Resources for people experiencing homelessness in Scottsdale and the Greater Valley

Accessing the ‘Coordinated Entry System’

The ‘**Coordinated Entry System**’ is a connected system that identifies appropriate resources for each individual's needs. Individuals and families will be administered an assessment called the ‘Vulnerability Index - Service Prioritization Decision Assistance Tool’ (VI-SPDAT) which helps prioritize access to available housing based on health and wellness factors. This may lead to housing interventions such as emergency shelter and rapid re-housing & permanent supportive housing programs.

Another part of the coordinated entry process is a ‘diversion’ conversation. This is an approach that identifies resources (both personal and systemic) that an individual or family may utilize to avoid shelters and voucher programs.

The primary coordinated entry site is the
