1. CAPITAL IMPROVEMENT PROGRAM (CIP) FUNDING OPTIONS

Mr. Basha indicated that this item is to initiate discussion in the possibility of developing other funding mechanisms for Capital Improvement Projects.
Mr. Nichols and Ms. Guillory reviewed and explained various funding sources currently available in the Transportation Budget. These include the Transportation Sales Tax passed in 1989, Highway User Revenue Funds (HURF), Government Obligation Bond 2000 Program, and LTAF (Local Transportation Assistance Fund). Extensive discussion ensued between staff and the Commission regarding the background and processes for each of the different funding sources. The possibility of looking at CFDs (Community Facilities Districts) as a funding source was also discussed.

Mr. Nichols highlighted that the General Fund is used to subsidize the Transportation Fund; however, with the present status and needs of the General Fund, there is no capacity to transfer monies from the General Fund to the Transportation Fund. In addition, the bond election in 2013 that failed affected the General Fund as well. There are about 12 projects that are not funded and the City needs to come up with $12.5M per year to accomplish these projects. Commissioner Ward noted that he is very supportive of the individual projects contained in the bond election, and believes that are many more worthy projects. Commissioner Ward also stated other funding sources might be more appropriate and more acceptable to the community.

Mr. Nichols and Ms. Guillory addressed questions and concerns from Commissioners relative to the possibility of state levies on fuel for motor vehicles and possibility of increasing property or sales taxes.

2. REVIEW OF TONIGHT’S REGULAR MEETING AGENDA

- Election of Transportation Commission Officers

Relative to the election of officers for 2014, Vice Chair Olmsted expressed interest in being considered for Chair of the Transportation Commission. Commissioner Ward volunteered in being considered for Vice Chair.
