

Green Builder Participants

2004 through 2007

Green Building is a whole systems approach utilizing design and building techniques to minimize environmental impact and reduce the energy consumption of a building while contributing to the health of the building's occupants.

The Builders listed below either have active projects enrolled in the program or have completed a project within the past two years. Inclusion in this list is for reference only and does not construe an endorsement for the Builder on behalf of the City of Scottsdale.

1/1/2006 - 10/4/2007
