

CITY OF SCOTTSDALE, ARIZONA

COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR THE FISCAL YEAR ENDED JUNE 30, 1985

ABOUT THE COVER

Building A New City . . . A World-Class City!

All across the country, Scottsdale is recognized as a city with a difference; an innovative city that knows what it wants to be and how to achieve it. Benefiting from the dedicated efforts of a very forward-thinking City Council and an involved citizenry, the city was first with solutions like the Indian Bend Wash Flood-Control Greenbelt Project, a model city sign ordinance, a successful civic center redevelopment and a hillside environmental protection ordinance.

With the onset of the 1980's, Scottsdale entered an entirely new era of growth — not simply in population, but in terms of building a new city. Downtown revitalization is under way, our transportation system is being redesigned, important water management policies are being written, master planned development is occurring in the north and city service levels and demands are increasing.

A proactive community, the Scottsdale tradition is to act boldly and innovatively — before significant problems develop. Scottsdale is building . . . planning . . . engineering a world-class city of tomorrow . . . today.

THE CITY

Scottsdale City Council

The City of Scottsdale, Arizona was incorporated in 1951. At that time, the land was less than one square mile and the population under 2,000. Today, Scottsdale encompasses more than 147 square miles and has a population just over 100,000.

Scottsdale is a dynamic community with a reputation for financial soundness. Because of its strong investment characteristics, Moody's Investors Service, Inc. has given Scottsdale an "Aa1" rating — the highest general obligation bond rating of any municipality in Arizona. Illustrating the city's conservative approach to responsible financial management is our proven "pay-as-you-go" policy for financing many capital improvement projects. The city, under this policy, pays cash for its major improvements rather than going into debt.

Scottsdale's revenue comes from a variety of sources. Tourism is a key factor in the revenue, as nearly 1.5 million visitors each year contribute through their spending in hotels and motels, and in restaurants and retail stores. The city's overall economy, however, is diverse, with more garden-type industries being attracted to this area each year. Although growing at an impressive rate, Scottsdale has successfully retained the friendliness of a small western community, while developing a renowned quality-of-life for residents and visitors alike.

**INTRODUCTORY
SECTION**

September 27, 1985

To The Honorable Mayor and City Council
City of Scottsdale, Arizona

Dear Mayor and City Council:

The Comprehensive Annual Financial Report of the City of Scottsdale (City), Arizona, for the fiscal year ended June 30, 1985, is submitted in accordance with Article 6, Section 14, of the City Charter. This report was prepared by the City's Accounting and Budget Program. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City. Staff believes the data, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the City as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included.

This report consists of three sections. The Introductory Section contains this letter of transmittal which highlights the financial affairs of the City for the fiscal year and the supplemental Certificate of Conformance in Financial Reporting issued to the City for its June 30, 1984, annual financial report. The Financial Section includes: (1) The opinion of the independent certified public accountants based upon their audit as required by City Charter and State Law; (2) Combined financial statements; (3) Combining statements - by fund type and individual fund; and (4) Schedules presenting greater detail for information reported in the statements. The Statistical Section includes financial information for both prior and current periods of time and related non-financial data which provide insight into the financial basis of the City.

Financial Policies

The accounting policies of the City conform to generally accepted accounting principles as applicable to governmental units.

- Own Source of Income (Enterprise)

The Proprietary Funds are maintained on the accrual basis of accounting. The accrual basis of accounting recognizes revenue when it is earned and measurable and expenses when incurred, if measurable. The Governmental and Fiduciary Funds are maintained on the modified accrual basis of accounting. The modified accrual basis of accounting recognizes revenue when cash is received, except for amounts, which, if determinable, are recognized as revenue when measurable and available. Expenditures are recognized when

Trusts*

Financial Policies (Continued)

Liabilities are incurred, if measurable, except for unmatured interest on general long-term debt and on special assessment indebtedness secured by interest-bearing special assessment liens, which are recognized when due.

The City's accounting system gives due consideration to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. The City's internal accounting controls are considered to be adequate to safeguard the assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary control is maintained by a monthly allotment system and the encumbrance of allotment balances with purchase orders prior to their release to vendors. Purchase orders which exceed allotment balances are not released until additional appropriations are made. Open encumbrances are reported as reservations of fund balance at June 30, 1985.

This report includes the funds and account groups of all organizational entities for which the City has oversight responsibility and are consequently determined to be includable in the City's financial reporting entity in accordance with National Council on Governmental Accounting Statement 3, Defining the Governmental Reporting Entity. The statements include the activities and functions of the City of Scottsdale Municipal Property Corporation but not those of the Industrial Development Authority for the City of Scottsdale nor the Scottsdale Public School System. Further data defining these determinations is available in the Notes to Financial Statements.

Financial Overview

A comparison of fund balances for Governmental and Fiduciary Funds shows a large increase in total. The General Fund, Debt Service Funds, and Capital Projects Funds show substantial increases in fund balance. The General Fund increase can be attributed to continued economic expansion and the effect of the Asset Transfer Program which provides for Capital Improvements to be funded from the Capital Projects Funds. The Debt Service Fund increase is created by continued contributions to satisfy the Sinking Fund requirement associated with the 1973 General Obligation Storm Sewer Bonds and the inclusion this year of Municipal Properties Corporation debt service requirements. The Capital Projects fund increased \$31.6 million over last year. During the year \$59.2 million was added from Municipal Property Corporation bond proceeds for construction of assets for the City. The fund balance will decrease each year as the assets being constructed are completed. The Special Assessment Fund balance decreased \$3.9 million. This occurs because expenditures are recorded currently, whereas the revenue associated with the Special Assessments is recorded over the life of the special assessment receivable. The assessment receivable is greater than the deficit shown.

Governmental and Fiduciary Funds Revenue

Revenue for Governmental and Fiduciary Funds totaled \$69,352,889 in 1985, an increase of 26.4 percent over 1984. Taxes - Local increased \$3,563,585 over 1984, with local privilege tax providing the major portion of the increase. Taxes - Intergovernmental increased \$2,103,456 over 1984, with State Shared Sales Tax reflecting a strong statewide economic recovery and Auto Lieu Tax displaying the rebound of auto sales. Grants increased \$903,833 from last year's actual as a result of increased Federal aid. Charges for current services are over last year's actual by \$867,282 which represents continued growth in the construction industry. Use of Money and Property increased \$6,037,788 over 1984 because of interest generated by unexpended bond proceeds, and the Asset Transfer Program.

Another interesting comparison is that of percentage contribution by revenue source. This comparison generally shows changes that are explained above.

<u>Revenue Source</u>	<u>FY 1984-85</u>	<u>FY 1983-84</u>	<u>Increase (Decrease)</u>

Governmental and Fiduciary Funds Expenditures

Expenditures of Governmental and Fiduciary Funds increased by 70.8 percent or \$39,776,298 over 1985. The unusual increases occurred in Debt Services and Capital Improvements which increased \$8,324,554 and \$23,054,835, respectively. Debt Service reflects the new bonds issued in 1983 plus the increases in contractual obligations such as Municipal Properties Corporation debt. Capital Improvements increased due to the expenditure of the funds created by new bonds and Municipal Properties financings.

Treasury Management

Temporarily, idle cash was invested during the year in Time Certificates of Deposit, U. S. Treasury Securities, Federal Agency Securities, the State of Arizona Investment Pool, and Repurchase Agreements. These investments yielded 11.23 percent on an average daily invested balance of \$71,375,000. At June 30, 1985, the investments totaled \$118,692,953 and consisted of:

U. S. Treasury Securities	\$ 5,459,124	4.6%
Federal Agency Securities	46,578,674	39.2%
State Investment Pool	33,670,000	28.4%
Improvement District Bonds	222,000	.2%
Certificates of Deposit	15,589,155	13.2%
Repurchase Agreements	17,174,000	14.4%
	<u>\$118,692,953</u>	<u>100.0%</u>

The maturities for these investments range from five days to thirty years with interest yields from 6.5% to 12.75%.

Debt Administration

The ratio of annual debt service for general bonded debt to total general expenditures provides an indication of a municipality's ability to meet debt service requirements. This percentage is 5.43 percent for 1984-85 compared to 3.52 percent for 1983-84. More detailed information about bonded debt can be found in the Statistical Section.

The City presently has the following bond ratings: General Obligation Bonds Moody's Investor Service Aa 1, Standard and Poor's AA; Water and Sewer Revenue Bonds - Moody's Investor Service A-1, Standard and Poor's A; Highway User Revenue Bonds - Moody's Investor Service A-1, Standard and Poor's AA. Additionally, the City has a legal debt margin of \$23,638,512 for 6% General Obligation Bonds and \$126,432,428 for 20% General Obligation Bonds. There is no legal limit on Revenue Bonds.

General Fixed Assets

The general fixed assets of the City are those assets used in the performance of general governmental functions and exclude the fixed assets of utilities and other enterprise activities. As of June 30, 1985, the general fixed assets of the City amounted to \$414,546,302. This amount represents the original cost of assets or the estimated fair market value where the original cost was not calculable or where the asset was contributed by a developer or other party to the City. The values for land and for buildings and improvements for statement purposes are considerably less than their present value. Depreciation of general fixed assets is not recognized in the City's accounting system.

Water and Sewer System

The retained earnings for the water and sewer system have increased \$8,478,091 over last year. The primary reasons for this increase are higher revenues for water service charges of \$1,334,182, water development fees, \$325,804, sewer development fees, \$160,322, and sewer service charges, \$301,068.

Expenses have increased \$753,963 over last year for a total of \$7,562,763. Water and Sewer operations have increased \$670,693 and decreased \$541,914, respectively, over last year. Depreciation expense increased \$337,591 over last year due to added system facilities.

Airport

The net loss for the Airport increased \$40,856 from last year to \$252,310 for fiscal year 1984-85. Revenue increased \$64,340 over last year due primarily to revenue from an increased number of businesses offering services at the airport. Expenses increased \$128,324 from last year with \$107,890 occurring in airport operating expenses.

Public Housing Fund

The Public Housing Fund is operated in conjunction with the Neighborhood Development Project providing low-cost, subsidized housing for those families that were displaced by the project. During 1984-85 all remaining rental properties were sold. Notes Receivable in the amount of \$522,333 are held by the City from the property sales. Retained earnings at June 30, 1985, total \$31,085 up from last year's deficit of \$134,414 due to gains on the sale of the properties.

Internal Service Funds

These funds provide services or commodities to other programs within the City. The intent is to be self-sustaining by charging the users a fee that is consistent with the fund's cost of providing the service. The Motor Pool Fund achieved a net decrease in unreserved retained earnings of \$15,362 on

Internal Service Funds (Continued)

total revenue of \$3,679,910 down from last year's total revenue of \$3,891,005. This revenue reduction was planned for this year so that user fees charged reflected the actual cost of providing the services.

Significant Events and Accomplishments for Fiscal Year 1984-85

- o The local economy registered a significant increase over last year.

Local Privilege Tax receipts increased \$2,497,890 or 15.3 percent. Inflation as measured by the Phoenix Metro CPI increased 5.9 percent during the same period.

State Shared Sales Tax increased \$391,143 or 8.5 percent. This tax source did not grow as much as the local privilege tax.

3,917 residential building unit permits were issued, up 413 permits from last year. Single family unit permits were up 352 and multi-family unit permits were up 61.

Residential and non-residential permit valuations totaled \$548.3 million for 1984-85, up \$128.2 million (30.5 percent) from \$420.1 million total permitted valuation in 1983-84.

- o Developed and implemented a comprehensive Corporate Wellness Program for all City employees and their immediate families.
- o Implemented a joint training accreditation with Scottsdale Community College for the Scottsdale Professional Development Program.
- o Implemented the Human Resources Network with major Scottsdale employers (Scottsdale Memorial Hospital, Sentry Insurance, Rural/Metro Fire Corporation, and Scottsdale School District) to exchange information and strengthen organizational ties.
- o Developed and implemented an action plan to bring all City facilities into compliance with Federal handicapped access regulations.
- o Planned and conducted Volunteer Awareness Day including a public seminar on volunteerism.
- o Implemented project ELF (Eliminate Legal Files) and City-wide records retention program which resulted in annual savings and cost avoidance of two million dollars.
- o Implemented Phase Two of the City's Comstar Computer System by installing an additional 150 terminals and training 200 employees for a total of 300 terminals installed and 400 employees trained.
- o Received international acclaim by winning THE GOLD FIRST AWARD FOR OFFICE AUTOMATION.

Significant Events and Accomplishments for Fiscal Year 1984-85 (Continued)

- o Installed computer terminals in the homes of the Mayor and City Council in efforts to improve service to the citizens of Scottsdale.
- o Implemented a City-wide automated file drawer to speed up City staff access to frequently used information.
- o Completed, after more than 20 years of construction, the Indian Bend Wash Greenbelt Flood Control Project. It was formally dedicated with three days of ceremonies and recreational activities, and an official history of the completed project was published.
- o Fifty-five City employees received comprehensive video production training from the City's in-house video production facility in support of Citycable 7.
- o Presentations given by more than 60 staff members during FY 84-85 to local service clubs and organizations as part of the City's Speakers Bureau outreach program.
- o Introduced SCOTTSDALE CITIZEN magazine during FY 84-85. This publication/newsletter was mailed to every Scottsdale resident and business at no cost to the City.
- o A series of successful, City Council, neighborhood meetings was held throughout the community in early 1985. Input from these meetings is being used to increase our communication effort regarding areas of concern to our citizens.
- o The Scottsdale Community Cable Corporation (SC3) was established to "promote" community television programming for cablecasting. United Cable submitted the first two \$50,000 semi-annual payments in support of the SC3.
- o The Office of Cable Communications monitored the completion of construction of the service area extending as far east as 128th Street and as far north as the Airpark. The cable system currently consists of 538 miles of plant serving 20,000 subscribers.
- o The City has received the video equipment package committed by United in their license agreement to support municipal programming on Citycable 7. This programming will greatly expand the City's communication with Scottsdale citizens.
- o Consumer protection provisions in the renegotiated cable television license agreement, along with a renewed effort by United to improve its relationship with subscribers, has significantly decreased the level of complaints filed with the Office of Cable Communications. A total of 237 complaints were filed during the year compared with 633 for 1983-84.
- o Five hundred eighty-seven Scottsdale City employees pledged \$25,000 through payroll deductions for the restoration of the Statue of Liberty and Ellis Island and planned the 100th anniversary celebration of these important symbols of our heritage.

Significant Events and Accomplishments For Fiscal Year 1984-85 (Continued)

- o Public event days at the Arts Center increased 11.6% over last year for a total of 672.
- o Added three new agencies to the senior center social services: Gray Panthers Shared Housing, AARP/NRT Health Insurance Counseling, and Senior Adult Live-in-Care Program.
- o Realized a 42% increase in children served by back-to-school clothing drive.
- o The new 1,000 square foot Vista Food Bank was completed. This food bank is in full use and has increased the space available for food storage and also the sorting of donated food much more efficiently.
- o Completed the final selection of an automated library system vendor, and installed computer hardware cables and related peripherals.
- o Initiated a 24-hour automated telephone renewal service for library patrons.
- o McCormick Railroad Park had over 10,000 more train riders than the previous year, with a total of 133,945 riders.
- o One thousand four hundred thirteen violations were filed in City Court for an increase of 50% from last fiscal year. No special enforcement had been initiated to account for the increase.
- o Thirty-six thousand two hundred forty complaints were filed in City Court, an increase of 16% from last fiscal year. Additional police personnel, special enforcement (trucking violations, urban fishing license, motorcycle patrol), and City growth contributed to the increased number of citations written.
- o The court has implemented a new service counter area and an automated call answering phone to provide better service to the public.
- o Credit cards are now accepted by the City Court for paying court imposed fees.
- o Completed the airport master plan and noise compatibility program.
- o Completed a major runway and taxiway overlay project.
- o Total airport operations (takeoffs and landings) for calendar year 1984 were 156,620, an increase of five percent over calendar year 1983, reversing a four-year declining trend.
- o In maturing neighborhoods applied 796,306 square yards of asphalt treatment.
- o Pumped 6,566.23 million gallons of water up from 6,364.7 million gallons in FY 83-84.

Significant Events and Accomplishments For Fiscal Year 1984-85 (Continued)

- o Sanitation absorbed 1,564 homes into Residential Collection without adding equipment or personnel.
- o In FY 84-85 Sanitation removed 171,612,000 pounds of refuse, an average of 1,492.3 pounds per citizen.
- o Developed and implemented Asset Transfer Financing for various City properties generating additional revenue to the City of \$5.6 million.
- o Implemented a joint-auditing plan with major Arizona cities and the State for the auditing of businesses and for compliance with Local Sales Tax Ordinance.
- o Risk Management successfully completed its seventh year of self-insurance. Cost of risk for City's workers compensation and liability exposures was significantly less than the cost of available conventional insurance.
- o Adopted Ordinance 1709 requiring all structures within the City of Scottsdale be equipped with fire sprinklers.
- o Continued refinement of the One-Stop Shop development process resulting in 92 percent of private development plans and capital projects submitted being reviewed within five days since January 1, 1985.
- o Implemented fast track construction process on eight major developments including Civic Center Underpass, CAP Treatment Plant, and Horsemen's Park.
- o Instituted Zoning Blitz concept and completed the area south of Indian School Road. The purpose of the blitz was to improve the appearance of our older, established neighborhoods by going house-to-house informing residents of zoning violations on their property.
- o Completed construction of the TCE Treatment Facility. This facility was in operation in time to help beat summer peak water use and is the first plant in Arizona to clean TCE contaminated drinking water.
- o Ground was broken on the Central Arizona Water Treatment Plant. Scottsdale's negotiated agreement with the Scottsdale Water Service Company which contracts with private enterprise to design, finance, construct, and operate the plant, is the first of its kind in the country.

Future Outlook

The 1985-86 budget provides for an operating expenditure level of \$64 million, up 21 percent from last year. In addition a contingency program of \$32 million was approved of which \$28 million is designated for capital improvements. The capital improvements projects will be awarded periodically if sufficient revenue is received to fund the projects. This insures that the operating programs can be funded before capital programs, should the actual economic situation be less favorable than anticipated at budget preparation time.

The budget for 1985-86 estimates current revenue at \$13 million more than budgeted for 1984-85. This is a 16 percent increase with the significant revenue increases being:

Privilege Tax increases \$1,887,000 over the adopted budget for FY 1984-85. Construction and Utilities are projected relatively flat, whereas Automotive, Food Stores, Rentals, Restaurant, and Other Taxable Activity are projected to be up 5% to 15%.

Interest earnings increases \$5,580,000 over adopted budget for FY 1984-85. Pooled investment income is estimated at \$53,400,000 average daily balance at 11.4%. Non-pooled interest income is estimated at \$1,095,000.

Property Tax revenue increases \$933,000. This is comprised of a decrease of \$92,000 in the primary portion of the levy and a \$1,025,000 increase in the secondary portion. We estimate that the overall tax rate will be reduced by one cent from last year to \$.89.

Highway User Tax increases \$1,360,000 which represents a 29% increase over budgeted 1984-85 revenue. Highway user estimates are provided by the Arizona Department of Transportation and represent the City's share of the State tax on gasoline and related automotive services.

Capital Improvement Project Reimbursements decreases \$2,433,000. Sale of the Corporation Yard and reimbursement from adjacent property owners for Shea Boulevard improvement from Pima Road to CAP carry over from FY 1984-85 to FY 1985-86. Additional revenue in FY 1985-86 will be realized from FAA reimbursements.

Operational expenditures are budgeted for 1985-86 at \$11 million more than 1984-85. This is a 21 percent increase with the significant increases being:

An increase of \$4,470,000 for personal services includes the projected cost changes for existing fringe benefits and a provision for wage adjustments for employees during FY 1985-86.

The Contractual Services increase is due to the addition of Planet Ranch and Horsemen's Park. Also, community promotion expenditures increased \$108,000 as a result of increased hotel/motel receipts and the addition of a payment to the Valley of the Sun Convention Bureau. Liability and property insurance premiums increased \$235,000. Arizona Water Users Association dues increased \$82,000.

Future Outlook (Continued)

A major increase in commodities is due to agricultural items and materials for Planet Ranch.

Capital outlay increases include \$182,000 for equipment for Planet Ranch, and a \$558,000 increase in the value of fleet vehicles being replaced in FY 1985-86.

Debt Service requirements have increased \$12,543,094 as a result of contractual obligations for the telephone, computers, the downtown projects, and the golf course. The planned sale of General Obligation and HURF Bonds adds \$2.3 million to the Debt Service requirements.

Capital Improvements Rebudgets have increased \$6,691,000. This is a preliminary estimate of capital items that are budgeted in FY 1984-85 but will not be finished until FY 1985-86.

The budget includes the addition of 68 full-time positions over the current authorized position level of 874. The FY 1984-85 budget originally authorized 819 full-time positions with 55 positions being authorized during the fiscal year.

The budget does not include any new or increased user fees.

This is the fourth year that the City is subject to the State expenditure limitation law. The proposed budget is estimated to be \$14.5 million under the State calculated expenditure maximum. The voter approved exclusion for capital improvement projects is included; without it, the proposed budget would be \$13.5 million in excess of the limitation.

The self-insurance reserve fund balance is planned to increase \$97,000 to \$1,902,492 by the end of FY 1985-86. During FY 1985-86 insurance costs are anticipated to increase substantially as the insurance industry undergoes a major market adjustment. The City is considering reducing some of this increased cost by increasing the retention level for excess insurance from \$100,000 to \$250,000 per occurrence.

A new service for the youth of Scottsdale is included in the budget. Youth and Family Services will provide counseling, education, and employment opportunities for problem or potential problem youth.

The FY 1985-86 Budget anticipates continued growth in retail sales, new business expansion, and both residential and commercial construction. The level of growth is anticipated to be just slightly less than that experienced in FY 1984-85.

Certificate of Conformance

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Conformance in Financial Reporting to the

Certificate of Conformance (Continued)

City for its comprehensive annual financial report for the fiscal year ended June 30, 1984.

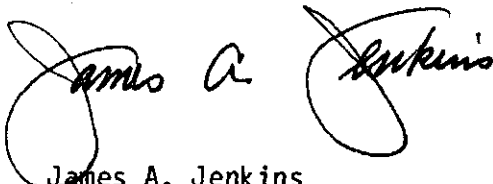

In order to be awarded a Certificate of Conformance, a governmental unit must publish an easily readable and efficiently organized, comprehensive, annual, financial report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Conformance is valid for a period of one year only. It is believed the current report continues to conform to Certificate of Conformance Program requirements, and the City will submit it to Governmental Finance Officers Association to determine its eligibility for another certificate.

Acknowledgment

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the accounting program, who assisted and contributed in its preparation. I also wish to thank your office and members of the City Council for their interest and support in planning and conducting the financial affairs of the City in a responsible and progressive manner.

Respectfully submitted,

The Honorable Members of the City Council
City of Scottsdale, Arizona:

We have examined the combined financial statements of the City of Scottsdale, Arizona and the combining and individual fund financial statements of the City as of and for the year ended June 30, 1985 as identified in the Financial Section Table of Contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the combined financial statements referred to above present fairly the financial position of the City of Scottsdale, Arizona at June 30, 1985 and the results of its operations and the changes in financial position of its proprietary fund types for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year. Also, in our opinion, the combining and individual fund financial statements present fairly the financial position of the individual funds of the City of Scottsdale, Arizona at June 30, 1985 and the results of operations of such funds and the changes in financial position of individual proprietary funds for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole and on the combining and individual fund financial statements. The exhibits of supplemental information identified in the Financial Section Table of Contents are presented for purposes of additional analysis and are not a required part of the financial statements of the City of Scottsdale, Arizona. The information has been subjected to the auditing procedures applied in the examination of the combined, combining, individual fund, and account group financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

CITY OF SCOTTSDALE
 NOTES TO FINANCIAL STATEMENTS
 FOR THE FISCAL YEAR ENDED JUNE 30, 1985

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Scottsdale (City) was incorporated on June 25, 1951, under Arizona Revised Statute Chapter 9, Section 101. The current City Charter was adopted on November 16, 1961, under Arizona Revised Statute Chapter 9, Section 281. The Charter provides for the Council - Manager form of government and provides such services as are authorized by the Charter, as limited by the State Constitution.

The accounting policies of the City conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of the more significant policies:

A. Basis Of Presentation - Fund Accounting

The accounts of the City are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenue, and expenditures or expenses. The various funds are summarized by type in the financial statements. The following fund types and account groups are used by the City:

GOVERNMENTAL FUND TYPES

General- The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specified purposes.

Debt Service - Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Capital Projects - Capital Projects Funds are used to ensure that revenue designated for certain purposes is properly used. A capital projects fund further enhances reporting to ensure that requirements regarding the use of the revenue were fully satisfied.

Special Assessment - Special Assessment Funds are used to account for the financing of public improvements or services deemed to benefit the properties against which special assessments are levied.

FIDUCIARY FUND TYPES

Trust and Agency - Trust and Agency Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FIDUCIARY FUND TYPES (Continued)

The City's Trust and Agency Fund is an expendable Trust and Agency Fund, which is accounted for and reported as a governmental fund.

PROPRIETARY FUND TYPES

Enterprise - Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenue earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service - Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City, on a cost-reimbursement basis.

ACCOUNT GROUPS

General Fixed Assets - This account group is established to account for all fixed assets of the City, other than those accounted for in the proprietary funds.

General Long-Term Debt - This account group is established to account for all long-term debt of the City except that accounted for in the proprietary funds and special assessment funds.

B. Basis of Accounting

The modified accrual basis of accounting is followed by the governmental and fiduciary fund types. Under the modified accrual basis of accounting, revenue is recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures, other than interest on long-term debt which is recorded when due, are recorded when the liability is incurred.

In applying the susceptible to accrual concept to intergovernmental revenue, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of this revenue. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the City; therefore, revenue is recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and nearly irrevocable, i.e., revocable only for failure to comply with prescribed compliance requirements, e.g., equal employment opportunity. These resources are reflected as revenue at the time of receipt or earlier if they meet the available criterion.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

Licenses and permits, charges for services, fines and forfeitures, and miscellaneous revenue (except investment earnings) are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned since they are measurable and available (See Note 4 for a discussion of property taxes.)

The proprietary fund types are accounted for using the accrual basis of accounting. Revenue is recognized when earned and expenses are recognized when incurred. Unbilled utility service receivables are recorded at year end.

C. Budgetary Data

The City Council follows these procedures in establishing the budgetary data reflected in the financial statements:

- o The budgetary process encompasses both the appropriated budget and the legally authorized but non-appropriated budget. The general, enterprise, internal service, special revenue, and debt service funds have appropriated budgets. The capital projects, special assessments, trust and agency funds have non-appropriated budgets. Grants have non-appropriated budgets within the applicable fund.
- o On or before the second regular Council meeting in May, the City Manager submits to the City Council a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
- o Two public hearings are held prior to the budget's final adoption in order to obtain taxpayer comments.
- o At the first regular Council meeting in June, the budget is legally enacted through passage of an ordinance. The ordinance sets the limit for expenditures during the fiscal year. Additional expenditures may be authorized for expenditures directly necessitated by a natural or man-made disaster as prescribed in the State Constitution, Article 9, Section 20. No such action was taken during this fiscal year.
- o The expenditure appropriations in the adopted budget are by department. The maximum legal expenditure permitted for the fiscal year is the sum of all departmental expenditure appropriations. Departmental appropriations may be amended during the year.
- o Upon the recommendation of the City Manager and with the approval of the City Council, transfers may be made from the appropriations for contingencies to departments. At the request of the City Manager and within the last three months of the fiscal year, the City Council may transfer unencumbered appropriations from one department to another.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Budgetary Data (Continued)

- o Management control of budgets is further maintained at a line item level within department. Transfers between line items within a department may be done only upon approval of the City Manager.
- o Initial year budget information can be amended during the year in a legally permissible manner.
- o All expenditure appropriations lapse at year-end.

Certain differences as described in Note 2 exist between the basis of accounting used for budgetary purposes and that used for reporting in accordance with generally accepted accounting principles.

Budgets for the Community Development and Grants Funds, included as Special Revenue Funds, are established pursuant to the terms of the related grant awards. Accordingly, no annual budget is prepared and no comparison of budget to actual is presented in the financial statements.

D. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in the governmental and fiduciary fund types. Encumbrances are reported as reservations of fund balances since they do not constitute expenditures or liabilities.

Encumbrance accounting is not employed in the proprietary fund types since they are reported on the accrual basis. Commitments in the proprietary funds at June 30, 1985, aggregated approximately \$1,200,000.

E. Investments

Investments are stated at cost, or amortized cost, which approximates market. The City's policy is to invest in certificates of deposit, repurchase agreements, direct U. S. Treasury debt, and securities guaranteed by the United States Government or any of its agencies.

F. Inventories

The costs of inventory items are recorded as expenditures when purchased for financial statement purposes and are included on the balance sheet of the General Fund. Inventories aggregated \$197,183 at June 30, 1985, based on a lower of cost or market valuation with cost being determined using an average cost method.

G. General Fixed Assets

General fixed assets have been acquired for general governmental purposes. Assets purchased are recorded as expenditures in the

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. General Fixed Assets (Continued)

governmental fund types and capitalized at cost in the General Fixed Assets Account Group. Contributed fixed assets are recorded in general fixed assets at fair market value on the date of acquisition.

It is the City's policy to include public domain fixed assets, such as, roads, bridges, streets, and similar items in the General Fixed Assets Account Group.

No depreciation has been provided on general fixed assets.

General fixed assets sold or otherwise disposed of are eliminated from the accounts.

H. Property, Plant, and Equipment - Proprietary Fund Types

Property, plant, and equipment of the Enterprise and Internal Service Funds are stated at cost or, if donated, at fair market value on the date of acquisition. Depreciation and amortization are provided on the straight-line method over the following estimated useful lives:

Water System	10 to 75 Years
Sewer System	30 to 50 Years
Buildings and Improvements	25 Years
Motor Vehicles and Other Equipment	5 to 10 Years
Furniture, Fixtures, and Office Equipment	5 to 10 Years

When fixed assets of proprietary fund types are disposed, the cost and accumulated depreciation or amortization is removed from the accounts, and the appropriate gain or loss is recognized.

Contributions of funds from Federal, State, or local grants restricted for the purpose of purchasing property, plant, or equipment are recorded as equity contributions. Depreciation of contributed assets is recorded as an expense in the statement of operations.

I. Excess Purchase Price Over Fair Market Value of Assets Acquired

The excess purchase price over fair market value of assets acquired in the Water and Sewer Utility Fund is amortized on the straight-line method over 20 to 25 years.

J. Property, Plant, and Equipment - Estimated Fair Value

Certain contributed fixed assets for which historical costs are not available are recorded in the accounts at estimated fair market value on the date of acquisition. Estimates used for fixed assets are as follows:

K. Comparative Total Columns

Comparative total columns for the current and prior year have been presented in the accompanying combined financial statements in order to provide an understanding of changes in the City's financial position and operations. Data in these columns do not present financial position, results of operations, or changes in financial position in accordance with generally accepted accounting principles (GAAP). These totals do not represent consolidated financial information. Interfund eliminations have not been made in the aggregation of this data.

L. Transactions Between Funds

Transactions that would be treated as revenue, expenditures, or expenses if they involved organizations external to the governmental unit are accounted for as revenue, expenditures, or expenses in the funds involved. Transactions which constitute reimbursements of a fund for expenditures or expenses initially made from that fund which are properly applicable to another fund are recorded as expenditures or expenses in the reimbursing fund and as reductions of the expenditure or expense in the fund that is reimbursed.

Non-recurring or non-routine transfers of equity between funds are treated as residual equity transfers and are reported as additions to or deductions from the beginning fund balance of governmental funds. Residual equity transfers to proprietary fund types are treated as contributed capital, and such transfers from proprietary fund types are reported as reductions of retained earnings or contributed capital as is appropriate in the circumstances. All other transactions are treated as operating transfers and are included in the results of operations of both governmental and proprietary fund types.

Indirect administrative costs are allocated to the enterprise funds by applying an indirect cost rate to budgeted costs.

M. Funds Servicing Long-Term Debt

The Debt Service Fund is specifically established to account for and service all general long-term debt of the City except as noted below:

The General Fund accounts for and services contracts payable funded by general revenues.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Funds Servicing Long-Term Debt (Continued)

The Highway User Fuel Tax Fund accounts for and services bonds funded by Highway User Revenues.

The Special Assessments Fund accounts for and services all Special Assessment Bonds.

Each Enterprise Fund individually accounts for and services the applicable bonds and contracts payable which benefit that fund.

N. Reporting Entity

The financial statements of the City include the funds and account groups of all organizational entities for which the City has oversight responsibility and are consequently determined to be includable in the City's financial reporting entity in accordance with National Council on Governmental Accounting Statement 3, Defining the Governmental Reporting Entity. The City's major operations include police protection, parks and recreation, health and certain social services, and general administration service. In addition, the City owns and operates enterprise funds which include water, sewer, airport, and public housing.

The statements also include the activities and functions of the City of Scottsdale Municipal Property Corporation since it was determined that the City had significant oversight responsibilities, participation in the selection of the governing authority and the designation of management, and the ability to significantly influence operations and accountability for fiscal matters.

The statements do not include the activities and functions of the Industrial Development Authority (Authority) for the City. The City does appoint the Board of Directors for the Authority; however, the City has no financial interdependency, such as responsibility for financing deficits, entitlements to surpluses, or guarantees of or "moral responsibilities" for debt. The City does not designate management of the Authority, does not significantly influence operations and does not have accountability for fiscal matters.

O. Compensated Absences

Compensated absences are included in the funds of the City in accordance with the National Council on Governmental Accounting Statement 4, Accounting and Financial Reporting Principles for Claims and Judgments and Compensated Absences.

For governmental funds the percentage of vacation normally taken in the first sixty (60) days of the next fiscal year is recorded as a current liability. The remaining value of vacation accrued is recorded in the Long Term Debt Account Group.

For Proprietary funds all of the outstanding vacation accrual is recorded as a current liability.

NOTE 2 - BUDGETARY BASIS OF ACCOUNTING

The City prepares its annual budget on a basis which differs from generally accepted accounting principles (GAAP basis). The budget and all transactions are presented in accordance with the City's method (budget basis) in the combined statement of revenue and expenditures - budget and actual - general, special revenue funds, and debt service funds to provide a meaningful comparison of actual results with the budget. The major difference between budget and GAAP basis is that encumbrances are recorded as the equivalent of expenditures (budget) as opposed to a reservation of fund balance (GAAP).

Adjustments necessary to convert the fund balances at the end of the year on a GAAP basis to budget basis are as follows:

	FUND BALANCES AT END OF YEAR		
	GENERAL	SPECIAL REVENUE FUND TYPES	DEBT SERVICE
GAAP Basis	\$15,838,841	\$ 634,303	\$18,428,792

NOTE 3 - CASH AND INVESTMENTS

Pooled cash and investments, excluding amounts held by fiscal agents and including those restricted for designated purposes, at June 30, 1985, consist of the following:

Cash in Checking Accounts	\$ (3,515,121)
Certificates of Deposit	15,589,155
Repurchase Agreements	17,174,000
U. S. Treasury Securities	5,459,124
Federal Agency Securities	46,578,674
Improvement District Bonds	222,000
State Investment Pool	33,670,000
	<u><u>\$115,177,832</u></u>

During 1984-85 the City restructured the Sinking Fund assets in the General Debt Service Fund. The existing coupon investments were liquidated and replaced with higher yield but lower cost zero coupon investments. The restructuring of these assets caused a \$684,107 loss on the sale of securities.

NOTE 4 - PROPERTY TAX

Property taxes are recognized as revenue on the modified accrual basis, i.e., when both measurable and available. Property taxes levied in August, 1985, are not available for the current year, accordingly, such taxes will not be recognized as revenue until the subsequent fiscal year. Prior year levies were recorded using these same principles, and remaining receivables from such levies are also recognized as revenue, when available.

NOTE 4 - PROPERTY TAX (Continued)

The City's property tax is levied each year on or before the third Monday in August based on the previous January 1 full cash value as determined by the Maricopa County Assessor. Levies are due and payable in two installments on September 1 and March 1. First half becomes delinquent on November 1; second half becomes delinquent on May 1. Interest at the rate of 12% per annum attaches following delinquent dates. Maricopa County, at no charge to the taxing entities, bills and collects all property taxes.

Property taxes levied for current operation and maintenance expenses on residential property are limited to 1% of the primary full cash value of such property. In addition, taxes levied for current operation and maintenance expenses on all types of property are limited to a maximum increase of 2% over the prior year's levy adjusted for new construction and annexations.

Property taxes levied to pay principal and interest on bonded indebtedness are unlimited.

NOTE 6 - MUNICIPAL PROPERTY CORPORATION

In fiscal 1974, the City of Scottsdale Municipal Property Corporation ("Corporation"), an Arizona not for profit corporation organized for the purpose of financing the construction of municipal buildings on land owned by the City, issued bonds aggregating \$9,020,000 for the construction of the Scottsdale Center for the Arts for a parking facility, and for the refinancing of outstanding debt. Concurrently, the City entered into contracts with the Corporation, whereby the City will pay to the Corporation amounts sufficient to retire the Corporation's bonds and related interest.

In fiscal 1985 the Corporation issued \$13,000,000 of bonds for the purpose of constructing and acquiring two, 18 hole golf courses, a clubhouse, and other related improvements. Concurrently, the City entered into contracts with the Corporation whereby the City will pay to the Corporation amounts sufficient to retire the Corporation's bonds and related interest.

In fiscal 1985 the Corporation issued \$17,825,000 of bonds for the purpose of constructing and acquiring a Civic Center Underpass, public parking garage, and certain other public improvements upon land owned by the City. Concurrently, the City entered into contracts with the Corporation whereby the City will pay to the Corporation amounts sufficient to retire the Corporation's bonds and related interest.

In accordance with National Council on Governmental Accounting Statement 5, the bonds payable of the Corporation are recorded in the General Long-Term Debt Account Group, the construction activity is recorded in the Capital Projects Fund, and the assets are recorded in the General Fixed Assets Account Group at June 30, 1985.

The City has collateralized the bonds of the Corporation by, (1) a pledge of all net revenues from the project, and (2) a pledge of the City's excise taxes.

The Corporation retains legal title to the properties until the contracts receivable from the City are paid in full. The City has the sole right to the use of the facilities and is responsible for all operating and maintenance costs.

In fiscal 1985 the City entered into a sale and leaseback arrangement (Asset Transfer Program) with the Corporation whereby the City sold various municipal properties to the Corporation and in turn entered into a long-term lease with the Corporation for the use of these properties. The Corporation issued \$41,617,239 of Certificates of Participation evidencing the proportionate interests of the owners thereof in the lease payments to be made by the City. In accordance with National Council on Government Accounting Statement 5, the Certificates of Participation have been recorded in the General Long-Term Debt Account Group, and the properties are recorded in the General Fixed Assets of the City at their original acquisition cost. No gain or loss on the sale of these properties has been recorded in the City's financial statements. The City is using the proceeds of this sale to finance various capital improvement projects.

Due to the inclusion of the financial activity of the Municipal Property Corporation in the financial statements of the City in accordance with National Council on Governmental Accounting, Statement 7, the investments of the Municipal Property Corporation are included as an "other source" in the Debt Service Fund.

The purchase contracts for the acquisition of water companies are payable only from the operating revenue of the water and sewer utility system.

In fiscal 1976, the City entered into an agreement with the U. S. Army Corps of Engineers for the construction of flood control and recreation facilities throughout Indian Bend Wash. The City agreed to pay half of the total construction cost of the recreation facilities, with payment to be made in 50 annual installments plus interest at 5.1%, commencing from the date the recreation facilities were completed. In fiscal 1985, the facilities were substantially completed; but final determination of the amount to be paid has not been made. Accordingly, the City has recorded an estimate of the contracts payable amount of \$3,400,000 in the long-term debt account group, and an estimate of the fixed assets value of \$6,800,000 in the general fixed asset account group. Upon final determination of the amount to be paid, the estimates will be revised and payment will begin.

NOTE 10 - ADVANCE REFUNDINGS

In prior years the City refinanced various bond issues through advance refunding arrangements. Under the term of the refunding bond issues, sufficient assets to pay all principal and interest on the refunded bond issues have been placed in irrevocable trust accounts at commercial banks. The assets, liabilities, and financial transactions of these trust accounts are not reflected in the financial statements of the City.

Refunded debt outstanding of the City at June 30, 1985, is as follows:

NOTE 10 - ADVANCE REFUNDINGS (Continued)

1964 Sewer Revenue	\$ 850,000
1966 Sewer Revenue	960,000
1971 Water Revenue	<u>1,045,000</u>
Total Refunded Bonds Outstanding	<u>\$2,855,000</u>

NOTE 11 - SPECIAL ASSESSMENTS FUNDS

As trustee for improvement districts, the City is responsible for collection of assessments levied against the owners of property within the improvement districts and for disbursement of these amounts for retirement of the respective bonds issued to finance the improvements. At June 30, 1985, the special assessments receivable, together with amounts paid in advance and interest to be received over the life of the assessment period, are adequate for the scheduled maturities of the bonds payable and the related interest.

Improvement bonds are collateralized by properties within the districts. In the event of default by the property owner, the City may enforce auction sale to satisfy the debt service requirements of the improvement bonds. The City is contingently liable on special assessment bonds to the extent that proceeds from auction sales are insufficient to retire outstanding bonds.

NOTE 12 - RETIREMENT AND PENSION PLANS

Substantially all full-time employees are covered by one of two contributory retirement and pension plans which are administered by the State of Arizona.

City policemen are covered by the Arizona Public Safety Personnel Retirement System. Funding of the system is provided by (1) member contributions amounting to 8 percent of compensation as set by State law, and, (2) employer contributions, as described below. The total employer pension expense for 1984-85 was \$386,640, which was paid to the system. This amount is computed as a level percent of payroll (9.25 percent for 1984-85) which includes current service costs and will amortize the unfunded accrued normal costs over a period of 33 years beginning July 1, 1985. Based upon the most recent actuarial valuation of the System (June 30, 1983), the actuarially computed value of vested benefits for the City participants was less than the pension fund assets attributed to those participants, and the unfunded accrued normal costs for the City participants amounted to \$408,767.

The Arizona State Retirement Plan ("Plan") covers all City employees except policemen. Funding of the Plan is provided by (1) member contributions amounting to 6.27 percent of compensation as set by State law, and (2) employer contributions also at 6.27 percent as set by State law. The total employer pension expense for 1984-85 was \$1,030,658, which was paid to the Plan. This amount includes current service costs and will amortize the unfunded accrued normal costs over a period of 30 years beginning July 1, 1985.

Based upon the most recent actuarial valuation of the Plan (June 30, 1984), the Plan's total unfunded accrued normal costs was \$247,875,100. Separate actuarial data for the City's portion is not available. The City has 725 employee participants in the Plan, which has 150,211 participants in total.

NOTE 13 - SICK LEAVE BENEFITS

Sick leave benefits provide for ordinary sick pay and are not vested with the employee. Unused benefits are payable only upon the death or retirement of an employee. The amount not recorded in the accounts for accrued sick pay benefits aggregated \$1,577,000 at June 30, 1985.

NOTE 14 - SEGMENTS OF ENTERPRISE ACTIVITIES

Water and sewer, airport, and housing are three major services provided by the City which are financed by user charges and are of such significance as to warrant disclosure as segments of Enterprise Activities. The key financial data for the year ended June 30, 1985, for these services are as follows (in thousands of dollars):

	<u>TOTAL</u>	<u>WATER AND SEWER</u>	<u>AIRPORT</u>	<u>HOUSING</u>
Operating Revenue	\$ 15,849	\$ 15,352	\$ 474	\$ 23

Acquisition of Property, Plant, and Equipment	<u>\$ 34,602</u>	<u>\$ 33,499</u>	<u>\$ 1,103</u>	

NOTE 15 - DEFICITS IN FUNDS/EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The Special Assessments Fund shows a total fund deficit of \$6,256,135. This deficit occurs because expenditures for special assessments districts are recorded currently, whereas the revenue for special assessments districts is recorded over the life of the special assessment receivable. The total special assessment receivable will more than offset the deficit.

The Airport Fund has an accumulated deficit of \$1,281,799. This deficit is due to the small size of the operation, the significant contributed capital value, and the fact that depreciation is taken on the contributed asset value. The total fund equity for the Airport is positive.

The Federal Revenue Sharing Fund has an excess of expenditures over appropriations of \$43,977. This excess occurs because the actual revenue received exceeded the appropriation and all of the revenue was spent.

NOTE 16 - CAPITALIZED INTEREST

During the fiscal year 1985, the Water and Sewer Fund capitalized net interest costs of \$674,216 (interest expense of \$901,462, reduced by interest income of \$227,246).

Total interest income and expense in that fund before capitalization was \$1,815,831 and \$1,800,828, respectively.

During the fiscal year 1985, the Airport Fund incurred \$73,050 of interest of which \$2,537 was capitalized.

NOTE 17 - OTHER MATTERS

- A. In fiscal 1982-83, the City entered into a ten-year agreement with Metropolitan Fire Department, Inc. ("Metropolitan") whereby Metropolitan will provide fire protection and related services to the City. Annual amounts due in 1985-86 will approximate \$3,150,000.
- B. The City established a Self Insurance Fund during fiscal 1979. The Self Insurance Fund is responsible for the budgeting, investigation, and payment of claims that are incurred by the City. The Self Insurance Fund is protected by excess insurance designed to limit the exposure to loss for any single loss occurrence. For fiscal year 1984-85 the Self Insurance Fund was responsible for the first \$150,000 per occurrence for worker's compensation claims and the first \$100,000 for liability claims against the City. The Fund was also responsible for vehicle damage. It pays all amounts above \$1,000, the amount funded by the responsible City operating department. It also pays for all unemployment claims on a reimbursement basis.
- C. On August 5, 1985, the City issued and sold Series B of the \$69,000,000 bonding authority approved by the voters on June 21, 1983. This issue consisted of \$9,800,000 in General Obligation Bonds and \$10,000,000 in Highway User Revenue Bonds. Authorized but unissued bond authority remaining after the Series B issue is \$9,800,000 of Highway Revenue Bonds.

GENERAL FUND

The General Fund is established to account for the revenue and expenditures necessary to carry out basic governmental activities of the City, such as, police protection, fire protection, recreation, planning, legal services, administrative services, etc. Appropriations are made from the fund annually. The fund will continue to exist indefinitely.

Revenue for this and other funds is recorded by source, i.e., taxes, licenses, service charges, etc. Expenditures are recorded first by character, then by program, and then by object of the expenditure.

General Fund expenditures are made primarily for current day-to-day operating expenses and operating equipment. Capital expenditures for large-scale public improvements, such as buildings, parks, or streets, are accounted for primarily in Capital Projects, Special Revenue, Special Assessments, or Enterprise Funds.

SPECIAL REVENUE FUNDS

A special revenue fund is established to finance particular activities and is created out of receipts of specific taxes or other earmarked revenue. Such funds are authorized by statutory or charter provisions to pay for certain activities with some form of continuing revenue.

Highway User Fuel Tax Fund

This fund receives and expends the City's allocation of the Highway User Revenue money. The amount available to each city is allocated on a population basis which is determined by the latest federal census. Money allocated to this fund must be used for street construction, reconstruction, and maintenance.

Federal Revenue Sharing Fund

This fund receives and expends the City's allocation of Federal Revenue Sharing money. The amount available to each city is allocated on the basis of a formula established by the Congress of the United States. Federal Revenue Sharing money may be used for any purpose which is considered a permissible use of the government's own revenue under applicable state and local law.

Community Development Fund

This fund receives and expends the City's Community Development Block Grant money. The amount of the grant is awarded annually by the Housing and Urban Development Department upon application for funding by the City. Community Development Block Grant money may be used only for those projects approved in the grant budget and is subject to agency expenditure guidelines.

Grants Fund

This fund receives and expends the City's grant fund money. The amount of grants received is generally based upon application to granting agencies by the City and availability of funding by the grantors. Grant money may be used only for the stated purpose in the approved budget and is subject to grantor expenditure guidelines.

CAPITAL PROJECTS FUNDS

A capital projects fund is established to account for the resources expended to acquire assets of a relatively permanent nature. (Special revenue and enterprise fund resources are not included in this category.) These funds evolved from the need for special accounting for bond proceeds, grants, and contributions for the acquisition of capital assets.

A capital projects fund provides a formal mechanism which enables administrators to ensure that revenue designated for certain purposes is properly used. A capital projects fund further enhances reporting to ensure that requirements regarding the use of the revenue were fully satisfied.

A bond construction fund is utilized for receiving and expending proceeds from bond sales. Bonds are authorized by the general electorate for specific capital project construction periods, rather than on an annual basis. Each bond construction fund is terminated upon final completion of construction of the project for which it was created. Those presently in existence are as follows:

General Obligation Bond Construction Fund

Highway User Bond Construction Fund

Asset Transfer Construction Fund

Municipal Property Corporation Construction Fund

SPECIAL ASSESSMENTS FUND

A special assessments fund is established to finance and account for the construction or purchase of improvements (or provision of services) which are to be paid for from special assessments levied against the benefited properties.

Usually the total cost of a project to be financed by special assessments is so large that the fund cannot expect to collect in a single installment the entire amount of the needed contribution from each property owner benefited. Accordingly, the option of paying the assessment in annual installments over a specified period is granted. Improvement district serial bonds are issued to pay contractors and suppliers who must be paid upon completion of the project. These bonds are repaid from the annual installments paid by the property owners.

ENTERPRISE FUNDS

Enterprise funds are established to account for the financing of self-supporting activities of governmental units which render services to the general public on a user charge basis. Enterprise funds are maintained on the accrual basis of accounting. Although the Water and Sewer Utility, Airport, and Public Housing Funds are operated as enterprise funds, their expenditures are controlled through budgetary accounting procedures similar to other City funds.

Water and Sewer Utility Fund

The Water and Sewer Utility Fund was established for control of the operating revenue and expenses of the City's Water and Sewer Utility. Although a program of the City government, the Utility is operated as a separate enterprise, and the accounting records are maintained on an enterprise fund basis. Accordingly, the account classifications used are designed specifically for the water and sewer operations.

Airport Fund

The Airport Fund was established for control of the operating revenue and expenses of the City's Airport. Airport Fund accounts are maintained on an enterprise fund basis with account classifications designed specifically for airport operations.

Public Housing Fund

The Public Housing Fund was established to provide low cost housing for families displaced by the Neighborhood Development Project of the City and is operated as an enterprise of the City.

GENERAL FIXED ASSETS ACCOUNT GROUP

The General Fixed Assets Account Group is established for controlling the City's sizeable investment in fixed assets which are tangible assets of significant value having a utility which extends beyond a year. This control also allows establishing custodial responsibility for the assets. No depreciation is provided on such assets.

The investments in fixed assets of proprietary fund types are accounted for in their respective funds.

NOTE: Property tax reform legislation approved by the voters on June 3, 1980, created PRIMARY (P) SECONDARY (S) valuation bases. Taxes levied on PRIMARY valuations are for maintenance and operation of counties, cities, school districts, community college districts, and the state. Taxes levied on SECONDARY valuations are for debt retirement, voter-approved budget overrides, and maintenance and operation of special-service districts.

*Under Arizona law, public auctions are held in January of each year at which disposition of then-delinquent assessments is made. By bid, special lien rights to properties against which due but unpaid assessments exist are offered in return for payment of all outstanding amounts plus penalties. In the event there are no interested bidders, the delinquency must be satisfied from budgetary funds of the sponsoring governmental unit. Thus, in January of each year, all outstanding delinquent assessments are collected. The amounts shown in this column, if any, represent unpaid balances of the June 1 semi-annual interest installment only.
