Meeting Date: November 12, 2019
General Plan Element: *Neighborhoods*
General Plan Goal: *Enhance and Protect Neighborhoods*

ACTION

Authorize Resolution Number 11621 authorizing:

1. Contract No. 2019-177-COS with the Arizona Department of Homeland Security to accept the Urban Area Security Initiative CBRNE grant in the amount of \$40,000,
2. A \$40,000 budget transfer from the adopted Fiscal Year 2019/20 Future Grants Budget and/or Grant Contingency Budget to a newly created cost center to record the related grant activity.

BACKGROUND

The City of Scottsdale continues to enhance and refine emergency-management and homeland-security capabilities through the attainment of a number of critical federal grants.

The Urban Area Security Initiative (UASI) program, through the Arizona Department of Homeland Security addresses the unique planning, organizational, equipment, training, and exercise needs of high-threat, high-density, urban areas, and assists these areas in building an enhanced and sustainable capacity to prevent, protect against, respond to, and recover from acts of terrorism. Scottsdale has been a recipient of this type of grant since Fiscal Year 2006/07 related to the City's response to chemical, biological, radiological, nuclear and explosive incidents and terrorism prevention efforts.

Vulnerability to terrorism and other disasters in the urban area is concentrated in the Phoenix metropolitan area with an impact to surrounding cities. To be effective, the ability to prevent and detect, as well as manage, both crisis (threats and prevention) and consequences (event impacts) is an essential component of the Scottsdale Police Department.

CBRNE response personnel are trained in the use of specialized personal protective equipment in order to safely enter hazardous environments to both stop a threat and remove citizens from danger.

IMPACT ANALYSIS

Grant funds will be used to purchase protective tactical equipment (including ballistic helmets that have reach the end of their warranty period) and support tactical training opportunities.

This equipment and training will allow the Scottsdale Police Department the ability to respond to active shooters and other hostile incidents.

Resource Impacts

The Arizona Homeland Security UASI grant is a reimbursement grant. When the equipment reaches its end of life, the department will look to secure additional grant funding to replace the aging equipment.

Staffing, Workload Impact

Approval of the grant will have no impact on current staffing or workload.

PROJECT ADMINISTRATION

PROJECT DESCRIPTION

Organization Name:

Scottsdale Police Department

Subrecipient Agreement #: 190820-01

Project Title: Scottsdale Police Tactical Operations CBRNE Terrorism Prevention and Response Sustainment Project

Project Summary:

The Scottsdale Police Tactical Operations CBRNE Terrorism Prevention and Response Sustainment Project addresses both equipment and training needs that will sustain and allow Scottsdale's team as well as the central region as a whole to maintain current capabilities yet continue to grow to address emerging trends. This project addresses prevention, protection, mitigation, response and recovery abilities. The requested equipment addresses replacement needs as well as enhancing response capabilities that will allow for the protection of the team members and subsequent abilities to more effectively respond to address the threat and protect the public. The training will allow the team to better prepare for and respond to threats with an emphasis on soft targets and public venues, implement improved policies and Standard Operating Procedures, and ultimately protect the public by increasing the Urban Area Working Group's abilities to address terrorism including the rise in homegrown terrorism. The training will also focus on the emerging trends which include the increasing threats of unmanned aircraft systems and unmanned vehicles. The grant request includes replacing twelve expiring helmets and purchasing two sets of night vision and mounts. The helmets are needed for sustainment. The night vision request is to allow additional team members the ability to respond in low and no light environments. All teams and team members must be prepared to operate in low and no light environments as many terror attacks have occurred in these conditions. The primary training requested is to bring in the current experts on prevention and response to terror attacks at public venues. The city of Scottsdale is host to multiple large-scale events to include the largest attended golf tournament with over 700,000 attendees, several automobile events, horse events and sporting events. In addition, the city has one of the largest malls in the country, an airport, several high-profile businesses, hospitals and is surrounded by cities with similar venues that would need support in the event of an attack. One of the emerging trends is attacks on soft target and similar venues. The training would allow for the entire team to practice at the venues that they protect while getting expert instruction for these specific venues. This training would likely also allow other teams to join at their expense and possibly also cater the training to their unique sites and needs. Other training requested includes a conference and position specific certification needs. The training overall both sustains the team and central region capabilities, allows for new and improved capabilities, promotes information sharing and ultimately results in a better prepared and likely safer central region.

INITIATIVES

Initiatives:

Strengthen CBRNE Detection, Response & Decontamination Capabilities

Is this project a Law Enforcement Terrorism Prevention Activity (LETPA)? Yes

Project Type: Enhance capabilities to respond to all-hazards events

THREAT PROFILE

1. What is the terrorism threat your area faces that will be addressed by this project?:

Active Shooter
Explosive Devices

2. Explain how this project will assist your agency in preventing/protecting against/mitigating/responding to/recovering from all hazards events and threats including your chosen terrorism threat in question 1.:

This project would allow for the replacement of expired ballistic helmets that allow for the protection of the CBRNE team thus better protecting the public. It also allows for the addition of two night vision units. The team is currently only partially outfitted with night vision. Adding additional units will help close the gap of being able to respond in low or no light conditions which again provided better safety for the team and public. The requested SWAT public venue training would allow for direct instruction at actual public venues that the team and central region are responsible for protecting. It would allow for actual hands on planning at the events versus traveling to other team's venues. It would also allow other central region teams the opportunity to attend. The training would provide outside perspectives from leading instructors in the discipline. The breaching circle and CATO conference would both emphasize of collaboration and learning best methods and current trends. It would provide additional contacts and information to further the tools available to the team and central region. Tac Ops West training would provide similar benefits but also provide needed certifications for the team. Both the equipment and training are essential to the sustainment and growth of the team and central region for preventing, protecting, mitigating, responding to and recovering for terrorism events.

4. What resources does your agency have to meet the capability target selected above?:

The Scottsdale Police Department is made up of 401 sworn police officers and over 200 support staff throughout multiple sections and units that include Patrol, Investigations, Patrol Enforcement (Mounted, Traffic, Bikes, HEAT), Special Investigations, Operations and Tactical Operations. Critical entry/response equipment includes SCBAs, armored vehicles, and personal protective equipment. 4. Explain how this project will assist your agency

5. How will this project help your agency to achieve the capability target selected above?:

The proposed project will provide equipment and essential training to allow critical entry/response teams to effectively and efficiently respond to an international or domestic act of terrorism such as an active shooter. The essential equipment will provide protection to personnel while accessing citizens and officers trapped, hurt or exposed to rifle threats. The requested training enhances officers skills in protecting and mitigating threats as well as improve response efforts with an emphasis on the actual public venues they are tasked to protect. Proposed training encourages communication between agencies resulting in improved prevention and response efforts.

6. Will your agency continue to maintain, support and sustain this capability with other funding sources if Homeland Security grant funds were no longer available?: Yes

6a. Describe how your agency will maintain this capability.:

Our agency would continue to support a SWAT team. Without the funding the team would not have all the equipment and training that UASI allows thus diminishing the capability and ultimate protection of the public.

7. Does this project support a NIMS typed resource?: Yes

7a. Select NIMS Typed Resource:

SWAT/Tactical Teams

8. Has your agency previously been awarded Homeland Security Grant Program (SHSGP and/or UASI) funding to support this project/capability?: Yes

8a. List the Subrecipient Agreement number and award amounts previously received in support of this capability.:

\$38168 in 2018, \$58,600 in 2017, \$50,000 in 2016

9. Is your agency prepared to provide up to 25% cash (hard) or in-kind (soft) match and ensure it is tracked and documented should matching funds be a requirement in FFY 2019?:

Yes

9a. What will the source of the match be?:

Match could be in-kind or cash depending on need

10. Describe which agencies will directly benefit from this project aside from your own and how they will benefit.:

The Scottsdale Police Department's Special Weapons and Tactics Team is one of the Regional CBRN tactical teams. The proposed equipment would be available to support any RWG agency, and the training would enhance skills for those responding to assist area teams.

FUNDING PRIORITIES

Funding Details:

Funding is requested to bridge the identified gap as stated in the proposal. The first priority is replacing the 12 expired ballistic helmets at an estimated cost of \$10,800. The second priority is funding for the SWAT Response to a Public Venue Training. It is only through UASI funding that we would be able to bring in the current experts in the field to evaluate and train at the actual public venues that we are tasked with protecting. This training would also allow for cross training with other central region teams that would be responding in the event of an emergency at these venues as well. The estimated cost is \$22,000 for at least 15 students. Third priority is the night vision devices. The team currently does not have enough night vision for all entry personnel. This is a critical need for response to no and low light events. The majority of events include some component that falls into this category. Estimated cost for two units and mounts is \$9200. The fourth priority is for the remaining training requests. Training for domestic or international terrorist acts such as active shooters is essential. Training is necessary for every component of (POETE). In order for teams to effectively respond they must be trained in the most effective and advanced methods. The requested remaining trainings will enhance current skill levels, and provide advanced methods and best practices. Priorities for the remaining training requests would be ranked in the following order from highest need. Tac Ops West (4 at a total of \$4000 and includes certifications. Breacher's Circle (1 at a total of \$2300), and California Association of Tactical Officers Conference (4 at a total of \$4000). Total requested funds is \$53,300.
