

CITY COUNCIL REPORT

Meeting Date: August 22, 2022
General Plan Element: *Land Use*
General Plan Goal: *Create a sense of community through land uses*

ACTION

Patient Alternative Relief Center Expansion 10-UP-2013#4

Request to consider the following:

1. Find that the Conditional Use Permit criteria have been met and adopt Resolution No. 12545 amending the existing conditional use permit for a 15,000 square foot marijuana cultivation facility (10-UP-2013#3), located at 7655 E. Evans Road, to allow for an expansion on-site (4,050 square feet) and into the existing building located at 7645 E. Evans Road and 7640 E. Gelding Drive (27,500 square feet), bringing the total floor area of the facility to 46,550 square feet, for a +/- 2.5-acre site with Industrial Park (I-1) zoning.

Goal/Purpose of Request

The applicant's request is to expand an existing marijuana cultivation facility into an existing building, located on the parcel immediately west of the existing site.

Key Items for Consideration

- Conditional Use Permit Criteria
- Zoning Ordinance allows expansion of existing facilities in operation prior to 9/30/16, utilizing previous separation criteria.
- Public Safety and Refuse Control plan approved by Police Department
- Existing infrastructure sufficient to accommodate the expansion
- No public comment received by staff, as of the date of this report.
- Planning Commission heard this case on July 13, 2022 and recommended approval with a 6-1 vote. Commissioner Gonzales dissenting.

OWNER

LOCATION

7645 E Evans Rd, 7655 E. Evans Road and 7640 E. Gelding Drive

BACKGROUND

Zoning

The site is zoned Industrial Park District (I-1), which allows for a wide variety of light industrial and office uses. A marijuana use is allowed subject to a Conditional Use Permit (CUP).

Context

The subject property is part of the Thunderbird Industrial Airpark No. 4 commercial subdivision. All the surrounding properties are also zoned I-1 and are occupied by office, warehouse and light industrial uses. The site is located 300 feet east of the Scottsdale Airport and there are no protected uses within 500 feet of the site; nor is there an existing medical marijuana facility within 1,320 feet of the site (previous CUP criteria). Please refer to context graphics attached.

Adjacent Uses and Zoning

- North: Office, zoned I-1
- South: Light Industrial, zoned I-1
- East: Office, zoned I-1
- West: Office, zoned I-1

Other Related Policies, References:

- Zoning Ordinance
- 8-TA-2010: Approved text amendment to allow MM related uses and establish use criteria
- 8-TA-2010#2: Approved text amendment to clarify separation requirements
- 8-TA-2010#3: Approved text amendment to add protected uses and increase separation requirements
- 1-TA-2020: Approved text amendment to expand hours of operation for medical marijuana uses
- 6-TA-2020: Approved text amendment in response to State of Arizona Prop. 207, which legalized marijuana for recreational use
- 10-UP-2013: Approved CUP for a medical marijuana facility
- 10-UP-2013#2: Request to amend existing CUP (withdrawn by applicant)
- 10-UP-2013#3: Approved an on-site expansion to an existing medical marijuana use

APPLICANT’S PROPOSAL

Development Information

Presently, the applicant’s facility occupies all floor area on the parcel at 7655 E. Evans Road. Due to high demand from dispensaries, the applicant seeks to expand operations into the building located directly west of the existing site. Additionally, the applicant seeks to add on to the existing facility to create a two-story hallway and office connection between the existing buildings on the site. The applicant would occupy the entire building on both parcels, with site changes on the new parcel limited to installation of a new refuse enclosure. No exterior changes to the existing building on the adjacent parcel are proposed at this time.

- Existing Use: 7655 E. Evans: Marijuana use (cultivation only)
7645 E. Evans and 7640 E. Gelding: Office/Warehouse
- Proposed Use: Marijuana use (cultivation only)
- Buildings/Description: Two existing buildings on three parcels
- Parcel Size: 7655 E. Evans: +/- 0.8 acre
7645 E Evans and 7640 E. Gelding Drive: +/- 1.7 acres
Total site area: +/- 2.5 acres
- Parking Required: 58 spaces (1:800 for warehouse operations)
- Parking Provided: 76 spaces (combined on all three parcels)
- Floor Area: 7655 E. Evans: 19,050 square feet (15,000 square foot existing facility + 4,050 square feet proposed)
7645 E. Evans and 7640 E. Gelding: 27,500 square feet (existing building to the west)
Total floor area: 46,550 square feet

IMPACT ANALYSIS

Land Use

The majority of uses in the surrounding area are warehouse, wholesale and office uses, similar in intensity and character to the proposed use. It is anticipated this facility will operate similar to a light industrial/warehouse use, with vehicular and foot traffic limited to employees, security, and dispensary owners only. It will not be open to the general public.

State Regulations

The Arizona Department of Health Services (ADHS) requires a license to cultivate marijuana, whether it is for medical or recreational use. This facility will operate remotely in conjunction with an established marijuana dispensary located elsewhere in the Phoenix metro area.

Airport Vicinity

The Scottsdale Airport was made aware of this application and advised Planning staff that they did not need to review it, as the use and all buildings are existing.

Conditional Use Permit

Conditional Use Permits, which may be revocable, conditional, or valid for a specified time period, may be granted only when expressly permitted after the Planning Commission has made a recommendation and City Council has found as follows:

- A. That the granting of such Conditional Use Permit will not be materially detrimental to the public health, safety or welfare. In reaching this conclusion, the Planning Commission and the City Council's consideration shall include, but not be limited to, the following factors:
 1. Damage or nuisance arising from noise, smoke, odor, dust, vibration or illumination.
 - **All operations associated with this use will be conducted within the existing buildings. An odor remediation system will be utilized to mitigate the potential for odors emanating from the facility. No additional outdoor lighting is proposed as part of this application and the proposed use is compatible with surrounding uses. No damage or nuisance arising from noise, smoke, odor, dust, vibration or illumination is anticipated.**
 2. Impact on surrounding areas resulting from an unusual volume or character of traffic.
 - **The facility will not be open to the general public and vehicular and foot traffic will be limited to employees, security, and/or dispensary operators. The characteristics of the proposed use are similar to a light industrial or warehouse operation, which is consistent with the surrounding uses in the area. The proposed use is not anticipated to generate significant impacts on existing circulation or traffic volume.**
- B. The characteristics of the proposed conditional use are reasonably compatible with the types of uses permitted in the surrounding areas.
 - **It is anticipated the proposed facility will operate similar to a light manufacturing or warehouse operation, which is consistent and compatible with other uses in this area.**
- C. The additional conditions specified in Section 1.403, as applicable, have been satisfied. The proposal meets the provisions for marijuana uses (*Active Permitted Uses Existing as of September 30, 2016*) as identified in Zoning Ordinance Section 1.403.M.1.

Active marijuana uses legally established and operating under a valid Conditional Use Permit before September 30, 2016, including extensions, renewals, and amendments to existing approvals, shall be subject to the following conditions:

 1. All operations are conducted within a completely enclosed building, in conformance with Arizona Revised Statutes, Title 36, Chapter 28.1, Arizona Medical Marijuana Act, and regulations issued thereunder, as amended.
 - **All operations will be conducted within fully enclosed buildings. No outdoor activities are proposed, other than deliveries and necessary security measures, as spelled out in the Public Safety and Refuse Control Plan.**
 2. The marijuana use is at least 500 feet from the following uses, within the City limits:

- a. Any residential use in a residential zoning district shown in Table 4.100.A, or the residential portion of a Planned Community District (PCD), or any portion of a Planned Residential Development (PRD) with an underlying residential zoning district comparable to the residential districts shown in Table 4.100.A
 - b. Any elementary or secondary school
 - **The proposed facility is not located within 500 feet of any of the above uses or districts.**
3. The marijuana use is at least 1,320 feet from the following uses within the City limits:
 - a. medical marijuana caregiver cultivation
 - b. Another marijuana use; however, no separation between these uses is required in the Industrial Park District (I-1) where a medical marijuana caregiver cultivation use and a marijuana use hold a state issued caregiver registry identification card and anon-profit medical marijuana dispensary registration certificate under the same name or entity
 - **The proposed facility is not located within 1,320 feet of any other licensed medical marijuana facility.**
4. All distances are measured from the wall of the marijuana use nearest to the district(s) or use(s) indicated above, to the nearest property line of the district(s) or use(s) indicated above.
 - **All separation requirements were measured and confirmed as indicated above.**
5. The applicant has provided a written exterior refuse control plan, subject to City approval.
 - **An updated Public Safety and Refuse Control Plan has been reviewed and approved by the Scottsdale Police Department. Conditions of the plan will be implemented and enforced by the City's Code Enforcement Division and the Scottsdale Police Department.**
6. The applicant has provided a written public safety plan, subject to City approval.
 - **An updated Public Safety and Refuse Control Plan has been reviewed and approved by the Scottsdale Police Department. Conditions of the plan will be implemented and enforced by the City's Code Enforcement Division and the Scottsdale Police Department.**
7. The hours of operation for a marijuana use that provides, shares, exchanges, sells, or dispensaries, medical marijuana are no earlier than 6:00 AM and no later than 10:00 PM.
 - **The proposed hours of operation for this facility are 6:00 AM to 10:00 PM daily.**
8. There is no drive-through, take-out window, or drive-in services.
 - **None of the services listed above are proposed as part of this request.**

Water/Sewer

The City's Water Resources division has reviewed the operation plan and determined that existing water and sewer infrastructure is sufficient to accommodate the proposed use and no upgrades to existing services are required. The City of Scottsdale is an Arizona Department of Water Resources designated provider with a 100 years Assured Water Supply and will supply water in accordance with City codes, ordinances, and the City's Drought Management Plan.

Fire/Police

The nearest fire station is located approximately 2,300 feet northeast of the subject site at 14970 N. 78th Way (Station No.9). The site is located within Police District 4, Beat Patrol Unit #15. An updated Public Safety and Refuse Control Plan has been reviewed and approved by the Scottsdale Police Department. As with any project that contributes to growth, the fire department and police department continually anticipate and evaluate resource needs for the city's budget process.

Community Involvement

Property owners within 750 feet have been notified of the applicant's request by mail and the site is posted with the required signage. Additionally, per the applicant's Public Participation Report, an Open House was held at the site on 10/18/21 from 5:00 PM to 6:30 PM. One person attended and no comments were noted in the report.

OTHER BOARDS & COMMISSIONS

Planning Commission

Planning Commission heard this case on July 13, 2022. The case was moved to the Regular Agenda and, after a presentation by both staff and the applicant, the Commission discussed the case. Topics of discussion included water demand and landscaping. In response to questions regarding water demand, staff informed the Commission that water use internal to an existing building is not monitored by Water Resources. Water use for existing buildings is metered and as long as the account is kept current, there is no oversight. Another question involved the disposal of wastewater into the City's sewer system. Typically, Water Resources only monitors discharge into the City sewer system for "Significant Industrial" users (water usage that exceeds 250,000 gallons per day) however, other agencies at the State and County level do. Per the applicant, a sophisticated system is used to treat and re-use run-off water; and the proposed facility will use approximately 3,000 gallons per day, including the expansion. Landscaping was discussed however, as landscaping is not included in the CUP criteria, no additional stipulations for landscaping were added. The applicant did however indicate a willingness to enhance landscaping as needed. Following discussion, the Commission voted 6-1 to recommend approval to City Council. Commissioner Gonzales dissenting.

Staff Recommendation to Planning Commission:

Staff recommended that the Planning Commission find that the Conditional Use Permit criteria have been met, and make a recommendation to City Council for approval of an amendment to an existing conditional use permit for a 15,000 square foot marijuana cultivation facility (10-UP-2013#3), located at 7655 E. Evans Road, to allow for an expansion on-site (4,050 square feet) and into the existing building located at 7645 E. Evans Road and 7640 E. Gelding Drive (27,500 square feet), bringing the

total floor area of the facility to 46,550 square feet, for a +/- 2.5-acre site with Industrial Park (I-1) zoning, per the attached stipulations.

RECOMMENDATION

Find that the Conditional Use Permit criteria have been met and adopt Resolution No. 12545 amending the existing conditional use permit for a 15,000 square foot marijuana cultivation facility (10-UP-2013#3), located at 7655 E. Evans Road, to allow for an expansion on-site (4,050 square feet) and into the existing building located at 7645 E. Evans Road and 7640 E. Gelding Drive (27,500 square feet), bringing the total floor area of the facility to 46,550 square feet, for a +/- 2.5-acre site with Industrial Park (I-1) zoning.

10-UP-2013#4

RESOLUTION NO. 12545

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SCOTTSDALE, MARICOPA COUNTY, ARIZONA, AMENDING THE EXISTING CONDITIONAL USE PERMIT FOR A MARIJUANA CULTIVATION FACILITY (10-UP-2013#3), LOCATED AT 7655 E. EVANS ROAD, TO ALLOW FOR AN EXPANSION ON-SITE ADDING 4,050 SQUARE FEET, AND INTO THE EXISTING BUILDING LOCATED AT 7645 E. EVANS ROAD AND 7640 E. GELDING DRIVE BRINGING THE TOTAL FLOOR AREA OF THE FACILITY TO 46,550 SQUARE FEET, FOR A +/- 2.5-ACRE SITE WITH INDUSTRIAL PARK (I-1) ZONING.

WHEREAS, the Planning Commission held a public hearing on July 13, 2022.

NOW, THEREFORE, LET IT BE RESOLVED, by the City Council of the City of Scottsdale, Maricopa County, Arizona, as follows:

Section 1. That the City Council finds and grants;

- a) that the amending of this conditional use permit per stipulations set forth on **Exhibit 2** will not be materially detrimental to the public health, safety or welfare based on, but not limited to, the following factors: damage or nuisance arising from noise, smoke, odor, dust, vibration or illumination and impact on surrounding areas resulting from an unusual volume or character of traffic;
- b) that the characteristics of the proposed conditional use are reasonably compatible with the types of uses permitted in the surrounding areas; and
- c) that compliance with the additional zoning requirements necessary for a marijuana use, set forth on **Exhibit 3** must be met.

Section 2. That a description of the amended conditional use permit is set forth in Case No. 10-UP-2013#4. The property that is subject to the amended conditional use permit is shown on **Exhibit 1** and the conditional use permit approval is conditioned upon compliance with all the stipulations that are set forth in **Exhibit 2** and **Exhibit 3**. All exhibits are incorporated herein by reference.

PASSED AND ADOPTED by the Council of the City of Scottsdale, Maricopa County,
Arizona this ____ day of _____, 2022.

10-UP-2013#4

Conditional Use Permit – Bar
Stipulations
Patient Alternative Relief Center Expansion
Case Number: 10-UP-2013#3 #4

These stipulations are in order to protect the public health, safety, welfare, and the City of Scottsdale.

GOVERNANCE

1. **APPLICABILITY.** All stipulations from case 10-UP-2013#3 continue to apply, except as amended below.

OPERATIONS

1. **CONFORMANCE TO THE CONCEPTUAL FLOOR PLAN.** The interior layout of the premises shall be in substantial conformance with the conceptual floor plan submitted by the applicant with the city staff date of ~~1/30/19~~ **4/22/2022**, attached as Exhibit A to Exhibit 2. Any proposed significant change to the conceptual floor plan as determined by the Zoning Administrator, shall be subject to additional action and public hearings before the Planning Commission and City Council.
2. **CONFORMANCE TO CONCEPTUAL SITE PLAN.** Parking and circulation shall conform with the conceptual site plan submitted by the applicant with the city staff date of ~~1/30/19~~ **4/22/2022**, attached as Exhibit B to Exhibit 2. Any proposed significant change to the conceptual site plan as determined by the Zoning Administrator, shall be subject to additional action and public hearings before the Planning Commission and City Council.
3. **HOURS OF OPERATION.** The hours of operation for this facility shall be limited to:

	Open	Closed
Sunday	6:00 AM	7:00 10:00 PM
Monday	6:00 AM	7:00 10:00 PM
Tuesday	6:00 AM	7:00 10:00 PM
Wednesday	6:00 AM	7:00 10:00 PM
Thursday	6:00 AM	7:00 10:00 PM
Friday	6:00 AM	7:00 10:00 PM
Saturday	6:00 AM	7:00 10:00 PM

4. ~~SECURITY, MAINTENANCE, AND OPERATIONS PLAN~~ **PUBLIC SAFETY AND REFUSE CONTROL PLAN (PSP).** The operations of the medical marijuana use shall conform to the ~~Security, Maintenance, and Operations Plan~~ **PSP** approved by, and on record with the City of Scottsdale's Police Department and the Planning and Development Services Division. A copy of the approved ~~Security, Maintenance, and Operations~~ **PSP** shall be maintained on site. Within 10 days after a request by the City Manager or designee, the owner shall provide an update of the ~~Security, Maintenance, and Operations Plan~~ **PSP** to the Scottsdale Police Department and the Planning and Development Services Division. At least ten (10) days before any operational change of the medical marijuana use that modifies the requirements

or contents of the ~~Security, Maintenance, and Operations Plan~~ **PSP**, the owner shall submit a revised ~~Security, Maintenance, and Operations Plan~~ **PSP** to the Scottsdale Police Department and the Planning and Development Services Division. Any revised ~~Security, Maintenance, and Operations Plan~~ **PSP** shall be subject to approval by the City of Scottsdale's Police Department and the Planning and Development Services Division.

PARKING

5. ~~SITE PARKING. The applicant shall re-stripe the site as needed to demonstrate a minimum of 26 parking spaces will be provided on-site, to the satisfaction of Current Planning staff. Parking space dimensions and drive aisle widths shall be consistent with the design criteria outlined in Section 9.106 of the Zoning Ordinance.~~ **Parking shall be provided in accordance with the Parking Plan, dated 4/22/2022.**

ADMINISTRATIVE/PROCESS

6. **CONDITIONAL USE PERMIT ADMINISTRATIVE REVIEW.** Within ten (10) days after a request by the Zoning Administrator or designee, the owner shall submit a letter to the Zoning Administrator or designee demonstrating compliance with all stipulations. A deviation from any stipulations or change in the floor plan may be grounds for revocation of the Conditional Use Permit.
7. **CHANGES IN OWNERSHIP.** Within ten (10) days after a change in ownership, the owner shall provide notice to the Zoning Administrator in writing of any such ownership change.
8. **COMPLIANCE WITH STATE LAW.** The owner shall maintain in good standing all appropriate permits, licenses and certificates from the State of Arizona.
9. **LAND ASSEMBLAGE.** **Prior to issuance of a permit for the interior remodel for the building, the parcels addressed 7645 E. Evans Road and 7640 E. Gelding shall be assembled into one parcel through the Minor Subdivision plat process.**

ADDITIONAL CRITERIA FOR MARIJUANA USE

M. *Marijuana use.*

1. *Active Permitted Uses Existing as of September 30, 2016.* Active marijuana uses legally established and operating under a valid Conditional Use Permit before September 30, 2016, including extensions, renewals, and amendments to existing approvals, shall be subject to the following conditions:
 - a. A marijuana operation for recreational purposes is only permitted in establishments that hold both a valid non-profit medical marijuana dispensary registration and a marijuana establishment license.
 - b. All operations are conducted within a completely enclosed building, in conformance with Arizona Revised Statutes, Title 36, Chapter 28.1, Arizona Medical Marijuana Act, and regulations issued thereunder, as amended.
 - c. The marijuana use is at least five hundred (500) feet from the following uses within the City limits:
 - (1) Any residential use in a residential district shown on Table 4.100.A., or the residential portion of a Planned Community PC or any portion of a Planned Residential Development PRD with an underlying zoning district comparable to the residential districts shown on Table 4.100.A., and
 - (2) Any educational service, elementary or secondary school
 - d. The marijuana use is at least one thousand three hundred twenty (1,320) feet from the following uses within the City limits:
 - (1) Medical marijuana caregiver cultivation use, or
 - (2) Another marijuana use.

However, no separation between these uses is required in the Industrial Park District I-1 where a medical marijuana caregiver cultivation use and a marijuana use hold a state issued caregiver registry identification card and/or a nonprofit medical marijuana dispensary registration certificate under the same name or organization.
 - e. All distances are measured from the wall of the marijuana use nearest to the district(s) or use(s) indicated above, to the nearest property line of the district(s) or use(s) indicated above.
 - f. The property owner has provided a written exterior refuse control plan, subject to City approval.

- g. The property owner has provided a written public safety plan, subject to City approval.
- h. The hours of operation for a marijuana use that provides, shares, exchanges, sells, or dispenses marijuana are no earlier than 6:00 a.m. and no later than 10:00 p.m.
- i. There is no drive-through service, take-out window, or drive-in service.

CUP 10-UP-2013 #4 Amendment

Application Narrative

The Patient Alternative Relief Center ("PARC") is an Arizona not-for-profit company that has been awarded a Medical Marijuana Dispensary Registration Certificate and a Marijuana Establishment License by the Arizona Department of Health Services ("AZ DHS"). PARC operates a dispensary at 4201 E. University Drive, Phoenix, 85034. PARC is licensed, approved, and operates a 15,000 square foot offsite cultivation, kitchen, and extraction facility at 7655 E. Evans Road, Scottsdale, 85260 ("Existing Facility"). The Existing Facility received the Conditional Use Permit ("CUP"), 10-UP-2013#3, at the Scottsdale City Council meeting May 14, 2019. This application is requesting to amend the Conditional Use Permit to allow the following:

1. Expand the Existing Facility from 15,000 square feet to 19,050 square feet by i) adding the 1,350 square foot existing hallway and ii) adding a 2,700 square foot proposed second story to the hallway building.
2. Include the adjacent 27,500 square foot building west of the Existing Facility located at 7640 E Gelding Drive, Scottsdale, 85260.

Active Permitted Uses

The site will comply with the City of Scottsdale Basic Zoning Ordinances described in Appendix B, Section M: Medical Marijuana Use and the Scottsdale Marijuana Text Amendment 6-TA-2020.

1. Active Medical marijuana uses legally established and operating under a valid Conditional Use Permit before September 30, 2016, including extensions, renewals, and amendments to existing approvals, shall be subject to the following conditions:
 - a. All operations will be conducted within a completely enclosed building, in conformance with Arizona Revised Statutes, Title 36, Chapter 28.1, Arizona Medical Marijuana Act, and regulations issued thereunder, as amended.
 - b. The medical marijuana use is at least five hundred (500) feet from the following uses within the City limits:
 - i. Any residential use in a residential district shown on Table 4.100.A., or the residential portion of a Planned Residential Development PRD with an underlying zoning district comparable to the residential districts shown on Table 4.100.A., and
 - ii. Any elementary or secondary school or pre-school.
 - c. The medical marijuana use is at least one thousand three hundred twenty (1,320) feet from the following uses within the City limits:
 - i. Medical marijuana caregiver cultivation use, or
 - ii. Another medical marijuana use.However, no separation between these uses is required in the Industrial Park District I-1 where a medical marijuana caregiver cultivation use or a medical marijuana use hold a state issued caregiver registry identification card and/or nonprofit medical marijuana dispensary registration certificate under the same name or organization.

- d. All distances are measured from the wall of the medical marijuana use nearest to the district(s) or use(s) indicated above, to the nearest property line of the district(s) or use(s) indicated above.
- e. The property owner has provided a written exterior refuse control plan, subject to City approval.
- f. The property owner has provided a written public safety plan, subject to City approval.
- g. The hours of operation for a medical marijuana use that provides, shares, exchanges, sells, or dispenses medical marijuana are no earlier than 6:00 am or no later than 10:00 pm.
- h. There is no drive-through service, take-out window, or drive-in service.

Use Permit Criteria

1. The use does not create damage or nuisance caused from noise, odor, dust, vibration, or illumination.

The cultivation facility has been designed and built with Trane Variable Refrigerant Flow split air conditioning systems. These energy efficient units utilize an internal recirculation system (closed loop) that does not exhaust any cultivation air or potential cannabis odors outside the building. In addition, carbon filter air scrubbers and electronic air purification systems are installed throughout the facility to insure odor containment. The cultivation facility does not have any windows, skylights, or openings that allow for cultivation lighting to be projected outside the building.

The commercial kitchen complies with all food production and handling requirements as designated by the AZ DHS. The kitchen has electronic air purification systems, odor remediation, and ventilations systems installed to minimize potential odor issues and provide for proper ventilation and employee safety.

The extraction lab has been designed to comply with the National Fire Protection Association Class 1 Division 1 requirements, the International Fire Code, and the International Fuel Gas Code to insure safe and compliant operations.

Therefore, the use will not create damage or cause noise, odor, dust, vibration or illumination that will create damage or nuisance to the local area.

2. No impact to surrounding area from traffic.

The commercial facility is not open to the public and only staff with an AZ DHS valid Facility Agent Card are allowed in the facility and only commercial delivery personnel are allowed on the premises. Therefore, there will be no increase in traffic impacting the surrounding area.

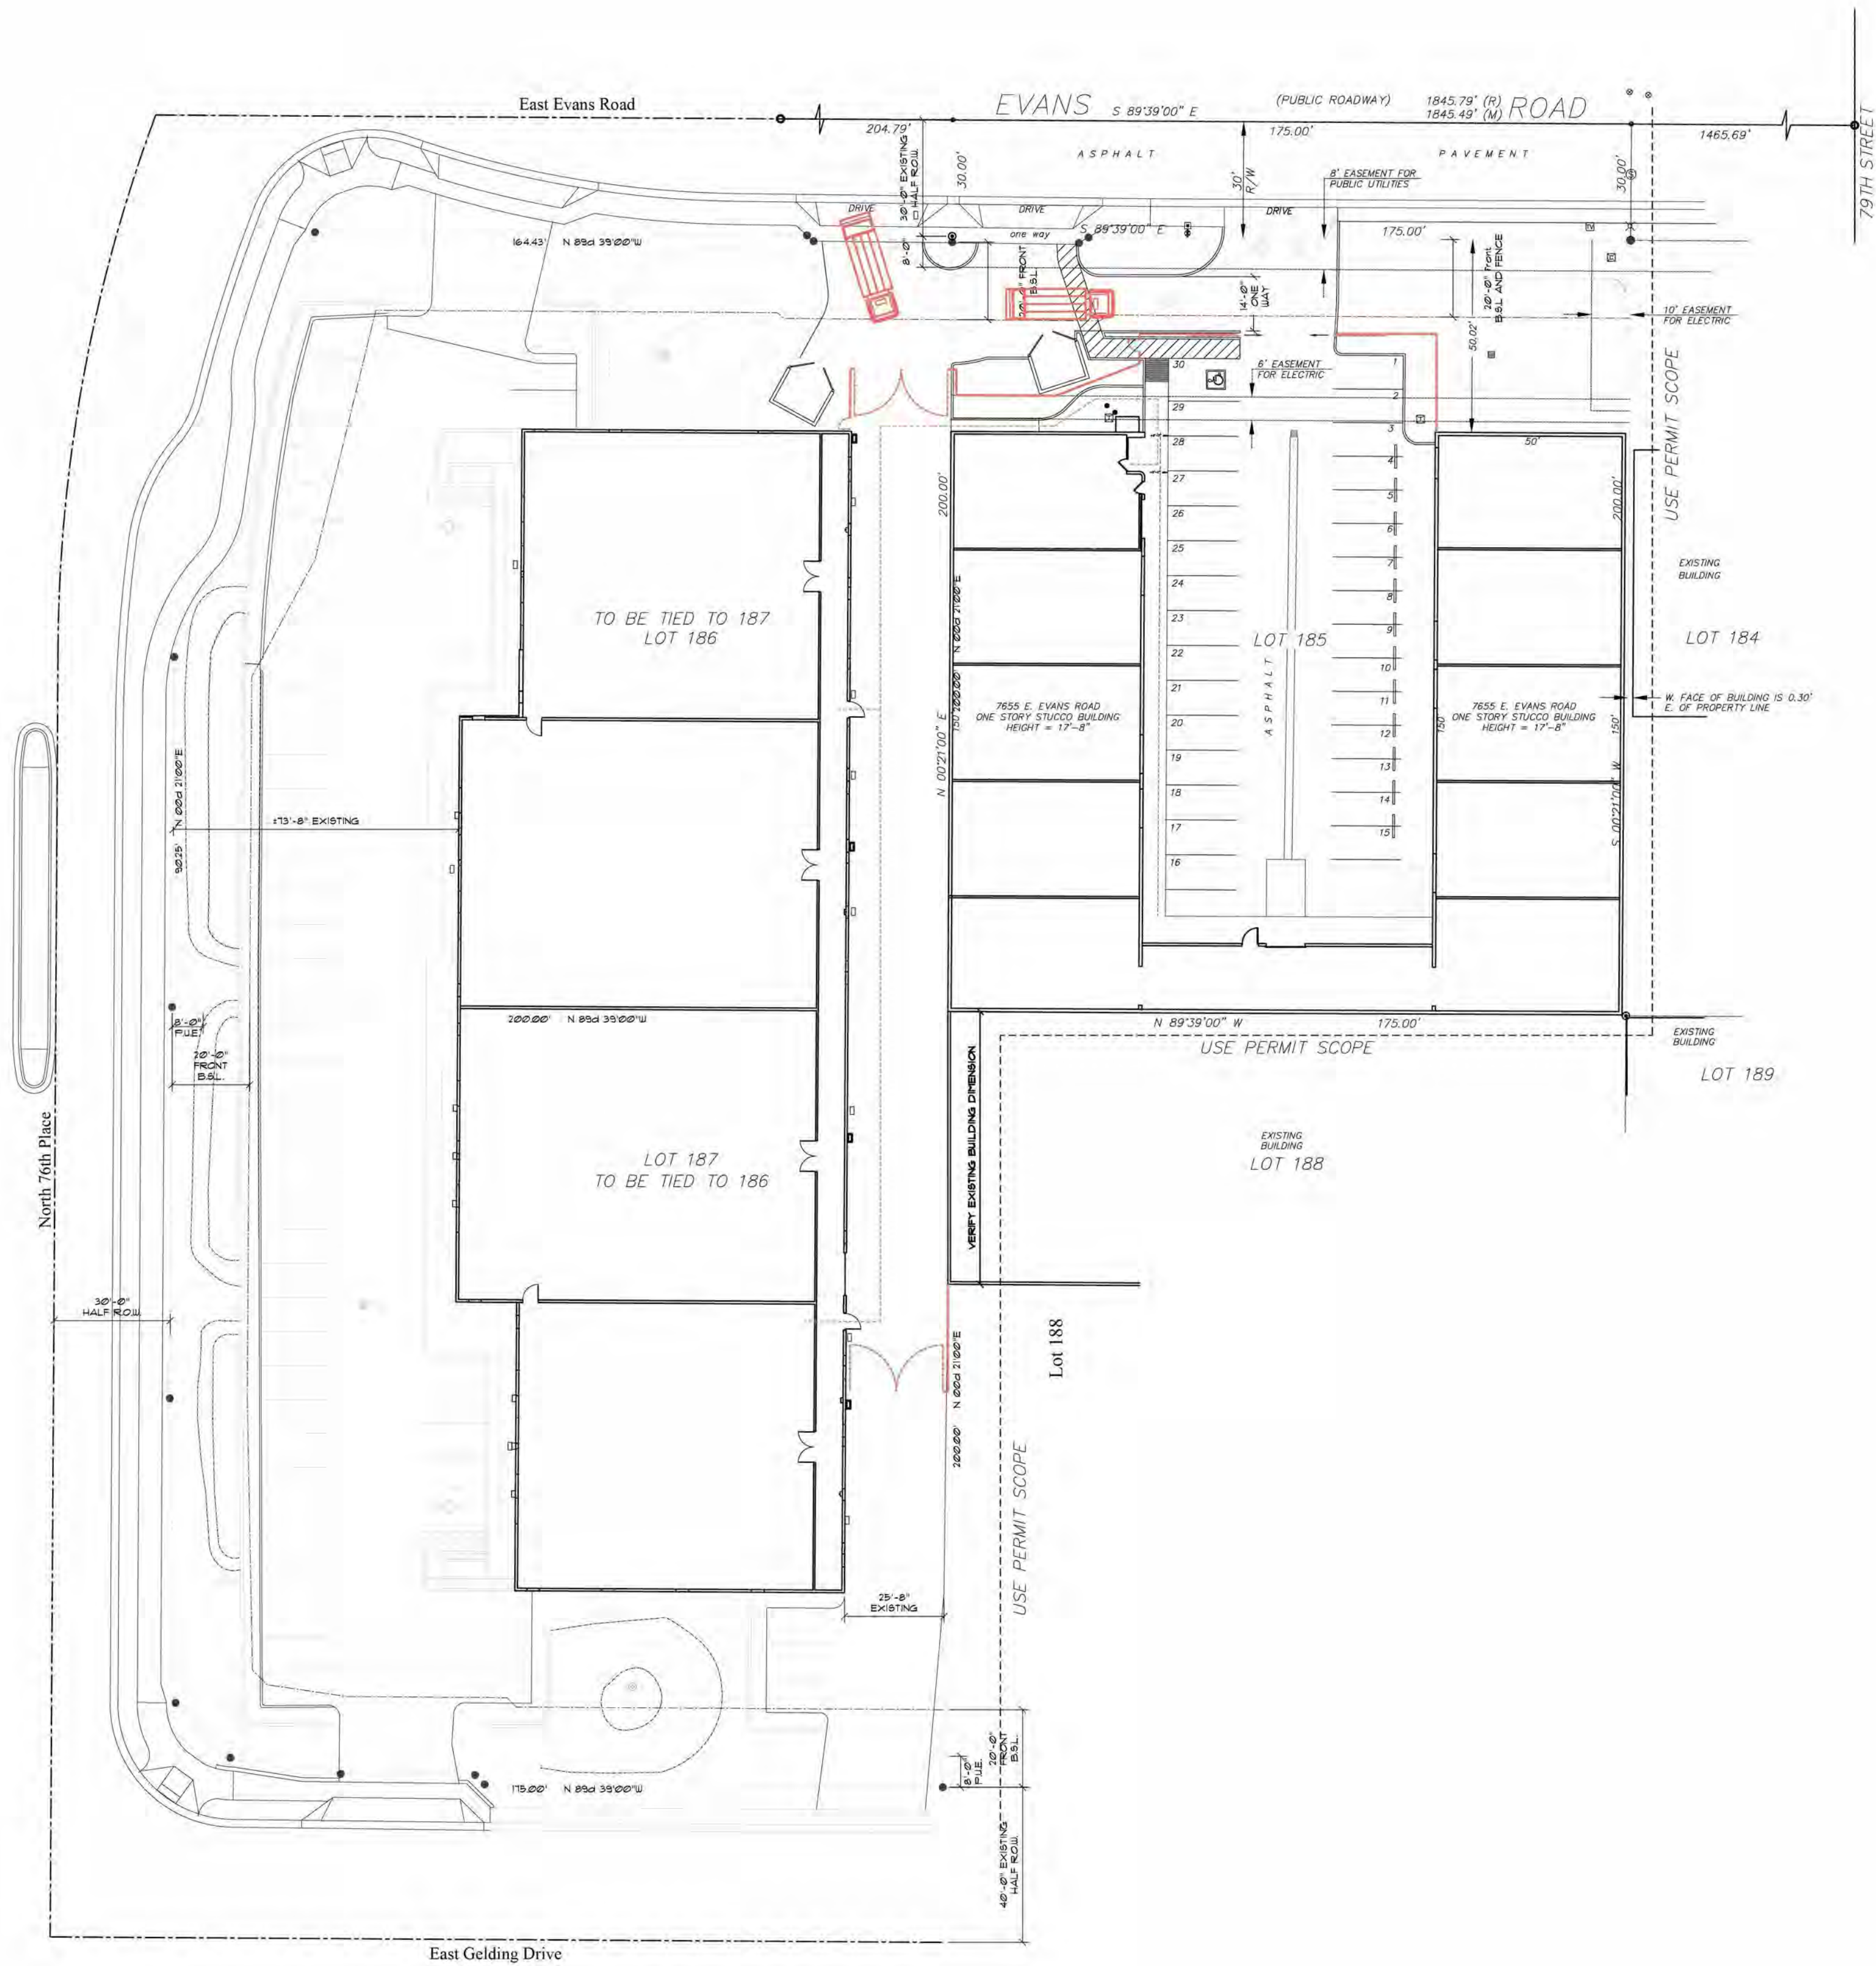

3. The use is compatible with surrounding areas.

The property is located in the Thunderbird Industrial Airpark Number 4 and zoned I-1, Industrial Park District. This designation is intended to provide space for manufacturing, processing, R&D, municipal airport and aeronautical activities, and complementary wholesale, warehouse and

office operations. Therefore, the facility will operate within the zoning designation and is compatible with the surrounding areas.

4. The location meets all other additional conditions.

The location and its operations comply with all City of Scottsdale zoning requirements and other applicable regulatory agencies including the AZ DHS and National Fire Protection Association.

Purpose of the Plan

The purpose of the Plan is to address security measures, maintenance, waste management and operations for a Facility that requires a Public Safety and Refuse Control Plan pursuant to Scottsdale Revised Codes. The applicable uses are Marijuana Cultivation and Marijuana Processing Facility. This Plan is an amendment to the existing Plan currently in place with Conditional Use Permit 10-UP-2013#3. The contents of this Plan will address the listed concerns as well as community concerns regarding:

- Operations and Hours;
- Public and Facility staff safety;
- Refuse Plan;
- Business Records Plan;
- Conditional Use Permit;
- Odor Control Plan; and
- Applicant Management Company Information.

It is the intent of the City of Scottsdale and the Facility to provide an environment that enhances the safeguarding of property as well as public welfare and to limit the need for law enforcement involvement.

The Permittee agrees that successful execution and enforcement of this Plan are a required condition of the use permit. Termination, cancellation, deviation or non-approval of the Plan constitutes a breach of the Plan and could result in the potential revocation of the use permit.

Operations and Hours

1. Permittee: Flower Launch LLC
 Type of Organization: Arizona Corporation Corporation
 Sole Proprietorship X LLC
 Partnership Other (Non-profit)

2. Managing Agents
 Name: John N. Vatistas
 Title: Owner
 Address: 6831 E. 5th Ave. Scottsdale, AZ 85251
 Phone Number: (602) 451-3919
 Email: john@vatistas.com

3. Business Owner(s) (if different than Managing Agent) Name, Address, Phone: Same

4. Property Owners:
 Building #1: 7655 E Evans Road, Scottsdale, AZ 85260
 Russell Hudgins, (602) 469-1530
 11201 N. Tatum Blvd. Suite 130, Phoenix, AZ 85028
rushudgins@cox.net

 Building #2: 7640 E Gelding Drive, Scottsdale, AZ 85260
 John Vatistas, (602) 451-3919
 6831 E 5TH Ave., Scottsdale, AZ 85251
john@vatistas.com

 Property Manager:
 Bob Chilton (602) 692-3330
bob@rainstrategies.com
 6501 E. Greenway Parkway #103-180, Scottsdale, AZ 85254

5. Hours of Operation:

	<u>Open</u>	<u>Closed</u>
Monday	<u>6:00 am</u>	<u>10:00 pm</u>
Tuesday	<u>6:00 am</u>	<u>10:00 pm</u>
Wednesday	<u>6:00 am</u>	<u>10:00 pm</u>
Thursday	<u>6:00 am</u>	<u>10:00 pm</u>
Friday	<u>6:00 am</u>	<u>10:00 pm</u>
Saturday	<u>6:00 am</u>	<u>10:00 pm</u>
Sunday	<u>6:00 am</u>	<u>10:00 pm</u>

6. Cooperation/Complaints/Concerns:

Permittee will maintain communications with establishments located on and adjacent to the premises, and with residents and other businesses that may be affected by staff and/or operations of the Permittee. Permittee designates the following person to receive and respond to concerns or complaints from other residents or businesses:

Name: Bob Chilton Phone: (602) 692-3330 Email: bob@rainstrategies.com

Permittee, managing agents, on-duty managers, and supervisors will cooperate closely with Scottsdale Police, City of Scottsdale Code Enforcement staff or other City staff as well as business and residential neighbors in addressing and investigating complaints, criminal acts, refuse, and potential odor issues and any other concerns.

Public Safety Plan

Initial Facility Size: The existing Facility located at 7655 E. Evans Road is operating under the current Conditional Use Permit, 10-CUP-2013#3.

Amended Facility Size: This application is requesting to amend the Conditional Use Permit to allow the following:

1. Building 1, 7655 E Evans Road: Expand the Existing Facility from 15,000 square feet to 19,050 square feet by i) adding the 1,350 square foot existing hallway and ii) adding a 2,700 square foot proposed second story to the hallway building.
2. Building 2, 7640 E Gelding Drive: Include the adjacent 27,500 square foot building west of the Existing Facility.

Facility Access: Access to the Facility is restricted to Authorized Personnel only. All Authorized Personnel must have a current and valid Facility Agent Card ("FA Card"). An FA Card is issued by the Arizona Department of Health Services only after the applicant has passed a background and fingerprint check. FA Cards are valid for 2 years and must be renewed prior to the second anniversary of the prior issuance.

Building Security System – Exterior Fencing: The Facility will install three automatic vehicle access gates located on the north and south side of the Facility as designated in Addendum 4.1 Site Plan. The vehicle access gates will be equipped with Knox Rapid Entry Systems for emergency response personnel to have clear access to fires and medical incidents. Authorized Personnel will access the gates by entering their secure access code into the keypad. This cloud-based system allows Senior Management to allow, restrict, designate, and monitor individual user access through a security access platform. All personnel access data is recorded and stored offsite for a period of 5 years.

Building Security System – Exterior Door Controls: The Facility uses the ProDataKey ("pdk") security system for all exterior doors and interior doors to secure areas. Each Authorized Personnel is issued a uniquely numbered remote control access key ("FOB"). The pdk cloud-based system allows Senior Management to allow, restrict, designate, and monitor individual user access through a security access platform. All personnel access data is recorded and stored through offsite for a period of 5 years. See Addendum 3.2 Door Controls.

Visitor Control Access: All visitors must sign in the Visitor Log Book, be issued a numbered Visitor Badge, and be accompanied by Authorized Personnel prior to entering the Facility. All visitors must log out upon exiting the Facility and return the numbered Visitor Badge to Authorized Personnel. The Visitor Log Book is stored physically on site and in the Company cloud-based storage system for 5 years.

Security Monitoring and Video Surveillance: AAA Security provides the following security monitoring and video surveillance services 24/7: 1) burglar protection, 2)

motion detection, 3) video surveillance and 4) centralized alarm system. AAA utilizes the HIK-Vision technology that can be accessed by Senior Management remotely using the iViewer mobile application. Senior Management has password protected access to all monitoring systems. Authorized Personnel will be assigned a uniquely numbered security code that allows designated staff the ability to arm and disarm the security monitoring systems. Permittee can provide data to the Arizona Department of Health Services or the Scottsdale Police Department upon request. AAA monitoring data is stored off site for a minimum of 5 years. Video surveillance records all interior areas and exterior parking areas. See Addendum 3.3 and 4.3.

Panic Button: The Facility is equipped with interior mounted Honeywell 5869 Hold-Up Switch/Transmitter panic buttons. The AAA installed and certified system provides direct access to local law enforcement. See Addendum 3.4.

Exterior Windows and Lighting: There are no exterior windows or skylights. Exterior lighting is provided above the exterior doors, in the parking areas, and between the buildings as designated using PLT LED Wall Pack lights designated on the Exterior Lighting Plan drawing and PLT-11923 Spec Sheet in Addendum 4.2.

Parking Plan: General and handicap parking is provided as per the City of Scottsdale code and designated on the Parking Plan drawing and calculations in Addendum 4.5. The Parking Plan meets and exceeds all code requirements.

Public Safety and Refuse Control Plan Dissemination: During the Training and On-boarding Program all Facility personnel will be educated and quizzed on the Public Safety and Refuse Control Plan. Upon completion of the On-boarding Program each Facility personnel will date and execute the Public Safety and Refuse Control Plan Reading Log. Senior Management will review the Public Safety and Refuse Control Plan annually or upon any significant updates or modifications. Staff is provided the Plan in the following manner; i) during the On-boarding Program, ii) physically stored on site in the Compliance Library, and iii) in the Company on-line document storage system See Addendum 5.

Management Responsibilities: The Permittee assigns the management responsibilities listed below to all managers, assistant managers, and person(s)-in-charge and ensure these responsibilities are understood and followed:

- The manager(s) shall ensure that all Facility personnel be trained and knowledgeable about the contents of this Plan. The following shall be agreed upon and adhered to:
- There will be a minimum of 1 manager(s) available on the premises during hours of operation;
- At least one manager shall be identified as the “Security Manager” for the Facility and be responsible for ensuring that a safe environment exists; and
- At least one manager will be on duty until 30 minutes after closing.

Enforcement of Security Plan: Violations of this Security Plan will be enforceable by City of Scottsdale Police Officers and/or Code Enforcement employees and may constitute grounds for revocation of applicable use permits relating to the Facility.

Refuse Plan

Refuse Container: It is the Permittee's responsibility to ensure refuse containers are properly used in and around the Facility and the Facility is kept clean at all times. Failure to do so may result in an investigation and possible citation from the City of Scottsdale Code Enforcement or other governmental agencies. Waste associated with the marijuana, including seeds, stems, leaves, oils, etc. shall be disposed of in accordance with Title 36, Chapter 28.1 of the Arizona Revised Statutes and/or Title 9, Chapter 17, Article 3 of the Arizona Department of Health Services.

Commercial Dumpsters: Commercial dumpsters are located on site, see Addendum 4.6. The commercial dumpsters are for non-medicated waste. The commercial waste is disposed of by a third-party professional waste management company on a weekly basis. A recyclable dumpster is provided on site and is picked up by a third-party professional recycling company on a weekly basis.

Marijuana Waste: Waste associated with the marijuana, including seeds, stems, leaves, oils, etc. is disposed of in accordance with Title 36, Chapter 28.1 of the Arizona Revised Statutes and/or Title 9, Chapter 17, Article 3 of the Arizona Department of Health Services. The Facility contracts with a third-party professional medical waste disposal company to routinely remove waste. See Addendum 6.

Marijuana Waste Storage: In accordance with Arizona statutes, marijuana waste is weighed, stored on site, and recorded in the Waste Disposal Log. The waste is recorded in the inventory control system. Medicated waste is deposited in a designated red waste biohazard bag and secured using either an overhand knot or a gooseneck tie. The properly secured red biohazard waste bag is then stored in a red biohazard bin until pickup. Pickup is provided routinely by a third-party professional biohazard medical waste company contracted for services by the Facility. See Addendums 6 & 7.

Marijuana Waste Inventory Tracking: In accordance with the Arizona Department of Health Services, marijuana waste is recorded using a Batch Numbering System and tracked in an approved Inventory Control Software System. The following steps outline the waste process within the Inventory Control Tracking System:

- Marijuana waste product is a byproduct of processing raw marijuana material;
- Waste product is physically weighed and recorded on the Waste Disposal Log;
- Waste product data is entered into the Inventory Control Software System;
- The Inventory Control Software System tracks and maintains compliance records of waste material for 5 years.

Business Records Plan

Establishment of Records: In addition to those requirements designated in Title 9, Chapter 17, Article 3 of the Arizona Department of Health Services, the Permittee shall retain all records related to the operation of the establishment for a period of no less than 5 years. Records include but are not limited to, written receipts, invoices, trip reports, compliance logs, inventory logs and evidence of any transactions. Records may be maintained at an off-site location, but must be produced, if requested by any law enforcement officer, within 24 hours. Failure to maintain records for a minimum of 5 years may result in revocation of the Conditional Use Permit. Failure to produce records subsequent to a written or verbal request by any law enforcement officer within 24 hours may result in revocation of the Conditional Use Permit.

Conditional Use Permit

Violation, amendment, revocation, as defined in Scottsdale City Zoning Code Sec. 1.402: Conditional Use Permits, which have been approved by the City Council, shall be subject to the following procedures and criteria regarding any violation, amendment, or revocation.

- The violation of any condition imposed by the Conditional Use Permit shall constitute a violation of this ordinance and shall be subject to the requirements of Section 1.1400 et seq.;
- Conditional uses shall be developed in conformance to the approved Plans as determined by the Zoning Administrator. An amendment to a Conditional Use Permit is required before implementation of any material change in the scope and nature of an approved conditional use, material change in any conditions or stipulations to a Conditional Use Permit or material change in the physical size, placement or structure of property subject to a Conditional Use Permit. The Zoning Administrator shall have the discretion to determine if a proposed change warrants an amendment. An amendment must be approved as provided in Section 1.400 et seq. for the approval of Conditional Use Permits;
- The Zoning Administrator may recommend to the City Council and the City Council may affect revocation of a Conditional Use Permit pursuant to Section 1.402 of the Scottsdale Zoning Code for acts including but not limited to:
 - A violation of the Plan;
 - Violation of the conditions of the Use Permit;
 - Violation of Scottsdale ordinances or law;
 - Repeated acts of violence or disorderly conduct as reflected by police calls for service or offenses occurring on premises utilized by patrons of the Permittee, or failure to report acts of violence;
 - Failure of the Permittee to take reasonable steps to protect the safety of persons entering, leaving or remaining on the premises when the Permittee knew or should have known of the danger to such person, or the Permittee fails to take reasonable steps to intervene by notifying law enforcement officials or otherwise to prevent or break up an act of violence or an altercation occurring on the premises or on premises utilized by patrons and employees of the Permittee when the Permittee knew or reasonably should have known of such acts of violence or altercations;
 - Any enlargement or expansion of the premises, Plan of operation or program format without appropriate approval from the City; and
 - Misrepresentations or material misstatements of the Permittee, its agents or employees.

Termination of the Plan: This Plan terminates on the date that the Permittee's use permit terminates.

Annual Review of the Plan: An annual review of this Plan may be conducted by City staff and revisions may be required.

Odor Control Plan

Potential Odor Sources: The Facility consists of two buildings used for the cultivating, extracting, infusing, packaging, and preparation of marijuana products. Potential odor sources include cultivation, harvesting, and packaging operations. All areas of the Facility use multiple systems to minimize and control potential odors. The following Odor Control Systems are used throughout:

Sage Industrial AirROS Advanced Air Purification System: AirROS units are installed in all operational areas of the building, controlling and eliminating odors. The AirROS unit uses a High Voltage Controlled Pulse reaction chamber to create non-thermal plasma and generates Reactive Oxygen Species which is comprised of seven ROS cleaning agents. Five of them are very short lived highly Reactive Oxygen Species (atomic oxygen, singlet oxygen, hydroxyl radical, superoxide and peroxyxynitrite) which never make it out of the chamber. They break down carbon-to-carbon bonds of cell walls in microbes that travel through the chamber and indiscriminately destroys molds, viruses, and other pathogens as they pass through the HVCP chamber. One byproduct of this process is complete odor elimination in treated areas. AirRos units cycle air no less than eight times per hour in each zone. See Addendum 8.1.

ProGuard Defender DXB Proactive Air Sanitation System: ProGuard Defender DXB units are installed in enclosed cannabis storage and drying areas to further combat potential odors. The unit offers a two-step process to eliminate odor and sanitize air and surface areas. Advanced Oxidation Process uses photocatalytic oxidation technology. This uses UV light energy to activate a catalyst, turning moisture into dry hydrogen peroxide and other sanitizing elements that continuously clean indoor rooms. Bipolar Ionization creates plasma with extremely high levels of positive and negative charges. Bipolar Ionization Ions kill pathogens including molds, mildew, viruses, and bacteria creating a long dwell time to effectively sanitize and purify the air and surfaces throughout the environment. See Addendum 8.2

Can Filter Carbon Neutralizer System: The grow rooms utilize Can Filters with activated carbon filters to further mitigate potential odors. These filters remove a variety of volatile organic compounds, odors, and other gaseous contaminants through adsorption to the carbon's surface. The air in each room is cycled through the filters 8-10 times per hour through a high power 12" 1,700 CFM Can Filter specific fan. See Addendums 8.3 and 8.4.

MERV 13 Filters - Trane Air Handlers: All air handlers are equipped with MERV 13 or higher filters. MERV 13 uses a 0.3 micron filter that is designed where sterile environments are critical. Particles including viruses, carbon dust, smoke, bacteria, microscopic allergens, pollen, dust, and odor causing particulates are captured within the filter. Filters are changed every 60 days. See Addendum 8.5.

RE: APPROVAL TO PREPARE, SELL OR DISPENSE MARIJUANA-INFUSED EDIBLE FOOD PRODUCTS

Date: July 31, 2018

Dispensary Name: Patient Alternative Relief Center

Registration Certificate ID#: 00000091DCWY00555666

Food Establishment License ID#: 18-5666

Food Establishment Address: 7655 E. Evans Road, Scottsdale, Arizona 85260

Your request to prepare, sell, or dispense marijuana-infused edible food products has been approved. The dispensary listed above must ensure that all marijuana-infused edible food products are prepared, sold, and dispensed according to 9 A.A.C. 8, Article 1. In addition, please be advised that as per A.A.C. R9-17-319(B), the dispensary is responsible for content and quality of edible food products sold or dispensed by the dispensary. The enclosed Food Establishment License must be posted in a conspicuous place, maintained by the dispensary, and available for review upon inspection by the Arizona Department of Health Services (Department) at all times.

In addition, please be advised that as per A.A.C. R9-17-319(B), the dispensary is responsible for content and quality of edible food products sold or dispensed by the dispensary.

If the dispensary sells or dispenses marijuana-infused edible food products prepared by another dispensary, the dispensary must obtain and maintain a copy of the written authorization issued by the Department to the dispensary that prepared the marijuana-infused edible food products.

The Department strongly encourages all dispensary agents that prepare marijuana-infused edible food products to obtain food handlers cards from their local county health department and to have at least one certified food manager, if applicable to county regulations. Links to each Arizona county health department and other online food safety resources can be found at the following links:

Addendum 3.2

Door Controls

Eight Door/Ten Floor Controller

The eight io controller will handle eight individual doors or ten elevator floors. Add the eight-door expander to control up to sixteen doors or twenty elevator floors out of one 12x12 enclosure. Whether you are controlling doors or elevators, you won't find a more compact, efficient, and easier-to-use door controller on the market.

Models

Ethernet PN: 8DE

Wireless PN: 8DW

*Optional Wireless Expander: (8DEW)

*Optional Ethernet Expander: (8DEE)

Eight io Features

Upgrade Any Wired System

The eight io makes upgrading a traditional wired system easier than ever. Take control of up to eight individual doors with the eight io controller. Easily convert existing wired systems to experience the benefits and capabilities of the pdk io platform.

Elevator Control

Provide a seamless, more effective elevator solution. The eight io doubles as an elevator controller, allowing control of up to ten elevator floors. The eight io is smaller and more powerful than any other controller in its class.

Expand to Sixteen Doors

System expansion is a breeze, just replace the existing controllers with eight or single io's and use most or all of the existing door hardware. The eight io makes system upgrades effortless and cost-effective.

Plug n' Play Connectivity

All io devices were designed to be plug n' play, making them super easy to install right out of the box. It's easy to add in any io device no matter how large the job is, and you can quickly scale a system to any size. A cloud node can connect with up to a thousand doors on a single platform.

Fully Supervised

Never be caught off guard again. Pdk.io intelligently monitors the network and wireless connectivity of each controller in your system and alerts you if any issues arise.

Wireless, or Network

Choose from flexible connectivity options that fit any application. The eight io is built for ultra-low bandwidth consumption and easily connects to existing or dedicated networks. Easily expand a system's wireless coverage (via network) using the ethernet gateway.

Specifications:

Connections

Removable Screw-down Terminals
Power Supply Input
Industrial-grade 2A Form-C Relays (1 Door / 1 Aux)
Reader Input (2)
Input A (Door Position Sensor)
Input B (Request To Exit)

Communication Options

Ethernet
WiMAC™ Wireless Mesh (2.4 GHz / 802.15.4)
Encryption: AES 128bit
Wireless Range: 1 Mile LoS, 450ft indoor average

Environmental

Temperature: -20° ~ +60° C or -4° ~ +140° F
Humidity: 0 - 95% relative humidity non condensing

Enclosure

Dimensions (W x H x D) 12" x 12" x 4"
Metal lockable security can (indoor use only)

Weight

8DE/W: 5.45 lbs (87.2 oz)
8DEE/W: .41 lbs (6.56 oz)

Compliance

Conforms to UL 294

Requirements:

Power

12 VDC
Power readers and other door hardware using the built in bus
10A concurrent max on the bus
* Power supply and battery not included

Recommended Power Supply

12 VDC Access Control Power Supply with proper amperage for connected door hardware.
See installation manual for 24 VDC operation.

Manufacturer's Limited Warranty

One to three-year warranty against defects in materials and workmanship.

**Sleek Design. Vandal Resistant.**

Rugged readers are a great fit for indoor/outdoor applications and offers users the flexibility of using everyday proximity credentials or PIN numbers to gain access to secure areas. Easily add an extra layer of security with two-factor authentication on keypad readers, requiring users to present proximity credentials and enter a PIN number to gain access.

Anywhere. Anytime. Any Device.

The cloud node is the main system panel and is the gateway to the pdk.io cloud platform. It also includes a Single io (One Door Controller) to get the first door up and running. Each site requires one cloud node with an Internet connection. The cloud node then communicates with all local door controllers while storing all data on-site in case of an internet outage. Ultimate flexibility is achieved by using any combination of controllers connected to the cloud node.

Mobile App

Cloud Node Features

Connects to pdk.io Cloud Platform

Pdk.io provides the most powerful and streamlined access control platform on the market. Experience full configuration and management from any internet-connected device. Manage users, create groups, open and close doors, set system rules, get SMS & email alerts, and more. All in a single App.

Perfect for Single Door Installs

In addition to connecting to our cloud platform, the cloud node also doubles as a single door controller. It's the only device you need for a single-door install. Just connect the cloud node to the door hardware and network to finish the job.

Fully Supervised

Never be caught off guard again. Pdk.io intelligently monitors the battery health, power status, and wireless connectivity of each controller in your system and alerts you if any issues arise.

Plug n' Play Connectivity

All of the io devices were designed with plug n' play in mind. That means they're super easy to install right out of the box. It's easy to add in any io device no matter how large the job is. Quickly scale a system to any size. The cloud node can connect to up to a thousand doors.

Upgrade Any System

Backward compatible hardware makes system upgrades and takeovers a breeze and saves your customers money. Simply replace the existing ACP with a cloud node and connect it to the network to instantly bring the rest of the system into the cloud.

Automatic Software Updates

Experience future-proof access control that's always secure and always up-to-date. The cloud node updates automatically as new software features and security enhancements become available.

Decoding Capability	H.265/H.264: 3840x2160 @ 120 fps (4-CH) 1920x1080 @ 480 fps (16-CH)

Audio

Audio Format	G.711, G.726
Audio In/Out	3.5 Phone jack audio output x1 3.5 Phone jack audio input (reserved) x1

Record

Recording Time (sec.)	Pre-Record: 5 (Max. 10) Post-Record: 20 (Max. 300)
Recording Stream	Single
Recording Throughput	192 Mbps
Recording Mode	Continuous, Schedule, Manual, Event, Activity Adaptive Streaming
Recording Setting	Recycle (unit: Day)
Watermark	Supported

Storage & Backup

HDD Devices	Internal x4 (3.5") *HDD is purchased by separately.
HDD Max. Capacity	*Please refer to the HDD supported list on the VIVOTEK website.
RAID	RAID 0, 1, 5 (single volume up to 16TB)
Disk Management	Create, Format and Remove Disk HDD S.M.A.R.T.
External Storage	USB Storage (USB 3.0)
Video Clip Export	USB Dongle (FAT Format)
Schedule Backup	FTP

Playback

Playback Display	4 Channels Multi-Lay out Display: 1x1, 2x2, 1P+3, 1V+3
------------------	---

Playback Control	Regular (play, pause, stop), rewind, next/previous frame, speed control, calendar, event, timeline, timeline scale, thumbnail (storyboard)
Video Search	By calendar, date/time, and alarm
Thumbnail Explorer (Storyboard)	Listing the thumbnail of recorded video (Max. 2-CH)
Snapshot	JPEG
Video Clip Export	EXE
Network	
Ethernet	10/100/1000Mbps Ethernet (RJ-45) x2
Video Throughput for Remote Client	96 Mbps
PoE	802.3at/af Compliant PoE Ports x 16 (Total Max. 160 W) * DO NOT suggest connecting any non-PD device with this NVR PoE port in order to avoid potential risk.
PoE Management	Supported
Protocols	IPv4, IPv6, TCP/IP, HTTP, HTTPS, UPnP, RTSP/RTP/RTCP, SMTP, FTP, DHCP, NTP, DNS, DDNS, IP Filter
External Interface	
USB	Front: 2 (USB 2.0) Back: 1 (USB 3.0)
Alarm In	8
Alarm Out	4
Audio	3.5 Phone Jack Audio Output x1 3.5 Phone Jack Audio Input (Reserved) x1
RS485	1 Port (Reserved)
System	
POS Integration	Supported (by project request)
UPS Integration	Supported (by project request)
Camera Integration	ONVIF Profile S
Event	Motion Detection, Smart VCA Event, Cyber Attack, PIR Detection, Tampering Detection, Camera DI/DO, Camera Disconnected, Disk Failure, Disk Full, NVR DI/DO, PoE error
Event Action	Record, Email (Text), Email (Snapshot), FTP, Buzzer, ePTZ Control (Go to Preset), NVR DO, Camera DO, VIVOCLOUD APP Notification
User Management	User level: administrator, regular user
Log	System, recording, user, error
Date & Time	Time Zone, Manual, Automatic Sync NTP, Daylight Saving Time
Language	Czech, English, French, German, Italian, Japanese, Korean, Portuguese, Polish, Russian, Spanish, Simplified Chinese, Traditional Chinese
Advanced Features	
VCA Counting Solution	Supported
VCA Event Search	Supported
Smart Search II	Supported
Trend Micro IoT Security	Supported
Cybersecurity Management	Supported
Remote Client	
Software AP	Shepherd, VAST 2
Mobile/Tablet App	iViewer (Android & iOS)
Web Browser	Internet Explorer 10 (32 bit) or above/ Windows Chrome v68.0.3 & Firefox v61.02 or above/ Windows & macOS (The new web interface is only supported by Chrome)
VIVOCLOUD	Supported
General	
Power Input	100-240V AC, 50/60Hz

Dimensions	430 (W) x 400 (D) x 44.5 (H) mm
Weight	4.5 kg (without HDD)
Operating Temperature	0°C ~ 40°C (32°F ~ 104°F)
Humidity	0 ~ 95%
Safety Certifications	CE, LVD, FCC, VCCI, C-Tick, UL
Warranty	36 months

5869

HOLD-UP SWITCH/TRANSMITTER

The 5869 Hold-Up Switch/Transmitter is a finger-operated RF transmitting device. It is typically mounted under a counter or money draw for inconspicuous operation. When the transmitter is activated, it emits an RF signal to the receiver. The security system control panel sends a burglary alarm to the central station when a RF signal is received from an enrolled Hold-Up Switch/Transmitter.

Once activated, the 5869 Hold-Up Switch/Transmitter can only be reset by the reset key. The 5869 also incorporates tamper switches that are activated when the cover is removed, or if the unit is forcibly removed from its installation location.

FEATURES

- No wires to run
- Easily mounted
- Includes battery
- Front and back tamper resistant
- Quick enrollment

SPECIFICATIONS

Physical

- 1-15/16" W x 5-15/16" H x 1 3/16"D (50mm x 150mm x 30mm)

Frequency

- 345 MHz

Battery

- 3V Lithium ADEMCO 466 or equivalent

Agency Listings

- UL listed for Household Burg UL 1023, Hold-up Burg UL 636 and CUL 634
- For certified UL commercial installations, use with 5881ENHC tamper-protected wireless receiver

Compatibility

- Fully compatible with all VISTA Control Panels

5869

HOLD-UP SWITCH/TRANSMITTER

INSTALLATION

Mount the 5869 under a counter or money drawer for easy access by the cashier. Refer to the steps and figures that follow for typical mounting instructions. Before mounting the 5869 permanently, perform Go/No Go tests to verify adequate transmitter signal strength at desired mounting location (refer to the Security System Control Panel Installation and Setup Guide).

1. Remove the two screws (Figure 1) securing the cover to the 5869 case.

NOTE: The holes located in the opposite corner to the screws that secure the cover to the case, provide a means for securing the transmitter to the counter or drawer.

2. Using the case as a drill template, position the case in the desired location.
3. Drill a 1/16" pilot hole at the breakaway tamper release hole and the two case mounting holes (Figure 2).

4. Attach the case to the counter or money drawer using one No. 6 x 3/4 screw (supplied) at the breakaway tamper release.
5. Install the battery (see BATTERY INSTALLATION/REPLACEMENT).
6. Secure the cover to the case with the two screws removed in step 1.
7. Secure the assembled case to the counter or drawer using the two No. 6 x 2 mounting screws supplied (Figure 2).

PROGRAMMING

The 5869 Hold-Up Switch/Transmitter should be programmed as a 24-hour silent zone type. Refer to the Security System Control Panel Installation and Setup Guide for programming instructions.

- During programming of the control panel, the 5869 Hold-Up Switch/Transmitter should be treated as "RF" (i.e., supervised RF) Type
- The 5869 is one closed input loop zone (loop 1)

Battery Installation/Replacement

1. Remove and retain screws securing the 5869 cover.
2. Observing correct polarity, insert the battery into the battery holder.

NOTE: Use care not to bend the antenna while attempting to install battery.

3. Re-install screws to secure cover and/or assembly. Refer to Figure 1.

Figure 1

DESCRIPTION

Featuring selectable wattage and color temperatures that allow you to adjust the light output as needed, these LED wall packs are an efficient choice for improving security lighting in outdoor areas.

FEATURES

- Delivers up to 146 LPW depending on the wattage setting; settings are 60%, 80%, and 100%
- Replaces 250W metal halide fixtures
- 0-10V dimming
- Wattage and color temperature are adjusted via switches inside of fixture; see installation instructions for more information.

LISTINGS

- IP65 Rated
- UL Listed
- DesignLights Consortium® 5.1 Premium - meets the requirements for the highest DLC qualification for efficacy and lumen maintenance; DLC PN - PLTBD36

PERFORMANCE

- CRI: 80+
- CCT: 4000K and 5000K
- Rated Lifetime L70: 50,000
- Philips Lumileds LEDs

ELECTRICAL

- THD: <20%
- Power Factor: >0.9
- Input Voltage: 120-277V

THERMAL

- -40°F to 113°F (-40°C to 45°C) operating temperature

CONSTRUCTION

- Heavy duty die-cast aluminum housing with bronze finish and anti-corrosion spray
- Durable borosilicate glass lens doesn't fade and allows high light transmittance

WARRANTY

- 5 year limited warranty; see pltsolutions.com for warranty details

IP Rating Chart

IP ratings are represented by combining the first and second digits of the following columns. See example below.

1st Digit - SOLID Degree of protection against solid objects		2nd Digit - LIQUID Degree of protection against water	
	0 No Protection		0 No Protection
	1 Protected against a solid object greater than 50mm, such as a hand.		1 Protected against water drops.
	2 Protected against a solid object greater than 12.5mm, such as a finger.		2 Protected against water drops at a 15 degree angle.
	3 Protected against a solid object greater than 2.5mm, such as a wire.		3 Protected against water spray at 60 degree angle.
	4 Protected against a solid object greater than 1.0mm, such as a thin strap.		4 Protected against water splashing from any angle.
	5 Dust Protected. Prevents ingress of dust sufficient to cause harm.		5 Protected against water jets from any angle.
	6 Dust tight. No ingress of dust.		6 Protected against powerful water jets and heavy seas.
Example:  IP 6 5  			7 Protected against the effects of temporary submersion in water. (30 minutes at 3 feet).
			8 Protected against the effects of permanent submersion in water. (Up to 1.4 feet).

All sharps containers 5 gallons and over will be considered a separate box/container.

Additional supplies are available for purchase separately and will be priced accordingly.

Definitions:

Term	Definition
MWD	Medical Disposal Service, LLC
Generator	The business listed on page (1) that is contracting for bio-medical waste removal and transportation
Regulated Medical Waste	Regulated Medical Waste shall include only those wastes defined by the United States Environmental Protection Agency (USEPA) as infectious waste in its guide for infectious waste management #EPA/530-SW-86-014, May 1986 or defined by the USEPA as medical wastes in 40 CFR 25930. The Term Regulated Medical Waste specifically excludes: fetal remains and human torsos; corrosive, reactive, radioactive toxic and other hazardous wastes and substances as defined in any applicable federal, state, county or municipal laws, regulations and guidelines.
Bio-medical waste	Any regulated medical waste

Medical Waste, Collection, Processing and Disposal Services: MEDICAL WASTE DISPOSAL, LLC shall collect, transport, treat and dispose of Bio-hazardous Medical Waste generated by Customer during the term of this Agreement. Bio-hazardous Medical Waste means sharps, hypodermic needles, syringes, microbial cultures, tissue cultures, animal tissues or organs, animal carcasses, animal bedding, laboratory containers and slides that meet the definition of regulated medical waste under 29 CFR 1910.1030 or 49 CFR 173.134 and infectious substances arising from those agents listed under 42 CFR 72.3 as well as trace non-hazardous Chemotherapy Waste. Non-hazardous Chemotherapy Waste is defined as discarded items which have been contaminated by chemotherapeutic, cytotoxic, or antineoplastic drugs and/or agents, provided that such items, including vials and syringes, shall be empty as defined in applicable federal, state, county or municipal laws, regulations and guidelines. Bio-hazardous Medical Waste does not include, and shall be handled differently, if at all by MEDICAL WASTE DISPOSAL, waste not falling within the definition of Bio-hazardous Medical Waste, including but not limited to human torsos, radioactive, reactive, corrosive, ignitable or toxic wastes and any and all other hazardous waste and substance as defined in applicable federal, state, county, or municipal laws, regulations and guidelines, and pharmaceutical materials and finally, improperly packaged Bio-hazardous Medical Waste. Customer is solely responsible for properly segregating, packaging, and labeling Bio-hazardous medical and special waste as described in this agreement. MEDICAL WASTE DISPOSAL may at its discretion refuse to take improperly packaged, labeled or classified waste. Customer shall have title of non-conforming waste at all times. Title of Bio-hazardous medical and other waste shall transfer to MEDICAL WASTE DISPOSAL at the time the waste is loaded on the MEDICAL WASTE DISPOSAL truck and not before.

HIPAA Statement: MWD is committed to complying with the Standards for Privacy of Individually Identifiable Health Information as set forth under the Health Insurance Portability and Accountability Act of 1996 (HIPAA). MWD understands that information may only be used and disclosed for purposes of treatment, payment and health care operations without individual consent.

Disposal Services: The Generator will conform to all requirements associated with the storage and removal of bio-medical waste. This includes, but is not limited to, providing easy access for waste removal and compliant storage area as well as ADEQ rules and regulations. Generators will be responsible for employees or any persons connected with this waste to be advised of the proper container use, packaging, storage, and record keeping of such material. No sharps of any kind are to be placed in red bags or corrugated cardboard boxes. All sharps MUST be placed in compliant sharps containers. MWD is not permitted to transport improperly packaged waste, in accordance with state regulations. MWD reserves the right to refuse acceptance of any Regulated Medical Waste that in MWD judgment cannot be treated and/or disposed of in a lawful manner; or, without a risk to harm of public health or to the environment. Improperly packaged, leaking, overweight, or damaged containers are subject to rejection, or to off-specification charges, for repackaging and/or special handling. No container will be processed that is wet or leaking. All expenses for improper packaging of bio-medical waste will be the sole responsibility of the Generator. These fees may include, but are not limited to, packaging material, additional Service fee if a rescheduled pick-up is required, or per hour wait time for MWD personnel.

Term and Termination: This agreement is a legal and binding contract for three (3) years beginning on the effective starting date, as noted on page 2 of this agreement. This agreement shall automatically renew for successive terms, equal to the original term, thereafter unless the Generator provides certified written notification not more than 180 days and not less than 60 days prior to the expiration of this agreement. MWD may cancel this contract for cause or convenience. MWD may suspend this agreement and any Services there under, if Generator repeatedly fails to perform in accordance with any provisions of this agreement. Upon the curing of all defaults by Generator and recovery of any damages sustained thereby, MWD may reinstate Service pursuant to the agreement for the remainder of its term. MWD reserves the right to adjust the contract price to account for operational changes it implements to comply with documented changes in law, to cover increases in the cost of insurance, disposal, or to otherwise address cost escalation in processing or otherwise. In the event the Generator terminates Services under this agreement prior to the expiration of the term hereof, or fails to perform in accordance with this agreement, MWD shall have, without limitation, all rights and remedies provided by law or in equity, as well as the right to recover the following amounts which the parties acknowledge constitutes MWD's liquidated damages and not a penalty: If the remaining term under this agreement is twelve (12) or more months, the Generator shall pay 50% of the remaining monthly charges; or, if the remaining term under this agreement is less than six (6) months the Generator shall pay its monthly charges multiplied by the number of months remaining in the term. The parties agree that no provision of this agreement shall negate the Generator's obligation to pay for Services rendered. Any obligation to pay for Services rendered shall survive termination of this agreement. The Generator grants MWD a right of first refusal to match any offer which the Generator receives after the completion of any term of this agreement relating to any Services provided hereunder and further agrees to give MWD prompt written notice with documentation of such offer and a reasonable opportunity to respond to it.

10-UP-2013#4

4/22/2022

MEDICAL WASTE DISPOSAL

Making People and The Environment Our Priority!

CUSTOMER INFORMATION SHEET

800-563-3854

Billing: MWD shall provide the Generator with monthly invoices that are due upon receipt. The Generator/Customer agrees to pay an interest rate of 1.5% on any amounts owed MWD that are not received within 30 days from the invoice date. Any billing disputes must be raised in writing by the Generator within 30 days of billing, or dispute shall be waived by the Generator. Accounts that are over 45 days past due will be considered delinquent and appropriate action will be taken to recover payments. The Generator will pay all costs incurred by MWD in the collection of a delinquent account, to include court costs, attorney fees, collection fees, etc. All action for collection will be filed in state of service. Accounts not kept current may be placed on pay in advance of Service status and or MWD reserves to suspend Service for non-payment until account is paid in full to resume Service.

Surcharges: MWD may also impose a surcharge in the event that MWD attempts to pick up waste at the Generator's location (for a scheduled collection or a Generator request), and, through no fault of MWD, there is no waste to be picked up, the waste is not ready for pick up, or the Generator's location is closed.

Excuse of Performance: MWD shall not be responsible if its performance of this agreement is interrupted or delayed by contingencies beyond its control, including, without limitation, acts of God, war, blockades, riots, explosions, strikes, lockouts or other labor or industrial disturbances, fires, accidents to equipment, injunctions or compliance with laws, regulations, guidelines or orders of any governmental body or instrumentality thereof (whether now existing or hereafter created).

Liability Insurance: MWD has in place and agrees to maintain professional liability and pollution insurance covering MWD and all of the MWD's employees, agents, and offices. A copy of the liability and pollution insurance policy is available upon request.

Liability for Equipment: Customer acknowledges that it has the care, custody and control of containers and other equipment owned by MWD and accepts responsibility and liability for the equipment and its contents except when it is being physically handled by employees of MWD. Therefore, Customer expressly agrees to defend, indemnify and hold MWD harmless from and against any and all claims for loss or damage to property, injury to or death of person or persons resulting from or arising in any manner out of Customer's use, operation, or possession of any containers and/or other equipment furnished under this agreement.

Indemnification: the Generator (listed above), its successors and assignors, hereby agrees to save and hold harmless MWD, its officers or employees, and all of whom while working within their respective authority, from all cost, injury and damage incurred by any of the above, and from any other injury or damage to any person or property whatsoever, and of which is caused by an activity, condition or event arising out of the performance, preparation for performance or nonperformance of any provision of this agreement by MWD, its agents, or any of its independent contractors. The above cost, injury, damage or other injury or damage incurred by or to any of the above shall include, in the event of an action, court cost, expenses of litigation and reasonable attorney's fees. This save harmless clause is not intended to indemnify against any cost or damage, or portion thereof, caused by MWD, its officers or employees.

Title: Title to bio-medical waste collected from the Generator shall be transferred to and vested in MWD at the time that the bio-medical waste is fully loaded into the MWD vehicle, and MWD has departed from the Generator's premises. Prior thereto, all title to the bio-medical waste shall be with the Generator. Title to any waste other than that Regulated Medical Waste shall remain with the Generator.

Headings: The headings of the sections in the agreement are for convenience only and shall not, expressly or implicitly, limit, define, extend or construe the terms, provisions, or any part of their contents.

Notices: Any notices required pursuant to this Agreement shall be in writing and shall be deemed to have been given when delivered in person; or, if delivered by first-class U.S. Mail, the third day after the date mailed, postage prepaid and properly addressed to the appropriate party; or, if sent by facsimile transmission, on the date sent, properly designated to the appropriate party at the correct facsimile number, but such notice is only effective if a confirmation of receipt is retained by the sender. For purposes of mailing, the address for MWD is set forth in the first paragraph of this agreement and can change from time to time as reflected on the billing invoice and the Customer's address shall be the same as the billing address. If the address for the Customer is different from the billing address set forth at the beginning of this Agreement, Customer shall provide the address in writing to MWD. Any change of address for either party shall be effective upon receipt of a written notice to the other party specifically designating that the change of address is applicable to the notice provisions in this Agreement. The parties shall provide each other with the names of all designees that should receive notices pursuant to this Agreement.

Additional Locations: In the event Customer acquires, leases, takes control or otherwise adds a new location generating a Medical Waste in an area Serviceable by MEDICAL WASTE DISPOSAL, Customer shall notify MWD and that location shall receive the same discounted group Service rates. In the event any new location is party to an existing agreement for Services similar to the Services by a vendor other than MWD, Customer will use reasonable efforts to terminate such agreement as soon as possible and such location shall immediately become a Customer location upon the expiration of such agreement.

Assignments and Successors: This Agreement is assignable by either party. In the event that this Agreement is assigned, the assigning party agrees to notify the other party in writing as outlined in "Notices" above. **Governing Law:** This agreement shall be governed by and construed in accordance with the laws of the State of service and effect of this agreement; any disputes pertaining to it shall be adjudicated in the state courts. This agreement and its subject matter have substantial contacts with the state, and all actions, suits, or other proceedings with respect to this agreement shall be brought only in the court of competent sitting in a local County, or in the federal district court having jurisdiction over that county. A copy, facsimile, or scan transmitted via email of this agreement shall be as effective as an original.

State of Arizona Requirement.

Medical Waste rules and regulations require that your waste be removed at a **Minimum of every 90 days.**

"Store bio hazardous medical waste for 90 days unless the generator has obtained a facility plan approval under A.R.S. S 49-762.04 and is in compliance with the design and operational requirements prescribed in R18-13-1412."

MERI PROPERLY PACKAGE ALL MEDICAL WASTE FOR SHIPMENT

Generators are responsible for correctly packaging their medical waste before it's transported for disposal.
PLEASE ... Follow These 3 Simple Steps When Packaging Your Medical Waste

1 NO LOOSE SHARPS IN THE RED BIOHAZARD BAG OR TRANSPORT BIN

Sharp materials must be placed in a puncture-resistant biohazard sharps box *before* being placed in MERI's medical waste container. MERI's container should be lined with a red biohazard bag.

Sharps include: needles, syringes, broken glass, scalpels, culture slides, capillary tubes, broken rigid plastic and exposed wires.

2 WHEN BAG IS FULL, TIE A KNOT USING OVERHAND OR GOOSENECK METHOD

ACCEPTABLE METHOD #1: OVERHAND KNOT

Gather, Twist End 8"-10"

Make Loop with Twisted End

Loop End Through to Create Knot

ACCEPTABLE METHOD #2: GOOSENECK TIE

Gather, Twist End 8"-10"

Fold Twisted End Over

Seal Tightly with Either Duck-Tape or Plastic Tie

3 PLACE LID SECURELY ON THE MEDICAL WASTE CONTAINER

DO THIS

Bag tied, lid is fastened

NOT THIS

Bag NOT tied

NOT THIS

Bag NOT tied, lid NOT fastened

40YY SERIES

Advanced Purification System

4011, 4014, 4035, & 4037 Purifier Models

40ZZ SERIES

Advanced Purification System

4022, 4028, 4044, & 4050 Purifier Models

- Plug and play installation and activation
- Ultra-Low Energy efficiency <1.25Amps (150w 120V 1PH)
- Touch screen controller
- Dynamic monitoring control with internal/external controller and sensor
- Easy maintenance
- Logging available for reporting
- Portable Option

How it Works:

**Existing Air
(Containing Microorganisms)**

**ROS
(Reactive Oxygen Species)**

The sanitized air that comes out of the purifier enters the environment and continues to sanitize ALL surfaces it contacts.

AirROS purifiers utilize electricity and create ROS. The highly-reactive ROS inside the purifier DESTROYS Molds, Pathogens, Viruses, and Odors as they pass through the chamber.

40YY & 40ZZ Series Surface & Air Purifiers will sanitize indoor air & surfaces in rooms 1,100-50,000 cubic feet using less than 1.25Amps (150 watts)

Defender DXB 100 with BPI

Defender DXB 100 has been designed and engineered to deliver sanitization that is proven to reduce & eradicate surface and airborne pathogens for high load environments in Cannabis Cultivation Centers using the **ProGuard Sanitization Technology**.

Defender DXB 100 is easy to install and maintain as it operates 24/7 in Cannabis facilities.

ProGuard Sanitization has been tested and validated by reputable labs across the world to ensure safety and effectiveness in reducing mold, mildew, bacteria, viruses, voc's and other dangerous pathogens.

Applications Include: Indoor Grow Rooms, Greenhouses, Dry Rooms, and More.

Specifications

- Weight of Unit: 6.5 lbs.
- Dimensions (H x L x D):
11.69" x 13.44" x 3.5"
- Electrical Input:
100-240V – 50/60Hz
- Electrical Output: 12VDC 3A
- Power Consumption:
Running 14W - 21W
- Warranty: 2 Years

Defender DXB 50 with BPI

Defender DXB 50 has been designed and engineered to deliver sanitization that is proven to reduce & eradicate surface and airborne pathogens for low load environments in Cannabis Cultivation Centers using the **ProGuard Sanitization Technology**.

Defender DXB 50 is easy to install and maintain as it operates 24/7 in Cannabis facilities.

ProGuard Sanitization has been tested and validated by reputable labs across the world to ensure safety and effectiveness in reducing mold, mildew, bacteria, viruses, voc's and other dangerous pathogens.

Applications Include: Designed for low load areas including Trim, Packaging, Hallways, Changing Rooms, etc.

Specifications

- Weight of Unit: 6.5 lbs.
- Dimensions (H x L x D):
11.69" x 13.44" x 3.5"
- Electrical Input:
100-240V – 50/60Hz
- Electrical Output: 12VDC 3A
- Power Consumption:
Running 14W - 21W
- Warranty: 2 Years

Can-Filter 150 Without Flange 1260 CFM

SKU: 10-UP-2013#4

The best performing carbon filters on the market.

At a Glance

Each Original Can-Filter uses our thickest granular-carbon packed-bed design to deliver the best performing Can-Filter on the market. Even with the industry's thickest 2.5 in carbon bed, the Can Original maintains minimal pressure drops. This hefty granular carbon bed effectively makes the Can Original a massive sponge, soaking up VOCs and capable of holding massive amounts of contaminant. The Original Can-Filter® is designed for the control of VOCs (paint fumes, hydrocarbons, etc.), odors, and other gaseous contaminants. Rated at a conservative 0.1 sec contact time, the Original Can-Filter® provides excellent

- Made in North America
- 7 sizes from 33-150cm, largest in industry
- You pick the flange that's right for you
- Low pressure drop even on smaller sizes
- Granular carbon delivers the cleanest filter available
- 2.5" Carbon bed, thickest in industry
- Flange comes separate to fit a wide range of fans and applications

TECHNICAL DATA RECOMMENDED FANS

Max Exhaust CFM: 1260 CFM / 2100 m³h @ 0.1 sec contact time

Max Recirculating (Scrubbing) CFM: 2520 CFM / 4200 m³h

Can-Fan Max-Fan 12" 1708 CFM

SKU: 136835

At a Glance

The Max-Fan® is the first fan that has been developed with a Computational Fluid Dynamics (CFD) program. CFDs are used for engineering aircraft propulsion engines. The perfectly designed 3D blades of the impeller and stator make this fan extremely powerful and energy efficient. Compared with other inline fans, the efficiency is 50%-100% higher. 6" – 14" come pre-wired with an 8 ft 120 V power cord. Can-Fan® bring its innovation to market and sets a new standard for performance. The Max-Fan® is a more powerful and efficient fan that takes less energy to run.

Re: Neighborhood Involvement Outreach – 7655 E. Evans Road, 7645 E. Evans Road, and 7640 E. Gelding Drive, Scottsdale 85260

Dear Property Owner and/or HOA Company:

Flower Launch LLC operates a marijuana cultivation facility in the Scottsdale Airpark. The facility, located at 7655 E. Evans Road operates under a Conditional Use Permit, 10-UP-2013#3. Flower Launch is applying to amend the permit and 1) expand the current facility from 15,000 square feet to a maximum of 19,350 square feet and 2) add the adjacent building.

Application Information:

- **Current Facility:**
 - Project Request: add a hallway, 1,350 square feet, and second floor workspace, 3,000 square feet to the Conditional Use Permit
 - Pre-application #:626-PA-2021
 - Project Location: 7655 E. Evans Road
 - Lot Size: 0.82 acres or 34,952 square feet
 - Zoning: I-1 Industrial Park
- **Additional Building:**
 - Project Request: add adjacent building, 27,525 square feet to the Conditional Use Permit
 - Pre-application #:626-PA-2021
 - Project Location: 7640 E. Gelding Drive & 7645 E. Evans Road
 - Lot Size: 1.77 acres or 77,122 square feet
 - Zoning: I-1 Industrial Park

Flower Launch is licensed with the Department of Health Services and complies with all city and state regulatory agencies. The Scottsdale facility is associated with the Patient Alternative Relief Center dispensary and produces medicated products that are only sold to licensed dispensaries and not to the general public. The facility complies with all regulatory agencies including the City of Scottsdale, the National Fire Protection Agency, and the Arizona Department of Health Services.

An Open House will be held at 7640 E. Gelding Drive Suite 125 on Monday October 18, 2021 between 5:00 pm and 6:30 pm to allow you to meet the development team and ask questions about the project. If you cannot attend the Open House and would like to learn more about the facility, please contact me directly at bob@rainstrategies.com, (602) 692-3330.

Regards,

Bob Chilton
Project Manager
Flower Launch LLC

**SCOTTSDALE PLANNING COMMISSION
KIVA-CITY HALL
3939 DRINKWATER BOULEVARD
SCOTTSDALE, ARIZONA**

WEDNESDAY, JULY 13, 2022

***DRAFT SUMMARIZED MEETING MINUTES ***

PRESENT: Renee Higgs, Chair
Joe Young, Vice Chair
Barney Gonzales, Commissioner
George Ertel, Commissioner

REMOTE: William Scarbrough, Commissioner
Christian Serena, Commissioner

STAFF: Tim Curtis
Joe Padilla
Greg Bloemberg
Jeff Barnes
Ryan Garofalo
Alexis Hartley
Caitlyn Gulsvig
Rebecca Cox

CALL TO ORDER

Chair Higgs called the regular session of the Scottsdale Planning Commission to order at 5:00 p.m.

ROLL CALL

A formal roll call was conducted confirming members present as stated above.

Attachment 9

* Note: These are summary action minutes only. A complete copy of the meeting audio is available on the Planning Commission page on ScottsdaleAZ.gov, search "Planning Commission"

MINUTES REVIEW AND APPROVAL

1. Approval of June 22, 2022 Regular Meeting Minutes including Study Session.

Vice Chair Young moved to approve the June 22, 2022 regular meeting minutes. Seconded by Commissioner Ertel, the motion carried with a vote of seven (7) to zero (0).

CONSENT AGENDA

2. [10-UP-2013#4 \(Patient Alternative Relief Center Expansion\)](#)

Request for an amendment to an existing conditional use permit for a 15,000 square foot marijuana cultivation facility (10-UP-2013#3), located at 7655 E. Evans Road, to allow for an expansion on-site (4,050 square feet) and into the existing building located at 7645 E. Evans Road and 7640 E. Gelding Drive (27,500 square feet), bringing the total floor area of the facility to 46,550 square feet, for a +/- 2.5-acre site with Industrial Park (I-1) zoning. Staff contact person is Greg Bloemberg, 480-312-4306. **Applicant contact person is Bob Chilton, (602) 692-3330.**

Item No. 2 moved to the regular agenda; Commissioner Ertel moved to make a recommendation to City Council for approval of case 10-UP-2013#4 per the staff recommended stipulations and based upon the finding that the Conditional Use Permit criteria have been met. Seconded by Vice Chair Young, the motion carried with a vote of six (6) to one (1) with Commissioner Gonzales dissenting.

3. [1-ZN-2022 \(Shadow Ridge North\)](#)

Request by owners for a Zoning District Map Amendment from Single-family Residential Environmentally Sensitive Lands (R1-130 ESL) to Single-family Residential Environmentally Sensitive Lands (R1-43 ESL) zoning with Amended Development Standards on +/-22.99-acres and to Single-family Residential Environmentally Sensitive Lands (R1-130 ESL) zoning with Amended Development Standards on +/-6.51-acres, for a 19-lot subdivision on a total +/- 29.5-acre site located at 24550, 24444, and 24334 N 128th Street. Staff contact person is Jeff Barnes, 480-312-2376. **Applicant contact person is Megan Le, 602-906-1101.**

4. [1-AB-2022 \(Shadow Ridge North\)](#)

Request by owners for the abandonment of various public street rights-of-way falling within the site boundaries of a proposed 19-lot residential subdivision, and associated Zoning case 1-ZN-2022, on a +/- 29.5-acre site located at 24550, 24444, and 24334 N 128th Street. Staff contact person is Jeff Barnes, 480-312-2376. **Applicant contact person is Megan Le, 602-906-1101.**

Item Nos. 3 & 4; Vice Chair Young moved to make a recommendation to City Council for approval of cases 1-ZN-2022, and 1-AB-2022 per the staff recommended stipulations after determining that the proposed Zoning District Map Amendment

* Note: These are summary action minutes only. A complete copy of the meeting audio is available on the Planning Commission page on ScottsdaleAZ.gov, search "Planning Commission"

and based upon the finding that the Abandonment are consistent and conform with the adopted General Plan. Seconded by Commissioner Ertel, the motion carried unanimously with a vote of six (6) to zero (0) with Commissioner Kaminski recusing.

ADJOURNMENT

With no further business to discuss, the regular session of the Planning Commission adjourned at 5:44p.m.
