

The Scottsdale Water Conservation Office is offering rebates to water customers who install water conservation devices in their homes or businesses. The rebates are offered to encourage a permanent reduction in indoor water use.

### 1. Who Can Apply?

The Plumbing Rebate Program is available to customers whose properties receive water from the Scottsdale water system. The applicant must be the property owner or the party legally responsible for paying the water bill.

Structures built after January 1, 1992, are not eligible to receive rebates.

### 2. How Do I Apply?

Mail in the completed application and an original itemized sales receipt dated within one year of purchase for each device installed to:

**Scottsdale Water Conservation Office  
Plumbing Rebate Program  
9312 N 94th St  
Scottsdale, AZ 85258**

### 3. What Conservation Devices Are Eligible?

- Showerheads: 2.75 gallons per minute (gpm) or less
- Toilets: 1.6 gallons per flush (gpf) or less

Consider looking for WaterSense labeled devices as they have been tested for efficiency and performance. For more information visit EPA's website: [epa.gov/watersense](http://epa.gov/watersense)

### 4. How Much of a Rebate Will I Receive?

A toilet rebate amount is limited to actual cost (excluding tax and installation) of a toilet or maximum of \$75, whichever is less.

A showerhead rebate amount is limited to actual cost (excluding tax and installation) of a showerhead or maximum of \$5, whichever is less.

Single-family properties can receive rebates on two showerheads and two toilets.

Multifamily, commercial or industrial properties can receive rebates up to the total number of showerheads and/or toilets on the property.

Funds are limited. Rebates will be processed until funds are depleted.

### 5. How Will I Receive the Rebate?

Approved rebates will appear as a credit on your water bill within one to two billing cycles after your application has been processed. If you live in a homeowners association (HOA) and the HOA pays the water bill, we will provide the HOA with the documentation needed so they can reimburse you after the credit appears on the water bill.

### 6. Who Can Receive Free Aerators?

Single-family, multifamily, commercial or industrial properties can receive aerators equal to the number of faucets on the property.

- Check your water bill or talk to your HOA representative to ensure you receive water from the city of Scottsdale.
- Purchase eligible plumbing device (toilets, showerheads).
- Verify that your itemized dated invoice/receipt lists the actual cost of each plumbing device (excluding taxes and installation charges).
- Install the toilets or showerheads.
- Submit completed application with original invoice/receipt. Keep copies for your records.
