

Creating a Healthy, High Performance and Energy Efficient Home

Scottsdale Green Building Education Series

December 3, 2020

6:00 – 8:00 p.m.

Delivered via Zoom Video Conferencing

FREE Webinar

Sponsored by

Delivering water and power™

What every Homeowner should know!

- What features in a home provide **comfort, utility savings**, and a **healthy indoor environment**
- How to more easily spot items that lead to **higher utility bills**
- How do you establish **“miles per gallon”** for a home’s energy efficiency?
- Learn how **PV Solar** and **energy efficiency** complement one another
- Where to find expert help to make **energy efficient repairs**
- Learn what **incentives** are available to homeowners for upgrades
- Understand the differences in energy efficiency between **new** and **existing homes**
- Learn about a few of the most popular new homes **energy efficiency programs**

In this power packed presentation, Daran Wastchak will provide an informative and entertaining overview of the basics of building science and home energy efficiency that will make you think twice about your own home!

After registering, you will receive an email with log-in credentials to join the meeting from your computer and to add to your calendar if you would like.

What others are saying ...

“Daran is absolutely as effective and knowledgeable as anyone I have ever seen in this field. His presentation was awesome!” - Jacky Dixon

“First virtual training for me and I have to admit, wasn't looking forward to it (I prefer face to face learning opportunities). Daran set the bar high!! The material was on point and easily digested!! Highly recommended!!” - Larry Snyder

“Probably the most knowledgeable guy I have ever heard relative to this subject. Great pictures and stories, which are always better than hypothetical ones.” - Mark Dorman

"Daran is an amazing speaker with a talent for delivering information that is digestible and entertaining. He has the ability to teach from a different angle with different viewpoints. I would highly recommend anyone in this field to sign up for one of his classes as he is clearly an expert with a passion to teach!" - Brian Tardif

“Daran’s presentations are always clear, concise, and informative. Being on Zoom didn't change a thing and I still recommend his classes to anyone I can in the industry.” - Josh Holsinger, E3 Energy, LLC

“Daran presents at just the right speed! Presentations frequently lose my interest by going too slow. Not this one! Thank you!” - Joy Dalesio, Arizona Registrar of Contractors

“I have known and worked with Daran on dozens of projects for over 10 years and he is a top-notch expert in both building science and energy efficiency concepts. He knows his stuff, but most importantly he has the unique ability to explain complicated concepts in a way that makes it easy to understand. Not many can successfully do that. Daran can!” - Ken Owens Jr.

Daran Wastchak is the President of Learning Edge, LLC, a firm that specializes in residential energy efficiency training and building science consulting. Daran was a key implementer of the EPA’s ENERGY STAR for Homes program for more than 20 years. He has helped solve warranty issues for hundreds of homes that did not properly heat or cool, had high utility bills, poor indoor air quality, and/or were uncomfortable. Daran has trained thousands of individuals on the basics of building science, energy efficiency for buildings, energy efficiency programs, and the international energy conservation codes. He holds a bachelor’s degree in Construction and master’s and doctoral degrees in Public Administration and Policy from Arizona State University.
