

INSTRUCTOR: Taylor, Charles

CLASS: Watercolor

Watercolor

Supplies:

- Pencil** No. 2 standard school pencil works just great for this class.
- Watercolor Pencil** Any brand and number of pencils in the box as long as it is water-soluble pencils.
- Watercolor Paper** You need at least 140 lb. paper, cold press [suggesting either Strathmore or Arches.]
- Watercolor Paints** I recommend a very inexpensive type of paints like Reeves Watercolors in tubs, 24 colors set is the best.
- Watercolor Palette** This need to be the style with a lid and with 20 to 24 spaces for colors to go into. Any art store should have this.
- Eraser** Buy the ink eraser so you will have a rough end and a smooth end.
- Seam Gauge** Metal type is the best. You can buy this in any fabric store.
- Water Container** A tuna can work great.
- Masking Fluid** You can buy this from most art stores.
- 1 cheep brush** This can be the one they sell for children because we will use it to apply the masking fluid and is easier to clean than a hairbrush.
- Storage Box** This will be use to carry all of your supplies.
- Ink** Parker fountain pen ink, will be used later in the class schedule.
- Soap** Small bar of ivory soap to clean your brushes properly.
- Paper Towels** This is for cleanup.
- Soft Tissue** Charmin bathroom tissue works the best and does not have hand lotion or other stuff in it.
- Hair Dryer** A smaller style hair dryer will aid in the drying of your paintings.
- Razor Blade** Any single edge style will work.

Brushes

- #1 This is a square edge brush with the hair 1/4" wide by 3/4" long.
- #2 "dagger brush" 3/8 inch #6 . This is called a "rigger" or "long hair liner" brush and the hairs will be about 1 or 1 1/2" long. This liner is not the same as a short hair liner.
- #3 A cheep, stiff brose fan brush.
- #4 A house painting brush that is 1" wide by 2" long or longer.
- #5. Anything with a needle point on it.
- #6. A rigger or long hair liner brush.
