5) If aircraft washing is conducted outside of designated wash rack/pad, describe the method of disposal of retrieved wash/waste water.

Indicate your understanding of the following statements by initialing on the line provided:

- 6) If water is to be disposed of on airport property the following steps shall be taken:
- a. Disposal of wash/waste water shall be done through an oil/water interceptor into the sanitary sewer system. At no time is wash/waste water to be disposed of in storm water drainage or dirt/grass areas. Initial _____
 - b. Approval for the discharge of wash/waste water on airport property shall be obtained from the Airport Director. You must request an approval letter from the Airport Director. A copy of the approval letter shall be included in the AWP. Initial _____
- 7) A copy of this AWP shall be on each wash site at all times while aircraft washing activities are performed, and shall be accessible to the Airport Director on-demand. Initial _____
- 8) Each aircraft washing services operator shall maintain a complete list of individuals/companies contracting for washing services and all aircraft washed during each month, including the date that service was provided, aircraft owner (if available), FAA registration number, and make and model of aircraft for a period of six (6) months. The list shall be made available to the airport director upon request. Initial _____
- 9) A mobile aircraft washing services operator shall at all times maintain in effect the types and minimum amounts of insurance, and contain provisions cited herein for any of its activities at the airport that may be covered by such insurance specified in section 4. Initial _____
- 10) The operator shall pay fees as prescribed by lease, license, permit or agreement. At a minimum an operator shall pay the greater of twenty-five dollars (\$25.00) per month or a monthly aeronautical business permit fee of two and one-half (2 1/2) percent of gross income from the operator's sales. Initial _____

This Wash Plan has been reviewed and meets the Airport Minimum Operating Standards.

Approved,

Aviation Director (or designee)
