1. Scottsdale Arts Management Services Agreement and Scottsdale Mall Ordinance

Request: Presentation, discussion, and possible direction to staff regarding the Scottsdale Cultural Council d/b/a Scottsdale Arts new Management Services Agreement and proposed updates to Scottsdale Revised Code, Chapter 20, Sections 20-106 through 20-120 regarding Scottsdale Mall, including special events held on the Scottsdale Mall.

Presenter(s): Brent Stockwell, Assistant City Manager
Staff Contact(s): Karen Churchard, Tourism and Events Director, 480-312-2890,
kchurchard@scottsdaleaz.gov

Assistant City Manager Brent Stockwell and Tourism and Events Director Karen Churchard gave a PowerPoint presentation (attached) on the proposed Scottsdale Arts Management Services Agreement and Scottsdale Mall ordinance.
There was consensus to have Scottsdale Arts serve as an umbrella organization so arts organizations, such as the Scottsdale Philharmonic and the film festival, come to them for funding requests.

Council suggested the following:

- Add a provision to the Scottsdale Arts Management Services Agreement to open up the possibility of public art displays in other public buildings, including other libraries.
- Provide metrics to support the goals in the agreement, specifically, the goal of increasing reliance on outside funding to 67 percent of total revenue.
- Develop an arts and cultural community needs assessment and include a specific date for its completion in the agreement.
- Provide Council with an annual report and performance measures, including a Scottsdale Arts strategic plan progress report, prior to any funding decisions being made.
- Update the financial participation to spell out the management services fee.
- Use base level funding and performance-based incentives for any increases above the base amount, rather than asking the Council to rework the contract each year.
- Consider other names for the Scottsdale Mall that are more contemporary than Scottsdale Civic Center. (One suggestion that was offered was Old Town Plaza.)
- Include in the Scottsdale Mall Ordinance administrative guidance on the use of the area for special events.

Staff committed to including the strategic plan in the package that comes forward for Council approval.

MOTION NO. 8 AND VOTE – ITEM 2

Councilman Phillips made a motion to approve the timeline submitted by staff, adjusting it by two weeks to allow staff time to answer the questions raised by Council, with the understanding that staff may be able to bring everything back by April 16. Vice Mayor Milhaven seconded the motion, which carried 7/0, with Mayor Lane; Vice Mayor Milhaven; and Councilmembers Klapp, Korte, Littlefield, Phillips, and Whitehead voting in the affirmative.

Council directed staff to bring back additional information, options, and recommendations regarding the cost effectiveness of the solar projects (Item Nos. 57 – 60) before a final decision is made on whether those projects will remain on the list of identified projects for bond funding.

Council sought answers to the following questions:

- (Project 9, Install Fiber Optic Infrastructure to Reduce Operating Costs) What reduction in operating costs would be realized by this project?

- (Regarding the need for a bond) What is the bottom (lowest) number for a bond? When does it makes sense to do a bond? What is the right amount for a bond?

- (Reata Wash) How much damage this year did homeowners experience that wasn’t covered by their flood insurance? In the past 12 months, how many roads were closed and how much did this cost taxpayers? Were there any other costs and how much were they? What did we pay as taxpayers? Were the homeowners and business owners advised that they were buying in a flood zone? If the homeowners and business owners were advised that they were buying in a flood zone and bought flood insurance, were there any exceptions to that? Are there property owners who were not told they have been impacted?

- (WestWorld Ball Fields) Is the $47 million cost rigid, or can it be reduced? How many soccer fields are we going to get and how many weeks are those soccer fields going to be soccer fields versus parking lots? Is there any way to have a public/private partnership for payment of those parking spaces when they are being used as parking spaces instead of soccer fields? Is there a fee we can charge and not be a revenue stream to pay that portion?

- (Project 1, Replace Aging Infrastructure and Improve Public and Event Spaces on Civic Center Plaza) How much is the “event ready” venue? Can the project be trimmed down a bit? Staff was asked to provide additional data that shows the City needs an event ready venue.

- (Project 63, Parking Structures in Old Town Scottsdale) Where are these proposed parking structures? How many spots would the City be getting and will it be enough to satisfy the Downtown merchants? If we spend $22 million on downtown parking does that mean that we don’t spend the proceeds if we sell the land for Museum Square? Does this satisfy the parking needs? Does the project negate the need for additional parking as discussed for Museum Square? Staff was asked to provide firm cost estimates.

- (Project 23, Repair Lakes and Irrigation at Vista Del Camino Park in the Indian Bend Wash) Can we put a provision in the contract that the trees cannot be removed?
3. **City Vagrancy Policies Update**

Presentation, discussion, and possible direction to staff regarding current City policies on vagrancy, panhandling, homelessness, and related issues. This item was added to the agenda at the request of Mayor Lane; Vice Mayor Milhaven; and Councilmembers Klapp, Korte, Littlefield, Phillips, and Whitehead.

City Attorney Bruce Washburn and Human Services Department Director Greg Bestgen gave a PowerPoint presentation (attached) on current City policies on vagrancy, panhandling, homelessness, and related issues.
