Kickoff

Scottsdale Sports Complex

We are excited for the opening of the new Bell Road Area Sports & Events Improvement Projects listed below. The Sports Complex fields will open in February for the WM Open and followed by the first tournament of the spring. The DC Ranch Community Park will be open to the public later in 2022.

Bell Road Sports Complex

This project is a component of the bond project to Build Multiuse Sports Fields in the Area of Bell Road which was approved by the voters as part of the 2019 Bond Election. The Bell Road Sports Complex will be located on Bell Road just west of 94th Street. This location will include six full-sized multi-use sports fields, parking, lights, restrooms, a plaza, a walking path and maintenance facility.

DC Ranch Community Park

To irrigate the six fields at the Bell Road Sports Complex, an irrigation lake will be built just north of the facility at DC Ranch Community Park. This lake will hold reclaimed water from the nearby water treatment plant which will be used to irrigate the fields. It has not yet been determined what other amenities may be proposed at this location, but the city is working with the DC Ranch Community Association on a collaboration for any further improvements and a public process will be held to discuss any proposed amenities in the future.

Did You Know

New High Efficiency, LED Lights installed on Fields 5 & 6 at the Scottsdale Sports Complex

Total Light Control Technology

LED is simply the newest tool for addressing the same issues that have endured over decades—how to put more light on your field, spill less around it, and reduce energy consumption and operating costs. Musco's Total Light Control—TLC for LED™ system achieves a level of precision never before possible.

For the Environment

The system will dramatically reduce the carbon footprint, cutting the energy consumption by up to 35 percent, while providing a safe, and well-lit playing surface. And with the virtual elimination of glare and wasteful light spill into the surrounding area, the neighbors will enjoy a welcomed curtain of darkness.

Benefits

- **Visibility** – Customized optics direct light onto the field and minimizes glare from shining into the eyes of athletes and fans
- **Efficient Controls** – Instant on/off capabilities and dimming controls conserve energy and adjust light power output
- **Energy Efficiency** – Energy consumption reduction of up to 35% less power than traditional field lights
