

SCOTTSDALE TRANSPORTATION MASTER PLAN UPDATE 2015 FEEDBACK

QUESTION:

Where would you put on-street bike lanes and/or a multi-use path in Scottsdale?

Clay Wells

The bike lane needs to be completed on Dynamite/ East Rio Verde Dr. roughly between 118th Street and the city limit line with Maricopa County.

Angelo Bonfieti Jr.

The bike path could continue beyond 92nd St, go west and then south to get back to Tempe lake creating a nice bike loop of a few dozen miles - all with over/underpass crossings.

Also, there could be some light for night riders in the path.

But I agree that so far Scottsdale had done a great job, thank you!

Cristopher Michael

Would love to see more/better connections on the Canal especially at 64th St. & Thomas as well as 64th St. & Indian School and at 68th St. & Indian School - bridge, tunnel, diagonal crosswalk with timing, etc. More bike signage on the roads & side poles as well as bike lanes anywhere and everywhere, especially protected. Traffic calming and controlling in neighborhoods with more bike boulevard emphasis. Overall, pretty great work to date - thank you!

Amy Stephens

Frank Lloyd Wright, Thompson Peak, Pima, Bell, Scottsdale Road. Would love to see SAFER ways for people to bike and drivers (local & tourists) understand how to share the road. There are beautiful ways to share the road. Similar to a median & landscaping if that is of concern. Would share more info if wanted.

Bonnie Serino

A bike path to Talking Stick resort & Casino Arizona. How about on the Rez?

Richie Di Angelo

Goldwater, Indian School needs a safer Bike lane at night. It's scary.
