X. Complete IECC Commissioning Compliance Checklist.
- 1.6 ADDITIONAL DUTIES OF THE TAB CONTRACTOR
  - A. Provide as-built TAB one-line documentation for all balanced systems. Hydronic systems shall include risers and main branch take-offs complete with pipe size and balanced flow. Airside systems shall include duct risers and main branch take-offs with duct size, balanced flow and pressure and full flow conditions.
  - B. Provide static pressure profiles for all air handling equipment while same is operating at design capacity specifically noting equipment components and airflow volumes.
  - C. Conduct air flow station calibration verification in the presence of the CxA, and document results in TAB report.
  - D. Re-measure air and water flows as directed by the CxA to verify proper TAB measurement procedures were followed, and the results are repeatable. A 2-day allowance for spot checking of TAB measurements is included in the commissioning scope of work; if 10% or more of the spaces spot-checked do not match reported airflows, additional spot checking will be conducted at the expense of the TAB contractor.
  - E. Measure building pressure during peak heating season with all air handlers controlling to minimum outside air flow
  - F. Measure building pressure during peak cooling season with all air handlers controlling to minimum outside air flow:
  - G. Measure building pressure under 100% outside air economizer conditions {if applicable) with all air handler fans operating under normal BAS control.
  - H. Observe duct pressure testing.
  - I. Perform site observations of all air and hydronic systems for access to all balancing devices (i.e. manual volume dampers and hydronic balance devices) prior to installation, system fill and insulation.
- 1.7 ADDITIONAL DUTIES OF THE BUILDING AUTOMATION TEMPERATURE CONTROL CONTRACTOR
  - A. Coordination of final sequence of operations with the Owner, A/E and CxA prior to submittal.

- B. Testing and start-up of the equipment including completed control systems, point-to-point verification of all system inputs and outputs, calibration checks and accurate system graphics.
- C. Providing qualified personnel for participation in commissioning tests, including seasonal testing required after the initial commissioning.
- D. Provide test holes in ducts and plenums where directed or necessary for sensor calibration verification. Test holes shall be provided with an approved removable plug or seal. At each location where ducts or plenums are insulated, test holes shall be provided with an approved extension with plug fitting.
- E. Provide test connection ports for airside differential pressure switches and transmitters
- F. Provide test connection ports for waterside differential pressure transmitters
- G. Provide all devices, software, cables and devices necessary to communicate with controllers, so that commissioning can proceed in an efficient manner.
- H. All commissioning activities will utilize the graphics on the building automation system workstation. This contractor shall be responsible for submitting graphics for review by the A/E prior to commencement of field testing. Commissioning testing will not begin until graphics are A/E approved and fully functional.
- I. Provide remote access to the automation system for the CxA
- J. Provide access to the programming and graphics tools for the building automation system front-end workstation for use by the CxA prior to downloading controls programming. The CxA shall review all completed controls programming against the approved sequences of operation. The CxA will communicate directly with the ATC Contractor by noting all comments in the programming tool. Any deficiencies identified will be recorded to the IRL report.
- K. Providing training to the ExA on basic operation of the control system along with appropriate personal access for commissioning.
- L. Fulfill contract, and warranty requirements by providing equipment, software, software programming materials and labor necessary to correct deficiencies found during the commissioning process.
- M. After completion of Cx activities but before Owner occupancy, set up and provide interval trends for duration of Performance Period for all points required by the CxA. The list of points and frequency required will be developed as part of the Commissioning Plan. Provide this data in a Microsoft Excel compatible format.
- N. Provide sequences of operation in a MS Word compatible format.
- O. Provide as-built control diagrams in individual PDF format on a per system basis.

# PART 2 - PRODUCTS

- 2.1 TEST EQUIPMENT
  - A. Standard test equipment for commissioning will be provided by the CxA.
  - B. Division 21, 22, 23 and 26 Contractors shall provide standard and specialized test equipment as necessary to test and start up the systems.

- C. Proprietary test equipment required by the manufacturer, whether specified or not, shall be provided by the manufacturer of the equipment through the installing contractor. Manufacturer shall provide the test equipment, demonstrate its use and assist the CxA in the commissioning process.
- D. The Contractor shall provide all equipment, software and all test programming support as necessary to start up, calibrate, debug and verify proper function of the control/facility management system. This equipment and software shall be provided for use by both the test and balance contractor and the CxA.

## 2.2 BUILDING AUTOMATION SYSTEM TEST EQUIPMENT

- A. This ATC Contractor shall provide all equipment, software and all test programming support as necessary to start up, calibrate, debug and verify proper function of the control/building management system. This equipment and software shall be provided for use by both the test and balance Contractor and the CxA at no additional charge to the project.
- B. Proprietary test equipment, including hardware, software and specialized test instruments, required by the manufacturer for system testing and commissioning, whether specified or not, shall be provided by the control system contractor at no additional charge to the project. This contractor shall provide the test equipment, demonstrate its use and assist the CxA in the commissioning process. This includes, but is not limited to, provision of any proprietary software required for communication with terminal equipment controllers and access to graphical user interfaces.
- C. ATC Contractor shall provide remote access to the Building Automation System (BAS) to the CxA.
- D. The contractor shall provide a site license dedicated to the CxA during field testing at no additional charge to the project.

# PART 3 - EXECUTION

### 3.1 COMMISSIONING PROCESS

- A. Commissioning Schedule
  - 1. Contractor to incorporate commissioning activities into the overall construction schedule. If construction is phased, commissioning activities are to be included in all phases of the schedule. The schedule defines the milestones and conditions that must be achieved before functional testing can commence. The schedule also includes the expected duration of the various tasks. The CxA will provide the Contractor with expected durations of commissioning activities.
  - 2. Special consideration shall be given to the schedule to prevent unrealistic overlap of activities within the same area of the building with each other and with commissioning (e.g., air and water balancing, enabling return air without floor level cleanliness, flooring installation, and fire alarm testing).

Contractor to develop a systematic start-up / close-out / commissioning schedule or include the same information in the overall construction schedule. For each of the equipment/systems, the following activities shall be indicated on the Startup and Commissioning Schedule as a minimum (note that not all of these activities apply to all equipment/systems and that some equipment/systems will require additional activities and prerequisites to be indicated):

- a. Equipment Installation Completion Date(s) with referenced prerequisites from the General Schedule,
- b. Permanent Power Completion Date(s), including power connection to equipment,
- c. Availability of central plant services (i.e. chilled water, hot water, steam)
- d. Controls Wiring Completion Date(s)
- e. Manufacturer's Representatives' Equipment/System Startup Date(s)
- f. Contractors' Equipment/System Startup Date(s)
- g. BAS Point to Point Testing Date(s)
- h. Test and Balancing Date(s)
- i. 3rd-Party Electrical Testing Agency Testing Date(s)

- j. Floor level final clean and dust free
- k. Fire Alarm System Pre-Testing Date(s),
- 1. Fire Department Fire Alarm and Fire Suppression Systems Testing Date(s),
- m. Functional Performance Testing Date(s)
- n. Substantial Completion Date(s)
- o. Owner Move in Date(s)
- p. Performance period.
- q. Operations and Maintenance Manual review.
- r. Owner personnel training.
- B. Contract Document Review
  - 1. The CxA will collect and review design intent information from the design team and verify that it meets the Owner's project requirements. Design intent documentation will be used in conjunction with the Contract Documents to develop the commissioning plan, pre-functional tests, and functional performance tests.
- C. Commissioning Plan
  - 1. The CxA will develop a commissioning plan for the project. The commissioning plan is a tool through which the commissioning process is described and incorporates the Owner, A/E Design Team, Contractor and CxA's roles relative to the commissioning process. The commissioning plan will include the following:
  - 2. Elements of the Plan
    - a. Detail the commissioning process
    - b. Identify commissioning team members
    - c. Include a commissioning team organization chart
    - d. Define commissioning team member responsibilities
    - e. Describe pre-functional and functional test procedures
    - f. Outline systems to be commissioned
    - g. Provide a list of Commissioning Activities, including durations
- D. Pre-functional Test Checklists
  - 1. The CxA will develop pre-functional test checklists for each piece of commissioned equipment [or review contractor provided pre-functional test and startup checklists. The pre-functional test checklist will outline required steps for the Contractor to complete prior to functional testing. Pre-functional test checklists verify installation, start-up and operational assessments have been completed for the equipment.
  - 2. Manufacturer start-up forms provided with pieces of equipment will be collected in addition to the pre-functional test checklists.
- E. Commissioning Field Notebook
  - The CXA will develop a Commissioning Field Notebook to be used and completed by the Contractor. The notebook will identify and track all pertinent commissioning documentation required during the installation, start-up, and checkout phases. The notebook will be maintained by the Contractor on-site and will be made available to all Subcontractors for their use. The notebook provides a central location for the Subcontractors and CxA to identify, copy, and organize all pertinent commissioning information.
  - 2. The Commissioning Field Notebook will contain:
    - a. Summary describing the notebook's contents and use
    - b. Commissioning plan for Contractor field reference
    - c. Tabs for each system, with copies of pre-functional and functional test check sheets for pieces of equipment identified as part of that system
    - d. Commissioning project communication reports, issue logs schedule information, or any other documentation provided by the CxA
- F. Commissioning Kickoff Meeting

- 1. The commissioning plan will be presented to the Commissioning Team during a commissioning kickoff meeting. The Commissioning Team will review the plan and provide comments to the CxA. The CxA will incorporate appropriate comments into the plan and a finalized commissioning plan will be distributed to the Commissioning Team.
- 2. The Commissioning Field Notebook will be presented to the Contractor during the commissioning kickoff meeting. Instruction for its use will be conveyed during the meeting.
- G. Installation Progress Review
  - 1. During the course of construction, the CxA will perform installation reviews for commissioned equipment and systems. Deficiencies and/or recommendations will be noted and conveyed in project communication reports to the appropriate Commissioning Team members
- H. Pre-functional Test Checklist Completion
  - 1. Using the pre-functional test checklists developed or approved by the CxA, the Contractor will verify that the systems they install are in compliance with the construction documents and are fully functional. Functional testing will only begin when checklists are completed by the appropriate subcontractors, initialed, signed, and returned to the CxA indicating specific system completion.
  - 2. Contractor will issue a written notice of readiness to the CxA upon completion of all systems work, start-up and endorsement of pre-functional tests.
- I. Contractor Submittal Review
  - 1. The Contractor will provide electronic copies of the submittals for commissioned systems and equipment to the CxA for use in development of functional test procedures.
  - 2. The CxA will review submittals for conformity with the design intent.
- J. Functional Test Procedures
  - 1. The CxA will develop functional test procedures for each piece of commissioned equipment. The functional tests outline the process for testing the building's systems. Functional tests verify the performance of equipment adhere to the design intent.
    - Functional test procedures include, but are not limited to, the following:
      - a. Verification of testing, adjusting and balancing performance
      - b. Verification of the performance of automatic controls in all seasonal modes
      - c. Verification of the performance of a HVAC system
      - d. Verification of the performance of electrical systems
      - e. Verification of the performance of plumbing systems
      - f. **Ver**ification of the performance of all life safety interactions with the HVAC systems
      - Verification of the response of automated controls to alarms, fire alarm input, and power failures
      - Verification of trending capabilities of the automated controls system.

# K Functional Testing

2.

- Functional testing is intended to begin upon completion of a system. The CxA will not begin the functional testing process until each system is complete and documented. Testing may proceed prior to the completion of systems and/or sub-systems if expediting this work is in the best interests of the Owner.
- 2. Functional testing is performed by the Contractor and witnessed by the CxA to verify proper sequencing, operation, and performance of installed equipment and systems under realistic operating conditions. As tests are successfully completed, systems will be deemed acceptable by the CxA.
- 3. The Contractor is responsible for coordinating participation of CxA and Subcontractors in functional testing.
- L. Issue Resolution Log

- 1. When acceptable performance cannot be achieved by tested equipment and systems, the cause of the deficiency will be identified. Deficiencies will be collected and tracked in an Issue Resolution Log maintained by the CxA.
- M. Corrective Measures
  - 1. If acceptable performance cannot be achieved by a piece of equipment or a system, and if the deficiency is caused by installation error by the Contractor, the necessary corrective measures shall be carried out by the Contractor. Once corrective measures have been completed, the equipment or system will be retested by the CxA until acceptable performance is achieved.
  - 2. A 4-hour retest allowance is included in the commissioning scope for repeats of failed tests. If retesting to achieve acceptable performance exceeds this allowance, the Contractor shall be financially responsible at standard rates to reimburse the CxA for the additional time and travel costs required to resolve deficiencies.
- N. Project Communication Reports
  - 1. In addition to the pre-functional test checklists, functional test procedures and the Issue Resolution Log, project communication reports will be provided to document all other commissioning activities performed by the CxA. Project communication reports will be issued to the Contractor and key members of the Commissioning Team to document apparent deficiencies identified during examination of design and construction documents, daily activities on-site, installation deficiencies, and successful or unsuccessful functional testing, results.
- O. Commissioning Meetings
  - 1. Commissioning meetings will be held periodically during the construction process to review the status of the construction and commissioning work, develop construction completion and testing schedules, and the status of submittals required by this section. Attendance by the Construction Team is required for commissioning meetings.
  - 2. Commissioning meetings will be coordinated by the Contractor. Meeting minutes will be developed and maintained by the CxA

Performance Period

- 3. Upon successful completion of functional test procedures, a performance period of 15 consecutive calendar days shall commence on first day following the last performance test. This period shall be completed prior to final acceptance of the project. In the event of failure to meet standard of performance during any initiated performance period, it is not required that one -calendar day period expire in order for another performance period to begin.
- 4. If equipment or system operate and demonstrate continuing compliance with specified requirements for period of 15 consecutive calendar days from commencement date of performance period, it shall be deemed to have met the standard of performance.
  - Equipment will not be accepted by the Owner and final payment will not be made by the Owner Juntil acceptable performance is met.
  - Contractor shall provide CxA with trend logs of the system performance for the control variables and setpoint in each control process in 15-minute time increments.
- P. Operations and Maintenance Manual Review
  - 1. The Contractor shall assemble Operations & Maintenance Manuals as described in other sections of these Contract Documents and latest version IECC requirements.
  - 2. Documentation shall be submitted electronically. Scanned copies are not acceptable.
  - 3. The CxA will review the Operations & Maintenance Manuals of commissioned systems and equipment after they have been reviewed and accepted by the A/E Design Team.

- Q. Training
  - 1. A training plan will be developed by the Contractor outlining equipment that requires training, who will perform the training, when the training will occur, and the required duration of the training. Once the training plan is developed, the Owner will review and approve training durations and quantities proposed by the Contractors and coordinate the training schedule with the construction team to ensure that the appropriate personnel attend the training.
  - 2. Training sessions should include using the Operations & Maintenance Manuals and as-built drawings assembled by the Contractor.
  - 3. Detailed requirements for training and instruction are contained in other sections of these Contract Documents.
  - 4. Contractor to provide a copy of all Owner Training documentation to the CxA for review.
- R. Commissioning Report
  - 1. Once acceptable performance is achieved, the CxA will complete a commissioning report. The report shall include:
    - a. A commissioning activity executive summary.
    - b. The finalized commissioning plan.
    - c. The completed Commissioning Field Notebook, including pre-functional test checklists and specified commissioning related documentation.
    - d. Completed functional test procedures.
    - e. Commissioning project communication reports
    - f. Up-to-date Issue Resolution Log
    - g. Performance period trend log analyses.

# 3.2 SYSTEMS TO BE COMMISSIONED

A. Systems and equipment to be functionally tested include, as described in Division 1 (019100), Division 22 (220800), Division 23 (230800) and Division 26 (260800).

SEND OF SECTION 01 91 00
