Management
Award

Association of Metropolitan
Water Agencies

Scottsdale Water – a nationally recognized *Utility of the Future Today* – is seeking an experienced water industry professional to lead its progressive water reclamation department. Based out of the world-renowned Scottsdale Water Campus, the Water Reclamation Director provides leadership of Scottsdale Water facilities and staff that ensure reliable and safe collection, treatment and reuse of reclaimed water.

The ideal candidate will possess a combination of education and job-related experience equal to a minimum of a Bachelor's degree, five years of supervisory experience and seven years of progressively responsible experience in the operation and maintenance of complex wastewater collection, treatment and reclamation systems.

The Water Reclamation Director acts as technical advisor and performs policy-level coordination, advisory and administrative functions relating to the operation and maintenance of Scottsdale's advanced water recycling operations.

SCOTTSDALE WATER CAMPUS

The Advanced Water Treatment Plant at the Scottsdale Water Campus is one of the largest and most advanced water recycling facilities in the world. Recognized by the WaterReuse Research Foundation and the Australian Water Recycling Centre of Excellence as one of the world's most innovative water purification projects, the AWT produces 20 million gallons a day of ultrapure water and was the first indirect potable reuse facility in Arizona.

The state-of-the-art facility, which recently marked 20 years of successful operation, has enabled Scottsdale to recharge over 65 billion gallons of water into our area aquifers, safeguarding the city's long-term water supply while ensuring exceptional water quality in our local aquifers. Due in large part to the recharge efforts at the Water Campus, Scottsdale was the first city in Arizona to meet safe yield and has done so every year since 1986.

ABOUT SCOTTSDALE

Located in the beautiful Sonoran Desert, Scottsdale is nestled between Paradise Valley and the McDowell Mountains. Scottsdale is known for a high quality of life with attractive residential, working and shopping areas. It is an internationally recognized visitor destination and a thriving location for business.

Scottsdale consistently ranks among the nation's best places to live, with top-rated schools, award winning parks, low crime and a vibrant economy.
