The Transportation Commission shall provide a public forum to hear citizen comments and requests regarding transportation matters. (3) Recommend to the City Council, periodically, as appropriate, a prioritized implementation program and updates for the transportation master plan.

(4) Review periodically the DS&PM (Design Standards and Policy Manual) as it relates to transportation, and the community mobility element of the general plan and transportation master plan or subsequent guiding policy documents regarding transportation and make appropriate comments and recommendations.

(5) Make recommendations to ensure that the City's street system is accessible for all users, providing "complete streets". Complete streets are defined per the most recently adopted transportation master plan, and will be modified by reference with revisions to the transportation master plan.

(6) Review matters concerning mobility and safety and make recommendations to the City Council regarding measures that should be taken to promote mobility and safety within the City.

(7) Provide a public forum to hear citizen comments and requests regarding transportation matters on existing and potential or new transportation facilities related to mobility, and make recommendations to the City Council, as appropriate, as to the disposition of such citizen concerns.

The Subcommittee shall consist of five (5) members. Two (2) of the members shall be Transportation Commissioners appointed by the Transportation Commission Chair. One (1) member shall be a Parks and Recreation Commissioner appointed by the Parks and Recreation Commission Chair. These three (3) members will be appointed annually. Two (2) non-commissioner members apply and are appointed by City Council for a term of three years, maximum of two terms. The Chair shall be a Transportation Commissioner selected by the Transportation Commission Chair.

(9) Review this division periodically and make such recommendations as to its revision as may be deemed necessary and appropriate to further its goals.

(10) Reasonable efforts will be made to bring to the Commission any transportation budget information in a timely manner.
