The CERT program trains the community in basic disaster prevention and response skills such as disaster preparedness, fire suppression, disaster medical operations, search and rescue, organization and disaster psychology.

This six-week course culminates in a disaster simulation. Classes are hands-on, intensive, and designed to offer students decision making and practical skills needed to safely assist families, neighbors and coworkers in the event of an emergency or disaster.

CERT training is free, but pre-registration is mandatory as class size is limited.
