

Program Description

The Scottsdale Water Conservation Office offers a rebate to water customers who purchase and install a city-approved irrigation controller in their landscapes. The intent of this rebate is to encourage a permanent reduction in outdoor water use. **Rebates for conventional (non-smart) controllers will not be available after June 30, 2016**

1. Who Can Apply?

The Irrigation Controller Rebate is available to customers whose property receives water from the Scottsdale water system. The applicant must be the property owner or the party legally responsible for paying the water bill. New construction is not part of this rebate program.

2. How Do I Apply?

Mail in the completed application and an **original itemized, dated sales invoice/receipt**. Original itemized receipts from major home improvement stores with stock-keeping unit (sku) or universal product codes (UPC) are acceptable for proof of purchase. The completed rebate application along with original invoice/receipt must be submitted within one year from the date of purchase. Make a copy of your invoice/receipt for your records prior to mailing the completed application to:

Scottsdale Water Conservation Office
Irrigation Controller Rebate Program
9312 N 94th St
Scottsdale, AZ 85258

3. What Irrigation Controllers Are Eligible?

The irrigation controller must be new and a “listed” product (such as “UL” approved) and installed per its listing. Controller must be electrically activated and hardwired to the irrigation system (battery powered controllers are not eligible). The controller must be equipped with the following features to meet eligibility requirements:

- Multiple programs – 2 or more
- Multiple start times
- Run times of up to 90 minutes or more
- Scheduling capability of odd/even, weekly, and interval programming of 14 days or more
- Operation modes for OFF, AUTO, and MANUAL without disturbing program
- Rain shut-off or moisture sensor capability
- Battery backup or nonvolatile memory

4. How Many Rebates Can I Receive?

Single-family properties can receive one rebate per property. Multifamily, commercial or industrial properties can receive rebates up to the total number of irrigation controllers on the property. Applications will be accepted on a first-come, first-served basis until funding is depleted.

5. How Will I Receive the Rebate?

Approved rebates will appear as a credit on your water bill within two billing cycles after your application has been processed.

Summary of Steps to Receive a Rebate:

- Check your water bill to ensure that you receive water from Scottsdale.
- Purchase a city-approved controller as listed in eligibility criteria.
- Verify that your itemized dated invoice/receipt lists the actual cost of one controller (excluding taxes and installation charges). Original itemized receipts from home improvement stores that include UPC or SKU codes are acceptable as proof of purchase.
- Install your controller or have it installed.
- Submit completed application with original invoice/receipt. Keep copies for your records.
