Actual to Revised Budget variance of \$0.6 million or 1%:

The favorable variance is due the improvement in the local economy as people are purchasing more vehicles.

YTD June 2014 Page 5 of 47

Property Taxes

Actual to Revised Budget variance of \$(0.2) million or (1%):

The unfavorable variance in Property Taxes is due to a timing issue with how receipts come in year over year.

% Change vs. Prior Year		-2%	-4%	-11%		

Actual to Revised Budget variance of \$1.8 million or 8%:

The favorable variance in WestWorld is due to increases in facilities rental as there are more events. The favorable variance in Fire Service Charges is due to increases in special events requests. The favorable variance in Court Fines is due to a 7 percent increase in the number of criminal citations issued YTD, while the unfavorable variance in Photo Enforcement is due to a 16 percent decline in the number of citations issued YTD. The favorable variance in Property Rental is attributed to the increase in TPC Rental from 10% to 12.5%. The favorable variance in Miscellaneous is primarily due to the sale of two City owned properties, passport fees, and bond proceeds. The favorable variance in Reimbursements is due to a much larger than expected recovery of expenses.

YTD June 2014 Page 7 of 47

Building Permit Fees and Charges

Actual to Revised Budget variance of \$4.5 million or 46%:

The activity levels in the various revenues falling under Building Permit Fees and Charges such as building permits, right-of-way fees, plan review fees, and engineering plan review fees for single family & multi-family buildings, along with the general improvement of local and national economies.

Interest Earnings

Actual to Revised Budget variance of \$(0.2) million or (23%):

The unfavorable variance is due investments performing slightly less than had been forecast.

Indirect/Direct Cost Allocations

Actual to Revised Budget variance of \$0.1 million or 1%:

No explanation is necessary.

^{*}Beginning in August 2012, the Bed Tax budget and expenditures have moved to the newly created Tourism Development Fund authorized by City Council on May 8, 2012.

^{**}Includes budgeted vacancy savings net of leave accrual payouts, the citywide pay program and funding for Public Safety compensation.

^{***}Includes the Nordstrom Garage Lease Payoff paid for with bond proceeds. Additionally, the Nordstrom payoff was originally categorized as a Debt Service payment but later reclassified as a payment from the Community and Economic Development Division. This adjustment occurred post year-end and the corresponding budget was not able to be moved per Council Resolution causing the budgeted and actual amounts to reside in different locations.

^{*}Includes budgeted vacancy savings net of leave accrual payouts, the citywide pay program and funding for Public Safety compensation.

Actual to Revised Budget variance of \$1.0 million or 1%:

The favorable variance in Personnel Services is related to various divisional savings in Salaries and Wages such as Community Services which used less part-time employees than anticipated, City Auditor left a position vacant and various other savings through the remaining divisions. Overtime at year-end still exceeded forecast but was reduced due to various year-end budget transfers which realigned allocations. The overtime for the fiscal year was driven largely by overtime in 1) Police Department -- Patrol and Traffic Enforcement are seeing increases in overtime to ensure minimum staffing levels and there have been increased vacancies in Communications, additionally SWAT has experienced increased overtime due to additional training and investigations; and 2) Fire Department -- which was primarily driven by vacancies and increased overtime to maintain minimum staffing levels in all stations, additionally there were several members out on transitional duty due to injuries. Also, additional personnel have since been hired and year-to-date overtime has seen a significant reduction over the past few months and is trending in a more favorable direction. Additionally, the savings in Healthcare/Dental/Miscellaneous is due to employees choosing different plans than budgeted resulting in slight differences by year-end.

Total Saved/(Used) YTD of (\$0.9) million:

The City has achieved \$3.8 million in vacancy savings year-to-date offset by (\$1.3) million in vacation and medical leave payouts. In September the Citywide Pay Program was funded and implemented initiating the use of ongoing and one-time dollars for compensation. Additionally, in February the compensation adjustments for the Police Department were funded. The FY 2013/14 adopted budget included \$2.5 million one-time compensation adjustments for the Police Department. However, council later authorized as ongoing for the Police Department, paid in February 2014.

Contractual Services

Actual to Revised Budget variance of \$1.8 million or 3%:

The favorable variance is attributable to fewer callouts for building maintenance in city buildings than was anticipated based on previous activity levels. This variance also relates to contracts that did not receive the expected invoices during this period including invoices for Public Safety and various other invoices such as computer hardware and software related updates. Although the budget for these items is in the period where staff believed the payment would exist there have been delays in the timely receipt of these and other invoices. The banking services contract resulted in large credits received this fiscal year but are not anticipated to continue at that level in future years. Additionally, low use vehicles were returned to Fleet and postage expenses at the City Clerk had large savings due to a reimbursement received for the fall election.

Commodities

Actual to Revised Budget variance of \$0.8 million or 9%:

The favorable variance is primarily the result of the timing and receipt of pending invoices, in certain instances budget adjustments have occurred to minimize this variance moving forward. Also, the preventative maintenance of certain buildings has reduced the need for costly repairs. In addition, the favorable variance is a result of various accounts, such as operating supplies, maintenance services and repair materials, education and recreation supplies, and office supplies which are difficult to budget in the appropriate period as they do not have a predictable spending pattern across all periods throughout the year.

Capital Outlays

Actual to Revised Budget variance of \$0.4 million or 37%:

The favorable variance is related to a year-end adjustment for tax incentives for certain construction projects occurring in Scottsdale. The payment however was paid in an alternate account which creates a more favorable variance than what actually occurred. Also, purchases for pool and playground equipment were misclassified further adding to this favorable variance. When factoring in these scenarios these funds were spent appropriately in the current fiscal year.

% Change vs. Prior Year	45%	-15%	4%	-3%		

Actual to Revised Budget variance of (\$1.0) million or (7%):

The unfavorable variance is related to the payment of MPC Excise Debt funded with the Maricopa County Stadium District (MCSD) and Arizona Sports Tourism Authority (AZSTA) proceeds. Historically this debt was serviced outside the General Fund but a new methodology was adopted this fiscal year after the budget had been developed resulting in this payment occurring from the General Fund. In future years this will continue to occur in the General Fund but will be captured in the budget development process.

Actual to Revised Budget variance of (\$0.4) million or (6%):
The unfavorable variance is related to the CIP - PAYGO transfer-out which is comprised of a portion of construction sales tax. The forecast for the 25 percent of construction sales tax which is to be transferred from General Fund to Capital, was lower than what actually occurred due to increased building activity this fiscal year.

The favorable variance in 0.20% City Sales Tax revenue is due to continued improvement in the local economy. This overall improvement has increased consumer spending, benefitting the various taxes collected. The unfavorable variance in Other Revenue is due to the timing of Federal Grants received for Downtown Trolley Operations.

Actual to Revised Budget variance of \$0.9 million or 3%:

The favorable variance in Personnel Services is due to less overtime being required of emergency crews than anticipated for the fiscal year and using fewer contract workers than was planned. The favorable variance in Contractual is largely due to transit contracts coming in under budget for the year. Additionally, recent overlay projects have occurred in residential areas reducing the need for roadway markings such as striping and there was considerable savings in fuel charges. The favorable variance in Commodities is due to lower than expected costs in maintenance accounts such as building repairs and improvements, and machinery repair and equipment. This is due to a combination of timing and recognized cost savings for materials such as weed control chemicals for alley maintenance.

The favorable variance is due to no Capital Outlays expenditures occurring for the fiscal year because the activities included in these operations did not have a need for capital purchases during this period of time. Additionally, the favorable variance in Transfers Out to Debt Service were less than budgeted as the transfer out to the Museum of the West was not required as the bonds were not issued as originally planned in FY 2013/14.

^a In FY 2014/15, the timing when gains/losses on investments were recognized was retrospectively changed which affects prior periods

Actual to Revised Budget variance of (\$19.4) million or (11%):

The unfavorable variance in Water Service Charges is driven by water sales; more water sales are occurring in the lower tiers and less in the higher tiers than forecasted. The favorable variance in Water Reclamation Charges is driven by new accounts identified through lateral verifications resulting in new start-ups, cooperation with EPCOR water company on recent water use and bill code clean up efforts for multi-purpose buildings. The favorable variance in Non-Potable Water Fees is driven by higher deliveries than forecasted for RWDS, IWDS and McDowell Mountain Golf Course. This favorable variance is offset by lower AWT RO deliveries to the RWDS. The favorable variance in Miscellaneous Revenue is driven by revenue received for the sale of the Water Resources Admin Building, for recycling of used water meters and participation in the Granite Reef Underground Storage Project. This favorable variance is offset by lower than forecasted revenues for the Central Ground Water Treatment Facility. The unfavorable variance in Bond Proceeds is due to the deferral of the bond issuance to FY 2014/15.

Actual to Revised Budget variance of \$6.3 million or 4%:

The favorable variance in Personnel Services is driven by vacant positions with open recruitments. The favorable variance in Contractual is driven by lower than forecasted electrical charges, less maintenance and repairs and a SROG contractual settlement. The favorable variance in Commodities is driven by lower than anticipated filter media costs, lower than forecasted CAP purchased water, partially offset by higher maintenance costs. The unfavorable variance in Capital Outlays is driven by unplanned purchases of an Autoclave and survey equipment. The favorable variance in Debt Service & Contracts Payable is driven by lower interest costs due to the deferral of the bond issuance

a In FY 2014/15, the timing when gains/losses on investments were recognized was retrospectively changed which affects prior periods

Actual to Revised Budget variance of \$1.6 million or 39%:

The favorable variance in Aviation Fees is driven by higher than expected revenue for Aviation Fuel, Transient Parking Fees, Percentage fees for Airport Business Permits (ABPs), Custom Fees and License Agreements. The favorable variance for Miscellaneous Revenue is driven by higher than anticipated fixed tenants rents. The favorable variance for Transfers In-CIP is offset by an unfavorable variance for Transfers Out-CIP, both of which are related to CIP project reconciliations and the corresponding adjustments.

a In FY 2014/15, the timing when gains/losses on investments were recognized was retrospectively changed which affects prior periods

Actual to Revised Budget variance of (\$0.3) million or (2%):

The favorable variance in Maintenance/Operation Rates is reflective of the unexpected repairs on equipment as well as the routine maintenance of older vehicle/equipment. This was offset by the unfavorable variance in Fuel Rates, which is primarily due to the ongoing change from diesel to Compressed Natural Gas vehicles in Solid Waste. The Fuel Rates were also impacted by the cost per gallon for fuel being lower than what was budgeted.

Actual to Revised Budget variance of \$2.5 million or 12%:

The year-end favorable variance is attributable to a timing issue for the reciept of vehicle and equipment in Capital Outlays. The equipment and vehicles were ordered but were not recievied by June 30th. The year-end favorable variance is also the result of diesel fuel's average price per gallon coming in below the budgeted cost per gallon. The variance is also attributable to unleaded fuel consumption being below the projected gallons estimated for budgeting. The savings was partially offset by the city's increased usage of alternative fuels such as E85 and Compressed Natural Gas (CNG).

The unfavorable variance in Medical Premiums - Retiree is due to the number of retirees on the medical plan being less than expected. The unfavorable variance in Other Revenue is due to timing issues on the Self-Insured prescription rebate. These are both offset by favorable variances in Medical Premiums - COS and Medical Premiums - EE which experienced slightly higher revenues than expected due to open enrollment and plans selected.

Actual to Revised Budget variance of \$0.8 million or 3%:

The favorable variance in Medical Claims and Dental Claims is due to overall claim expenditures being less than budgeted for during the reporting period. The favorable variance in Medical Claims - Retirees is due to the number of retirees on the medical plan being less than expected.

Privilege (Sales) & Use Tax Collections For June 2014

(For Business Activity in June 2014)

Appendix 1 contains information regarding the "actual" revenue collections from the 1.0 percent Privilege and Use Tax reflected in the General Fund, 0.2 percent dedicated Transportation Privilege Tax, 0.2 percent dedicated Preserve Privilege and Use Taxes, 0.15 percent additional dedicated Preserve Privilege and Use Taxes, and 0.1 percent dedicated Public Safety Privilege and Use Taxes, including adjustments for related license revenues, late collections and audits. While the report includes the actual year-to-date tax collections for the funds previously noted, only the General Fund portion (1.0 percent) of the tax is unrestricted and available for general government purposes.

The report shows a fiscal year Privilege and Use Tax (1.00% General Purpose) collections increase of 4 percent compared to the Budget, and an increase of 8 percent compared to the same period a year ago.

Rental Sales Taxes

The rental category includes rentals of commercial and residential real property and personal property rentals, (such as rentals of formal wear, DVD's, home health equipment, recreational goods, electronics, appliances, etc.)

Actual to Revised Budget variance of \$0.1 million or 1%: The expanded affiliated company tax exemption that became effective July 1, 2013 hasn't decreased the category as much as initially projected.

Miscellaneous Retail Stores Sales Taxes

This category includes small clothing stores, art galleries, luggage stores, home furnishing stores, jewelry stores, drug stores, hobby stores, household appliance stores, sporting goods stores, florists, computer stores, hardware stores, and pet supply stores.

Actual to Revised Budget variance of \$0.8 million or 5%: There have been larger increases from retailers of computer software and hardware and an increase in new retail establishments. This also includes a couple large one-time audit payments.

Major Department Stores Sales Taxes

This category includes large department stores, warehouse clubs, supercenters, and discount department stores.

Actual to Revised Budget variance of (\$0.3) million or (3%): Normal business fluctuations.

Automotive Sales Taxes

The automotive category includes automobile dealers, motorcycle dealers, automotive repair shops, tire shops, car washes, and car leasing companies.

Actual to Revised Budget variance of \$0.6 million or 5%: This is due to continued increased sales of new and used motor vehicles as well as the opening of two new dealers.

Food Stores Sales Taxes

This category includes grocery stores, candy stores, meat markets and convenience stores.

Actual to Revised Budget variance of \$0.0 million or 0%: No explanation necessary.

Construction Sales Taxes

The construction tax is collected on all construction activity; commercial and residential; new and re-model. It also includes landscaping, painting, flooring installation, siding, roofing, concrete, plumbing, heating, electrical, framing, drywall, infrastructure, masonry, finish carpentry, etc.

Actual to Revised Budget variance of \$1.3 million or 13%: This is due to an increase in single family and multifamily homes.

Dining/Entertainment Sales Taxes

The restaurant category includes restaurants, bars, cafeterias, mobile food vendors, and caterers.

Actual to Revised Budget variance of \$0.2 million or 3%: This is due to an increase in sales from restaurants.

Other Taxable Activity Sales Taxes

This category includes movie theatres, golf courses, gyms, bowling centers, amusement arcades, interior designers, publishers, banks, doctors, lawyers, accountants, beauty salons, barber shops, personal goods repair shops, photographers, advertising, wholesalers, and manufacturers.

Actual to Revised Budget variance of \$0.9 million or 14%: This is due in part to increases in taxable sales from computer hardware/software wholesalers.

YTD June 2014 Page 43 of 47

Hotel/Motel Sales Taxes

This category includes lodging space rental on a short-term basis and other activities provided at the hotel/motel.

Actual to Revised Budget variance of \$0.4 million or 9%: This is due to an increase in conventions.

Utilities Sales Taxes

This category includes businesses that provide telecommunication (landlines and cellular), electricity, gas, or water services.

Actual to Revised Budget variance of (\$0.1) million or (2%): This is due to a decrease in the ownership of landlines.

License Fees, Penalty & Interest

This category consists of application and license fees for Transaction Privilege (sales) tax licenses, interest, and penalties.

Actual to Revised Budget variance of \$0.1 million or 4%: Normal business fluctuations. This also includes penalties and interest associated with large one-time audit payments.

Glossary

To ensure legal compliance and financial management for the various restricted revenues and program expenditures, the city's accounting and budget structure is segregated into various funds. This approach is unique to the government sector. Fund accounting segregates functions and activities into separate self-balancing funds that are created and maintained for specific purposes.

A **fund** is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The city, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The General Fund is the city's chief operating fund and is used to account for all financial resources, except those that are legally required to be accounted for in another fund.

GENERAL FUND SOURCES

Sales Tax - Scottsdale's total city sales tax rate is 1.65 percent. Of that amount, 0.55 percent is dedicated to the specific purposes related to transportation and preservation (which are accounted for in Special Revenue Funds) and 0.10 percent is dedicated to public safety (accounted for in the General Fund). The remaining 1.0 percent of the sales tax is also accounted for in the General Fund and is available to fund basic municipal services such as police, fire, libraries, and parks. Sales tax receipts received in the current month are based on prior month activity. This general-purpose sales tax is the city's single largest revenue source. The sales tax category results can be found in Appendix 1.

State Shared Revenues - These revenues are derived from state shared sales taxes, income taxes (revenue sharing), and vehicle license taxes (auto lieu). On a per capita basis, state sales taxes generated in Scottsdale tend to be higher than most other cities/towns due to higher wealth, consumer spending habits, and larger amounts of visitor/tourist spending. As directed by statute, the State distributes the shared portion of State sales taxes back to local governments based on population, not by the amount of sales taxes collected within the local jurisdiction.

Charges for Services/Other - Charges for Services include numerous revenues such as building permits, recreation fees, fire department fees, WestWorld fees, interest income, and property rentals. Also included are cost allocations from the General Fund to the enterprise funds.

Property Taxes – Property taxes are comprised only of the "Primary" property taxes levied on the assessed value of all property within the city to help pay for basic operations of the City. Secondary property taxes are not included in the General Fund as they must be used solely for General Obligation bond debt service payments. Increases in revenue from year to year reflect new property additions to the tax roll and Council actions to increase total revenue as legally allowed.

Franchise Fees and In-Lieu Taxes – This category represents revenues from utility and cable providers for their permitted use of the city's Rights-of-Way.

Bed Taxes – A transient lodging tax (bed tax) is applied to lodging room charges for stays of 29 days or less in hotels or short-term rentals. Effective July 1, 2010, the bed tax rate was increased from 3 percent to 5 percent, half of which must be spent on destination marketing and half of which is to be used for Capital, Events Development, Administration and other. A new fund was established for Tourism Development after the adoption of the FY 2012/13 budget to account for this revenue.

Transfers In – Transfers in reflects funds received from the Enterprise Funds (In-Lieu Franchise Fees and In-Lieu Property Tax) and Special Programs (30 Day Tow).

GENERAL FUND USES

Personnel Services include the salaries and wages (pay for time worked, overtime premium, vacation, and sick leave) plus the city's contribution for fringe benefits such as retirement, social security, health, and workers' compensation insurance. It is reduced by vacancy savings, but increased for medical and vacation leave accrual payouts that are made at the time of separation from the city.

Contractual Services category includes expenditures for services performed by firms, individuals, or other city divisions.

Commodities includes supplies, repair and replacement parts, small tools, and maintenance and repairs.

YTD June 2014 Page 45 of 47

Glossary

Capital outlays include the purchase of land, the purchase or construction of buildings, structures, and facilities, plus machinery and equipment. It includes expenditures that result in the acquisition or addition of a fixed asset or increase the capacity, efficiency, span of life, or economy of operating an existing fixed asset. For an item to qualify as capital outlay the expenditure must meet all of the following requirements: (1) have an estimated useful life of more than two years; (2) have a unit cost of \$10,000 or more; and (3) be betterment or improvement.

Debt Service & Contracts Payable is primarily debt payments related to Municipal Property Corporation (MPC) bonds where the city's excise taxes are pledged to meet debt service. It also includes contractual obligations related to development agreements (funded by sales tax rebates) which vary based on the actual sales tax collections.

Transfers-Out represents the authorized transfer of cash to other funds, divisions, departments and/or capital projects.

OTHER FUNDS

Transportation Fund is considered a Special Revenue Fund, which is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Transportation Fund receives and expends the city's allocation of the Arizona Highway User Revenue Tax (HURF) as well as other transportation related revenues. The amount of HURF available to each city is allocated based on population. These monies must be used for street construction, reconstruction, maintenance, or transit. The State of Arizona requires the city to establish and maintain an accounting for Highway User Revenue Funds. The fund also accounts for the 1989 voter approved Transportation Privilege (Sales) Tax of 0.20 percent which is dedicated to funding transportation improvements and operations. Fifty percent of the Transportation Sales Tax is transferred to the Capital Improvement Fund for transportation related capital improvement projects.

Tourism Development Fund is a Special Revenue Fund to account for the sources and uses related to tourism. Revenues consist of transient lodging tax (bed tax), lease rental earnings from the Fairmont-Princess Hotel and hospitality trolley sponsorships. Bed tax is the largest portion of this fund and is derived from lodging room charges for stays of 29 days or less in hotels or short-term rentals.

Enterprise Funds are used to account for operations, which are financed and operated similarly to private businesses, where the intent is that the service is self-sufficient, with all costs including debt service supported predominantly by user charges. The city maintains three Enterprise Funds to account for Water & Water Reclamation, Aviation, and Solid Waste activities.

Water & Water Reclamation Funds

This fund accounts for the transactions related to the city's water and water reclamation business activities, including operating revenue, expenditures and debt service payments.

- Water Service Rates are monthly water billings which consist of a base charge according to meter size and a variable charge for the amount of water consumed.
- Water Reclamation Service Rates are monthly charges based on the volume and strength of the sewage discharge.
- Non-Potable Water Rates includes the sale of surface water, reverse osmosis (RO) and effluent treated to irrigation standards. These different water types are delivered to 23 Reclaimed Water Distribution System (RWDS) golf courses, 3 Irrigation Water Distribution System (IWDS) golf courses, the Gainey Ranch Golf Club, the WestWorld golf course and the Inlet/Silverado golf course.
- Miscellaneous Revenue includes rental income, miscellaneous reimbursements and other minor fees.

Aviation Fund

This fund accounts for the transactions related to the city's aviation business activity at the Scottsdale Airport.

- Aviation Rates are charges for a variety of services provided to airport customers including Landing Fees, Airport/Airpark Fuel Fees, Transient Parking Fees, Fixed Tenant Rents, Percentage Fees for Aeronautical Business Permits (ABPs), Custom Fees and miscellaneous other charges.
- Privilege and Use Tax-Jet Fuel are charges earned from jet fuel sales by Fixed Based Operators (FBOs) in accordance with the Scottsdale Revised Code, Article IV, Section 422.

Glossary

Solid Waste Fund

This fund accounts for the transactions related to the city's solid waste and recycling business activities.

 Solid Waste Rates include residential charges which are a flat fee per month and commercial charges which are based on the size of the container and the number of pickups per month. Additionally Solid Waste Rates include roll-off charges, uncontained service charges, recycling program charges, and household hazardous waste collection charges.

Internal Service Funds are used to account for the financing, on a cost-reimbursement basis, of commodities or services provided by one program for the benefit of other programs within the city. The report includes three Internal Service Funds to account for Fleet, Risk, and Benefits activities.

Fleet Fund

This fund is used to account for the expenditures associated with purchasing and maintaining the city's vehicles. Replacement and operation of vehicles are charged to the city departments as internal operating costs to each program based on the quantity and type of vehicle used. The department charges become revenue to the Fleet Fund.

Risk Fund

This fund is used to account for the city's self-insurance, safety and risk management functions. Revenue to this fund is derived from internal charges to division programs and is captured as internal rates. Payments for unemployment, workers' compensation, and property and liability claims are made from this fund

Benefits Self Insurance Fund

This fund is used to account for the city's self-insured medical and dental benefits. Revenue to this fund is derived from premiums collected through charges to division programs, which consists of both city and employee components. Revenue is also collected through premium charges to retirees as well as pharmacy rebates and stop loss insurance recoveries. This fund provides payment of actual healthcare expenses (medical, prescription and dental claims) as well as claims administration and other benefit plan expenses.
