

PUBLIC INFORMATION MEETING PURPOSE:

- To seek public input about what is important to you as Pima Road is improved
- To present the preferred alternative
- Provide an opportunity for open discussion between you and the project team

PROJECT OBJECTIVES:

- Develop a Design Concept Report (DCR) for Pima Road from McDowell Road to 90th Street
 - This report will identify and address many of the issues affecting the Pima Road Corridor, such as:
 - Increasing traffic flows
 - Improve north-south circulation
 - Improve business access
 - Accommodate multi-modal access (bus, bikes, etc)
 - Enhance corridor character
 - Safeguard adjacent neighborhoods and community resources
- Produce an Environmental Document for Pima Road from McDowell Road to 90th Street
 - This document will study and evaluate the following environmental conditions, among others:
 - Social
 - Economics
 - Natural resources
 - Cultural resources
 - Air quality
 - Noise
