

CHRIS PUTRINO PROJECT

Adult Contemporary Top 40

It is said that timing is everything in the making of fine wine. In the case of Chris Putrino the time is now. Chris began his musical career at the age of nine. Influenced by such musical giants as John Coltrane, Herb Hancock and James Taylor, Chris has cultivated his own sound. His journey is unique in the fact that he has been his own driving force, which has transcended into a musical artistry that is sure to please even the most sophisticated listener. His guitar mastery has been compared to the likes of Carlos Santana while his stage presence has been said to be as smooth as George Benson.

After experiencing a musical evening in the company of Chris Putrino one can see that he is a rare talent indeed. His ability to combine many musical skills, his vocal range and guitar virtuosity and uncanny nature at song writing make him stand heads above others in the field.
