

GROWTH AREAS ELEMENT[†]

Since 1967, Scottsdale has diligently used its General Plan to guide and direct the internal and external influences affecting growth in the community. Scottsdale continuously seeks to ensure that growth occurs in a responsible and contextually appropriate way. This is accomplished through stringent development standards and by identifying locations needing targeted investment. As a result, Scottsdale has a nationally recognized, high-quality built environment and is an attractive place for businesses and residents alike.

The Growth Areas Element identifies specific locations within the community that are most appropriate for development focus, and will best accommodate future growth, new development, and redevelopment. Scottsdale's Growth Areas focus higher intensity development, a planned concentration of land uses, and enhanced transportation and infrastructure in designated areas.

Scottsdale has also designated Activity Areas as locations where development is concentrated, but to a lesser degree than Growth Areas. Activity Areas vary in size, intensity, type of activity, and development. Development in these areas should consider the surrounding context.

The goals and policies of the Growth Areas Element identify Growth and Activity Areas to manage growth and development and maintain the quality and variety of lifestyle choices found throughout the community.

Goals and Policies

GOAL GA 1 †

Direct growth in areas of the city that can support a concentration of development density and intensity, as well as, a broad mix of uses.

Policies

GA 1.1 (NEW) Designate Growth Areas in locations:

- With infrastructure capacity to accommodate higher levels of activity and a mix of uses;‡
- Where infrastructure upgrade/extension will be most cost-effective;‡
- With multimodal transportation access;‡
- Needing focused reinvestment;
- Where regional attractions exist or are planned; and/or
- That will reduce development pressures in lower-intensity areas of the city.

GA 1.2 Identify Growth Area “edges,” and incorporate context-appropriate transitions between these “edges” and adjacent neighborhoods to minimize the impacts of higher-intensity development.

GA 1.3 (NEW) Accommodate the highest intensity of development in designated Growth Areas. Ensure that such development sensitively responds to neighborhoods, infrastructure, and character within and next to Growth Areas. In some cases Character Area Plans may be more specific on appropriate locations for higher intensity development within both Growth and Activity Areas. *[Cross-reference Character & Design Element]*

GOAL GA 2 †

Improve access to automobile, transit, and other mobility options to, from, and within Growth and Activity Areas.

Policies

- GA 2.1** Coordinate a balanced multimodal circulation system that can accommodate changing patterns of development within identified Growth and Activity Areas. *[Cross-reference Circulation Element]*

**GOAL GA 3 †**

Conserve and incorporate significant natural, open space, and cultural resources in the Growth and Activity Areas.

Policies

- GA 3.1** Provide useable public open space as an integral part of Growth and Activity Areas to encourage public gathering, enhance aesthetics, preserve viewsheds, and serve as buffers between differing land uses and intensities. *[Cross-reference Character & Design; Open Space; and Healthy Community Elements]*
- GA 3.2** **(NEW)** Identify and strengthen open space connections within and outside of Growth and Activity Areas. *[Cross-reference Open Space Element]*
- GA 3.3** Integrate art and cultural amenities into Growth and Activity areas. *[Cross-reference Arts, Culture & Creative Community Element]*

GOAL GA 4 †

Promote public and private construction of timely and financially sound infrastructure in Growth and Activity Areas.

Policies

- GA 4.1** (NEW) Promote green building and low-impact development practices to lessen the demand on infrastructure within Growth and Activity Areas. *[Cross-reference Environmental Planning; Conservation; and Energy Elements]*
- GA 4.2** Focus infrastructure improvement and expansion in Growth and Activity Areas. *[Cross-reference Public Services & Facilities Element]*
- GA 4.3** Promote the coordination of infrastructure investment and development activity within Growth and Activity Areas. *[Cross-reference Cost of Development Element]*
- GA 4.4** Set priorities in the Capital Improvements Plan (CIP) for infrastructure maintenance and improvements that serve the complex needs of Growth and Activity Areas. *[Cross-reference Public Services & Facilities Element]*

GOAL GA 5 (NEW)

Recognize and build on the character and diversity of Scottsdale's various Growth and Activity Areas.

Policies

- GA 5.1** (NEW) Support land use compatibility with nearby neighborhoods through context-appropriate development within Growth and Activity Areas. *[Cross-reference Land Use; Neighborhood Preservation & Revitalization; and Character & Design Elements]*
- GA 5.2** (NEW) Protect key economic assets from incompatible land uses in designated Growth and Activity Areas. *[Cross-reference Land Use; Economic Vitality; and Conservation, Rehabilitation, & Redevelopment Elements]*
- GA 5.3** (NEW) Support compact development patterns, which minimize the need for added public facilities, in Growth and Activity Areas. *[Cross-reference Character & Design Element]*
- GA 5.4** (NEW) Promote new development and redevelopment within Growth and Activity Areas that maintains fiscal sustainability, promotes long-term economic development goals, and enhances quality of life. *[Cross-reference Economic Vitality and Cost of Development Elements]*

SCOTTSDALE'S GROWTH AREAS

Because of its geographic size, Scottsdale has identified several Growth Areas. Each Growth Area has distinct characteristics based on the role it plays within the surrounding community and its context within the region. Scottsdale's Growth Areas are:

- **MCDOWELL ROAD/ SCOTTSDALE ROAD GROWTH AREA**, which consists of long-standing commercial properties along both McDowell Road and Scottsdale Road, south of Downtown. The majority of the properties in this Growth Area are in land use or development transition. The transitional nature of the area, as well as its close proximity to surrounding regional amenities, such as Sky Harbor International Airport and Papago Regional Park, provides opportunity for redevelopment and reinvestment to occur along these corridors. Scottsdale Road is the city's backbone, and southern Scottsdale Road can capitalize on its location between Scottsdale's Downtown Growth Area and the City of Tempe's downtown and northern Growth Areas. The intersection of McDowell and Scottsdale Roads is the "hub" of this Growth Area. This Growth Area will be less intense/dense than the Downtown and Greater Airpark Growth Areas. Building heights generally range between two and six stories. The Southern Scottsdale Character Area Plan provides more specific guidance for this Growth Area.

- **DOWNTOWN GROWTH AREA** is the commercial, cultural, civic, and symbolic center of the community. Downtown includes a collection of interconnected, mixed-use urban neighborhoods. While one of the city's local and regional draws for shopping, dining, and entertainment, Scottsdale's Downtown is a prime tourist destination. The Downtown Growth Area, through the Downtown Character Area Plan, denotes locations for some of the greatest development intensity within the community. Building heights generally range between two and six stories, depending on location and neighborhood context, and may exceed six stories in certain areas identified in the Downtown Character Area Plan and the Downtown Infill Incentive District Plan.

- **GREATER AIRPARK GROWTH AREA** is one of the largest employment centers in the State of Arizona. It is headquarters for a multitude of national and regional corporations; center for a variety of smaller and locally-owned businesses; contains the largest employment and industrial-zoned area within Scottsdale; and is home to the Scottsdale Airport. The Greater Airpark Growth Area is also the location of some of the largest, signature special events in the city, such as the Waste Management Phoenix Open golf event, the Barrett Jackson Auto Auction, and the Arabian Horse Show. This Growth Area will be similar in intensity to the Downtown Growth Area. Building heights generally range between three and six stories and may exceed six stories in certain areas identified in the Greater Airpark Character Area Plan. Appropriate locations for higher density/intensity development, and other considerations, are specified in the Greater Airpark Character Area Plan.
